## *CLEARING-HOUSE RETURNS.*

The following table, made up by telegraph, &c., indicates that the total bank clearings of all clearing houses of the U. S. for week end. May 23 have been $2,630,678,527, against $2,577,589,940 last week and $2,767,947,619 the week last year.

| *Clearings—Returns by Telegraph May 23* | 1908. | 1907. | % |
|---|---|---|---|
| New York | $1,340,414,969 | $1,401,740,783 | 4.4 |
| Boston | 123,310,464 | 118,969,314 | +3.7 |
| Philadelphia | 98,890,958 | 114,284,436 | —13.5 |
| Baltimore | 18,328,533 | 22,440,319 | —18.3 |
| Chicago | 192,022,795 | 213,021,429 | —9.9 |
| St. Louis | 49,420,872 | 52,934,756 | —6.6 |
| New Orleans | 12,401,517 | 15,008,245 | —17.4 |
| Seven cities, 5 days | $1,834,790,108 | $1,938,399,282 | —5.3 |
| Other cities, 5 days | 370,869,211 | 403,416,297 | —8.1 |
| Total all cities, 5 days | $2,205,659,319 | $2,341,815,579 | —5.8 |
| All cities; 1 day | 425,019,208 | 426,132,040 | —0.3 |
| Total all cities for week | $2,630,678,527 | $2,767,947,619 | —5.0 |

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below detailed figures for the week ending with Saturday noon, May 16, for four years.

## *THE FINANCIAL SITUATION.*

The near approach of the adjournment of Congress has been unusually fruitful in rumors of differences and apparent misunderstandings between our legislators and leading officials. It would not be wonderful if this situation should have checked somewhat the buoyancy which has so long pervaded Wall Street. It was not, however, until Tuesday that the stock market exhibited any material reactionary movement. Even now it is not easy to pick out and give expression to the special disturbing cause or causes. We may say, nevertheless, with truth, that Wall Street values have recently been getting somewhat top-heavy—away from and above the ideas of the most of those who have a tincture of conservatism left in their veins. Thus none but the coterie which had served as the special spur to the extreme advance was left to continue the movement. Even they for the moment seemed to have withdrawn their support. Perhaps they have gained their ends and aims and for a time at least will leave to natural forces more nearly the direction of affairs.

The unfinished and demoralized state of legislation in Congress and the unrestful rumors this state of affairs had put afloat not unlikely helped in a measure to produce the temporarily hard lines on Tuesday and Wednesday in stocks. We need not go into details of these differences which change from day to day, but seem to be accumulating. Perhaps the rumor that no agreement by the Conference Committee as to currency legislation was likely, may have discouraged speculators. We do not mean by this that any considerable importance will be attached by those most familiar with currency affairs to a disagreement of the two Houses and the abandonment of the effort to patch up a compromise on that subject; but we think it true that a good many of the strictly speculative class hoped that the end reached might produce an inflation measure, and the rumor that there would be no agreement might disappoint all such, producing gloomier views, and consequently lead to a considerable selling of speculative holdings.

---

Another adverse circumstance has been the large and continuing exports of gold. We are aware that this movement has no importance in the minds of most operators, and so long as call money drops to 1%, they will probably pooh-pooh any mention of gold exports as a possible unfavorable feature in the situation. Call money at 1% is not always an indication of the current money market. The borrower must have good Stock Exchange collateral to get money at that rate and even then he will be a risky dealer if he waits to find it. All this week bank officials have told us that they could put out on call all they had to loan at 3% to 5%. Moreover, if the borrower was in need and had nothing but securities off color, he would find that even 6% money was hard to get. Then, too, it is well known that to keep up buoyant conditions after security values have had a long run of that kind of luck needs a good big bunch of the sorts of money our laws provide for enriching bank reserves.

These gold exports, it should be remembered, have also an added significance growing out of a general mood Europe has recently fallen into of heaping up their gold stocks. That tendency to enlarge the metallic holdings seems to be a notable feature among European banks. It would be quite natural that the Bank of France should replenish its supply. We well remember the important part it played when we drew about 100 million dollars of the metal from Europe. Of course the Bank of England in such an emergency holds the only really free stock, and it stood up bravely meeting and filling in one way and another its character of entrepot. In what we have said above we had, however, in mind mainly the present position of the Bank of Germany and large banks of Berlin. We noted last week (pages 1192-1193) in addition to an amount taken in New York through Paris to Berlin, a direct movement to Berlin, due to inducements in the form of interest on the metal while it was in transit, which interest enabled cable marks, or possibly sight, to be advantageously employed for the reimbursement of the exporter.

This change in the Berlin sentiment and action with reference to its gold requirements is probably due to the official announcement that "a special commission has been appointed by the Government to inquire into the possibility of amending the banking system in Germany with a view to mitigating the serious strain under which the German money market has labored in recent years. The terms of reference of the commission are elastic, but they have been framed with special regard for the working conditions of the Imperial Bank. About 200 bankers and financial experts will be invited to give evidence before the commission. The proceedings were opened at the offices of the Imperial Bank May 1 by the Under-Secretary in the Home Office, Herr Wermuth, who explained the objects of the inquiry and laid down the guiding principle that the existing currency and the Imperial Bank must be preserved as the foundations of the German bank and credit systems. He further insisted that there could be no question of dividing private banking institutions into stock banks and deposit banks. On the conclusion of Herr Wermuth's speech, the President of the Imperial Bank, Herr Havenstein, took the chair as President of the commission."

---

The National Prosperity and Sunshine Association, which started under rather favorable auspices at St. Louis three weeks ago, seems already to have lost much of its potency and influence. The early reports conveyed the idea that the purpose of its promoters was to oppose actively and vigorously further legislation adverse to business interests. This idea was also encouraged by the remarks of some of those identified with the movement to the effect that the slogan of the association was to be "Let Us Alone." It appears now that all this was a mistake, or, rather, that it has now been decided not to proceed along the original lines. The change seems to have been the result of a visit of several of the members and promoters of the association to President Roosevelt at Washington. The visiting delegates apparently were somewhat afraid of the Big Father at the White House, so instead of telling the President bluntly that his policy had been very damaging to industrial interests, and that to avoid further harm it was absolutely necessary that this policy should be changed, they proceeded to unfold the object of their mission with much circum-

locution. "Reforms were imperative," they said. "You, Mr. President, effected them; and to-day the country, realizes the value and potency of the remedy. The Association recognizes the debt the business interests—the whole country—owes you for what you have done." Then, apparently with much diffidence, they came to the subject which had started them on their mission, by adding: "It (the Association) feels now that the time has come to take stock, to call a halt upon radical, hasty and experimental legislation designed to regulate industry."

This left the implication that the President's course had been right and that the blame for the existing situation must be put upon some one else. The President replied in a characteristic way, and took pains to point out that he had not the remotest intention of changing his policy, saying: "Our recent legislation has been good, and it is to the interest of the entire country, and especially the business interests, that it should be enforced. Such *further regulatory* legislation as is required is merely the building upon the broad foundations that have been laid. It conceals no menace to business any more than that legislation which has already been enacted." We can imagine the grin that must have been upon the President's face when he uttered this latter statement, in total indifference to the industrial distress visible upon every side. He proceeded in this strain throughout his address, and then concluded in these words: "I welcome your work and shall be glad to co-operate with you in any effort to establish prosperity on right and honest lines."

Since the members got back to St. Louis from their visit to Washington, they have been falling over one another, figuratively speaking, in attempts to disavow that their movement had any political purpose. The St. Louis "Globe Democrat" of last Saturday stated that E. C. Simmons, the Chairman of the Prosperity Association, was desirous of correcting the impression which he found in the East, namely that the Association was sailing under the "Let Us Alone" motto. It quotes him as saying: "We do not want to be known as the "Let Us Alone" organization. Our policy is not to fight any interest, political or commercial. Some of our Eastern friends mistook the mission in which we are engaged." It seems that the purpose now is "to make a quiet canvass to see how many employers feel friendly towards the suggestion of setting a day on which manufacturers, railroads and other commercial interests are to put unemployed men back to work." In other words, the intention is to set a day for the resumption of work—the 1st of June appears to be the date agreed upon—then start mills, factories and furnaces, no matter whether any orders are at hand, or are likely to come in, and to act as if nothing had ever been wrong with the business situation. By mere resolve all doubts and misgivings are to be removed and business prosperity brought back. This shows such childlike faith that one could wish it were warranted. But when the noonday sun is hidden by clouds, its light will remain obscured just as long as the clouds themselves remain. In the present instance, the bright sunlight of prosperity cannot be looked for until the obstacles obstructing its path have been removed. Among these obstacles, the most serious has been the destructive policy pursued by the politicians and by legislative and governmental bodies. It was supposed that the National Prosperity Association would direct its energies to that end. It now seems that we are to be disappointed in that regard.

---

The expression coined a few months ago by a witty Irishman, descriptive of the present lack of employment for the freight equipment of the railroads, seems likely to stick. It is well known that for many months the railroads have had such large numbers of idle locomotives and cars that the problem has been how to store them all. Last February, when all the switches and side tracks in the vicinity of Pittsburgh were blocked with idle equipment, a passer-by asked an Irish carpenter what those huge, barn-like structures on the tracks were. "Thim's our Tiddy Bears," said the Irishman. Hence, locomotives for which there is no work and which have been boxed up to protect them from the weather, are now called "Teddy Bears." The description is an apt one. "Teddy Bears" in the railroad world are costly luxuries, just as are the Teddy Bears that serve as play toys for women and children. There is also a peculiar appropriateness in the designation, as indicative of the era through which the country is passing, for the admirers of our Chief Executive at Washington refer to him fondly as "Our Teddy." We need hardly say that the number of Teddy Bears, or idle freight locomotives, on the railroads is now larger than ever before, and that is the reason for referring to the matter here. The aggregate of idle freight cars, which also are being referred to very frequently as Teddy Bears, is reaching such dimensions as almost to stagger belief. The number of these cars was looked upon as extraordinarily large last February, and was certainly unprecedented (up to that time), when it was reported at 342,828. By March 18 it had been reduced to 296,035, but since then the aggregate has increased with each succeeding semi-monthly statement, until at the end of April the number stood at 413,338. For a time early in the week it looked as if an improvement in that respect were now about to occur, it being reported that the Pittsburgh & Lake Erie, one of the Vanderbilt lines, had revived an order for 2,000 cars given last summer and subsequently canceled. Later, however, came statements that the idle equipment on the Pennsylvania Railroad had been further increased, and accordingly it would seem that we shall have to wait yet awhile for the longed-for improvement.

---

Speaking at a dinner in this city about seventeen months ago, Secretary Root made the remark that the people will have from some source "the control they need," and if the States fail to duly furnish it, "constructions of the Constitution" will sooner or later be found to vest the power in the Federal Government. Mr. Root also said that every State "is bound to frame its legislation and its administration with reference, not only to its own special affairs, but with reference to the effect upon all its sister States, as every individual is bound to regulate his conduct with some reference to its effect upon his neighbor." As a proposition, this is obviously true and wholesome, the sole difficulty being to ascertain what legislation and administration are proper, with a view to the common good, and then to find some arguments or some power equal to make the States come into line. Mr. Root's

address was soon followed by a pamphlet by Mr. William G. Jordan, proposing what he calls a new element in American politics, "the House of Governors." He would have all the State executives meet annually for a session of several weeks to talk over "vital questions affecting the welfare of the States, the unifying of State laws and the closer unity of the States as a nation." This house would neither possess nor seek any law-making power. "Its force would be in initiative, in inspiration and in influence." The executives would strive to unite on a general basis of action on great questions, to be commended to the legislatures in the usual order.

So Mr. Jordan thinks, and it might prove so. At least, there is no prohibition anywhere for such an experiment, and if anything serviceable comes or gives reasonable promise of coming from the conference lately in Washington, the suggestion may acquire force. It is indisputable that divergencies of laws among the States have been a very considerable disturbance all along. Failure to agree on the subject of bankruptcy, for example, is the strongest argument or having a law of Congress to deal with that. Real estate holding and conveyance, trusts, banking, marriage and divorce, and insurance, are some of the important subjects upon which the States do not agree. The desire to escape duplicated and varying oppressions by more than forty States is the sole reason for the attempt—which has no good prospect of success—to extend the overworked commerce clause to insurance. The continual plea on behalf of Federal control over commerce across boundary lines is that the States will not undertake (and could not achieve it if they would) any scheme of general application.

An annual confab of executives would tend to become a scheme of party wire-pulling, especially in every fourth year, and it might not do more than release a vast amount of rambling and undigested talk on the entire field of possible human endeavor. One almost shrinks in advance from the wild propositions along the line of attempting to construct virtue and happiness per statutes which might be expected. Yet it is a part of our fundamental idea that unrestricted liberty of talk acts as a safety-valve and tends on the whole towards evolving the soundest possible public opinion. So it seems to us that the suggestion should not be dismissed as quite chimerical.

---

The immigration statistics for April, made public this week, show a decidedly restricted movement compared with earlier years; as our readers are aware, this has been a very noticeable feature of previous months of the current calendar year. The cause for the extremely light inflow recently is well understood; at the same time many do not realize the full force of the change that has taken place. Instead of the United States continuing to be the haven toward which foreign abor has bent its course every spring in constantly increasing numbers, until in the last three or four years the March, April, May and June arrivals largely exceeded 100,000 in each month, there is now such eagerness to get away that frequently the steamship companies find it difficult to provide adequate accommodations for those who wish to go. And there seems to be no let-up to the outward trend. It expresses more clearly than words could how completely, through the shutting down of our various industries, the shortage of laborers has become a decided over-supply.

The official statement of immigration for April shows that the aggregate arrivals of aliens from all countries for that month of 1908 were only 41,274, or over 100,000 less than the influx for the month in 1907, when the total was 145,256. Contrasted with April of 1906, an even greater falling off is observable, the movement then having been 150,397. Of late years the bulk of our new foreign labor supply has been drawn from Austria-Hungary, Italy and Russia, and it is of course in the arrivals from those countries that the decreases are now most marked. Less than a year ago, frequently in one day more aliens from, say, Italy, passed at New York than now arrive in a month, and it was not an uncommon thing for one vessel to bring more than now come in eight or ten. Austria-Hungarian immigrants in April 1908 made up a total of only 4,280; last year they numbered 39,007. Italian arrivals were less than one-fifth of what they were a year ago, and compare even less favorably with the month of either 1906 or 1905. From Russia and Finland the inward movement was but 5,921, against 19,241 and 30,806 respectively in April of the two previous years, and for the remainder of Europe the comparison for the three years is between 17,548 in 1908, 43,788 in 1907 and 39,617 in 1906. Arrivals from British North America (Canada) and Mexico continued, as for some months past, well in excess of the previous year, but it is only in times like those to which we are referring that the totals are large enough to attract any attention. For the four months of 1908 the total arrivals of aliens reached an aggregate of only 124,392, which exhibits a very decided falling off from the 404,332 of the period in 1907 or the 403,465 for the period in 1906.

While immigration has, as already stated, continued upon a restricted scale, emigration has likewise been unprecedented. We learn from statistics obtained through official sources that departures of steerage passengers during April aggregated 77,023, or 62% more than the inward flow, and that for the four months of 1908 the alien emigration aggregated 243,023, as against only 80,427 for the like period in 1907. It is a simple calculation, therefore, to ascertain that, whereas in the four months of 1907 we gained 323,905 through the movement of aliens, this year there has been a net loss of 118,631. Furthermore, the outward movement is still actively in progress, the departures thus far in May having continued on a very full scale, and immigration promises to be smaller than in April, the arrivals at New York to date being only about 16,754. In the light of the results for the four months, it would seem that the estimate we made last February that the country would not be more than a nominal gainer in foreign population in the calendar year 1908, was conservative. If we were inclined to modify that statement in any way, it would be by saying that indications are for a loss rather than a gain.

---

The American Cotton Manufacturers' Association, which particularly represents the branch of the industry located at the South, held its twelfth annual convention at Richmond, Va., on Wednesday and Thursday of the current week, and proved a fitting supplement to the National Association meeting at Boston in April. Special effort had been made to bring together a large and representative gathering,

the Secretary in his preliminary announcement of the convention laying particular stress on the urgent need for action to meet the unprecedented conditions now prevailing in the industry. Subjects of a more or less technical nature, but of absorbing interest withal, were presented and discussed, the address by Mr. Arnold B. Sanford of Boston on "Fine Cotton Spinning in the United States" and remarks by Mr. W. H. Harriss of Atlanta, Ga., on cost of production, &c., of the raw material being highly instructive. Greatest general interest, however, attaches to what was referred to in the addresses by President Tanner and others preliminary to the actual work of the convention.

In an extended address of welcome, Mr. S. D. Crenshaw, representing the Chamber of Commerce and commercial interests of Richmond, referring to the supremacy of America in cotton-growing, expressed belief that eventually it would also be supreme in spinning.

Ex-President Lowe, in responding to the address of welcome, took occasion to reply to some of the criticisms that have been directed against the cotton manufacturers of the South. Premising his remarks with the statement that he operates a mill in Alabama, he forcibly repelled accusations of cruelty, unkindness, child-driving and white slavery. He said: "The Southern cotton manufacturers have done more to alleviate the condition of the class they are accused of oppressing than all the philanthropic organizations in the world. They have brought people from the mountains, where they lived almost like animals, in homes that were unfit to live in, out into the sunshine. I doubt if there is in the world among that class of people a body who are more happy or healthful." Coming from a man of the standing of Mr. Lowe, this forceful statement carries great weight and is certain to bring conviction to reasonable men.

President Tanner in his annual address touched upon many important points. He referred to lack of appreciation shown by labor in the mills for the considerable increase in wages accorded during the prosperous period, refusing to perform the same amount of labor for the greater pay, and in other ways hampering the operation of machinery at a time when the demand for goods was greatest. Cancellation or attempts at cancellation of contracts for goods came in for some attention, and the urgent necessity of formulating a uniform and binding contract was impressed upon the assemblage. Adverting to the apparently unfavorable situation that confronts cotton manufacturers, Mr. Tanner stated that numerous requests had been received suggesting that a meeting of the association should be called to consider ways and means of relief. It was the opinion of the board of governors that nothing could be thus accomplished. The inadequacy of our currency system was referred to by Mr. Tanner and he also spoke of the need for tariff revision.

The most important action taken on Thursday was the adoption of a report submitted by the committee on cotton exchanges, which covered the demand of spinners for a better contract on the New York and New Orleans exchanges. The report in effect pointed out that the New York contract in particular in its present form is valueless as a hedge, the differences between the value of the contract and the price of spot cotton often entailing heavy losses. Recommendations were made that if adopted by the exchanges, would prevent the delivery on a single contract of as many grades as are now tenderable, and would give the buyer of cotton the option of requiring the delivery of staple of specific grade. At present, as is well known, the advantage is entirely with the seller, the contract permitting him to deliver any quantity of any of a number of grades. The improvements suggested, it was contended, would serve to bring the price of contracts up to a parity with spot cotton. That is, of course, not the case under existing conditions, the spot price of middling yesterday, for instance, having been 11.10 cents, whereas the May option sold at 9.84 cents. The report concluded with an expressed disapproval of the New York contract and a hope that the Exchange will realize its defects and sincerely attempt to remedy them.

---

There was no change in official rates of discount by any of the European banks this week; open market or unofficial rates were easier at all the chief centres, and those at Berlin were low enough to justify a reduction in the German Bank rate.

The most notable differences between the statements of the average and of the actual conditions of the New York Associated Banks last week were in the items of loans, cash and deposits. Average loans increased $4,777,800; actually there was a gain of $10,965,200. Cash was augmented, according to the averages, $2,197,700; there was an actual decrease, however, of $648,200—the differences in this item were doubtless due to the fact that withdrawals of gold for export to Europe were chiefly effected after the middle of the week. Deposits showed an average gain of $5,895,700; the actual increase was $9,853,200. There was an augmentation in the average reserve of $723,775, to $64,607,250 surplus; there was, though, an actual decrease in this item of $3,111,500, to $64,001,225. Public deposits decreased $5,587,500, reflecting surrenders of such funds by the New York depositories on the previous Saturday; to-day (May 23) the final installment of the call by the Secretary of the Treasury of April 28, requiring the surrender of 25 millions, will mature, thus completing the amount of 45 millions public funds recalled from the depositories throughout the country.

The Comptroller of the Currency issued a call on Wednesday for a statement of conditions of national banks as of May 14. Responses to the call promptly began to be received on the announcement thereof, and those thus far made public show, among other facts, a large increase in deposits, especially by banks in Western centres.

---

Though nearly 13½ millions were withdrawn from the New York banks during the week for export to Europe, and though surrenders of public funds were in progress, in anticipation of the maturity to-day (Saturday) of the Treasury call for the surrender of 25 millions—of which probably one-half will be taken from the local depositories—the market for money showed no improvement as the result of this actual and immediately prospective reduction of about 38 millions in the cash reserves of the banks, indicating a condition of congestion almost without precedent. Instead of improvement in the market, there was a new record of low rates for money on call, loans being

effected at 1% for the first time since 1904, when they were quoted at ½@¾ of 1%; later this week there was a recovery to 1½@1¾%, but the market was by no means active. The abnormally low rate of 1% on Monday and on Tuesday was attributed to offerings by trust companies, which were in competition with banks in the effort to secure some advantage, though it might be small, by directly pressing their balances upon the market instead of leaving them undisturbed with their depositary banks. Time loans were easy, influenced by free offerings; with money on call ruling at current figures, borrowers were, however, indisposed to accept contracts for short maturities or even those which would carry them into the beginning of the crop-moviug season, and the inquiry for fixed-date loans was chiefly confined to those for the over-the-year period.

Money on call, representing bank and trust company balances, loaned at the Stock Exchange during the week at 1¾% and at 1%, averaging 1½%; all institutions quoted 1% as the minimum. The above-noted rates of 1¾% and 1% were recorded early in the week; thereafter they were 1¾@1½%. Time loans on good mixed Stock Exchange collateral were 2½@2¾% for sixty and 3% for ninety days, 3¼% for four, 3½% for five and 3½@3¾% for six months and 4@4½% for over the year. Commercial paper was in good request for the choicest names, but the supply thereof was only moderate; though good to ordinary paper appeared to be plentiful, it was not attractive to buyers. Rates for first-class sixty to ninety-day endorsed bills receivable and for this grade of four to six months single names are 3¾@4%, preference being given to the latter maturity; good paper running for these periods is 4@4½%.

---

The Bank of England rate of discount remains unchanged at 3%. The cable reports discounts of sixty to ninety day bank bills in London 2%. The open market rate at Paris is 2% and at Berlin and Frankfort it is 3⅞%. According to our special cable from London, the Bank of England gained £542,010 bullion during the week and held £37,571,279 at the close of the week. Our correspondent further advises us that the gain was due wholly to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £40,000 (of which £33,000 from Egypt and £7,000 from Portugal); exports, £152,000 (French coin), and receipts of £654,000 *net* from the interior of Great Britain.

---

The notable feature of the foreign exchange market this week was its strength. Ordinarily, when gold exports are in progress, the market is affected, in a greater or lesser degree, by offerings of bills which are drawn and sold for the reimbursement of the shippers of the metal. It would appear that this week few bills have been drawn for reimbursement; the exports of gold have been largely effected directly through francs or marks and practically none through sterling. Moreover, as elsewhere noted, much of the gold sent to Berlin has been transferred by cable order by the shippers for substitution for credits which have been established and employed by them, through their correspondents. This process of transfer, it may be observed, is similar to that to which resort was had early last year, when gold was being shipped hence to Paris, though then the consignors were represented in New York by an agent who accepted, for his principals, the gold on its delivery on shipboard, and, upon advising these principals of this fact, the consignees were authorized to draw cables for their reimbursement. In this way the time-cost of the export was eliminated; by the process here described such time-cost is offset by the ability of the consignee to draw interest on his consignment not only while it is in transit but for the further period of three weeks, which the Reischsbank offers as an inducement to Berlin importers of gold.

The foreign exchange market was strong last week, not alone because of the absence of offerings of bills for the reimbursement of shippers of gold, but for the reason that there was an insufficiency of bankers' drafts to meet the requirements of remitters. Such requirements resulted from sales of securities for European account, as was the case in the previous week, to realize profits; commodity exports were small, and hence the supply of exchange was limited. Easy discounts at London contributed to firm rates for long; cables were in request for prompt remittance and short to reinforce balances that were drawn upon through cables, while continental bills were in demand for operations incident to the gold movement.

Exports of gold during the week were $7,100,000 on Tuesday and $6,355,000 on Thursday, chiefly to Paris; this makes a total of $13,455,000 for the week and $31,710,000 to Europe on the present movement, which began in April. The supply of gold bars in the New York Assay Office, available for export was exhausted on Wednesday, and, as had been the case early in the week, gold coin had to be accepted by some of those shippers who could make such forms of the metal available in Berlin. The deficiency in supplies of gold bars will probably be met with new metal of this character next week, so that exports of bars will then be resumed. The Assay Office plant has been dismantled, preparatory to the reconstruction of the building; consequently the former facilities for the manufacture of commercial bars have not been enjoyed; hence the deficiency in the supply. The office, since its dismantling, has operated on small, or jewelers', bars, but though these are comparatively abundant, they are not acceptable for export. There are considerable amounts of smelters' bars which are of a more or less low grade of fineness, and moreover they are heavier than are standard bars, and therefore are not desired by shippers. Through treatment of these smelters' bars they can be made to conform to exporters' requirements, as regards fineness and weight, and though there may be some delay in the preparation of these forms of the metal, it is expected that the shipments of gold will not be greatly retarded; where coin is acceptable, it can be procured in any reasonable amount. From present indications the movement of gold hence to Europe will continue until relatively higher rates for money here than for discounts abroad, especially in Germany, shall make exports unprofitable. If, as is reported, the Secretary of the Treasury shall call for the surrender of 50 millions public deposits in the near future, such recall of funds from the depositary banks may contribute to a reversal of relative monetary conditions so that the movement of gold to Europe will be arrested.

The foreign exchange market was easy on Saturday of last week, partly in sympathy with the announcement of new engagements of gold for export, and, compared with the previous day, long fell 10 points to 4 8510@4 8515, while short and cables were 5 points lower at 4 8705@4 8710 for the former and 4 8730@4 8735 for the latter. On Monday gold engagements ceased to be an influential factor, and the market was firmer in response to a demand for remittance; long was unchanged, but short rose 10 points to 4 8710@4 8720 and cables 15 points to 4 8745@4 8750. On Tuesday long was 5 points higher at 4 8515@4 8520, short 10 points at 4 8720@4 8725, and cables 5 points at 4 8750@4 8755. On Wednesday the market was dull and steady, with short and cables unchanged, and long 15 points higher at 4 8530@4 8535. On Thursday the tone was heavy at a decline of 5 points for long to 4 8525@4 8535, of 5 points for short to 4 8715@4 8725 and of 10 points for cables to 4 8740@4 8750. On Friday long was unaltered, while short and cables were 5 points lower.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

| | | Fri., May 15 | Mon., May 18 | Tues., May 19 | Wed., May 20 | Thurs., May 21 | Fri., May 22 |
|---|---|---|---|---|---|---|---|
| Brown Brothers | 60 days | 4 86 | 86 | 86 | 86 | 86 | 86 |
| | Sight | 4 88½ | 88½ | 88½ | 88½ | 88½ | 88½ |
| Kidder, Peabody & Co | 60 days | 4 86 | 86 | 86 | 86 | 86 | 86 |
| | Sight | 4 88½ | 88½ | 88½ | 88½ | 88½ | 88½ |
| Bank British North America | 60 days | 4 86 | 86 | 86 | 86 | 86 | 86 |
| | Sight | 4 88½ | 88½ | 88½ | 88½ | 88½ | 88½ |
| Bank of Montreal | 60 days | 4 86 | 86 | 86 | 86 | 86 | 86 |
| | Sight | 4 88½ | 88½ | 88½ | 88½ | 88½ | 88½ |
| Canadian Bank of Commerce | 60 days | 4 86 | 86 | 86 | 86 | 86 | 86 |
| | Sight | 4 88½ | 88½ | 88½ | 88½ | 88½ | 88½ |
| Heidelbach, Ickelheimer & Co | 60 days | 4 86 | 86 | 86 | 86 | 86 | 86 |
| | Sight | 4 88½ | 88½ | 88½ | 88½ | 88½ | 88½ |
| Lazard Freres | 60 days | 4 86 | 86 | 86 | 86 | 86 | 86 |
| | Sight | 4 88½ | 88½ | 88½ | 88½ | 88½ | 88½ |
| Merchants' Bank of Canada | 60 days | 4 86 | 86 | 86 | 86 | 86 | 86 |
| | Sight | 4 88½ | 88½ | 88½ | 88½ | 88½ | 88½ |

The market closed on Friday at 4 8525@4 8535 for long, 4 8710@4 8720 for short and 4 8735@4 8740 for cables. Commercial on banks 4 8490@4 85 and documents for payment 4 84¼@4 84⅞. Cotton for payment 4 84¼@ 4 84⅜, cotton for acceptance 4 8490@4 85 and grain for payment 4 84¾@4 84⅞.

The following gives the week's movement of money to and from the interior by the New York banks.

| Week ending May 22 1908. | Received by N. Y. Banks. | Shipped by N. Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $8,592,000 | $2,010,000 | Gain $6,582,000 |
| Gold | 2,080,000 | 400,000 | Gain 1,680,000 |
| Total gold and legal tenders | $10,672,000 | $2,410,000 | Gain $8,262,000 |

With the Sub-Treasury operations the result is as follows.

| Week ending May 22 1908. | Into Banks. | Out of Banks. | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' interior movement, as above | $10,672,000 | $2,410,000 | Gain $8,262,000 |
| Sub-Treasury operations | 33,400,000 | 43,800,000 | Loss 10,400,000 |
| Total gold and legal tenders | $44,072,000 | $46,210,000 | Loss $2,138,000 |

The following table indicates the amount of bullion in the principal European banks.

| Banks of | May 21 1908. | | | May 23 1907. | | |

| Prev. week | 420,622,585 | 108,346,181 | 528,968,766 | 397,807,315 | 108,487,732 | 506,295,047 |

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-quarter of the total.

## *ARBITRATION AND JAPAN.*

Among the measures of real importance which have remained for action by Congress in the closing days of the session, there is one on the calendar which has attracted comparatively slight attention, but which, for reasons which every one will recognize after a little reflection, has practical bearing of great importance on the existing international situation. We refer to the general arbitration treaty with Japan, which was signed by the State Department and the Japanese Ambassador a week and a half ago, and which carried the harmonious understanding between these nations to a point where it is difficult to see what legitimate cause of friction could arise.

It is not without significance that the signing of this document should have occurred with so little sign of public interest or excitement, whereas the hurly-burly of last summer over the anti-Japanese riots on the Pacific Coast, and over the alleged prospect of retaliation by Japan, were favored with alarming headlines in the newspapers and discussed at clubs and offices with the greatest animation. The contrast between the reception of the two incidents merely goes to prove, we should say, that it is your jingo orator who makes the loudest noise and gets the widest hearing from the curious, but that it is the steadfast advocate of international comity and good order who is apt, in the long run, to have his way, through methods of quiet argument and deliberation. The simple fact that the signing of this treaty was in contemplation at the moment when our battleships started for the Pacific Ocean, on a mission which some of our newspapers described as "terrorizing Japan," and that the document should have been signed and sealed before the ships had reached the Japanese coast, is significant as to the real nature of the situation. There has, in fact, been a bit of humor in the assumption, by the bellicose portion of our press and people, that the cruise of our fleet to the Pacific Ocean would "open the eyes of Japan." Since when, one is tempted to inquire, has the Japanese Government been asleep in matters of naval information? The simple truth of the matter is that Japan signed the arbitration treaty with full knowledge of our naval position, and that we signed it in full knowledge of hers, and that the one party was no more coerced or frightened into such action than the other.

The signing of such a treaty, coming after similar action between such important European nations as England and Germany and England and Russia and between our own and the European governments, shows a movement of events in the direction of international peace, supplementary to and largely independent of the Hague conference. To a certain extent it supersedes the Hague arrangements. There has been a very general disposition, during and since that recent international conference, to point to its results as a rather absurd breakdown of expectations. We are by no means sure that this description of the Hague conference itself would be correct, and we are strongly inclined to think that the incidents of international harmony and diplomatic good-will which have

occurred at the same time as this international gathering are in a way an expression of the sentiments which the Hague conference has done much to create.

Both of these inferences have been adopted in a recent article on the last international conference by Professor Westlake in the London "Quarterly Review." Professor Westlake's description of the popular sentiment underlying the demand for these international conferences sums up the matter clearly and concisely: "The burden of taxation caused by vast armaments and the cost of keeping them abreast with invention; the fear of the still greater losses which would attend even a short war; armies increasing automatically by the general liability of bloody battles and devastating invasion on a scale increasing with the increase of armies—all this has been more acutely felt as manners have become simpler and life easier, and therefore more valuable."

The value of the Hague conference unquestionably lay, as the same author has pointed out, in "the light which it has thrown on the disposition of certain governments towards the principle of neutrality in naval war and the attitude of the British Government in defense of those principles." In other words, the mere fact that proposals of so startling a novelty have been thrown into the arena of peaceful diplomatic discussion was of itself an achievement of the first importance. They might not be unanimously approved; but it must not be forgotten that when a humane proposal of this sort has been placed before a responsible diplomatic body, the real burden rests on those who oppose it—a very different situation from what has existed heretofore. On almost all previous occasions it was possible to say that the diplomat or the nation advocating innovations of this sort was placed in the attitude of a dreamer, regarded with pity and incredulity by practical diplomats of other States.

It is only by comparing the mental attitude in matters of this sort, at one time and at another, that we can realize what is actually accomplished through such conferences, even when seemingly barren of results. In the agreement of the Hague conference for arbitration of disputed foreign debts of such States as the South American republics—an arrangement which ought to put an end to the dangerous episodes of foreign men-of-war threatening American ports—it will be seen that one awkward factor in recent diplomacy has been disposed of. The fact that bombardment of undefended cities was in this conference for the first time forbidden by the agreement of all the States is a further illustration of real progress. Furthermore, all students of the work of the recent conference have reached the conclusion that a long preliminary step was taken at the Hague toward securing the immunity of peaceful trade during international hostilities.

Such results, taken together with the tendency of the larger States to reach between themselves explicit agreement on possible matters of dispute and friction, indicate a tendency toward guaranty of peace in any but the most extraordinary conditions, which bids fair in time to become irresistible. We know of no stronger illustration of this tendency than the amicable progress of the negotiations for the treaty between this country and Japan at the very moment when the outcry was loudest over a coming breach between the two nations.

*FAVORING ELEMENTS IN THE SITUATION.*

The great advance which has occurred in values on the Stock Exchange during more recent months seems to be both perplexing and mystifying to the average investor and the general public. The present week there have been repeated sharp breaks, and the market at times has acted as if it were experiencing a serious set-back. Nevertheless, even after this marked reaction, prices in general stand higher than they have been for twelve or eighteen months past, and in numerous instances in an even longer period of time. Except that the course was interrupted in February, the forward movement in values has been in progress ever since the first of the year, and the upward swing has carried prices back not only to where they were before the panic last October and November, but also above the level prevailing prior to the great break in August last year and also above the level ruling prior to the tremendous collapse which occurred in March of that year.

What makes the movement particularly noteworthy and particularly difficult to understand is that, as far as the state of trade and the course of railroad earnings are concerned, there is apparently no sound basis for the improved tone and the sharp rise in prices. Up to the present time there has been not the slightest sign of any revival in business. On the contrary, through nearly the whole range of the country's industries—barring an occasional announcement of the resumption of work here and there—the depression has become steadily more pronounced and the gloom pervading business circles (as far as surface indications go) has been growing deeper. The latest report on the state of employment of the freight equipment of United States railroads, issued last week, and giving the statistics for April 29, indicated a larger number of idle freight cars than at any previous date, the aggregate of such idle cars being no less than 413,338. As far as returns of railroad gross earnings are concerned, the ratios of decline seem to keep increasing instead of diminishing, having been for the month of April nearly 20% and for the first week of May 21.02% and for the second week of May 20.62%.

To what, then, must the wonderful change for the better in security values be ascribed? That there has been manipulation, and a great deal of it, admits of no question. Evidences of it have been visible on every side. And yet, the very circumstance that financial interests with the necessary capital and power to effect their purpose have been engaged in an undertaking of this kind is itself strong evidence that underlying reasons exist that seem to warrant a higher level of values—certainly recovery from the extremely low basis reached in the closing months of last year. It appears to us, too, that if a broad and general survey of the situation be taken, many causes can be found for regarding the future with greater hope and confidence than a short time back. We do not mean to assert that the height to which prices have now been raised is a safe one. It is quite likely that the movement has been or will be carried too far. That usually happens in the speculative arena. Improvement to come is discounted too fast and too confidently. In the present instance there has been altogether too much whirl and swirl to make it wise to disregard the ordinary rules of prudence and caution. At the same time,

it would be equally a mistake, in our judgment, either totally to disregard or to place too low an estimate upon the influences and agencies at work tending to produce a great change for the better.

To our mind, the chief source of the country's troubles has been political. Accepting this hypothesis, no careful student of events can fail to have noticed that elements of danger from that source have been perceptibly diminishing in recent months. It is not so long since it seemed there could be no limit to the political influences at work detrimental to business interests. A craze had swept over the country carrying with it politicians of every shade and description, State legislatures and Government officials, both State and Federal. Such tremendous headway did the movement make that many began to entertain fears even regarding the stability and continued soundness of our judges and courts. But the overwhelming catastrophe which came last autumn, together with the industrial collapse that has followed in its wake, has proved an eye-opener—a blessing in disguise. Public sentiment has rapidly been changing. The change has been visible and notable in the remoter sections of the country rather than in the acts of our executive officials at Albany and Washington, but even these latter are beginning to act as if they had seen a new light. The sole aim of the politician is to please the populace—and there has been a heap of politics in what has been done at Washington and the State capitals. Let him once become aware that his assaults on railroads and other industrial agencies are no longer meeting with popular approval, are in fact deprecated and deemed hurtful, and he will quickly change his course. This is the stage toward which we appear now to be drifting.

Is it not a hopeful sign when we find the Governor of Oklahoma vetoing an anti-trust bill passed by the Legislature of that State and putting his veto on the express ground that the measure goes too far, as the news of this week tells us was done? The dispatches say that Governor Haskell objected particularly to Section 2 of the bill, which would permit the Attorney-General of the State to go before one member of the Supreme Court and have a receiver appointed for an offending company without giving the defendant notice. Mr. Haskell would have the entire membership of the Court pass upon such matters and the defendant be given an opportunity to be heard before a receiver is named—which obviously would be merely ordinary fairness and justice. It is of course possible that the action in this instance of the Oklahoma Executive may be less important than it seems on its face and that it has not the significance attached to it in the public mind. We mention it here because it is the latest of a number of indications of the same kind, and because it cannot be wholly without some significance, seeing that Oklahoma last year when admitted to Statehood adopted a Constitution more drastic in the limitation and restrictions imposed upon the free play of natural laws than that of any other State in the Union. When a body politic of that kind shows even the slightest indication of leniency and moderation, it is surely cause for much satisfaction if not for genra-el rejoicing.

Moreover, there has been a modification of sentiment in other parts of the country, and more particularly in the South. The reader will recall how last summer one State after another in the South passed anti-railroad laws and got into conflicts with the Federal courts in the efforts to enforce such laws. But the suffering endured by the railroads—the heavy losses in earnings sustained by them, even before the advent of the financial crisis—quickly made it apparent that such legislation and Government action were hurting the South itself most of all. The moment this fact was established the Southern people acknowledged the error of their course and began to retrace their steps. The decisions of the United States Supreme Court have since rendered much of the hostile legislation of last summer nugatory, but the fact we wish to impress upon the mind of the public is that long before these decisions were announced, compromises had been reached between most of the Southern States and the railroads on the basis of more satisfactory rates than those which the States in their earlier legislation sought to impose.

Another fact of the highest importance as far as the future is concerned is that fears regarding the reliability of the courts in time of political danger have proved in large measure groundless. Last year it seemed at times as if our courts could no longer be depended upon to protect property rights, safeguard vested interests and uphold constitutional mandates. The $29,000,000 fine imposed in August upon the Standard Oil Co. did as much to disturb confidence and precipitate the panic as any single event. But during the present year we have had a series of decisions from the United States Supreme Court which would have been notable in any event, and are particularly notable at a time when it was so essential that apprehensions should be quieted and complete assurance be given as to the absolute reliability of that highest and final judicial tribunal. The judgment this week declaring invalid a Texas law of 1905 taxing railroad gross earnings of inter-State railroads on the ground that this was an effort to regulate inter-State commerce and therefore beyond the power of a State, is a small matter alongside of the decisions of the same Court in previous months, all going to show that faith in the inherent soundness of that Court have not been misplaced.

We may note, for instance, the decision handed down on Jan. 27 declaring unconstitutional Section 10 of what is known as the Erdmann Law approved June 1 1898 and which sought to interfere with the freedom of inter-State carriers in hiring employees. The Court held that it is not possible for Congress to restrict the employer in his right to employ whomsoever he likes and in whatsoever manner he likes any more than the employee can be compelled to part with his services except in his own way and upon his own terms. On Feb. 3 came an equally important decision in which the Court decided that labor unions were amenable to the Sherman Anti-Trust Law and that damages could be obtained from a labor organization engaged in a boycott against a firm which had not met the demands of the labor union. Finally, we may refer to the decision handed down March 23 in the matter of the railroad rate laws of Minnesota and North Carolina in which the Court overruled the ingenious plea that had been set up by the States to the effect that the Federal Court could not interfere with the enforcement of a State enactment, no matter what its character, because such interference would be an invasion of the rights of the States.

In other directions also developments during the last three or four months have been of an encouraging nature. Recall, for instance, the extraordinary message sent to Congress on Jan. 31 by President Roosevelt, so bitter in tone and so intemperate in expression, and contrast it with the similar messages sent by Mr. Roosevelt to Congress in March and again in April, urging the same thing, and yet so much softer in language and so much more moderate in tone. If the President's purpose remained unchanged, at least the later messages showed conciliatory methods entirely absent from the President's previous acts. The Jan. 31 message, together with other unfavorable political happenings of the same kind, brought about the revulsion in the stock market which was such a distinct feature in February after the great change for the better in January, and which came near undermining again that confidence in a better outlook which is essential to a sustained improvement in values.

Consider, also, how the possibilities of further inimical legislation on the part of Congress have dwindled with the progress of time. It is conceded now that Congress will adjourn in the course of a very short time. It is also conceded that most of the legislative measures which it was feared that body would put upon the statute books will fail. In particular, the bill for amending the Anti-Trust Law demanded by Mr. Roosevelt, and which would in effect give the Federal authorities power to decree the life or the death of inter-State carriers, has been abandoned. Only a few short months ago the President laid down a legislative minimum to which Congress must conform before adjournment; otherwise it would be re-convened in extraordinary session—perhaps in mid-summer. Now, we are no longer treated to talk of this kind. In view of the political exigencies, the President has become reconciled to the situation. That means one important element of danger removed. Furthermore, we must not forget that the present Congress will expire the 4th of next March, and the President's term of office will expire at the same date. Accordingly, the next session will be a very short one, at which it will hardly be possible to accomplish much more than pass the appropriation bills.

As far as the Presidential nominations are concerned, the outlook is also more promising. The talk of compelling the President to accept a third term, notwithstanding his emphatic declination to receive the nomination, has largely ceased, and the indications point very strongly to the nomination of Secretary Taft. In financial circles the disposition in recent months has been to regard Secretary Taft with increasing favor. It appears to be felt that, if left to himself, his incumbency of the Presidential office will be marked by wisdom and common sense. Then, Mr. Roosevelt has latterly let it be known that, after he retires from office next March, he intends to make an extended sojourn abroad, in order that Mr. Taft, in case of his election as Mr. Roosevelt's successor, may have an entirely free hand in the administration of the office. So far as the Democratic nomination is concerned, there is also a lessened feeling of concern. Mr. Bryan is by no means having his own way, and seems likely to be defeated in his attempt to secure the nomination. Should he get the nomination, he could not be elected, but if, unfortunately, he should secure the prize, he would be held in check by a hostile Congress. On the other hand, if a conservative Democrat should secure the nomination and be elected, no harm to the country could result.

If to all this we add certain favorable developments in the railroad world, such as the avoidance of a receivership for the Erie Railroad, which a month ago seemed imminent, the great success attending the offering of the $40,000,000 loan of the Pennsylvania Railroad, and the announcement this week of the financing of the needs of the Southern Railway, and, furthermore, the efforts making to secure a somewhat higher level of freight rates for the carriers—taking all these into consideration, it must be admitted that there is much room for feeling encouraged.

Of course, everything depends upon whether an early revival in business can be counted upon. Usually, when the tone improves at the financial centres industrial affairs also improve. It may be that expectations in this regard will be disappointed, in degree if not in kind. It may be, too, that the Presidential canvass may develop some disturbing features not now counted upon. These are always possibilities, and the advance in prices has proceeded so far that it is more than ordinarily important that they should not be lost sight of, lest a renewed collapse in values make our last state worse than the first. At all events, it is best to go slow and not incur any new dangers of that kind. The facts we have cited above, however, show very clearly that back of and behind the rise in prices and improvement in tone there is a solid substratum of encouraging developments which gives full warrant for a more cheerful feeling and for hopes of steady progress towards improved results as soon as the Presidential nominations are out of the way.

## *A NEW WAY OF GETTING RID OF CONSERVATIVE JUDGES.*

A few months ago we incidentally mentioned that a proposition had appeared in Congress to give the Executive the power of removal as well as of appointment of Federal judges. Bills are now in the House Judiciary Committee which provide that any judge in any Federal court shall be entitled to a continuance during life of the salary payable to him at date of his resignation, provided he resigns after attaining the age of seventy and having served ten years; but, by the terms of the bill, the pension is conditioned upon resignation within ninety days after attaining the age and serving the term mentioned; of course, the application to judges already seventy years old and having served ten years would be that resignation or loss of pension must follow within ninety days after the law took effect. This proposition is unlikely to come up for action in the present session, and perhaps has no prospect of serious consideration at any time; yet it is not untimely to note its effect.

Considering it with respect to the highest Court only, we find that of the nine present members of that body, Presidents Hayes, Harrison and McKinley appointed one each, Mr. Cleveland appointed three and the junior three are appointees of Mr. Roosevelt. The Chief Justice and three others, none of them appointed later than 1895, are already within the conditions specified in this proposition, and if it were now a law would have ninety days allowed them for resignation after it took effect. The date named for taking effect is July of next year, so that, if the bill were a law the

next President would have opportunity to re-constitute more than a third of the Court, unless some of the four decided to accept the penalty and remain.

It is, of course, obvious that ten years of service on the bench ought to improve the judicial temper and ability, and that attaining seventy years of age ought not to and does not impair either; on the contrary, all experience proves that if there be any real truth in the motto "young men for action," there is quite as much in the other part of it, "old men for counsel." As well as anything in life can be, it is ascertained that, up to the time when the faculties are weakened by bodily decay, increasing age also increases impartiality, insight, the sense of responsibility, and all qualities which tend to sound judgment; nor has it been found necessary to provide particularly for retirement when superannuation comes, for men recognize the fact and step down of themselves.

Appointment and election have both had trial as a mode of designating men for the bench; each method has merits and advocates, and each is subject to imperfections in results. But when a judge has been named by a fairly competent Executive, under a due sense of the motives which ought to govern, and when he is protected by a life tenure from personal dependence on political fluctuations, he is as far removed from emotional currents and temporary passions, and as much in the environment and possibility of strict justice, as is attainable in this imperfect life. The greatest judge is still human; his judgment and impartiality are relative; it is not quite possible for him to keep wholly unaffected by what is going on in the country, or, perhaps, to be wholly unswayed (perhaps unconsciously) by considering the effects of a course which he may deem intrinsically right and just. Yet there is no better way devisable; if truth and right cannot be established and held firm through tribunals of last resort constituted in this manner, we cannot have them at all.

The trace of human imperfection, however, must be accepted. The Supreme Court has once reversed itself in a memorable case, apparently on considerations of political expediency, and its own composition has once been partly shaped with some reference to a particular course on a particular subject. When we come to consider the motives of the Executive in making appointments, the likelihood of making them with reference to particular questions rather than to fitness exclusively becomes very much greater.

Of late years, we have "policies," driven with a power and determination, and with a notion of the end justifying the means, such as were formerly unknown in our political history. There is a centralizing tendency, and there is a centralizing accomplishment, such as is new; we have even seen the Executive publicly criticising a decision of a Federal court as being wrong and one which certainly cannot stand. When we have an Executive who commits himself to specific courses which he is determined to have adopted, it would be humanly impossible for him, even if he sincerely intended to make impartial selections, to avoid considering how men suggested for the bench are likely to act with respect to those courses. In the natural course of events, several vacancies in the highest Court are liable to occur during a Presidential term of eight years; the thought of forcing more vacancies during a term is, therefore, one to make us pause.

There is a saying that no man becomes suddenly base, which is only a terse way of saying that all character and life, bad or good, come by growth, each successive stage preparing the way for the next and making that easier. Men go, step by step, up or down where they would have started back had the whole been presented at once. For a forcible example right at hand, it is indisputable that if the Public Service Commission scheme as we now have it in this State had been proposed, only ten years ago, it would have been buried in a storm of public protest, had anybody cared to take it seriously. Yet we have it now, and many another aggressive monstrosity is embodied in law or is proposed, without even attracting much mention, just because it has all come upon us a bit at a time and we have gradually got wonted to it.

It is not to be doubted that we shall work out of this and there is no real cause for pessimistic forecasts. Yet, is it not time for sober-minded people to resolve that the judiciary shall be kept unimpaired, come what may? The way to keep that unimpaired is to let its foundations alone. The judiciary is our last resort and bulwark. If that were impaired, there would be nothing left but to go back and reconstruct from the foundations.

## *RAILROAD GROSS AND NET EARNINGS FOR MARCH.*

Complete returns of the gross and net earnings of United States railroads for the month of March are now available and the results are exceedingly unfavorable. We have had occasion several times to point out that the showing has been growing steadily worse since the beginning of the current calendar year, and the figures for March now submitted furnish full corroboration of the fact. Unfortunately, too, there is every reason to believe that the exhibit for April, when full returns shall be received, will be even poorer, and according to present indications it looks as if the results for the current month of May would be worst of all.

We have returns for March of both gross and net earnings from roads comprising an aggregate of 152,058 miles of line. These roads show a loss in gross earnings of no less than $21,531,681, as compared with the corresponding month of last year. In addition we have returns from 34,377 miles more of roads which furnish returns of gross alone. Combining the two we get a loss in gross earnings on an aggregate of 186,435 miles of road of only a trifle less than 25 million dollars—in exact figures $24,940,261. As the total railroad mileage of the country is, roughly, 220,000 miles, it is within the mark to say that if we could have figures for the other 34,000 miles of road, the loss for the entire railroad system of the country would be shown to be not less than $30,000,000, which is at the rate of $360,000,000 a year. The result is the more remarkable inasmuch as in March suspension of work at the bituminous coal mines throughout the country had not yet begun—in fact, in that month mining in some districts was prosecuted with especial vigor in anticipation of the stoppage which actually occurred on the 1st of April. That the loss in gross revenues should have reached such large proportions despite that circumstance attests the extent and magnitude of the reverse under which the railroad industry is laboring at the present time.

If, however, the traffic and gross revenues of our railroad transportation lines have not been improving in the slightest degree—have, in fact, been going from bad to worse—the managers have at least been getting better control of their expense accounts. By reason of that fact the showing as to net is much better than it was for January or February. We have already stated that for the roads reporting both gross and net earnings and covering 152,058 miles of road, the loss in gross earnings had been $21,531,681. This was offset by a saving in expenses of almost 15 million dollars ($14,988,050), leaving a loss in net of only $6,543,631. As a consequence the ratio of decrease in the net is found to be only 14.40%, or but little heavier than the ratio of decrease in the gross, which is 13.23%. In January, with $20,025,624 loss in gross, the saving in expenses was only $8,529,278, and in February, with $17,713,009 decrease in gross, the reduction in expenses was only $8,938,407. It thus happens that while the ratio of decrease in the gross has been rising, the percentage of loss in the net has been diminishing. In January the net fell off almost 30% (29.93%), in February the decrease was about 25% (25.10%), while now for March, as just stated, the falling off in net figures out only 14.40%.

The $6,543,631 loss in net for March is based, as already stated, on an aggregate of 152,058 miles of road. For the whole railroad mileage of the United States the amount would of course be increased, but we should judge that the missing roads, if we could have their figures, would not raise the aggregate of loss to above $10,000,000. For February we estimated the loss in net for all the roads at about $11,000,000 to $12,000,000 and for January at about $16,000,000 to $17,000,000. In the following we furnish a summary of the gross and net earnings for March and for the three months ending with March for a series of years past, as registered in our tables, covering the roads actually furnishing returns of both gross and net earnings.

*Note.*—Includes for March 141 roads in 1896; 127 in 1897; 137 in 1898; 143 in 1899; 125 in 1900; 123 in 1901; 126 in 1902; 107 in 1903; 104 in 1904; 101 in 1905; 96 in 1906; 94 in 1907 and 103 in 1908. And from Jan. 1 to March 31, 178 roads in 1896; 171 in 1897; 168 in 1898; 157 in 1899; 154 in 1900; 149 in 1901; 145 in 1902; 143 in 1903; 127 in 1904; 118 in 1905; 110 in 1906; 112 in 1907 and 122 in 1908. Neither the Mexican roads nor the coal-mining operations of the anthracite coal roads are included in any of these totals.

The figures for the March quarter, it is well enough to say, are always more comprehensive than those for the month of March alone, the reason being that a number of roads furnish returns each quarter but not each month. Our statement for 1908 for the period mentioned covers an aggregate of 159,027 miles of road, and on this mileage the loss in gross earnings reaches $62,783,254 and the loss in net $31,818,131. For the whole railroad system of the country the loss in gross must have reached $80,000,000 and the loss in net in the neighborhood of $37,000,000 to $40,000,000. In considering the significance of this year's loss in net the fact should not be overlooked that there was a loss last year, too, in these three months, by reason of the great augmentation of expenses which occurred at that time. From the table first above it will be seen that for March the roads contributing returns to our compilation in 1907 showed $12,980,393 gain in gross, but only $63,814 gain in net, while for the three months ending with March a gain in gross earnings then of $33,443,976 was attended by an actual loss of $2,337,934 in net.

The economies in expenses the present year have been carried so far that certain roads, though having suffered a large decrease in gross earnings for March, are able to show an increase in the net. Generally, however, where this is the case, expenses last year were on an exceptional scale, as is notably true of the roads in the South. The Southern Railway, by reason of that fact, is able to report for March 1908 an increase of $237,340 in the net, though its gross fell $692,016 behind. The Atlantic Coast Line, though having suffered a reduction of $174,730 in gross, has $74,064 increase in net. The Southern Pacific, with $808,595 decrease in gross, has $125,883 increase in net. The New York Central, though having sustained a decrease of $697,541 in gross, has added $117,407 to its net; the same remark applies to the result for the New York Central *System*, comprising besides the Central itself the various auxiliary roads owned or controlled; in that case the loss in gross for the month amounts to $1,941,048, while there is actually a gain of $92,518 in the net. The Pennsylvania Railroad on the lines directly operated East and West of Pittsburgh for the month lost no less than $3,530,000 in the gross, but in the net the loss by reason of lower expenses was cut down to $639,800. Similarly the Atchison, with $1,032,185 decrease in gross, has only $287,585 decrease in net. In the following we show all changes for the separate roads for amounts in excess of $30,000, in both gross and net.

| Grand Trunk (4) | 235,051 | | |
| Wabash | 227,123 | Representing 41 roads in our compilation | $7,531,207 |

*a* These figures cover merely the operations of the New York Central itself. For the New York Central *System* the result is a gain of $92,518.

*x* These figures are for the Railroad Co.; the Coal & Iron Co. reports a decrease of $109,000.

*y* These figures cover lines directly operated east and west of Pittsburgh and Erie. The net on Eastern lines decreased $544,500 and the net on Western lines decreased $95,300.

It is needless to say that when the roads are arranged in groups there is a loss in gross in the case of every group, both for the month and the three months. The same remark applies to the net earnings, except that for the Eastern and Middle Group there is an increase in the net for the month by reason of the cutting down of the expenses. Our summary by groups is as follows:

SUMMARY BY GROUPS.

| *Section or Group.* | *Gross Earnings.* 1908. | 1907. | *Net Earnings.* 1908. | 1907. | *Inc.(+)orDec.(—).* | |

| Mexican (5) | 17,106,741 | 16,509,815 | 5,726,345 | 5,437,625 | +288,720 | 5.31 |

*Mileage.*—The mileage of the above group for March is as follows: Trunk Lines, 29,801 miles, against 29,724 miles in 1907; Anthracite Coal, 4,713, against 4,713; Eastern & Middle, 3,701, against 3,694; Middle Western, 10,538, against 10,488; Northwest & North Pacific, 28,596, against 28,126; Southwest & South Pacific, 43,731, against 43,353; Southern, 30,978, against 30,827; grand total, 152,058, against 150,925; Mexican, 6,763, against 6,738.

The foregoing covers simply the roads which have furnished returns of both gross and net earnings. In addition, as already stated, there is a body of roads which supply figures only of the gross, comprising some important companies like the Northern Pacific, the Great Northern, the Milwaukee & St. Paul, &c. Starting with the total of the gross in the above, we add on these other roads in the table we now present.

ROADS REPORTING **GROSS** BUT NOT NET.

| *March.* | 1908. | 1907. | *Increase.* | *Decrease.* |
|---|---|---|---|---|
| | $ | $ | $ | $ |

| Sierra Railway | 29,779 | 24,566 | 5,213 | |
| Southern Indiana | 183,778 | 129,504 | 54,274 | |
| Texas & Pacific | 1,029,439 | 1,402,633 | | 373,194 |
| Toronto Ham & Buffalo | 72,794 | 86,260 | | 13,466 |
| Total (126 roads) | 162,495,089 | 187,435,350 | 111,083 | 25,051,344 |
| Net decrease (13.37%) | | | | 21,940,261 |
| Miles of road | 186,435 | 184,629 | 1,806 | |

In this way the amount of the loss in the gross is raised to $24,940,261, the ratio of falling off being 13.37%. The mileage covered is 186,435. We have already indicated that if we could have returns for the roads still unrepresented, the aggregate of the loss in gross for the whole railroad system of the country would be not less than $30,000,000.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The public sales of bank stocks this week aggregate 556 shares, of which 500 shares were sold at the Stock Exchange and 56 shares at auction. The transactions in trust company stocks reach a total of 163 shares. A large lot, 500 shares, of stock of the National Bank of Commerce was sold at the Stock Exchange at 166. A sale of 10 shares of Mutual Bank stock was made at auction at 299½, an advance of 48 points over the price paid in February, when the last previous sale occurred.

—The Senate and House conferrees at Washington who have been seeking to reconcile the conflicting views between the two branches of Congress on currency matters, as expressed in the Aldrich and Vreeland bills, held a number of meetings this week, but found themselves unable to reach an agreement. It was finally decided to abandon efforts at currency legislation for this session. It was agreed, however, to report to the respective houses that section of the Aldrich Bill providing for the creation of a national monetary commission, to be composed of nine Senators and nine Representatives, to be appointed by the Vice-President and Speaker. In accordance with this decision a joint resolution providing for the appointment of such a commission was reported by Senator Aldrich from the Committee on Finance and passed by the Senate on Thursday. Similar action was taken Friday by the House Banking and Currency Committee.

—An opinion as to the constitutionality of the tax on transfers of stock was submitted by the Supreme Judicial Court of Massachusetts to the House of Representatives on Thursday. The decision was given in answer to the following questions asked by the House:

1. Whether it is within the constitutional power of the Legislature to enact a law imposing a tax on all shares or certificates of stock in any domestic or foreign association, company or corporation, under that clause of the constitution which authorizes the Legislature to levy proportional and reasonable assessments;
2. Whether such a tax may be imposed under the legislative authority to impose reasonable duties and excises;
3. Whether such a tax may be imposed under any other provision of the constitution.

The Justices unanimously returned a negative answer to the first and third questions. On the second question there was a difference of opinion, a legal majority, however, answering it in the negative.

—A Clearing-House Association has been formed, and is now in operation, in Trenton, N. J. The question of establishing such an organization was considered by the banks last November, but no definite action was taken at that time. For the coming six months the main office of the association will be the Trenton Banking Co. The other banks in turn will carry on the business, each serving for a period of six months.

—The organization of the First Security Co. of New York, which is to serve as an adjunct to the First National Bank of this city, was perfected at a meeting this week. One of the principal steps in connection with the formation of the new concern was the declaration on Tuesday of a special dividend of 100% on the capital of the bank, which is to apply as payment toward the $10,000,000 capital of the proposed institution. As was announced in this department on Feb. 29, when the plans of the company's organization were fully set out, the company has been projected in part for the purpose of transacting "certain lines of profitable bus-

ness, which though often transacted by bankers, are not expressly included within the corporate power of national banks"—including the acquiring and holding of real estate, securities, stocks and other properties owned by the bank. The arrangement is similar to that existing between the First National Bank of Chicago and the First Trust & Savings Bank, although in the case of these institutions, the business of the auxiliary organization is of a banking and trust nature. The management of the First Security Co. is to be identical with that of the bank; its stock is to be held by six trustees—the President, four Vice-Presidents and Cashier of the bank. Their formal election occurred on Tuesday, on which day the directors were also elected. The trustees are: George F. Baker, Henry C. Fahnestock, F. L. Hine, Henry P. Davison, George F. Baker Jr. and Charles D. Backus. The directors, all of whom are members of the board of the bank, are: F. A. Baker, George F. Baker, James A. Blair, Henry P. Davidson, H. C. Fahnestock, James J. Hill, F. L. Hine, A. Curtis James, John J. Mitchell, William H. Moore, J. P. Morgan and George F. Baker Jr. The First National, according to its statement of Feb. 14 last, carried bonds, securities, &c., to the amount of $60,696,651. On that date its surplus and profits, out of which provision is made for the $10,000,000 capital of the new company,were over $20,-000,000. Seven years ago, in 1901, when the bank increased its capital from $500,000 to $10,000,000, it declared a dividend of 1,900%, which was used as payment for the additional stock.

—The Legislative Committee of three appointed last fall to represent the New York State Bankers' Association in such legislation as would affect its interests submitted its report to the Association under date of the 4th inst. A digest of the various changes in the banking law made by the 1908 Legislature is appended as part of the report of the committee, which consists of F. E. Lyford, Ledyard Cogswell Jr. and Edmund D. Fisher, Chairman. There is also incorporated the address of Charles Elliot Warren, President of the Association, delivered on February 17 before the Council of Administration, outlining the procedure followed by the legislative committee in relation to both State and National legislation. The remarks of Chairman Fisher, made before the House Committee on Banking and Currency on April 14, in opposition to the Aldrich Bill, are likewise embodied therein, together with a sketch which Mr. Fisher presented, comparing the essential features of the present law governing the issuance of bank notes, the Aldrich Bill, the Fowler Bill, the plan of the American Bankers' Association and a plan suggested by Mr. Fisher. In presenting its report the committee offers the suggestion that an address on the subject of the guaranty of deposits, as provided in the Fowler Bill, would be an interesting feature at the annual convention in July.

—The deposits of the Hanover National Bank of this city have increased nearly ten million dollars since the last official call of February 14 1908. The statement just issued shows total deposits of $94,788,700 89, as against $85,877,896 26. Aggregate resources are reported at $111,-135,431 19, as against $103,463,409 06.

—Albert H. Gross, Exchange member of the firm of Gross & Kleeburg, of 25 Broad Street, which assigned on October 16 1907, was reinstated to membership in the New York Stock Exchange on Thursday.

—Group VIII of the New York State Bankers' Association comprising the bankers of New York City, held its annual meeting at the Clearing House on Wednesday. James G. Cannon, Vice-President of the Fourth National Bank of this city, is the newly elected President of the Group, and B. H. Fancher, Cashier of the Fifth Avenue Bank, has become Secretary. The following is the Executive Committee elected: William H. Porter, President of the Chemical National Bank; H. M. Kilborn, Vice-President of the National City Bank; H. P. Davidson, Vice-President of the First National Bank; E. H. Ferry, Vice-President of the Hanover National Bank; Gates W. McGarrah, President of the Mechanics' National Bank; Albert H. Wiggin, Vice-President of the Chase National Bank, and Z. S. Freeman, Cashier of the Merchants' National Bank.

—Samuel H. Miller, for many years Assistant Cashier of the Chase National Bank of this city, has been appointed Cashier to fill the vacancy caused by the resignation of E. J. Stalker. Mr Stalker retires to enjoy a period of needed recuperation, free from routine duties and responsibilities. Mr. Miller started with the Chase as a boy, 20 years ago, and has advanced step by step until he now holds the important position of Cashier. Henry M. Conkey and Alfred C. Andrews have been made Assistant Cashiers.

—Walter M. Bennett, Cashier of the Bank of America, of this city, has been elected a Vice-President of the institution; he will also continue in the cashiership. Albert G. Havens has become Assistant Cashier of the bank.

—The National Copper Bank of this city, which has just completed the first year of its existence, reports deposits of $17,049,077 under the call of the Comptroller of the Currency for May 14. The bank's cash resources now amount to $12,700,281. It has a capital and surplus fund of $2,-000,000 each and undivided profits of $361,537. The growth which the bank has experieneed in deposits in its first year, is said to be larger than that of any other national bank in the city for a like period.

—Some facts concerning the history of the Greenwich Savings Bank of this city, which has reached the seventy-fifth anniversary of its existence, were presented at the regular meeting of the board of trustees on Thursday, the 14th inst. The bank was incorporated by an Act of the Legislature of the State of New York passed April 24 1833, organized May 29 1833 and began business July 1 1833. The incorporation of the bank was by thirty-three men well known in the city, who served without compensation. Its quarters were at 10 Carmine Street. It was at first opened but two days a week for the receipt of deposits—on Mondays from 5 to 7 p. m. and on Fridays (for women only) from 4 to 6 p. m. During the first week 119 persons deposited $18,000. Six months later the assets were $71,800. In 1839 the bank was obliged to secure larger quarters, and the premises at 11 Sixth Avenue were purchased, which cost, after being fully renovated, $6,940. In 1842 the deposits had reached $180,-000 and on June 8 of that year it was found necessary to open the bank for business on Monday, Wednesday and Friday. In 1846 the bank bought the property at the northwest corner of Sixth Avenue and 4th Street; the deposits then amounted to nearly $400,000. During the following four years the deposits rose to $1,015,000. In 1853 the bank secured quarters at the southwest corner of Waverly Place and Sixth Avenue, which it occupied the following year. It was then decided that the hours of business should be each business day from 10 to 2, and also on Mondays, Wednesdays and Fridays from 5 to 7. In 1874 the evening hours were abolished, and an hour each business day was added to the earlier session, the bank having since been opened daily from 10 to 3. The deposits in 1874 reached about $10,000,000. In February 1892 the bank removed to its present building, at the southeast corner of Sixth Avenue and Sixteenth Street. The deposits were then $22,567,-000 and the surplus on the par value of securities $2,518,000. At the present time it reports assets belonging to 91,300 depositors of $61,750,000, of which $4,000,000 is surplus over deposits

—Thomas A. McIntyre, of the failed firm of T. A. McIntyre & Co. of this city, was indicted by the Grand Jury on Wednesday on a charge of grand larceny. Mr. McIntyre, who for the past two weeks has been in a sanitarium, appeared before Judge Rosalsky in General Sessions, where he was released on $25,000 bail. The indictment grew out of the complaint of a customer, who alleged that the firm had failed to transfer, as directed, 10 shares of United States Steel stock, but had instead placed the stock with the Metropolitan Trust Company as security for a loan.

Mr. McIntyre was again arrested on Thursday in a civil suit involving $30,000 of securities. He was released on bail to the amount of $5,000, as was his brother, John G McIntyre, who was also made a defendant in the case. Arthur H. Peck, one of the receivers of the firm, issued a statement on Thursday showing its assets (including exchange memberships valued at $90,000) as $316,750 and its liabilities as $1,575,000.

Judge Hough in the U. S. District Court on Monday granted the application of the receivers of the firm directing the banks and trust companies from which the firm had ob-

tained loans to surrender immediately the surplus cash and securities remaining after the liquidation of these loans.

—At meetings held on Monday last, the stockholders of the Northern Bank, the Riverside Bank and the Hamilton Bank unanimously ratified the merger argeement referred to in these columns May 9. The three banks will unite under the name of the Northern Bank of New York, and the consolidated institution will have a capital of $1,000,000; the names of its officers have not as yet been announced.

—An order was signed on the 16th inst. by Judge Lacombe, in the U. S. Circuit Court, discontinuing the suit brought by Receiver Hanna of the National Bank of North America against Charles W. Morse, to recover $405,673 alleged to have been obtained by him through dummy-loan transactions. Mr. Morse and his friends recently turned over to the bank about $250,000 in cash and securities in settlement of the claim.

A new company, through which, it is understood, Mr. Morse's debts other than those of the National Bank of North America are to be adjusted, has been incorporated in Maine with a capital of $10,000,000. The concern has been organized under the name of the Morse Securities Company. Its purpose, according to the incorporation certificate, "is to acquire and hold as investments any shares of capital stock, bonds, securities or other evidence of indebtedness created by any other corporations of the State of Maine or any other State."

—In accordance with the reorganization plans, the directors of the Williamsburgh Trust Company of Brooklyn Borough yesterday elected Brayton Ives as President. Mr. Ives is head of the Metropolitan Trust Co. of this city, which is to advance the Williamsburgh Trust Co. the sum of $1,500,000 cash to aid in its re-opening. Arguments on the question of the removal of the receivers of the latter institution were heard this week; considerable differences were shown to exist, however, between the directors and the receivers over matters pertaining to the reorganization, one of which involved the fees of the receivers, and the court directed both sides to agree upon an order for resumption within a week. It is understood that under the reorganization arrangements the affairs of the company are to be administered by a board of trustees until the repayment of the loan to the Metropolitan Trust Co. These trustees will be Brayton Ives, J. Edward Simmons, Vice-President of the Fourth National Bank; and William N. Dyckman, Attorney for the depositors.

—Announcement was made last week of contemplated action to reorganize the Brooklyn Bank of Brooklyn Borough. The movement was started by S. Stanwood Menken of the law firm of Philbin, Beekman & Menken. As the bank has been closed since Oct. 25, and a dividend of 40% in liquidation was expected to have been paid shortly, reorganization proceedings were rather unlooked for. The bank has a capital of $300,000 (in $50 shares), of which $168,000 is held by the International Trust Co. While the latter is understood to have approved the plan, its consummation depends upon the unanimous consent of the minority holders and also on the question as to whether the bank is a separate institution or a part of the International Trust Co. A decision on this question is expected to be given by Justice Betts to-day. Mr. Menken's plan provides for the sale at par of the minority stockholdings to the International Trust Co., the latter to be given two years in which to complete the payment of the same, the stock in the meantime being deposited with a trust company as security for its payment. A loan of $250,000 from a trust company has been arranged for, under an agreement that during the time such loan is outstanding the affairs of the bank shall be conducted by an advisory committee on which representatives of such trust company will have a membership. In a circular sent out by Mr. Menken to the minority stockholders, the following statement as to the cash resources of the Brooklyn Bank and the International Trust Co. is shown:

| | |
|---|---|
| Cash in the hands of the receivers of the Brooklyn Bank | $775,000 |
| Cash in the hands of the receivers of the International Trust Co. | 75,000 |

—E. S. A. De Lima has been elected President of the Hungarian-American Bank of this city, to succeed W. H. Bryan, who retired at a directors' meeting this week. Mr. De Lima is a member of the firm of D. A. De Lima & Co. and a cousin of E. A. De Lima, head of the Battery Park National Bank.

—At the annual meeting of the Waterbury Trust Co. of Waterbury, Conn., on the 11th inst., three new members, namely, Cornelius Tracy, T. H. Hewitt and E. J. Daly, were added to the board. The re-elected members are C. L. Holmes, M. L. Sperry, W. T. Woodruff, H. S. Rowland, H. H. Heminway and H. S. Seeley. The officers were re-elected as follows: C. L. Holmes, President; M. L. Sperry, Vice-President; H. S. Seeley, Secretary and Treasurer.

—The criminal charges against Adolph Segal, William F. North and Marshall S. Collingwood, arising from the suspension in 1906 of the Real Estate Trust Co. of Philadelphia, were dismissed on the 18th inst. by Judge Carr, in Quarter Sessions Court, at the request of the directors of the institution, and with the consent of the District Attorney. George H. Earle, Jr. formerly receiver, and now President of the reorganized company, who had been authorized to submit the petition for the discharge of the men, stated that the institution had received full satisfaction for all damages or losses suffered.

—The Allegheny National Bank of Pittsburgh, which suffered through the defalcation of its Cashier, failed to open its doors on Monday, following a decision reached the previous day, to wind up its affairs. While there had been announcements a week ago that arrangements had been made for the raising of a guaranty fund of $500,000 and a reorganization was to occur immediately, the affairs of the bank appear to have been in so confused a state that it was finally decided to discontinue these proceedings. Another contributing factor was the notice issued by the Clearing House on the 16th inst. to the effect that no clearings would be made by the Association for the bank on Monday, and that each bank would be obliged to collect its own claims against the institution. The statement given out by the bank on Sunday night with regard to the closing up of its affairs is as follows:

A committee of representatives of some of the largest banks in the city prepared to lend all assistance required, spent almost all day to-day in making a thorough examination of the bank's affairs, but finding them in such a state of inextricable confusion, came to the conclusion that the wise thing to do in the interest of both depositors and stockholders under the circumstances is to let the affairs of the bank be closed up by the United States authorities.

The bank's deposits are small, not to exceed $300,000, outside of the city and State accounts, both of which have bondsmen for their security.

The city's deposit amounts to about $1,500,000 and that of the State to $532,222. The funds of the city are secured by two bonds of $500,000 each; the State funds are protected by bonding companies and by the bonds of some of the directors of the bank. City Treasurer Steel entered judgment on the city's bonds on the 18th inst. One is entered against Joshua Rhodes, John Caldwell Jr., Walter Chess, Robert McAfee and Cashier William Montgomery, and the other is directed against William Stewart, Walter Chess, William Montgomery, Thomas Evans, William H. Latshaw and Robert McAfee. Mr. McAfee, who is a director of the bank, is Secretary of the Commonwealth of Pennsylvania. Mr. Montgomery, ex-Cashier of the bank, who had been held under $100,000 bonds on the specific charge of embezzling $469,000 of the bank's funds, was arraigned on the 16th inst. on a new charge of appropriating to his own use $125,000 of securities held by the bank. When additional bail to the extent of $25,000 was asked for under the new charge, the $100,000 bonds which had been furnished by George E. Tener and Richard R. Quay were withdrawn, and the accused was taken to the Allegheny County Jail. The Allegheny National was organized in 1857 and became a national institution in 1865. In its last statement to the Comptroller of the Currency (February 14) it reported a paid-in capital of $500,000; a surplus fund of $700,000; undivided profits of $129,461; deposits of $2,444,863, and total resurces of $4,243,124. Robert Lyons has been appointed temporary receiver. According to the Pittsburgh "Dispatch" of the 17th the gross amount of the shortage will be in the neighborhood of $2,000,000, against which, however, there is $750,000 worth of property and recoverable securities, reducing the net loss to $1,250,000.

—The well-known Pittsburgh Stock Exchange House of James Carothers & Co., was placed in receiver's hands this week, as a result, it is stated, of the closing of the Allegheny National Bank. An involuntary petition in bankruptcy was filed against the firm on Monday, in response to which Charles F. Patterson, its counsel, was named as receiver. Mr. Patterson caused the following statement to be issued concerning the failure:

The failure of James Carothers & Co. was caused entirely by the failure of the Allegheny National Bank. The firm held a large amount of the bank's stock as collateral and when the bank closed, the stock was no longer available in the firm's loans, and as it was found impossible to procure collateral to substitute for the Allegheny National Bank stock, it was deemed best for the interests of all the firm's creditors to consent to the appointment of a receiver. Only a comparatively small number of the creditors hold the bank stock as security and the other loans of the firm are well secured. The court has made an order restraining the auditor of the firm, who holds collateral, from disposing of the same without the court's permission, and as soon as the receiver can obtain a working knowledge of the firm's condition, steps will be taken to liquidate the firm's liabilities so that as much as possible can be obtained for the unsecured creditors.

The firm was a most prominent one in Pittsburgh and is composed of James Carothers and Wm. E. von Bonnhorst. Mr. Carothers had at one time been President of the Pittsburgh Stock Exchange and had been prominently connected with the Pittsburgh Life & Trust Co. Mr. von Bonnhorst, prior to entering the firm, had been with the old Merchants' & Manufacturers' National Bank, and had served as Cashier of the Marine National.

—An amalgamation which will unite two important banking institutions of Cincinnati, namely, the Fifth National and the Third National, has been arranged, and it is expected will be carried to completion by June 1. The proposition to merge was ratified by the directors of the respective banks at meetings held on the 16th inst., and now awaits only the approval of the shareholders. The bank growing out of the union is to be known as the Fifth-Third National Bank, and it will have a capital of $2,500,000 and surplus of $1,000,000. The Third National, which is to be placed in liquidation, has a capital of $1,200,000 and surplus and profits of about $644,000. The Fifth National has a capital of $1,000,000 and surplus of $770,637; it is the intention of the Fifth National to increase its capital to $1,300,000, declaring for the purpose a stock dividend of 30%. Under this arrangement the stockholders of the Fifth National will receive $1,300,000 of the stock of the new bank and those of the Third National $1,200,000. Of the $1,000,000 surplus of the proposed institution, $600,000 will be contributed by the Third National and $400,000 by the Fifth National. The stock of the new bank is to be placed on a dividend basis of 10% per annum. The rate paid by the Fifth National is 10%, with 2% additional, while the Third National pays 9% yearly. Charles A. Hinsch, President of the Fifth National Bank, will be at the head of the new Fifth-Third National. Edward Seiter, Cashier of the Fifth National, and W. A. Lemmon, Vice-President of the Third, will be the Vice-Presidents of the enlarged bank, while Monte J. Goble, Assistant Cashier of the Fifth, will be the new bank's Cashier. The Assistant Cashiers of the latter will be C. T. Perin (Cashier of the Third National), Charles H. Shields (Assistant Cashier of the Fifth), Fred. J. Mayer and Louis E. Van Ausdol, now Assistant Cashiers of the Third. Charles H. Kellogg, President of the Third National, and Stewart Shillito, Chairman of the Board of that bank, will be identified with the continuing bank as directors, as will also James M. Glenn, who retires as Vice-President of the Fifth National. The enlarged bank will have deposits of about $13,000,000, of which about $5,000,000 represents those of the Third National.

—The immediate cause of the suspension last week of the Reserve Trust Co. of Cleveland is reported to have been heavy withdrawals and the refusal of the Union National Bank to clear for it on the old basis. The bank, it is said, served notice on the company on the 13th stating that unless it received $200,000 cash as surety within twenty-four hours, it would no longer clear for it. A fruitless effort to organize a syndicate to put up the required money resulted in the turning over of the trust company to an assignee, which, as stated last Saturday, occurred on the 14th inst. The company was a city depositary, having funds of the city amounting to $240,991 In its last statement to the State Auditor on Dec. 5, the company's deposits were reported as $2,239,214, and the total liabilities as $2,631,279. It has a capital of $300,000.

—The American Savings Bank Co. of Cleveland, which, as stated last week, closed its doors on the 14th inst., filed a deed of assignment on the 15th inst. E. M. Buel, Secretary and Treasurer of the institution, is the assignee. The liabilities and assets are placed at $307,000. The bank found itself unable to withstand a run which had followed the notification by its clearing-house representative that it would no longer clear for it. It is stated that an offer of a larger institution to take over the bank and guarantee its deposits was made, but the terms were such that the directors were unable to raise the money necessary to accept the offer. The bank has a capital of $50,000.

—The sixteen national banks of Chicago, in their published statements of May 14, show a gain of $9,000,000 in deposits over their status on Februray 14, when the last Government call was made. This means a record for several banks. The Continental National shows an increase of 5½ millions, $70,256,616 56 being high-water mark for this institution. The Bankers' National has increased its deposits since February $1,700,000; the National City Bank $1,300,000; the Fort Dearborn National $1,100,000; the Corn Exchange $700,000; the National Bank of the Republic and Prairie National $500,000 each and the Hamilton $400,000.

—The May 12th published statements of the Chicago State banks show an increase of deposits over the statements of February 15th of over $40,000,000, or 12.8 per cent, although both deposits and total resources fall below the figures of August 20 1907. The financial outlook in Chicago and throughout the West is highly encouraging. The banks showing the greatest gain in deposits since the last previous statement are as follows:

| | |
|---|---|
| Harris Trust & Savings Bank | $4,022,054 |
| American Trust & Savings Bank | 2,878,075 |
| First Trust & Savings Bank | 2,862,390 |
| Union Trust Company | 1,832,186 |
| State Bank of Chicago | 1,568,320 |
| Central Trust Company | 1,557,337 |
| Merchants' Loan & Trust Company | 1,173,347 |
| Illinois Trust & Savings Bank | 1,021,929 |

The exceptional increase recorded by the Harris Trust & Savings Bank is accounted for by the item of "special deposits", amounting to nearly $3,000,000.

—The Mississippi Bankers' Association, at its annual convention held at Brookhaven on the 13th and 14th inst., unanimously passed a resolution providing for the appointment of a committee which is to co-operate with a similar committee from the Farmers' Union of Mississippi in suggesting plans for detailed co-operation by the bankers with the farmers in the marketing of the crops of the State; the committee is further instructed to take up the matter of a uniform negotiable cotton-warehouse receipt. The resolution follows:

Whereas, It is wise and profitable that the bankers and farmers shall co-operate in the handling and marketing of cotton and other farm products; and,

Whereas, It is desirable that a practical plan be devised for the expression of the desire to bring about a wise and profitable co-operation in handling cotton; therefore, be it

Resolved, That the president of this convention appoint a special committee, the duties of which shall be:

A—To draw and suggest a uniform negotiable cotton-warehouse receipt, upon which loans may be made with maximum of safety and the minimum of red tape, expense and trouble.

B—To co-operate with a similar committee appointed by the Farmers' Union of Mississippi, in drafting and suggesting a uniform set of by-laws, rules and regulations for the government of cotton warehouses throughout the State.

C—To co-operate with a similar committee from the Farmers' Union in suggesting further plans for detailed co-operation by the bankers with the farmers in marketing the crops of the State.

Resolved further, That the said committee be requested to make a preliminary report on or before Aug. 1 1908 by circular issued at the expense of the association and a final report at the next meeting of this association.

In an address delivered by Sol. Wexler, of the Whitney Central National Bank of New Orleans, the bankers were urged to take an active part in the coming primaries, and to see to it that an uninstructed delegation is sent from Mississippi to Denver, to the end that some one other than W. J. Bryan shall be nominated for the Presidency. At the close of the convention the bankers started on a tour of various cities, including Cincinnati, Washington, New York, Buffalo, Niagara Falls, Detroit and Chicago.

—The Missouri Bankers' Association held a two-days' session at Joplin this week, the occasion being its eighteenth annual meeting. Among those contributing to the program were Francis B. James, of the Cincinnati Bar, and President of the Ohio State Board of Uniform State Laws, who delivered an address presenting the "Legal and Commercial Aspect of Bills of Lading," and Secretary of State John E. Swanger, who spoke on "General Banking Interests."

## *DEBT STATEMENT APRIL* 30 1908.

The following statements of the public debt and Treasury cash holdings of the United States are made up from official figures issued April 30 1908. *For statement of March* 31 1908, *see issue of April* 18 1908, *page* 958; *that of April* 30 1907, *see May* 18 1907, *page* 1161.

INTEREST-BEARING DEBT APRIL 30 1908.

|---|---|---|---|---|
| Great Britain | ------- | $2,520,412 | ------- | $3,422,863 |
| France | $6,792,834 | 15,863,589 | $482,500 | 681,315 |
| Germany | ------- | ------- | ------- | 15,785 |
| West Indies | 504,300 | 860,490 | 60,086 | 3,046,936 |
| Mexico | ------- | 2,300 | ------- | 206,872 |
| South America | ------- | 566,475 | 52,547 | 1,171,308 |
| All other countries | ------- | 9,735 | 40,290 | 1,438,840 |
| Total 1908 | $7,297,134 | $19,823,001 | $635,423 | $9,983,919 |
| Total 1907 | 1,000 | 1,863,446 | 112,195 | 5,450,302 |
| Total 1906 | 6,000 | 4,940,522 | 15,193,632 | 41,500,199 |
| **Silver.** | | | | |
| Great Britain | $463,690 | $14,448,715 | ------- | $38,401 |
| France | 27,000 | 767,000 | 2,895 | 52,665 |
| Germany | ------- | ------- | 3,600 | 61,043 |
| West Indies | 28,506 | 197,349 | 53,885 | 107,602 |
| Mexico | ------- | ------- | 1,579 | 403,249 |
| South America | ------- | 3,000 | 53,136 | 340,621 |
| All other countries | ------- | 350 | ------- | 220,459 |
| Total 1908 | $519,196 | $15,416,414 | $115,095 | $1,224,040 |
| Total 1907 | 596,012 | 15,447,219 | 9,410 | 713,835 |
| Total 1906 | 1,163,173 | 21,849,384 | 30,065 | 935,472 |

Of the above imports for the week in 1908, $54,792 were American gold coin and $57,263 American silver coin. Of the exports during the same time, $20,000 were American gold coin and $25,000 were American silver coin.

**Statement of New York City Clearing-House Banks.**—The detailed statement below shows the condition of the New York City Clearing-House banks for the week ending May 16. The figures for the separate banks are the averages of the daily results. In the case of the totals, however, a departure was made with the statement for Feb. 8, so that in addition to the averages for the week the actual figures at the end of the week are now given.

*We omit two ciphers (00) in all cases.*

| Banks. 00s omitted. | Capital. | Surplus. | Loans. Average. | Specie Average. | Legals. Average. | Deposits. Average. | Res've. |

+Increase over last week — Decrease from last week.
a Includes bank notes. b After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to $711,324,700, an increase of $12,808,600 over last week's figures.

*Note.*—In the case of the Clearing-House banks, the deposits are "net" both for the average and actual figures: in all other cases "gross" deposits are shown. The Clearing-House actual figures included United States deposits amounting to $31,652,200; a decrease of $5,587,500 from last week; averages included United States deposits of $31,698,400, a decrease of $7,467,600 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS & TRUST CO'S OUTSIDE OF GREATER NEW YORK.

| *Week ending May 16 1908.* | Loans. | Deposits. | Reserve. | % of Res. |

*Wall Street, Friday Night, May 22 1908.*

**The Money Market and Financial Situation.**—Although the volume of business in the shares department at the Stock Exchange has been larger this week than at any time in more than a year, or since the latter part of March and early April 1907, values much of the week have yielded easily to the slighest evidence of increasing offerings, and the transactions in bonds have steadily diminished. From these facts the natural inference is that the larger business referred to is not due to an investment demand.

It is interesting to note, however, that there is somewhat more inquiry for pig iron, and that prices for that metal will be maintained for the present as decided by leading representatives of the iron and steel industry at a meeting yesterday.

The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 1% to 1¾%. To-day's rates on call were 1½@1¾%. Commercial paper quoted at 3¾@4% for choice 60 to 90-day endorsements and for 4 months best single names; 4@4½% for a slightly lower grade of 4 to 6 months' single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £542,010, and the per cent of reserve to liabilities was 51.77, against 51.12 last week.

The rate of discount remains unchanged at 3%, as fixed March 19. The Bank of France shows an increase of 35,100,000 francs gold and 3,750,000 francs silver.

*Note.*—The Clearing House now issues a statement weekly showing the total of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the preceding page.

**Foreign Exchange.**—The market was generally strong this week in response to a good demand for remittance. No sterling bills were offered against gold exports, such exports being effected chiefly through the medium of francs and marks. Gold shipments during the week, $13,455,000 to Paris and Berlin.

To-day's (Friday's) nominal rates for sterling exchange were 4 86 for sixty day and 4 88½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8525@4 8535 for long, 4 8710@4 8720 for short and 4 8735@4 8740 for cables. Commercial on banks 4 8490@4 85 and documents for payment 4 84¼@4 84⅞. Cotton for payment 4 84¼@4 84⅜, cotton for acceptance 4 8490@4 85 and grain for payment 4 84¾@4 84⅞. To-day's (Friday's) actual rates for Paris bankers' francs were 5 12½@5 16⅞*a* for long and 5 15⅝*d*@5 15⅝ for short. Germany bankers' marks were 94⅞@94 15-16 for long and 95 7-16*d*@95 7-16 for short. Amsterdam bankers' guilders were 40 23@40 25 for short.

Exchange at Paris on London 25f. 12c., week's range 25f. 12c. high and 25f. 12c. low.

The week's range for exchange rates follows:

| | Long | Short | Cables |
|---|---|---|---|
| *Sterling Actual—* | | | |
| High | 4 8530 @4 8535 | 4 8720 @4 8725 | 4 8750 @4 8755 |

| Low | ---- @---- | 40 23 @40 25 | ---- |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1% *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah buying 50c. per $1,000 discount; selling 75c. per $1,000 premium; Charleston selling $1 per $1,000 premium; New Orleans bank 50c. per $1,000 discount; selling 75c. per $1,000 discount; Chicago 25c. per $1,000 premium; St. Louis 65c. per $1,000 premium; San Francisco 75c. per $1,000 premium.

**State and Railroad Bonds.**—Sales of State bonds at the Board include $10,000 Tennessee settlement 3s at 96, $10,000 ditto, small bonds, at 95, and $45,000 Virginia 6s deferred trust receipts at 39 to 41.

Transactions in the market for railway and industrial bonds steadily diminished, as noted above, from nearly 6½ millions, par value, on Monday, to about half that amount on Thursday. To-day's market was slightly more active and prices, as on preceding days, irregular.

The upward tendency of Union Pacific shares caused an active demand for the convertible bonds, in which the transactions were on a large scale, at advancing prices, and they close with a net gain of over a point.

**United States Bonds.**—No sales of Government bonds have been reported at the Board this week. The following are the daily closing quotations; *for yearly range see third page following.*

*This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The transactions in stocks have been on a larger scale than for a long time past. They aggregated over 1,400,000 shares on Wednesday and averaged about 1,250,000 per day throughout the week. The market has been decidedly irregular, practically all the active issues having covered a range of from 4 to 7 points. The advance which had been in progress for two or three weeks, continued with slight interruptions until Tuesday, when the highest quotations of the year were generally reached.

Among the exceptional features is Missouri Pacific, which advanced over 13 points, and has held nearly all the gain. North West covered a range of 7½ points and closes with a net loss of 1½. Union Pacific has been notably strong, selling up to 151½, an advance of 6½ points, a large part of which it retains. St. Paul shows a net gain of 2¼ points, N. Y. New Haven & Hartford 2⅛ and Illinois Central 2½.

On the other hand, Reading declined 6 points, only a small part of which it has recovered, and Baltimore & Ohio made a similar record.

Smelting & Refining has been weak, declining over 9 points and recovering slowly. Consolidated Gas advanced sharply on hopes of a favorable ruling by the U. S. Court in the 80-cent case now pending. The U. S. Steel issues have been active with fractional net change in prices.

*For daily volume of business see page* 1276.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

| STOCKS. Week ending May 22. | Sales for Week. | Range for Week. Lowest. | | Highest. | | Range since Jan. 1. Lowest. | | Highest. | |

**Outside Market.**—Trading in "curb securities at the opening of the week was in reduced volume, though the market maintained a strong tone, substantial advances being recorded in quite a few instances. In the later dealings a considerable selling movement developed, which caused a general recession in prices. Boston Consolidated Copper rose from 12 to 14½, dropped to 12½ and closed to-day at 12¾. Butte Coalition sank from 25 to 22⅞, the final transaction to-day being at 23. Greene Cananea was prominent, advancing a point to 10⅛, fell back to 9⅜ and ends the week at 9¾. Nevada Consolidated Copper from 13⅛ advanced to 13⅝, moved down to 11¾ and closed to-day at 12. Cumberland Ely went up from 8½ to 8⅝ and down finally to 8. Nevada Utah fell from 4⅛ to 3 5-16, recovering finally to 3½. United Copper common moved up from 7¾ to 8½ and down to 7¼, but sold up finally to 7⅞. Goldfield Consolidated advanced from 5⅝ to 6, but weakened to 5 7-16. Goldfield Daisy was conspicuous for a loss from $1 23 to 97 cents, and a recovery to $1 08. Nipissing weakened from 7 to 6⅞, rose to 7¼ and ends the week at 7. In the specialties notable strength was displayed at first by Standard Oil, which moved up from 612 to 620, though later it reacted to 603, with a final recovery to 604½. Chicago Subway, influenced by reports of financing arrangements, advanced from 19½ to 23, and closed to-day at 22½. In the bond department the new Tidewater 6% notes were traded in for the first time at from 98⅞ to 99. Adams Express 4s moved up from 88 to 89¼ and Central Foundry 6s from 55 to 57. Allis-Chalmers 5s sold up from 66½ to 67¼.

Outside quotations will be found on page 1276.

# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

| ROADS. | Latest Gross Earnings. Week or Month. | Current Year. | Previous Year. | July 1 to Latest Date. Current Year. | Previous Year. |

**Net Earnings Monthly to Latest Dates.**—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get a return of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say, about the 20th of the month. *Besides the companies furnishing monthly returns, we have added this time the roads which make quarterly returns.*

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
c Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.
d The company now includes the earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. in both years. For March taxes and rentals amounted to $241,765, against $196,025 in 1907; after deducting which, net for March 1908 was $2,697,149, against $3,030,474 last year. For period from July 1 to March 31, taxes and rentals were $2,143,781 in 1908, against $1,741,513 in 1907.
g These results are in Mexican currency.
h For March 1908 additional income showed a deficit of $816, against a credit of $9,781 in 1907, and for period from July 1 to March 31 was $29,232 in 1908, against $45,564 last year.
k For March 1908 additional income was $33,439, against $12,145 in 1907, and for period from July 1 to March 31 was $155,643 in 1908, against $176,375 last year.
n These figures represent 30% of gross earnings.
p For March miscellaneous charges and credits to income was $883, against $614 in 1907, and for period from July 1 to March 31 was $57,032 in 1908, against $25,641 in 1907.
r For March 1908 net from Coal Department was $105,450, against $102,430 last year, and from Jan. 1 to March 31 was $245,857 in 1908, against $306,598 last year.
s After allowing for miscellaneous income, which was a debit item for the month of March 1908, total net earnings were $436,546 in March 1908, against $329,503 last year, and for period from July 1 to March 31 were $3,018,541 this year, against $3,353,099.
v In accordance with the contract of Nov. 1 1907 between the Atlantic & Birmingham Construction Co. and the Atl. Birm. & Atl. RR. Co., the Construction Co., as the part of expenses chargeable to it on account of the unfinished condition of the work and the interference by its work with the operation, pays each month to the Railroad Co. such portion of the operating expenses as equals the excess of the total operating expenses above 70% of the total operating revenue.
x These figures are on the basis of accounting required by the Inter-State Commerce Commission.
z Includes $55 other income for March 1908 against $398 in 1907, and for period from July 1 to March 31 includes $792 in 1908, against $4,069 last year; beginning July 1, the earnings of the Dublin & Southwestern RR. are included in both years.

*b* Included in fixed charges are expenditures for renewals, additions and improvements amounting to *nil* for March 1908, against $79,026 in 1907, and from July 1 to Feb 29 were $862,337 in 1907.

*c* After allowing for miscellaneous charges and credits to income.

*d* These figures are after allowing for other income and for discount and exchange. The sum of $19,000 is deducted every month from surplus and placed to the credit of the Renewal Fund.

*x* After allowing for other income received.

*c* These figures are for consolidated company. *d* These are results for main line. *f* No earnings for Detroit Jackson & Chicago Ry. for Jan. 1907 included in these figures. *h* Decrease due to strike and boycott. *k* Does not include the Charing Cross Euston & Hampstead Ry. for last year.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of May 2 1908. The next will appear in the issue of May 30 1908.

## ANNUAL REPORTS.

**Annual Reports.**—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will *not* include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of April 25. The next will appear in that of May 30.

### Pennsylvania Company.

*(Report for Fiscal Year ending Dec. 31 1906.)*

President James McCrea, under date of Pittsburgh, March 25, says in substance:

*General Results.*—The income account again shows large increases in both gross and net earnings. After deducting the rental of the roads operated on the basis of net earnings, there remained net operating earnings of $10,960,417, an increase of $771,540 over the previous year. The income from investments and from rents was $11,854,903, an increase of $2,607,822, making the gross income $22,815,320, an increase of $3,379,362 over 1906; after deducting all fixed charges, interest and other liabilities, there was a net income of $9,896,487, an increase of $962,599. Out of this net income there were paid contributions to sinking funds aggregating $342,966, $1,334,000 gold loan certificates of 1901 drawn for redemption Nov. 1 1907, $267,990 on account of principal of car trusts and a dividend of 7% upon the capital stock, leaving a balance of $3,751,531, from which there was transferred to the extraordinary expenditure fund $2,500,000 to provide for expenditures not properly chargeable to capital account, and the balance of $1,251,531 was transferred to the credit of the profit and loss.

*TRAFFIC STATISTICS IN 1907 AND INCREASES OVER 1906.*

| Freight Tonnage—Lines operated— | 1907. | Increase. | |
|---|---|---|---|
| Directly by Pennsylvania Company_tons_ | 89,280,143 | 7,532,926 | 9.23% |
| " " Pitts. Cinc. Ch. & St. L_tons_ | 42,952,761 | 3,461,003 | 9.10% |
| Under their own organizations_tons_ | 23,667,522 | 2,368,027 | 11.31% |
| Aggregate for entire system_tons_ | 155,900,426 | 13,361,956 | 9.50% |
| Aggregate ton mileage | 12,948,354,539 | 1,385,371,471 | 12.01% |
| *Passengers Carried—On lines operated—* | | | |
| Directly by Pennsylvania Company_No_ | 13,121,982 | 1,073,156 | 8.91% |
| " " Pitts. Cinc. Ch. & St. L_No_ | 11,567,794 | 770,740 | 7.14% |
| Under their own organizations_No_ | 8,311,617 | 716,987 | 9.83% |
| Aggregate for entire system_No_ | 33,601,393 | 2,560,883 | 8.51% |
| Aggregate passenger mileage | 1,019,326,971 | 110,179,410 | 12.12% |

The average rate received per ton per mile on all lines of the system was 6.3 mills, a decrease of 1-10 a mill; there was an increase in the cost of movement 1-10 of a mill, so that the net earnings per ton were 1.6 mills, as compared with 1.8 mills in 1906, a decrease of 2-10 of a mill.

The average rate received per pass. per mile on all lines of the system was 1.91 cents, a decrease of 1.2 mills, while the cost was 1.99 cents, a decrease of 2.2 mills, so that the net loss per passenger per mile decreased 1 mill.

The increase in expenses was directly due to the large increase in the volume of tonnage and number of passengers carried, to the increased rates of pay prevailing in all departments throughout the year and to higher cost of materials.

*Improvements, &c.*—The work on the elevation of tracks on the Pittsburgh Fort Wayne & Chicago Ry. in Chicago was continued throughout the year, and involved the rebuilding of the engine house and shops at 55th St. A block of property on the east side of Canal St., Chicago, and extending from Madison St. to Washington St., was purchased to replace the strip of property between Maidson and Van Buren streets taken by the Sanitary District of Chicago in order to widen the river.

Apart from the finishing of work in progress, very little was done on the track elevation of the Cleveland & Pittsburgh RR. in Cleveland, but a large amount was expended near Bedford, Ohio, in the establishment of an interchange yard for handling the Lake coal and ores. Very large expenditures werealso madeon the Pittsburgh Youngstown & Ashtabula Ry. for increased docks and ore and coal-handling appliances at Ashtabula Harbor, to take care of the increased business at that port.

The expenditures on the Southwest System were largely for the extension of second track between Urbana and Jordans, Ohio, on the Pittsburgh Cincinnati Chicago & St. Louis Ry.

*Car Ferry.*—The car ferry, which was established early in the summer of 1906 to operate between Ashtabula Harbor, on the American side, and Port Burwell on the Canadian side of LakeErie, as mentioned in the report for 1906, was in operation from April 1 1907 to the end of January 1908, with very satisfactory results, over 6,000 cars, containing over 200,000 tons of coal, having been thus transported into the Dominion of Canada.

*Rolling Stock—Financial Depression.* The locomotives on both systems were increased in numbers and capacity, while the freight car equipment on the Northwest System was increased 650 cars.

It should be noted, however, that, owing to the changed conditions brought about by the financial panic, which occurred in November last, there has been a very large falling off since that date in the traffic and revenues of your system. This has resulted in the enforced idleness of a heavy percentage of your equipment and a material reduction in your operating forces.

*Purchase.*—The entire capital stock and bonds of the Chicago Indiana & Eastern Ry. Co. were purchased by your company during the year, and the road, which extends from Converse to Muncie, Ind., about 43 miles, has by agreement been operated since May 1 1907 by the Pittsburgh Cincinnati Chicago & St. Louis Ry. Co. for your account.

The $50,000,000 of Pennsylvania Company 4½% collateral improvement notes issued May 1 1906, were paid at maturity, Nov. 1 1907, out of cash on hand and the proceeds of the ($36,393,432) Oregon Short Line RR. notes which were held in your treasury.

*Telegraph Contracts.*—Various contracts with the Western Union Telegraph Co., covering the lease of the telegraph privileges on the lines associated in your system, having expired several years since, and the provisions thereof having been continued from year to year by mutual understanding until Sept. 23 1907, new contracts were then entered into providing for the operation of the telegraph on these lines for 20 years from Oct. 1 1907 and thus adjusting all questions at issue connected therewith.

## Sao Paulo (Brazil) Tramway, Light & Power Co., Ltd.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President Wm. Mackenize, Toronto, April 29 1908, said:

*General Results.*—The gross earnings were $2,111,523, as compared with $2,018,704 for the previous year, an increase of $92,819, and the net earnings were $1,395,873, compared with $1,368,163 during 1906. After the payment of bond interest, taxes, &c., $359,422, and three quarterly dividends of 2% each and one of 2¼%, $691,476, there remained a balance of $344,975, of which there was placed to the credit of contingent account $100,000 and to the credit of profit and loss $244,974.

From the contingent account $132,074 was expended in renewing sections of the transmission line, portions of track, overhead lines, &c., leaving to the credit of this account $74,097. In addition the company has maintained its system in excellent condition.

The demand for light and power is increasing rapidly. There are now in use 45,570 arc and incandescent lamps, compared with 38,119 in 1906; an increase of 19.5%, while the number of customers shows an increase of 57. The number of power customers at the close of the year was 310, as against 245 Dec. 31 1906; the motors installed increased by 108, the horse-power contracted for shows an increase of 1102½ h. p.

*Capital Expenditure.*—Continuing the construction of the Santo Amaro reservoir, enlarging the power station and additions to the hydraulic plant at Parnahyba, extensions to tracks, &c., necessitated the expenditure of $743,872.

Work on the Santo Amaro reservoir was somewhat delayed, but the reservoir will be ready for the storage of water by June 1 next.

A contract has recently been placed for the seventh unit of the hydraulic plant, which should be ready for operation before December 1908; also for the necessary transformers and other apparatus required for the utilization of the current from this seventh unit, both at Parnahyba and at the substation at Sao Paulo.

Twelve cars were constructed during the year in the company's shops and orders have been placed for the necessary material for 25 additional.

*Santa Anna Railway.*—The company acquired by purchase the rights and property of the Santa Anna Railway, a narrow-gauge mule line extending from the terminus of one of our trunk lines at Ponte Grande to Santa Anna, a distance of between one and two miles. While already profitable, as soon as the line is electrically operated much larger returns will be obtained.

*Municipality of Sao Bernardo.*—The company has recently secured an exclusive 30-year concession for the distribution of light and power in the manufacturing municipality of Sao Bernardo, including the town of that name, distant 10 miles from Sao Paulo. The company has already secured favorable contracts for power in this locality and a large increase in the demand seems reasonably certain.

*Increase in Capital.*—At a special meeting of shareholders held on Dec. 27 a by-law was ratified authorizing the increase of the capital stock from $8,500,000 to $10,000,000; the issue to be used from time to time as the demands of the company require.

*Rate of Exchange.*—In our last annual report attention was called to the fact that legislaton was passed by which the Government hoped to maintain the rate of exchange at about 15d. for the milreis. During the year exchange has remained practically constant at 15 to 15¼ pence.

## United States Rubber Co.

*(Report for Fiscal Year ending March 31 1908.)*

President Samuel P. Colt, May 19 1908, writes in substance:

*United States Rubber Co.*—It is a source of satisfaction that, in spite of the great business depression throughout the country, the business of the company compares favorably as it does with that of the previous year—the largest in its history, especially as due consideration is to be given to the fact that our fiscal year ends March 31, thus including six months largely affected by the financial depression. For the first six months—April to September 1907—the business was largely in excess of the corresponding period for the previous year.

*Funding Notes.*—The funding notes which matured March 15 1908 were provided for by the sale of a new issue of like notes for the same amount, payable Sept. 15 1909. (Compare V. 86, p. 606.)

*Boston Rubber Shoe Co. Debentures.*—Arrangements have been made for payment of the issue of $4,800,000 debenture bonds of the Boston Rubber Shoe Co., which matures Aug. 1 1908, through the sale of a new issue of $4,500,000 of similar debenture bonds, payable Sept. 15 1910, the balance to be provided for by cash in the treasury. (See V. 86, p. 1163.—Ed.)

*Profits and Prices.*—The net profits of the company for the past year, not including the company's proportion of surplus earnings of some of its subsidiary companies not actually received in dividends, are $3,553,556, which are considered satisfactory in view of the manufacturing and selling conditions which have existed during the year, and taking into account the conservative prices at which materials on hand have been inventoried in our balance sheet of March 31 1908.

The company did not advance the selling price of its manufactured goods in comparison with the abnormally high price of crude rubber which prevailed early in the year, and the lower price now prevailing for this important item in the cost of our goods should enable the company to receive a larger, yet reasonable, profit on its product for the coming year, as our selling prices remain unchanged.

The company has paid the regular 2% quarterly dividends on its first preferred stock and 1½% quarterly dividends on its second preferred stock.

*Export Business.*—Important changes have been made in the conduct of our export business which, while materially reducing the expense in the operation of this department, should tend to satisfactory results.

*Rubber Goods Manufacturing Co.*—The business of this company held up remarkably well during the calendar year 1907. The net results obtained, considering the general trade conditions during the latter part of the year, are all that could reasonably be expected.

*Outlook.*—The promptness with which the entire business of the company was adjusted to the difficult conditions prevailing during the last six months reflects credit on our various departments and subsidiary companies, and, coupled with the fact that we have kept our mills in excellent physical condition, warrants us in anticipating that, with a return of general prosperity, we may look for improved results.

*CONSOLIDATED INCOME ACCOUNT OF THE UNITED STATES RUBBER CO. AND ITS SUBSIDIARY COMPANIES.*

| Total | $12,683,598 | $12,168,234 | $7,158,6 7 |
| *Liabilities*— | | | |
| Preferred stock | $4,500,000 | $4,000,000 | $4,000,0 0 |
| Common stock | 7,000,000 | 7,000,000 | |
| Bills payable | 300,000 | 360,000 | |
| Accounts payable | 29,644 | 87,273 | 77,054 |
| Surplus | 853,954 | 720,961 | 3,081,553 |
| Total | $12,683,598 | $12,168,234 | $7,158,60 |

*This item includes in 1907 and 1908, "patents, patent rights, trademarks, trade names and good-will"; the items shown in the earlier year were termed "patent rights."

As to reduction of dividend payable in July, see item on another page.—V. 85, p. 528.

## Diamond Match Co.

*(Official Statement—"27 Years, 1881 to 1908," &c.)*

In a handsomely illustrated work of 65 pages, 12x9 inches, President O. C. Barber describes the status of the enterprise and its prospective need for new capital:

*Plants.*—We have concentrated our operations in as few plants as possible, and at one factory 60% more matches were produced in the year 1907 than the Diamond Match Co. of Connecticut manufactured at all of its plants in the year 1881; and this was accomplished with the employment of one-sixth of the total number of men employed by the Connecticut Co.

The match factories of your company in the United States are at—

| | | |
|---|---|---|
| Barberton, Ohio. | Detroit, Mich. | Portland, Me. |
| Oshkosh, Wis. | Oswego, N. Y. | Chico, Cal. |

The Barberton factory has a capacity for producing 225,000,000 matches per day. At Barberton, Ohio, we have a machine shop completely equipped with special tools for the construction of match-making and other machinery used in our factories.

*Timber Supply.*—With the exhaustion of the timber supply in Michigan and Wisconsin, attention was directed to the Northwestern pine forests, and some years ago purchases were made of large tracts of land in California, and as recently as a year ago a lot of about 85,000 acres, a part of which adjoins the land which had, prior to that time, been acquired by the company, was bought. These purchases were made in conjunction with Bryant & May, Ltd., and represent at the present time holdings of upward of 180,000 acres of land, on which it is conservatively estimated there are 3,500,000,000 feet of timber. The lands lie in Butte and surrounding counties in California, some 35 to 45 miles to the west and northwest of Chico. At a point 32 miles from Chico the town of Stirling was located and an extensive saw-mill was built there, and from this point about 20 miles of logging railroad, owned by the company, extends through its forests, and is being added to from time to time as the lands are cut over. A railroad 32 miles long was built to connect Stirling with the town of Barber, but on its completion it was sold to the Chico Northern Ry. Co., from whom it was leased by the Butte County R.R. Co. for a term of years, all profits accruing from its operation are paid to your company.

At Barber the sash, door, blind and veneer factories, planing-mills and match factory are located. These plants are (among) the best of their kind in the United States and are most favorably located for the manufacture of lumber into its various products. To provide for marketing the products of the mills at Barber and Stirling, retail yards are maintained by the company at Chico, Yuba City, Maxwell, Colgate, Woodland, Corning, Gridley, Orland. These yards were acquired a year ago at the time your company bought the Sierra Lumber Co.'s tract, and they have proved so advantageous that it has been determined to retain them, notwithstanding that in the neighborhood of $1,000,000 to $1,200,000 are employed therein in accounts and bills receivable, and lumber on hand. The timber holdings of your company in California were bought at a low price, and in view of the rapidly diminishing supply of timber in the United States, I cannot but believe that in them you have a most valuable asset.

In addition to its holdings in California, your company owns timber rights in and to about 25,000 acres of land in Massachusetts and Maine and operates mills at Biddeford, Me., and Athol, Mass., at which points blocks out of which the match splints or sticks are made are manufactured and where shooks are manufactured for the cases in which the matches are packed.

At Southford, Conn., a plant is located where box board is made, and from which board is shipped to our adjacent factories and used for the boxes in which the matches are packed.

*Foreign Business.*—The company is also interested in the match business in the following countries: England, Switzerland, Germany, South Africa, Peru, Canada and Manila.

*Increase in Output, Expenses, &c.*—Your company has sought not only to reduce the cost of manufacture but constantly to improve the character of its product. Notwithstanding the constant improvement in machinery and methods, it has been impossible to effect any reduction in cost, owing to the constantly advancing price of material and labor. During the past ten years, practically every article entering into the manufacture of matches has greatly advanced in value, and hence the cost of production has risen year by year. No increase, however, has been made in the prices. The profit, therefore, per unit of each commodity has been correspondingly reduced, nevertheless, our aggregate profits each year are largely increased by reason of the increased volume. Although the population of the United States shows an increase in the last 27 years of only 72%, the volume of the company's sales shows an increase in the same period of 144%.

*Prospective Needs for New Capital.*—If the annual cut from the timber holdings of the company in California be increased to a minimum of 250,000,000 feet per annum, the cost of operations can be reduced and the profits increased, not only by reason of the larger cut, but also because of lower costs. To accomplish this object, however, additional investment will be required and your directors will in due time give due consideration to this question.

Near Stirling City, Cal., we have a water power which it is estimated will develop a minimum of 6,000 h.p., and we have recently acquired another water-power which will develop several thousand horse-power. These water-powers can be successfully utilized in connection with the waste from the saw-mills in the manufacture of pulp, paper and paper board, of which we use large quantities each year. An elaborate report was prepared some months ago of the cost of a plant for producing this material. A reproduction of the drawings of the proposed plant will be found in the following pages and may be of interest to you. If, after further consideration, your board concludes it would be profitable to engage in this business, you will be notified.

Additional manufacturing facilities are peremptorily needed to supply the demand for our matches; and action will no doubt be taken by your board in the near future, authorizing the construction of a large addition to one of our existing factories.

If your company continues to grow in the future as it has in the past, it will undoubtedly be considered desirable to increase the capital from time to time, as new plants are built and the business extended, and opportunities will thus be afforded shareholders to add to their holdings through the purchase at par of their proportionate share of the new issue.

---

At the annual meeting held in Chicago on May 6 the shareholders unanimously approved the proposition to purchase the interest of Bryant & May (V. 79, p. 2590) in the California timber property (see below). President Barber on this occasion, commenting on the results for the year (which were given in V. 86, p. 719), etc., said in part:

The operations of the company for the year 1907 were very satisfactory, the largest profits in our history having been realized, notwithstanding that in the last two months of the year trade fell off sharply, due to the disturbed financial conditions then prevailing. The depression in our business, however, was of short duration; in January and February our shipments showed a large gain over the corresponding months of 1907, and every indication at this time (Mar. 6 1908) points to the volume for the year 1908 being equal to if not in excess of last year. So rapidly has our trade grown during the past few years and so active is it at the present time that the maximum productive capacity of our plants is taxed to the utmost to enable us to fill our orders. At a recent meeting of the directors it was decided to immediately build a large addition to the Barberton works, which it is hoped will be completed by the end of the year. This addition, it is said, will cost about $450,000.—Ed.)

At your meeting in May 1907 you were informed of the purchase from the Sierra Lumber Co. of about 91,000 acres of timber land in California for $1,000,000, and in addition thereto lumber, merchandise and supplies at inventoried value. Included in the property thus acquired were eight retail yards situated in different towns in the Sacramento River Valley, which, with stocks of lumber, merchandise and supplies on hand, represented an aggregate investment of about $150,000. The period during which we have operated the Sierra properties has demonstrated that we were most fortunate in having acquired them.

Bryant & May, Ltd., who joined us in making the first purchases in California, and tentatively participated in the later acquisitions, have been most insistent that a separate company be organized to take over and operate the entire California proposition embracing our interests as well as their own, in order that through the sale of the bonds or debentures of such company, a considerable portion of their investment might be returned to them and used in the development of their match business.

As an alternative, they have offered to sell us all of their interests in California at cost, plus interest at 5% per annum, computed annually. This will amount to about $2,250,000 as of Dec. 31 1907; of this sum $500,000 to be evidenced by our notes, payable four years hence, and to provide for the payment of which the preferred non-voting stock of Bryant & May, Ltd., owned by us, worth about $500,000 and yielding about 5½% per annum at present market prices, to be set aside and sold, and the proceeds applied toward the reduction or payment of the notes in question; the remainder of the purchase price, namely, $1,750,000, to be paid in semi-annual installments, the last payment to be made Jan. 15 1923, interest at 5% to be paid semi-annually.

The directors have unanimously voted in favor of accepting the proposition; they believe it desirable to acquire Bryant & May's interest in California (one-half of which may be said to belong to us through our ownership of one-half of the common stock of Bryant & May, Ltd.). In perfecting a machine on which we have been working for a number of years, we have found that we can most advantageously employ lumber from California in the manufacture of matches in a way that was not thought of until a short time ago and the results so far accomplished justify my assuring you that in connection with this operation alone your California timber lands will prove of great value to your match business.

The condition of your company is most satisfactory; its organizations in all departments are working energetically and harmoniously, and at no time has the outlook appeared more promising.

In his informal remarks, President Barber is reported as saying: "In 1881 the Diamond Match Co. was organized with 36 factories in the United States, employing 5,000 people. Every plant had a separate organization. In 1907 one factory made 60% more matches than were consumed in this country in 1881, and it employed only 850 people.—Ed.) —V. 86, p. 719, 111.

## GENERAL INVESTMENT NEWS

### RAILROADS, INCLUDING STREET ROADS.

**Alaska Central Ry.**—*Receivership.*—A cable dispatch from Fairbanks, Alaska, states that on May 21 Judge Reid, upon petition of John E. Ballaine, representing Seattle and Eastern interests to the amount of $3,000,000 of bonds, appointed John F. Goodwin receiver of the Alaska Central Ry. Co. and the Tanana Railway Construction Co. A. C. Frost of Chicago and H. O. Osborne of Toronto were leading spirits in the enterprise.—V. 84, p. 1112.

**Atlanta & Carolina (Electric) Ry.**—The company incorporated on Aug. 17 1906 with $5,300,000 authorized (common) stock, in $100 shares, has filed a mortgage to the Chicago Title & Trust Co. of Chicago, as trustee, to secure an issue of $6,000,000 of 5% 30-year gold bonds, dated March 24 1908. The Atlantic & Carolina Construction Co. was incorporated in May 1905 with $1,000,000 stock to build the proposed road, between Atlanta and Augusta, Ga., about 200 miles. The contract for construction in Atlanta was awarded in Oct. last and active construction, it is said, will begin in June next.

The bonds are due July 1 1938 but are subject to call at par, beginning with 1912, $140,000 annually, or 2 1-3% of all bonds issued. Interest payable January and July at Atlanta, Ga. The trust deed provides that bonds may be issued at $28,000 per mile, with additional amounts for double-tracking, extensions, &c. The mortgage covers all property now owned or hereafter acquired. The company has the right to use either steam or electric power, but electricity has been adopted. Officers: President, J. W. English; Vice-President and General Manager, M. Mason; Secretary, M. T. Edgerton; Treasurer, Jno. K. Otley. Office, Prudential Building, Atlanta, Ga.

**Atlantic Coast Line RR.**—*Cash Dividend Resumed, with Rate Reduced from 6% to 5%.*—The directors on Thursday declared a semi-annual dividend of 2½% on the common stock ($48,537,600), payable in cash July 10 to holders of record June 22. The dividend last January amounted to 3%, and was paid in Atlantic Coast Line RR. 4% certificates of indebtedness.

*Annual Cash Dividend Record Prior to 1908.*

| DIVIDENDS (%) | '00. | '01. | '02. | '03. | '04. | '05. | '06. | '07 |
|---|---|---|---|---|---|---|---|---|
| Common (incl. Class "A") | 2½ | 3½ | 5 | 5 | 5 | 6 | 6 | |
| Preferred (M & N) | 2½ | 5 | 5 | 5 | 5 | 5 | 5 | 5 |

—V. 85, p. 1576.

**Bullfrog-Goldfield RR.**—*New Mortgage—Change in Control—Holding Co.*—See Tonopah & Tidewater Ry., below—V. 85, p. 1461.

**Camden & Trenton (Electric) Ry.**—*Notice to Bondholders.*—The protective committees, A. M. Taylor, Chairman, representing severally the general mortgage bonds of the Camden & Trenton Ry., the first mortgage bonds of the Trenton & New Brunswick RR. and the New Jersey Short Line RR., have issued a final notice that all bonds must be deposited with the depository, the West End Trust Co., Philadelphia, before May 25 1908. A Philadelphia paper says:

It is stated that more than 90% of the general mortgage bonds of the Camden & Trenton, over 75% of the Trenton & New Brunswick bonds and over 70% of the New Jersey Short Line bonds have been deposited. [It was announced a month ago that about $450,000 of the first mortgage bonds of the Camden & Trenton had been deposited with the Union Trust Co., Philadelphia, at the request of the committee, of which Edward Powell is Chairman.—Ed. "Chronicle."]—V. 86, p. 856, 793.

**Canadian Pacific Ry.**—*New Director.*—Hon. James Dunsmuir, Lieutenant-Governor of British Columbia, has been elected director to succeed Clarence Mackay, who retired, owing to his inability to attend the meetings of the board.—V. 86, p. 720, 601.

**Carbon County (Pa.) Street Ry.**—*Sold.*—At the receiver's sale in Mauch Chunk on May 17, this property, including the trolley road from Mauch Chunk to Lehighton, power house, &c., was bid in for $20,000 by J. M. Dreisbach and Lafayette Lentz of Mauch Chunk and Andrew S. Keck of Allentown, representing a majority of the bondholders.—V. 80, p. 1362.

**Chesapeake Western Ry. Co.**—*New Officers.*—W. E. D. Stokes, 100 Broadway, New York City, has been made President, succeeding Robert McM. Gillespie, resigned, and A. H. Gleason has been elected Vice-President in place of Mr. J. J. Vatable, resigned. See V. 86, p. 1041, 980.

**Chicago Consolidated Traction Co.**—*Purchase of Coupons of Underlying Companies by Chicago Railways Co.—Explanation.*—The "Chicago Economist" of May 16 said:

There has been some query concerning the announcement of the company to the bondholders of the underlying companies, namely, the Cicero & Proviso Street Ry., Ogden Street Ry., North Side Electric and Chicago & Jefferson Urban, that the Chicago Railways Co. will buy the coupons maturing May 1 1908, detached from the bonds in the case of all bondholder willing to sell on the understanding that the coupons are to be kept alive as the property of the Chicago Railways Co. Formerly, the Union Traction paid the deficits of the Consolidated Traction and the coupons were canceled, but, under the new ordinance, the operating agreement becomes more indefinite and uncertain and advances to the company attended with greater risk. Consequently, the Chicago Railways Co. is holding the coupons alive against its advances to the Consolidated for the purpose of paying the coupons of the underlying bonds. If at any time in the future the operating agreement should be annulled, these coupons would be a lien on income prior to the coupons current at that time. This would probably result in placing the company in receivership until the advances made by the Chicago Railways Co. against the coupons of the underlying bonds should be met. Current coupons could not be paid until coupons bought by the Chicago Railways Co. were re-purchased and canceled.—V. 86, p. 1159.

**Chicago & Eastern Illinois RR.**—*Offering of Equipment Trust Notes.*—William Salomon & Co., New York, &c., are offering by advertisement on another page, at prices to yield 5½%, equipment trust 5% gold notes of $1,000 each, series "G," dated Oct. 1 1907. Amount of issue, $2,480,000; outstanding, $2,356,000; due in 19 semi-annual installments of $124,000 each, from Oct. 1 1908 to Oct. 1 1917, inclusive. Bankers' Trust Co., New York, trustee. Interest coupons payable April 1 and Oct. 1. A circular says:

These notes are a direct obligation, issued for the purchase of 2,000 new steel-frame dump cars of 100,000 lbs. capacity each. The cost of the cars was $2,737,912, of which the railroad company paid $257,912 in cash and $124,000 on the maturity of the first installment, thereby giving a total margin of 16% on the par value of the notes now outstanding. Title to the equipment is vested in the trustee until all of the notes are paid. The company has paid annual dividends of 6% per annum during the past 15 years on its preferred stock, of which $8,830,700 is now outstanding, and during the past 10 years dividends ranging from 2% to 10% on its common, of which $7,217,800 is outstanding.—V. 86, p. 917.

**Chicago Railways.**—*Relations with Chicago Consolidated Traction Co.—Reason for Purchase of Coupons of Its Underlying Roads.*—See Chicago Consolidated Traction Co. above—*New Securities Ready.—Assessment.*—The Chicago Title & Trust Co. and the Harris Trust & Savings Bank, both of Chicago, have received and are ready to deliver in exchange for the certificates of deposit of the Harris Trust & Savings Bank and the Farmers' Loan & Trust Co., the appropriate securities in engraved form of the Chicago Railways Co., in respect of stock of the following companies:

| | |
|---|---|
| North Chicago City Railway | West Chicago Street Railroad. |
| Chicago West Division Railway. | Chicago Union Traction Co. |
| North Chicago Street Railroad. | Chicago Passenger Railway. |

The time for the payment of the assessments in respect of the stock of the West Chicago Street RR. Co., North Chicago Street RR. Co. and Chicago Union Traction Co. expires at the close of business June 17 1908. The assessments must be paid before the new securities will be issued.—V. 86, p. 1223, 1159.

**Chicago Subway Co.**—*New Bond Issue—Proposition to Holders of* $17,000,000 *Bonds of Illinois Tunnel Co.*—J. B. Russell & Co., N. Y., Chicago, etc., who as fiscal agents placed $17,000,000 bonds of the Illinois Tunnel Co. (the remaining $13,000,000 of the authorized issue having been pledged to secure loans aggregating $9,500,000), are sending to the holders of these bonds a circular dated May 18 containing a summary of the proposition made by the Chicago Subway Co. to exchange said bonds for an equal number of bonds of the Chicago Subway Co., bearing the same rate of interest. The firm says:

The parties now in control of the company realize the importance of having but one mortgage covering the whole property to provide means for its entire future financing, and permit of the full development of its present departments and the acquiring of such other interests as will materially augment the strength and importance of the company's position and largely increase its earning power.

From every standpoint the exchange is an advantageous one for the bondholders of the Illinois Tunnel Co.

The Chicago Subway bonds have the additional security of the Chicago Warehouse & Terminal Co., which fact would warrant the exchange without any other inducement, as the Terminal Co. owns all the leases made with the railroads and private property with which the tunnel is connected. This control of the exits from the tunnel under long-time leases is a very great protection to the property and its securities.

The parties in control also plan to extend the loans already made the Tunnel Co., pending their offering for sale the Subway bonds, and to advance $1,000,000 more for construction and equipment purposes as required by the growth of the business.

We earnestly hope the holders of bonds will at once forward them for deposit under the plan to the United States Mortgage & Trust Co., 55 Cedar St., New York City, being careful not to detach the June 1 1908 coupon from the bonds, as the Trust Co. will remit its check for all June 1 1908 coupons attached to bonds deposited. For such bonds as may be pledged as collateral to loans, kindly sign and forward the enclosed "agreement to deposit," which agreement should be marked "confirmed," and also signed by the payee of the loan to which they are pledged.

All expenses for express or insured registered mail charges will be borne by the Subway Co.

**Summary of Plan Promulgated May 13 1908.**

*Proposed "First Lien" Bonds.* The Chicago Subway Co. proposes to authorize an indenture of mortgage and pledge to secure an issue of 20-year 5% "first lien bonds," dated June 1 1908, redeemable at 105, and containing provisions for subsequent issues of additional series of bonds bearing a lower rate of interest and maturing later than June 1 1928. Said indenture shall contain provisions for the release from the lien of the mortgage of the Illinois Tunnel Co. and the sale, lease or other disposition of the telephone properties and rights of said Tunnel Co., or of any interest therein by virtue of the deposited Tunnel bonds

(The plan provides that "no maximum of the amount of bonds to be issued" under the new indenture, "shall be fixed, the matter being covered by provisions limiting the purposes for which bonds may be authenticated by the trustee."—Ed.)

*Par in New Bonds for Illinois Tunnel Bonds—June Coupon to Be Purchasd for Cash.*—The Subway Co. will purchase all first mortgage bonds of the Illinois Tunnel Co., dated Dec. 1 1903, which may be deposited in acceptance of this plan on or before July 1 1908 (or such later date as its directors may specify), accompanied by the coupons maturing June 1 1908, and subsequently, on the following terms: For the principal of all such Tunnel Co bonds an equal amount, par value, of Subway Co. bonds will be paid in exchange, and the June 1 1908 coupon pertaining to such deposited Tunnel bonds will be purchased for cash at par.

*Directors May Declare Plan Operative or Abandon It—June Coupon Purchased in Any Case.*—This plan and any provision therein contained shall become operative only if and when, in the opinion of the board of directors of said company, a sufficient number of Tunnel Co.'s bonds have been deposited. If the plan shall be abandoned, all deposited securities shall be returned without charge, except that said June 1 1908 coupon so purchased shall remain the absolute property of the Subway Co. or its assigns.

*Extension of Loans -$1,000,000 New Money.* The Subway Co. will arrange, from time to time, for an extension of the loans mentioned in the aforesaid agreements of Sept. 17 1906 and June 3 1907, for such periods and on such terms and conditions as the directors of the Subway Co. may approve, it being contemplated to obtain extensions of such loans, if necessary, to May 31 1910; and the Subway Co. will also arrange to lend to the Illinois Tunnel Co. and the Chicago Warehouse & Terminal Co. such funds as may be required by them for construction and equipment purposes and for the purchase or payment of maturing obligations, principal and interest (the aggregate of which is estimated to be $1,000,000 to Nov. 30 1908).

*Depositary.*—The United States Mortgage & Trust Co. is to act as depositary under an agreement dated May 12 1908, granting to said Subway Co. full power to take all proceedings necessary to carry out the proposed arrangement.

Compare circular in V. 86, p. 720.—V. 86, p. 794.

**Columbus Delaware & Marion (Electric) Ry.**—*Preferred Stock.*—The company filed on May 19 a certificate of reduction of capital stock from $2,500,000 to $2,100,000, and increase to $3,000,000 by issuance of $500,000 "A" preferred 6% cumulative dividend stock and $400,000 "B" preferred, entitled to cumulative dividends of 1%, first year, one additional per cent each year to sixth year, and 6% thereafter.—V. 86, p. 546.

**Delaware Lackawanna & Western RR.**—*Building Sold.*—This company has sold to the Farmers' Loan & Trust Co. the building at the southeast corner of William St. and Exchange Place for a price said to be about $700,000.—V. 86, p. 546, 543.

**Denver Northwestern & Pacific Ry.**—*Reported Sale of Terminal Bonds.*—The "Railway Age" of Chicago states that a block of $1,800,000 bonds on this company's Denver terminal property has been sold in London.

The Northwestern Terminal RR. was organized in July 1904 with $2,500,000 capital stock, to build terminals in Denver for this company and any other road or roads which might wish to connect with it. (Compare V. 79, p. 1705; V. 81, p. 1315; V. 82, p. 1211.)—V. 86, p. 167.

**Denver & Rio Grande RR.**—*Notes.*—The new notes referred to in our last issue, which have been sold to finance the completion of the Western Pacific Ry., will be dated Aug. 1 and mature Aug. 1 1911 or 1913; interest dates Feb. 1 and Aug. 1, on which dates they may be converted into the new first and refunding mortgage 5% bonds of the Denver & Rio Grande at the rate of 110 for the bonds. These bonds will bear date July 1 1908 and $22,500,000 of them will be deposited as collateral to secure the $15,000,000 of Denver & Rio Grande 6% convertible notes.—V. 86, p. 1224, 1159.

**Detroit Flint & Saginaw Ry.**—*Foreclosure Sale June* 18.—The Detroit Trust Co., the mortgage trustee, gives notice by advertisement on another page that the sale of this property will take place June 18 1908 at Flint, Mich.

The company was organized to build an electric railway between Saginaw and Flint, Mich., of which 12 miles from Saginaw south though the village of Bridgeport to the village of Frankenmuth is now being operated by a receiver. Power-house and car barns located at Bridgeport. Franchises for complete right of way from Saginaw to Flint will be sold with the physical properties of the road as an entirety. The road, when completed, would consist of only about 35 miles.—V. 86, p. 856.

**Illinois Central RR.**—*New Stock, &c.—Authorized.*—The shareholders at their special meeting on May 18 approved the following propositions:

To increase the capital stock $28,512,000, making a total of $123,552,000. (The vote in this case was 633,785 against 48 in opposition.)

To ratify the purchase of the Kensington & Eastern and the Memphis & State Line Railroad companies.

As stated in a circular cited in the "Chronicle" of April 18 (p. 981) shareholders of record May 28 will be permitted to subscribe at par until July 7 for $14,256,000 of the new stock to the extent of 15% of their respective holdings, subscriptions payable 50% July 7 and 50% Sept. 17.—V. 86, p. 720, 981, 1042.

**Illinois Tunnel Co.**—*Proposition to Bondholders.*—See Chicago Subway Co. above —V. 86, p. 794, 720.

**Maine Central RR.**—*Offering of New Guaranteed Bonds for Refunding.*—See Portland & Ogdensburg Ry. below.—V. 86, p. 229.

**Interborough-Metropolitan Co., New York.**—*Extension for Two Years of 6% Notes Issued in May 1907.*—Arrangements have been made to extend at the same rate of interest until May 27 1910 the time for payment of the principal of the remainder, $4,545,000, of the issue of $8,000,000 6% notes which were issued a year ago and which, as extended last November, would otherwise have matured May 27 1908. (See collateral, &c., V. 84, p. 1248; V. 85, p. 1401).—V. 86, p. 1159, 475.

**International & Great Northern RR.**—*Judgments Entered.*—Seven judgments, aggregating $4,929,098, were entered against the company in the Fourteenth District Court at Dallas on May 14, in favor of the following plaintiffs:

| *Plaintiffs* — | *Judgm'en* |
|---|---|
| Frank J. Gould on one-year 5% note made in 1899 by Calvert Waco & Brazos Valley RR., The International & Great Northern having absorbed the road, on Feb. 21 1908 endorsed the note | $181,941 |
| Missouri Pacific Ry. on 6% notes dated Feb. 21 1908 | 191,633 |
| Pacific Express Co. on six notes, bearing 4% interest until Jan. 1 1908, thereafter 6%, three notes aggregating $300,000 dated in 1901, one for $20,000 dated 1903, two aggregating $75,000 dated 1905 | 491,271 |
| George J. Gould on three notes, one dated 1903 for $25,000, one dated 1904 for $24,000, one dated Feb. 21 1908 for $76,751 | 128,531 |
| Helen M. Gould on 6% notes for $170,104, dated Feb. 21 1908 | 172,968 |
| Edwin Gould on promissory note for $170,104 | 172,968 |
| George J. Gould, Edwin Gould, Howard Gould and Miss Helen M. Gould, executors of the will of Jay Gould, on 29 notes, executed to Jay Gould and now past due | 3,589,788 |

—V. 86, p. 1159, 1042.

**Lehigh & Hudson River Ry.**—*Issue of Bonds Authorized.*—The Public Service Commission, Second Division, on May 18 granted the application of the company to issue additional general mortgage bonds, $270,000 of the $300,000 requested being allowed. The new bonds are to be issued for sidings, bridges, engine, car-house and machine shop. These bonds, when sold, will make the total amount of the issue outstanding, $1,590,000.

The Commission lays down the rule that an issue of stock or bonds cannot be permitted to reimburse the treasury of the applicant for improvements previously paid for out of earnings. The statute, it is held, permits capitalization for four purposes only, namely, the acquisition of property, the construction, completion, extension or improvement of facilities, the improvement or the maintenance of service and the discharge of lawful refunding obligations.—V. 85, p. 1513.

**Marietta Columbus & Cleveland RR.**—*Agreement Canceled.*—The Toledo & Ohio Central Ry., which on Feb. 1 began operating this road as agent, recently gave notice of its intention to relinquish the arrangement.—V. 86, p. 480.

**Metropolitan Street Ry., New York.**—*Appellate Court Affirms Order Authorizing Receiver's Certificates.*—The United States Circuit Court of Appeals in this city on Wednesday affirmed the decision of Judge Lacombe in March last authorizing the issue of $3,500,000 6% receiver's certificates having a lien prior to the $16,604,000 refunding 4s and $12,500,000 general collateral trust 5% bonds with modifications noted below. Compare V. 86, p. 857, 668.

The appeal was taken by the trustees of the two mortgages and other creditors who were opposed to the certificates being made a lien prior to the mortgages and other claims against the Metropolitan Street and New York City Ry. companies.

Judge Ward, who writes the opinion, says:

"The justification of displacing liens is the preservation of the property, and when but one common debtor is involved the preference affects only the lien creditors, because the debtor, owing all his debts alike, is indifferent to the order in which they are paid. When, however, as here, there is a lessee defendant and owner defendant, both insolvent, though it may be proper to displace for the common benefit liens on both properties, it is also proper to determine whether, *inter se*, the debt of the lessee should be imposed on the lessor or the liens on the lessor's property be displaced for the benefit of strangers to the lien creditors, viz.: the lessee and its creditors.

"The rights to be adjusted are those of: (a) the lessee's creditors, of whom the four-month creditors claim a preference; (b) the lessee's stockholders; (c) the lessor's lien creditors; (d) the lessor's general creditors; (e) the lessor's stockholders.

"We think the differences of the parties can be reconciled by a modification of the order providing that the certificates shall be issued by the receivers in their capacities as receivers of both companies and shall be given a preference out of the net income and property of the lessee and out of the net income of the lessor, in case it shall operate the property, and out of all other property owned or leased by the lessor covered by both mortgages aforesaid, in order to insure the marketability of the certificates. The ascertainment of the rights and priorities, *inter se*, of all persons interested in the premises are reserved, to be finally adjudicated as provided in the modified order, and the form of certificate is to be amended in accordance with this opinion.—V. 86, p. 1159, 1042.

**New York & Long Island RR.**—*Decision Affirmed.*—The Court of Appeals on Tuesday affirmed the decision of the lower courts, which refused to grant an injunction restraining the city from interfering with the construction of the tunnel, pending trial of the action brought to determine the validity of the company's charter. Compare V. 85, p. 1339, 1518. —V. 86, p. 669.

**New York City Ry.**—*Appellate Court Affirms Order for Receiver's Certificates.*—See Metropolitan Street Ry. above.

*Decision as to Car Rentals.*—The Appellate Division of the Supreme Court in this city on May 15 sustained the decisions of the lower court holding that the company is liable for car license fees of $50 per car per year used at any time during such year on the 6th, 8th and 9th Avenue lines. Compare V. 85, p. 1339.

The company contended that the license fees should apply to the average number of cars in daily use and paid what it conceded to be due. The city brought suit for the additional amount claimed to be due since 1902. The actions involve about $80,000, but the decisions will, if affirmed by the Court of Appeals, control suits involving about $500,000 and will permit the city to collect approximately $100,000 additional revenue annually from the system for car-license fees.—V. 86, p. 1043, 858.

**New York New Haven & Hartford RR.**—*Decision of Massachusetts Court.*—The opinion of the Massachusetts Supreme Judicial Court, referred to last week, holding illegal the control of six trolley roads in Massachusetts, was given in full in the "Banker and Tradesman" of Boston of May 16. The opinion concludes as follows:

"Directly or indirectly subscribing for, taking and holding or guaranteeing the bonds and dividends of another corporation in this Commonwealth, by a railroad corporation organized under our laws, is the exercise of that which would be a franchise if authority to do it had been granted by the Legislature." (The opinion points out that the necessary legislative permission was not obtained.—Ed.) "It is within the provision of the Stat. 1906, Chap. 372, and may be restrained by injunction under this statute." Compare item in last week's "Chronicle," page 1225.

*Suit by Government.*—The Government yesterday filed a petition in the U. S. Circuit Court at Boston alleging that the control of the various electric railways and the Boston & Maine constitutes a monopoly within the meaning of Sections 1 and 2 of the Sherman Anti-Trust Act, and praying that it be prevented from exercising the same.—V. 86, p. 1225, 1101.

**Northwestern Elevated RR., Chicago.**—*Sale of Equipment Bonds.*—The company has sold to N. W. Halsey & Co. and Russell, Brewster & Co. $140,000 6% equipment trust notes dated Feb. 1 1908 and due $14,000 each six months until Feb. 1 1913. These notes cover new equipment acquired at a cost of about $185,000, to meet the requirements arising from the opening up of the Ravenswood branch.—V. 86, p. 421.

**Pittsburgh Youngstown & Ashtabula RR.**—*Bonds Authorized.*—The stockholders on May 21 ratified the proposition to issue $15,000,000 4% bonds for refunding and other purposes. Compare V. 86, p. 795; V. 85, p. 95.

**Portland & Ogdensburg Ry.**—*Offering of Guaranteed Bonds.*—Lee, Higginson & Co., Kidder, Peabody & Co., R. L. Day & Co., Estabrook & Co., all of Boston, &c., are offering at 104¾% and interest, yielding 4.15%, the unsold portion of a new issue, limited to $2,119,000, or less than $20,000 per mile, of first mortgage 4½% bonds, dated Nov. 2 1908 and due Nov. 1 1928, guaranteed principal and interest by endorsement on each bond by the Maine Central RR. Co. Interest payable May 1 and Nov. 1. A circular says:

To be issued to refund an equal amount of bonds maturing Nov. 1 1908. Secured by a first mortgage on the entire property, consisting of 109.10 miles of road extending from Portland, Me., through the White Mountains to Lunenburg, Vt., comprising the main line of the Maine Central RR. to northern Vermont, and giving this system its outlet to Quebec and the West. We are prepared to deliver negotiable interim receipts of the Maine Central RR. Co. discounted at the rate of 4½% per annum to Nov. 2 1908 and exchangeable on Nov. 2 for the engraved bonds.—V. 81, p. 1551.

**Public Service Corporation of New Jersey.**—*Bond Issue Authorized.*—At the shareholders' meeting on May 18 the proposition to authorize an issue of $50,000,000 5% gold bonds was duly approved. The present issue will be only $3,725,000. See official statement by President McCarter in "Chronicle" of May 9, p. 1160.

**Rio de Janeiro Tramway Light & Power Co.**—*New Directors.*—The following additions have been made to the board of directors to represent the group of French and Belgian bankers which is handling the company's issue of second mortgage debenture bonds:

Edouard Ouellenec, a leading consulting engineer of Paris; Jean Javal, a well-known engineer connected with many leading electric-light and tramway companies in France, and Th. Verstraeten of Brussels, President of the Lisbon Gas Co. and having large interests in several Continental electric and gas enterprises.

*Offering of Second Mortgage Debentures.*—Of the $17,500,000 5% second mortgage debentures, running 50 years from April 1 1908, but subject to sinking fund drawing beginning April 1 1918, $4,450,000, or 22,250,000 francs, were offered on May 12 in Paris, Brussels and Liege at 82, the list closing on May 18.

At Paris subscriptions were received at the Banque Transatlantique, at the Credit Foncier et Agricole d'Algerie and by Razsovich et Gers.

*Status.*—A circular issued from the London office May 4 says in part:

All the construction work in Brazil, which has been in hand for several, years, is nearing completion. At Rio das Lages, where the hydro-electric installation is located, the work is well advanced. The large dam should be completed within the next 30 days.

In the power station at the present time there are three generators in commission, with an aggregate capacity of 26,000 h. p., which will be ample for the requirements of the business for the next six months. A fourth generator, of 8,700 h. p. capacity, will be ready for operation in 30 days. The last two generators have been shipped, and all the work at the power station in connection with the erection of the generators, transformers and switchboards should be finished by Sept. 1.

The company was supplying on April 1 to the City of Rio de Janeiro; Motors, 4,732 h. p.; arc lamps, 1,353; incandescent lamps, 19,945; ventilating fans, 538. Contracts have been closed for additional motors, 3,246 h. p.; arc lamps, 110; incandescents, 8,867. There is likely to be a large increase. The tramway system comprises of 130 miles of which 37 are operated by electric and 93 by animal traction. It is expected that 30 more miles will be converted and in operation by the end of the year, and that within two years the whole system will be operated electrically.

(The advertisement of the Paris bankers states that the gross receipts of the company in 1907 were 32,550,909 francs (say, $6,510,182.—Ed.) and the net receipts were 11,017,692 francs (or about $2,203,538.—Ed.). The income from the sale of electric energy, it is stated, is increasing at the rate of 200,000 francs ($40,000) a month, while the installation of electric service on the part of the tramway system still operated with animal power is expected to reduce the cost of operation thereof from 63%, as at present, to about 40%. The company's franchise for telephone service runs until 1928, for lighting till 1945, for tramways until 1970, and for electric energy for lighting and power service till 1990.—Ed.) Compare balance sheet, &c., in V. 86, p. 920, 1044, 1101.

**San Francisco Oakland & San Jose Consolidated Ry.**—*New Bond Issue.*—The shareholders have authorized a consolidated mortgage to secure $7,500,000 bonds, of which $4,500,000 will be reserved to meet the present debt of the old San Francisco Oakland & San Jose *Railway*, consisting of $3,000,000 first mortgage and $1,500,000 second mortgage 5s due in 1933. See V. 86, p. 722.

**Seaboard Air Line Ry.**—*Receivers' Certificates Over-Subscribed.*—A syndicate, with the National City Bank of New York as manager, has purchased $3,000,000 6% receivers'

certificates running for three years from June 1, but subject to call at any time after six months. The syndicate was oversubscribed. Receiver Warfield states that the issue is made to provide for the interest payments on underlying bonds, to pay the interest and principal matured and about to mature on the various car trusts, for certain new construction, and a number of other purposes designated in the decree of the Court.—V. 86, p. 1160, 1101.

**Seattle (Wash.) Electric Co.**—*Bonds Offered.*—N. W. Harris & Co., New York and Boston, and Lee, Higginson & Co. and Estabrook & Co., Boston, are offering at 93½ and interest, by advertisement on another page, $2,500,000 "consolidated and refunding mortgage" sinking fund 5% gold bonds dated Aug. 1 1907. Authorized issue, $25,000,000; outstanding (including the aforesaid $2,500,000), $5,000,000; reserved to refund outstanding bonds and notes, $9,249,000; remainder reserved under stringent provisions for future requirements. The company operates substantially all the street railways and does the greater part of the electric lighting and power business of the city of Seattle, the population of which has increased from 3,535 in 1880 to 42,837 in 1890, to 80,671 in 1900 and 240,000 (estimated) in 1907

*Gross Earnings of System for Cal. Years (Puget Sound Power Co. included.)*

| 1907. | 1906. | 1905. | 1904. | 1903. | 1902. |
|---|---|---|---|---|---|
| $4,104,794 | $3,239,971 | $2,685,223 | $2,348,631 | $2,096,725 | $1,878,101 |

*Income Account (Puget Sound Power Co. included.)*

| Cal. Year. | Gross. | Net after Taxes. | Interest. | Sink. Fund. | Bal., Sur. |
|---|---|---|---|---|---|
| 1907 | $1,104,794 | $1,457,970 | $595,610 | $87,360 | $774,110 |
| 1906 | 3,239,074 | 1,333,972 | 487,552 | 90,056 | 756,364 |

The net earnings in 1907 were substantially double the present interest charge ($735,850), although no benefit had then been received from the additions, extensions, &c., on account of which these $2,500,000 bonds were issued. The company has paid dividends of 6% per annum on its preferred stock continuously since October 1901, and up to March 31 1908 had accumulated a surplus of $1,512,994, which has been or will be put into the properties; $761,000 first mortgage bonds have also been retired at a cost of $586,006. Further particulars regarding the bonds, property, &c., were given last July in connection with the offering by the same firms of $1,500,000 bonds secured by the mortgage, but having a conversion feature not possessed by the later issues. See V. 85, p. 222.

**Southern Railway.**—*Offering of $15,000,000 Convertible Gold Notes Dated May 1 1908 and Payable on or Before May 1 1911.*—J. P. Morgan & Co. announce, by advertisement on another page, on behalf of the syndicate which has purchased the above-mentioned notes, that applications for the same at the price of 98½% and accrued interest, will be received, payable at their office, 23 Wall St., New York, as follows: On application, $50 per $1,000 note; on June 1 1908, $935 per $1,000 note and accrued interest.

As stated last week, holders of "two year 5% sterling notes maturing June 1 1908 and July 2 1908" may deposit their notes and will receive preference in allotment to the extent of the notes so deposited, and depositors of notes maturing June 1 1908 will receive a cash payment of $35 per note and depositors of notes maturing July 2 1908 will receive a cash payment of $30 per note in adjustment of difference in price and interest. Preference in allotment will also be given to registered holders of stock trust certificates making application on the special form enclosed.

Subscriptions will also be received and sterling notes maturing June 1 and July 2 may be deposited at the offices of J. S. Morgan & Co., 22 Old Broad St., London, E. C.

**Abstract of Letter from President W. W. Finley, New York, May 14 1908.**

The proposed issue of $15,000,000 6% convertible gold notes, payable on or before May 1 1911, are to be secured by pledge under trust agreement with New York Trust Co., trustee, of the following collateral:

$20,000,000 Southern Railway "development and general mortgage" 4% bonds, series "A."
2,500,000 Tennessee Central RR. prior lien mortgage 4% bonds.
2,000,000 Virginia & Southwestern Ry. first consol. mtge. 5% bonds.

The holders of notes are to have the right at their option at any time, upon five days' previous notice to convert their notes at par into the pledged Southern Railway "development and general mortgage" 4% bonds, series "A," at the following rates: Until and including May 1 1909 at 80% thereafter until and including May 2 1910 at 82½%, and thereafter until and including May 1 1911 at 85%, interest in each case, and upon both notes and bonds, being allowed and adjusted.

Subject to the prior exercise of the foregoing option, the railway company is to have the right at any time to withdraw any or all of said collateral by payment therefor in cash at the following prices: "Development and general mortgage" 4% bonds, series "A," at the same prices and for the same periods as provided above for conversion of the notes; Tennessee Central prior lien mortgage 4% bonds at not less than 85%; Virginia & Southwestern first consol. mortgage 5% bonds at not less than 90%, with accrued interest in each case. Such cash is to be applied by the trustee to the purchase or redemption of the notes as provided in the trust indenture

It is proposed to apply the proceeds of these notes substantially as follows

| | |
|---|---|
| To provide for capital obligations accrued and to accrue, representing generally the retirement of equipment obligations, the purchase of steel rail, construction now under contract, and additional betterments and improvements to the properties covered by the "development and general mortgage," say | $8,500,000 |
| To provide for the redemption of the sterling notes which will mature on June 1 and July 2 next, say | 3,000,000 |
| The balance to be used to reimburse the treasury to that extent for moneys heretofore expended for construction and capital account, say | 3,500,000 |

The retirement of the sterling notes and of capital and equipment obligations during the year 1908 will extinguish present fixed charges of the company to the extent of $375,000 per annum.

The above-mentioned $2,500,000 of Tennessee Central prior lien bonds are part of the total issue of $4,014,000 of said bonds which are secured by an absolute first lien at the rate of $13,700 per mile upon the property of the Tennessee Central RR. Co., extending from Nashville to Harriman, Tenn., with branches, and from Nashville to Hopkinsville, Ky., being in all 292 miles of railroad.

The above mentioned $2,000,000 first consolidated mortgage 5% bonds of the Virginia & Southwestern Ry. Co. are part of a total authorized issue of $7,000,000, of which, however, only $3,000,000, including those herein described, are to be immediately issued, the remainder being reserved under strict provisions for the retirement of first mortgage bonds, outstanding equipment obligations and for completion of lines now under construction. The $2,000,000 of such bonds herein described were issued for the recent acquisition of the Black Mountain Ry. (23.35 miles) and the Holston River Ry. (31.8 miles), and they are secured by a first lien upon those lines comprising 55.15 miles and also by a second lien, subject only to the $2,000,000 outstanding first mortgage bonds, upon the main line and branches of the Virginia & Southwestern Ry. Co., aggregating 138 miles in operation and about 18 miles under construction. (V. 86, p. 1102.)

The above-described $20,000,000 "development and general mortgage" 4% bonds are part of the total authorized issue of $200,000,000 of such bonds, of which, including the said $20,000,000 of bonds now to be pledged, there will have been issued and certified bonds aggregating $10,000,000.

*Equity in the Property, Subject to the "Development and General Mortgage" Above the Amount of Such Bonds Now Outstanding.*

| | |
|---|---|
| Total book value of the property covered by the "development and general mortgage" Dec. 31 1907 | $354,654,995 |
| Deduct all prior lien bonds outstanding | 189,062,500 |
| Deduct "development and general mortgage" bonds | 40,000,000 |
| Net book value of said property above "development and general mortgage" bonds outstanding | $125,592,495 |

This book value has been approved by certified public accountants from year to year. The *total* capital assets of the company on Dec. 31 1907 were $441,000,000.

The "development and general mortgage" is a lien ranking ahead of the entire capital stock and of all unsecured obligations. Thus while only $20,000,000 of development bonds out of the $40,000,000 above mentioned have been sold, and while a large part of such development bonds were issued to fund the cost of property acquired prior to Jan. 1 1906, there has been actually spent on the property in enhancement of the security of the development mortgage bonds since Jan. 1 1906 to March 31 1908, or since the development mortgage was created, $32,280,792. This was made possible through the sale in 1907 of $15,000,000 of unsecured notes and of the application upon the property of a large part of the proceeds of the $3,000,000 sterling notes. This net security of the development mortgage bonds will be further enhanced by the application upon the mortgaged property as above stated of at least $8,500,000 of the proceeds of the 6% convertible gold notes which it is now proposed to issue.—V. 86, p. 1226, 1101

**Tennessee Central RR.**—*Bonds Pledged.*—See Southern Railway above.—V. 86, p. 1226.

**Third Avenue RR., New York.**—*Receiver's Certificates Authorized.*—Judge Lacombe in the U. S. Circuit Court on Wednesday authorized Receiver Whitridge to issue $2,500,000 of one-year 6% certificates to purchase equipment and make repairs and improvements on the lines of the system. The certificates will rank after the $5,000,000 first mortgage but prior to the $37,500,000 first consolidated mortgage bonds. Compare remarks in report of receiver given last week, page 1221.

**(The) Tidewater Company.**—*Offering of $17,000,000 6% First Lien 5-Year Notes, Guaranteed by H. H. Rogers.*—Redmond & Co., New York and Philadelphia, and the Equitable Trust Co., New York, by advertisement on another page, announce that they will receive applications for subscriptions at 98½ and interest for an issue of $17,000,000 first lien 5-year 6% guaranteed gold notes, guaranteed, principal and interest, unconditionally, by Henry H. Rogers. These notes are dated June 1 1908 and are due June 1 1913, but are convertible at par at the option of the holder for first mortgage 5% 50-year gold bonds of the Virginian Ry. Co. at any time before April 1 1913, or, in case of notes called for redemption, within 30 days after notice of such call, all or any of the notes being redeemable at company's option at 101 and interest when drawn by lot Interest payable June 1 and Dec. 1. Equitable Trust Co. of New York, trustee. Denomination $1,000 (c*).

The application list will be opened May 27 at 10 a. m. and may be closed at any time without notice. A deposit of 5% must accompany all subscriptions for the new notes.

The holders of the outstanding $10,000,000 notes of the Tidewater Company which are to be called for payment may deposit with the firms named their notes or Central Trust Co. certificates of participation in such notes and receive new notes in exchange to the extent of 50% of the face amount of the notes so deposited. Upon notes so exchanged, interest will be adjusted to July 1 and a bonus in cash of $15 per $1,000 note will be paid. This privilege may be withdrawn by the bankers without notice. Owing to advance subscriptions having been received for more than the entire $17,000,000 notes, the holders of the old notes are offered the right to subscribe for only 50% of the face amount of their present holdings.

**Abstract of Letter from George H. Church, Treasurer of The Tidewater Company, Dated May 21 1908.**

The proposed issue of the Tidewater Co.'s "first lien 5-year 6% guaranteed gold notes" will be unconditionally guaranteed, as to both principal and interest, by Mr. Henry H. Rogers, and will ultimately be secured by deposit of collateral with the Equitable Trust Co. of New York, as trustee, as follows:

| | |
|---|---|
| First mortgage 5% 50 year gold bonds of the Virginian Ry. Co. (owning the railroad generally known as the Tidewater Road), face value | $33,500,000 |
| First mortgage 5% 50-year gold bonds of the Virginian Terminal Ry. Co. (owning the terminals of the Tidewater Road at Sewell's Point, Virginia), face value | 3,000,000 |
| To be deposited with the trustee by Henry H. Rogers, as guarantor of the notes, income-producing stocks and bonds now yielding an annual income of about $700,000, and having an aggregate value of over | 10,000,000 |
| Total | $46,500,000 |

Of the proceeds of the notes, $10,000,000 are to be used in retiring the Tidewater Company's existing issue of notes and approximately $6,000,000 are to be deposited with the trustee to be paid out from time to time against actual expenditures in the completion of the Tidewater Road and its terminals. (The existing $10,000,000 notes, which are not due until February 1909, will be called and paid off at once.)

The Virginian Ry. Co. is entitled to issue upon the construction of its main line of 442 miles, from Deepwater in West Virginia to Sewell's Point on Hampton Roads, Virginia, its first mortgage 5% 50-year gold bonds to the aggregate amount of $33,500,000, all of which have been or will be issued to the Tidewater Company and will be pledged as security for these notes. Over $25,000,000 of these bonds have already been issued and will be lodged with the trustee.

The Virginian Terminal Ry. Co. is entitled to issue upon the construction of the coal-loading pier upon its terminal property at Sewells Point, its first mortgage 5% 50-year gold bonds to the aggregate amount of $3,000,000, all of which have been, or will be, issued to the Tidewater Company and will be pledged as security for these notes; $500,000 of these bonds have already been issued and will be deposited with the trustee.

By reason of the pledge of all the first mortgage bonds of the Virginian Ry. Co. and of the Virginian Terminal Ry. Co., the notes will be a first lien upon all the property of these companies in respect of which, after the application of the proceeds of the notes, there will have been expended in cash more than $36,000,000.

The line of the Virginian Ry. Co. from Deepwater, on the Kanawha River, in West Virginia, to Princeton, near the Virginia line, a distance of about 92 miles, passes directly through the Pocahontas New River coal fields. At Princeton will be located assembling yards, from which point to the terminals at Sewells Point, 359 miles, the grade is practically all in the direction of the haul, there being only one exception of nine miles, upon which the grade is but six-tenths of 1%, or about 30 feet to the mile. Over this section of nine miles an assisting engine will be used, which will enable the company to take an unbroken train of 80 loaded 50-ton coal cars from Princeton to the Atlantic Ocean with a single locomotive.

Construction is in accordance with the most approved standards, with steel rails, minimum weight of 85 lbs. per yard, and stone ballast. The two draw-bridges over the Elizabeth River at Norfolk are heavy, double-track, steel structures, operated by electricity, and on the West Virginia division a number of the structures are built for double tracks at places where it is known that the additional track will be first required. Concrete and cast-iron pipe culverts have been used under all heavy banks

and the steel bridges and viaducts are designed for the heaviest weight which they can possibly be required to sustain.

From the commencement of construction the work has been prosecuted with all possible energy and dispatch consistent with economical and lasting results. The grading and tunneling have been completed upon about 95% and rails laid upon about 75% of the total mileage; about one-half of the line (a portion at each end) is now in operation. Practically all the steel work for the completion of the railway and a large portion of that required for the coal pier is all ready for erection. It is expected that the entire line will be in operation before May 1 1909.

The bankers add that the engineers have endeavored everywhere to eliminate grades and curvature, with the result that over practically all of the line the maximum grade is only two-tenths of 1%. It is expected that, owing to this extraordinary construction, it will be possible to move a train load of 4,000 tons with one locomotive, as against an average train-load on the Norfolk & Western, its principal competitor, of 700 tons. The track has been laid with a minimum of 85-lb. steel rails; the bridges and culverts are all built of steel or concrete, and the draw-bridges throughout are operated by electricity. Something over 200 miles of the road are at present in operation, and of the remaining 225 miles about 95% has been graded and track has been laid on about 75%. Competent engineers pronounce the road a marvel of modern construction.—V. 84, p. 627.

**Tonopah & Tidewater RR.**—*Holding Company.*—See Tonopah & Tidewater Ry. below.—V. 86, p. 722

**Tonopah & Goldfield RR.**—*Not Included in Amalgamation.—Change in Control of Bullfrog-Goldfield RR.*—See Tonopah & Tidewater Railway below.—V. 86, p. 795, 109.

**Tonopah & Tidewater Ry.**—*New Holding Company.*—This company is being organized under the laws of Delaware with $5,280,000 of authorized capital stock in shares of $100 each, all having voting power, consisting of $3,640,000 "A" stock and $1,640,000 "B" stock ("A" having no preference over "B") it having been arranged to acquire in exchange for the "A" stock the entire $1,500,000 capital stock of the Tonopah & Tidewater *Railroad* and in exchange for the "B" stock the entire outstanding share capital ($2,000,000) of the Bullfrog-Goldfield RR.

The last-named company was organized with the expectation that its line, now in operation from Bullfrog to Goldfield 83 miles, would be controlled by the Tonopah & Goldfield RR. Co., but the two properties have been separated, the Tonopah & Goldfield not being embraced in the present amalgamation.

The new holding company will maintain corporate existence of its two proprietary companies acquired as aforesaid, and in accordance with the plan agreed upon the Bullfrog-Goldfield RR. Co. will make a consolidated mortgage to the Fidelity Trust Co. of Philadelphia, as trustee, to secure an issue of $2,000,000 5% 30-year gold bonds dated July 1 1908, which will be applicable as follows:

*Purposes for Which $2,000,000 Consols of Bullfrog-Goldfield RR. May Be Issued.*

| | |
|---|---|
| To be issued at once to take up the $1,250,000 of Bullfrog-Goldfield RR. Co.'s first mortgage 6% bonds which are held by syndicate | $1,250,000 |
| Sold as below stated to provide for obligations of the Bullfrog-Goldfield RR. Co. incurred for construction, equipment, &c. | 350,000 |
| Reserved to take up as presented the $250,000 Bullfrog-Goldfield RR. bonds (remainder of the $1,500,000 authorized) held by the public | 250,000 |
| Reserved for new construction and equipment, or other legal purposes | 150,000 |

The Tonopah & Tidewater *Railroad* Co., the controlling interests in which dominate the new holding company, owns a line 168 miles in length extending from Ludlow, Cal., on the Atchison Topeka & Santa Fe Ry. to Beatty, Nev., 168 miles, with a branch to Ryan, 7 miles. On account of this mileage £500,000 debenture certificates were issued in 1905, bearing the guaranty of the Borax Consolidated, Ltd., the great borax corporation. In Feb. 1908 it was proposed (V. 86, p. 722) to issue a further £175,000 of 5% sterling bonds bearing a similar guaranty for the purpose of extending the line to Tonopah, Nev., 110 miles. A further extension from Goldfield to Ely, 200 miles, is believed to be in contemplation. Further particulars follow:

An agreement between the holding company and the two railroad companies provides that the earnings of the two operating companies shall be kept as separate accounts, and that each road shall have the benefit of its own local traffic and fair proportionate rates on joint traffic; also that if in any year the earnings of either road prove insufficient to cover its fixed charges, then any surplus of the other road for that year, after the payment of fixed charges, shall be devoted to make up the deficiency of the other.

F. M. Smith (who built the Tonopah & Tidewater) agrees to purchase the $350,000 bonds mentioned above, as sold, and to give therefor his promissory notes, $185,000 payable Aug. 1 1908 and the balance, $165,000, in two years, the notes bearing 6% interest. The collateral for these notes will be the $350,000 bonds and the stock received, together with 1,500 shares of Oakland Traction Co. 6% preferred stock.

The officers of the holding company are:

F. M. Smith, Oakland, Cal., President; D. W. Van Buskirk, First Vice-President, Bayonne, N. J.; Arthur Brock, Second Vice-President, Philadelphia, Pa.; C. B. Zabriskie, Secretary and Treasurer, New York City; John Ryan, General Superintendent, Ludlow, Cal.; W. R. Alberger, Traffic Manager, Los Angeles, Cal.

**Underground Electric Railways Co. of London, Ltd.**—*Plan Operative.*—Under date of London, May 15 1908, Secretary W. E. Mandelick, by order of the board, announces that "the holders of over 90% of the 5% 'profit-sharing secured notes' having deposited their notes, and having assented to the plan of readjustment dated April 14 1908, the company will proceed with the readjustment pursuant to said plan." See plan, &c., in V. 86, p. 1039, 1044, 1101.

**United Railways Co. of St. Louis.**—*Supreme Court Upholds One-Mill Tax.*—The United States Supreme Court on Monday, reversing the lower courts, handed down a decision sustaining the right of the city of St. Louis to levy a tax of one mill per passenger on the street railways, payable quarterly, under the ordinance of March 25 1903, which supplanted a former ordinance under which the city collected a license fee of $25 per car per year.

The amount of back taxes due under the decision from Jan. 1 1904 to Jan. 1 1908 is about $850,000. On the basis of present earnings the annual tax would be about $220,000. Counsel for the company contend that the decision embraces only one feature of the law, namely the question whether the ordinance impaired a contract obligation, and say that there are other grounds not heretofore raised, on which the matter will be resisted in the State courts, over which the Federal courts have no jurisdiction, including the point that the tax is unreasonable and excessive. Justice Daly, who writes the opinion, says that the case is virtually decided by the rule laid down in Railway Co. vs. New Orleans, which holds that because a street railway company has agreed to pay for the use of the streets of the city for a given time, it does not thereby create an inviolable contract which will prevent the exaction of a license tax.—V. 86, p. 1102.

**Virginian Railway.**—*Bonds Pledged—Status of Enterprise.*—See official statement under heading "Tidewater Company" above.—V. 86, p. 722.

**Virginia & Southwestern Ry.**—*Bonds Pledged.*—See Southern Railway above.—V. 86, p. 1102.

**Western Pacific Ry.**—*Extension of Syndicate.*—Blair & Co., William Salomon & Co. and William A. Read & Co., managers of the syndicate which in 1905 underwrote the $50,000,000 first mortgage bonds, have requested the members of the syndicate to defer the date for the expiration of the syndicate agreement from July 1 1908 until July 1 1909.

*Status of Enterprise.*—See circular issued by President E. T. Jeffery of the Denver & Rio Grande Ry. on p. 1224.—V. 86, p. 1227.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**Amalgamated Oil Co., California.**—*Acquisition.*—Touching the report that the Associated Oil Co. had purchased for $700,000 the Picot Ranch oil property of 200 acres, lying just across the Los Angeles-Pacific Ry. tracks from the wells of the Union and Amalgamated companies, W. S. Porter, General Manager of the Associated Oil Co., replying under date of April 7 to our letter of inquiry, said:

This tract was really purchased by the Amalgamated Oil Co., the control of which company is owned by the Associated Oil Co. The price for the property named is about correct, and is to be paid in cash. Whether the property will be operated as a part of the Amalgamated Oil Co. or under a different incorporation we have not yet determined.

*Dividends Now Paid Monthly.*—We are informed that the Amalgamated Oil Co. paid a dividend of $1 per share (1%), or $50,000, per month, in March, April and May 1908, and the officers intend to make monthly distributions from this time on.—V. 83, p. 92.

**American Telephone & Telegraph Co.**—*Earnings.*—For the first four months of 1908 and 1907:

| *Four Months ending April 30*— | 1908. | 1907. |
|---|---|---|
| Income from dividends | $5,808,380 | $5,038,576 |
| Interest and other revenue from associated and licensed companies | 3,296,294 | 2,628,838 |
| Telephone traffic (net) | 1,374,902 | 1,241,559 |
| Real estate | 30,837 | 28,998 |
| Other sources | 245,410 | 138,353 |
| Total income | $10,755,823 | $9,076,324 |
| Expenses | 719,112 | 679,125 |
| Net earnings | $10,036,711 | $8,397,199 |
| Deduct interest | 2,576,635 | 2,300,691 |
| Dividend for 3 months, 2%, April 15 | 3,050,560 | 2,631,028 |
| Balance, surplus | $4,409,516 | $3,465,480 |

—V. 86, p. 1227, 1045.

**Consolidated Gas Co. of New York.**—*Appeal in 80-Cent Gas Case Set Down for Argument.*—The United States Supreme Court on Monday, on application of former Judge Alton B. Parker, set down for argument on Oct. 13 the appeal of the city from the decision of Judge Hough in the 80-cent gas case. Compare V. 86, p. 983, 670, 283; V. 85, p. 1579.—V. 86, p. 983, 796.

**Detroit Steamship Co.**—*Bonds Offered.*—Otis & Hough, Cleveland, are offering at 98 and interest a block of the total issue of $140,000 first mortgage 5% gold bonds of $1,000 each, dated Dec. 2 1907 and due in ten equal annual installments on Dec. 1 from 1909 to 1918, both inclusive. Interest payable June 1 and Dec. 1 at the Detroit Trust Co., Detroit, Mich., trustee.

A first mortgage on steamer Chas. W. Kotch r length, 449 feet, tonnage, 7,500 tons. Company capitalized at $15[illegible],000, all paid up. John H. Walsh of Detroit, Manager.

**Diamond Match Co.**—*Capital Requirements—Purchase of Bryant & May's Interest in California Timber Property—New Plants Proposed.*—See official statement under "Annual Reports" on a preceding page.—V. 86, p. 719, 111.

**General Asphalt Co.**—*Report.*—Results for the year ending Jan. 31 were:

| *Fiscal Year.* | *Total Income.* | *Net Profits.* | *Other Income.* | *Total Charges.* | *Pref. Div. (2%).* | *Balance, Sur. or Def* |
|---|---|---|---|---|---|---|
| 1907-8 | $15,147,666 | $1,693,899 | $151,457 | $822,301 | $262,793 | sur. $760,253 |
| 1906-7 | 14,760,803 | 887,856 | 180,465 | 834,749 | 262,793 | def. 29,222 |

—V. 86, p. 797, 288.

**General Gas Securities Co.**—*Incorporated.*—This company was incorporated under the laws of Maine on May 11 with $2,500,000 authorized capital stock. Officers at time of organization, President, R. T. Partridge; Treasurer, G. K. Bassett, Augusta, Me.

**Indiana Harbor & East Chicago Electric Co.**—*Officers.*—The C. H. Geist Co., a gas and electric syndicate of Chicago, which recently purchased the electric *light* plant at East Chicago and Indiana Harbor, Ind., formerly owned and operated by the city of East Chicago, has organized the Indiana Harbor & East Chicago Electric Co., with the following officers: C. H. Geist, President; C. H. Weak, Vice-

President; C. W. Fox, Secretary and Treasurer. See V 85, p. 1405.

**Jersey City Water Supply Co.**—*Decision Awarding Compensation for Water Furnished.*—Vice-Chancellor Stevens at Newark on May 2 handed down a lengthy opinion in the suit brought by the city on Aug. 1 1905 to compel specific performance of the contract for construction of water works.

The Court holds that the company is entitled to receive payment for the water furnished and to be furnished at the contract rates, averaging about $34 per million gallons, until the city shall have completed the purchase of the plant by the payment of the amount awarded by the Court.

The contract price for the works is $7,595,000, from which amount the city is allowed rebates amounting to, approximately, $175,000, for the estimated expense of bringing the plant up to contract requirements, and the Court also deducts the contract penalty of $500 per day for delay in completion of the works from Dec. 25 1903 to May 23 1904, when the water was turned on, less six days, during which the company was retarded by the injunction proceedings brought by the city.

A rule to show cause, obtained by the city, why the suit should not be re-opened was returnable on May 5. Compare V. 81, p. 1103; V. 80, p. 1974.

**Mexican Petroleum Co., Ltd. (of Delaware), Los Angeles.**—*Bond Issue.*—The "Los Angeles Times" of April 30 said:

At a stockholders' meeting yesterday afternoon it was decided to issue bonds of the Mexican Petroleum Co., Ltd., and its sub-corporation, the Huasteca, to the amount of $1,000,000, bearing interest at 6% and running 20 years. The issue will be sold next week, but it is very largely subscribed already, says President Doheny. The proceeds go for the improvement of the Huasteca property.

The Mexican Petroleum Co., Ltd., is paying dividends to the amount of about $1,000,000 a year. Its wells at Ebano hold up excellently, the big gusher in particular pouring out its product for four years, and is now giving 1,600 barrels a day. Asphalt made from its oil is being exported in large quantities to England, Germany, France, Denmark and Austria. The company is delivering over the minimum of 6,000 barrels for fuel to the Mexican Central, and more for road sprinkling.

President Edward L. Doheny, to whom the foregoing was submitted, reports:

Capital stock authorized, $38,000,000 common and $12,000,000 8% noncumulative preferred stock; issued, $26,000,000 common and $10,000,000 preferred. Par of all shares, $100. Authorized bond issue, "sinking fund debentures," $1,000,000, dated April 1 1908 and due 1928, but subject to call in 1914 at 106; denominations $1,000 and $100; interest 6% per annum, payable Oct. 1 and April 1 at Southern Trust Co., Los Angeles. Sinking fund, 5% per annum. There are no prior liens outstanding. The company owns and controls about 700,000 acres, having acquired practically the entire capital stock of the old Mexican Petroleum Co., Huasteca Petroleum Co., the Tamiahua Petroleum Co. and the Tuxpan Petroleum Co. —V. 84, p. 1432, 629.

**New York Independent Telephone Co.**—*Franchise.*—See United States Independent Telephone Co. below.—V. 85, p. 408.

**Pacific Lighting Corporation.**—*Listed in San Francisco.—Balance Sheet, &c.*—The San Francisco Stock and Bond Exchange has listed this company's 41,620 shares of preferred stock, $100 paid, and 48,000 shares of common, $20 paid.

The Pacific Lighting Corporation was organized last year (May 20 1907) to succeed the Pacific Lighting Co. Auth'd capital $20,000,000 in 200,000 shares of a par value of $100 each; 100,000 shares of this being preferred stock and 100,000 shares common; 40,000 shares of preferred and 40,000 shares of common were issued in exchange for the 40,000 shares of the old corporation, being one share of preferred and one share common for each share of old stock. Stockholders were also allowed to subscribe for additional shares of preferred stock at $60 and common at $10. On these terms 1,615 shares of preferred and 8,000 shares common were sold. The preferred stock is limited to cumulative dividends at the rate of 5% per annum and has preference as to assets in case of liquidation.

The officers and directors are as follows: C. O. G. Miller, President; Geo. H. Collins, Vice-President; Chas. Holbrook, A. Schilling, F. W. Van Sicklen and C. O. G. Miller. The Secretary is H. H. Miller.

The company owns the entire capital stock of the Los Angeles Gas & Electric Co. (V. 83, p. 1527; V. 79, p. 107, 630; V. 78, p. 1965) 99.85% of the stock of the Pasadena Consolidated Gas Co. (V. 83, p. 441); $997,000, par value, bonds of the Los Angeles Gas & Electric Co., Pasadena Cons. Gas Co. and Eureka Lighting Co., and owes $480,000 in time loans. The controlled properties have bonded debts outstanding as follows: Los Angeles Gas & Electric Co., $3,815,000 (V. 79, p. 630); Eureka Lighting Co., $225,000.

Quarterly dividends are being paid at the rate of $5 per share a year on the preferred stock in February, May, August and November.

The President's report for the year 1907 shows the following balance sheet:

| | |
|---|---|
| *Assets*— | |
| 40,000 shares L. A. Gas & Electric Co | $4,433,955 |
| 9,980 shares out of 9,985 Pasadena Cons. Gas Co | 74,931 |
| Balance due on sale of 1,510 shares Eureka Lighting Co | 36,240 |
| 735 bonds L. A. Gas & Electric at 95 | 698,250 |
| 225 bonds Eureka Lighting Co. at 95 | 213,750 |
| Accrued interest on above bonds | 24,000 |
| Coupons cashed | 500 |
| Amount due from Pasadena Con. Gas Co | 17,000 |
| Cash | 26,453 |
| Total | $5,525,079 |
| *Liabilities*— | |
| 41,620 shares preferred and 48,000 shares common stock | $4,897,400 |
| Profit and loss | 28,042 |
| Dividend accrued on preferred | 34,683 |
| Bills payable | 350,000 |
| Due Eureka Lighting Co | 367 |
| Due Los Angeles Gas & Electric | 214,000 |
| Uncollected dividends | 587 |
| Total | $5,525,079 |

[Los Angeles Gas & Electric Co. is said to have earned during the year 1907 a profit of $518,224, which is equivalent to almost 6% on an investment of $8,740,512; gas sold 2,051,715,900 cubic feet.—Ed.]—V. 84, p. 1311; V. 85, p. 866; V. 86, p. 984.

**Sloss-Sheffield Steel & Iron Co.**—*Quarterly Dividend on Common Stock Reduced from 1¼ to 1%.*—The directors on May 19 declared a quarterly dividend of 1% on the $10,000,000 common stock, payable June 2 on stock of record May 25. This corresponds to a reduction in the annual rate from 5% maintained ever since distributions were begun in 1905, to 4%.—V. 86, p. 859, 665.

**Southern Steel Co.**—*Plan of Reorganization Dated May 15 1908.*—Announcement is made by advertisement on another page of the terms of a plan of reorganization which is submitted by the following committee:

[illegible] Vanderbilt, Chairman, Otto T. Bannard, Robert G. Van [illegible] Rose, Franklin Q. Brown, W. P. G. Harding, [illegible] Counsel, Hornblower, Miller & Potter.
[illegible] 30 Pine Street, New York City.

A pamphlet containing the plan says in substance:

The receivers in bankruptcy proceedings were appointed Oct. 23 1907 and trustees in bankruptcy Feb. 3 1908. The receivers found it necessary to discontinue the operation of the works, which have since remained closed. The company defaulted on the interest due Nov. 1 1907 on its first mortgage 5% bonds dated Dec. 15 1905 (V. 82, p. 696; V. 85, p. 1146), and on the interest due Dec. 1 1907 on its 5% collateral trust gold notes dated Dec. 1 1906 (V. 85, p. 1345). The Georgia Steel Co., the Lacey-Buek Iron Co. and the Chattanooga Iron & Coal Co. ("subsidiary companies"), all of the capital stocks of which are owned by the Steel Company, have defaulted in the payment of interest, rentals and royalties due under certain of their respective mortgages and leases. The necessity of a prompt reorganization is therefore apparent.

**Properties of Company and Subsidiaries and Monthly Capacity. (Tons)**

| | *Tot. Cap. Mthly.* | | *Tot. Cap. Mthly.* |
|---|---|---|---|
| Wire & rod mill, say | 6,500 wire | 6 coal mines | 88,000 coal |
| Steel plant | 12,000 steel | 3 brown ore mines | 25,000 brown ore |
| 4 furnaces | 22,000 pig iron | 5 red ore mines | 29,000 red ore |
| 1918 coke-ovens | 30,000 coke | 3 limestone quarries, ample for furn.'s | |

*Real Estate Owned and Controlled.*

| | | | |
|---|---|---|---|
| Plant sites | 2,090 acres | Red ore lands and rights | 21,142 acres |
| Coal lands and rights | 43,613 acres | Brown ore lands and rts. | 20,580 acres |

With further development work, the output of both the coal and ore mines can be considerably increased, so that there will be surplus coal for sale.

**Indebtedness of the Company and its Subsidiaries to be Provided for.**

| | |
|---|---|
| Southern Steel Co. first mortgage 25-year 5s | $3,000,000 |
| Collateral trust 5% gold notes | 734,000 |
| Georgia Steel Co. first mortgage 5% bonds | 1,000,000 |
| Second mortgage 5% gold notes | 370,000 |
| Lacey-Buek Iron Co. first mortgage gold 6s | 450,000 |
| Chattanooga Iron & Coal Co. first mortgage 6s | 600,000 |
| General creditors (estimated) | 2,200,000 |

It being impossible to effect an exchange of the outstanding bonds of the subsidiary companies, it becomes necessary to provide for the payment of the interest, principal, sinking funds and royalties due thereon.

**Estimated Cash Requirements of Reorganization as of July 1 1908.**

| | |
|---|---|
| Georgia Steel Co.—Interest due April 1 1908 ($34,250) and sinking funds (estimated $130,000, being $40,000 for bonds and $90,000 for notes) | $164,250 |
| Lacey-Buek Iron Co.—Interest due July 1 1908 ($27,000) and estimated sinking fund ($25,000) | 52,000 |
| Chattanooga Iron & Coal Co.—Interest due July 1 1908 ($36,000) and sinking fund (est. $10,000) | 46,000 |
| Indebtedness of subsidiary companies (estimated) | 160,000 |
| Secured loans and prior liens ($550,000) and taxes ($50,000) | 600,000 |
| Repairs and improvement of properties (estimated) | 1,000,000 |
| Working capital | 1,750,000 |
| Trustees' fees, reorganization expenses, &c., any bal. to new co. | 227,750 |
| Total | $4,000,000 |
| Estimated materials and goods on hand, accounts receivable, &c. | 750,000 |
| Balance to be provided through reorganization | $3,250,000 |

To provide for the aforesaid cash requirements or other requirements of the new company, the reorganization committee will have at its disposal (approximately) $688,000 bonds, $4,976,600 preferred stock and $6,750,000 common stock of the new company.

It is proposed as an endeavor to raise $2,500,000 of the cash requirements by giving the depositing stockholders of the Southern Steel Co. the privilege of purchasing a portion of the new securities through subscribing $10 per share on account of each share of the stock of the Southern Steel Co. owned by them, receiving on account of such subscriptions new preferred stock to the amount of 150% and new common stock to the amount of 250% for the amounts so subscribed by them.

**Securities to Be Authorized by New Company.**

(1) $10,000,000 *First and Refunding Mortgage 20-Year Gold Bonds.*

Denomination $1,000. Subject to call at company's option on any interest date after 60 days' notice at 105 and interest. Interest rate, 4% per annum for 5 years and 5% thereafter until maturity. Issue to be secured by a first mortgage on all the properties, rights and privileges now owned by the Southern Steel Co. and a mortgage on such of the properties of the subsidiary companies as shall be acquired by the new company, and a pledge of the capital stock of such of said subsidiary companies whose property shall not be so acquired, subject only to the outstanding bonded debt of said subsidiary companies, for the payment of which bonds of the new issue shall be reserved. Issue, $10,000,000, applicable as follows:

| | |
|---|---|
| Reserved for underlying liens (after redemption through sinking funds) | $2,255,000 |
| Exchange for Southern Steel 5s and coll. trust notes at par | 3,734,000 |
| Accrued interest on outstanding bonds and coll. trust notes to date of new bonds, estimated to July 1 | 222,710 |
| General creditors (estimated) | 1,100,000 |
| Reorganization expenses and general purposes of new company | 688,290 |
| Reserved for extensions, betterments and improvements, to be issued only to the par or principal amount of 75% of the actual cost of such extensions, &c. | 2,000,000 |

(2) $7,000,000 *Non-Cumulative 6% Preferred Stock (Par of Shares $100).*

Entitled in preference and priority over the common stock to non-cumulative dividends in each and every year at such rate up to but not exceeding 6% per annum, payable out of the net profits of the new company, as shall be determined and declared by the board of directors; such dividends to be non-cumulative, limited to 6% per annum, and said preferred stock to be entitled to no other or further share of the profits. In event of the dissolution of the new company and the distribution of capital among the stockholders, the preferred stock shall be entitled to be paid in full to the par value thereof before the common stock shall participate. The preferred and common stock shall have equal voting rights, except as may be required by law. Issue, $7,000,000, applicable as follows:

| | |
|---|---|
| To the holders of first mortgage bonds and coll. trust notes (10%) | $373,400 |
| To general creditors (75% of their claims) | 1,650,000 |
| On account of cash subscriptions of $2,500,000 by stockholders | 3,750,000 |
| For general purposes | 1,226,600 |

(3) $10,000,000 *Common Stock (Par of Shares $100)*

| | |
|---|---|
| On account of cash subscriptions of $2,500,000 by stockholders | $6,250,000 |
| To preferred stockholders of Southern Steel Co. to amount of 25% of old stock | 2,500,000 |
| To common stockholders of Southern Steel Co. to amount of 5% of old stock | 750,000 |
| For general purposes | 500,000 |

**Terms of Exchange.**

| *Holders of Southern Steel Co.* | *Will Receive*— "First & Ref. Bonds." | Pref'd Stock. | Common Stock |
|---|---|---|---|
| 1st mtge. bonds, for each $1,000 of principal | $1,000 | | |
| For overdue and unpaid interest | 58.33 | | |
| For adjustment of interest | | $100 | |
| Coll. trust notes, for each $1,000 of principal | $1,000 | | |
| For overdue and unpaid interest | 54.16 | | |
| For adjustment of interest | | $100 | |
| General creditors, for each $1,000 in proved claims | $500 | $750 | |
| Preferred stock, per share of $100 | | | $25 |
| Additional on payment of $10 per share | | $15 | $25 |
| Common stock, per share of $100 | | | $5 |
| Additional on payment of $10 per share | | $15 | $25 |

**Estimated Results of Operation of New Company under the Reorganization.**

The reports received by the committee give an estimate for the average net earnings of the combined properties of $1,200,000 per annum, as to which the security holders and creditors are referred to the letter from the trustees in bankruptcy.

| | | | |
|---|---|---|---|
| Estimated average annual net earnings from operations | | | $1,200,000 |
| *Deduct* Interest on funded debt: | | | |
| $960,000 Ga. St. Co. 5% bds | $48,000 | $599,000 Chatt. Ir. & Coal 6s | $35,940 |
| 280,000 Ga. St. Co. 5% 2d M. | 14,000 | $5,715,000 bonds of new company at 4% | 229,800 |
| mtge. notes | | | |
| 125,000 Lacey Buck 6s | 25,500 | | |
| Total interest on funded debt | | | $352,700 |
| Dividends on the $7,000,000 6% preferred stock | | | 420,000 |
| Balance, surplus, being equal to 1.27% on new common stock | | | $127,300 |

After 5 years the interest on the new bonds will be advanced to 5%.

This estimate takes no account of earnings to be derived from the sale of coal in the open market.

The board of directors of the new company will be named by the reorganization committee, and in order to insure a continuation of their management for a reasonable time it is proposed to classify the board so that not more than one-fourth of the members shall be elected in each year.

A map accompanies the plan of reorganization, showing the location of the various properties and plants of the company and their close relationship for economical operation.

Deposits under the plan must be made on or before June 15 1908, (1) first mortgage bonds, collateral trust notes and certificates of stock with the New York Trust Co., 26 Broad Street, New York City; (2) promissory notes or other obligations of the Steel Co. with the First National Bank, Birmingham, Ala., or the New York Trust Co., New York City.—V. 86, p. 485, 424.

**United States Smelting, Refining & Mining Co.**—*Report.*—For calendar year:

| Calendar Year— | Total net Income. | Int., Dep., Reserve, &c. | Dirs. on Pref. (7%) | Dividend on Common Stock. | Balance Sur. or Def. |
|---|---|---|---|---|---|
| 1907 | $2,386,541 | $318,275 | $1,672,348 | (6½%) $1,096,232 | def. $700,314 |
| 1906 | 3,927,507 | 428,353 | 1,508,581 | ---- | sur. 1,990,573 |

The undistributed surplus as per balance sheet Dec. 31 1906 was $1,990,573; deducting reserve to write down book value of metals unsold at end of year, including metals in process and in ore stocks to market values at Dec. 31 '07, $733,255, and deficit from operations of 1907 as above, $700,314, leaves undistributed surplus as per balance sheet Dec. 31 1907 of $557,063.

*New Directors.*—At the annual meeting on Thursday, Frank G. Webster, B. Preston Clark, Robert J. Edwards and Stephen L. Bartlett were added to the board, also two other men whose names are not announced, and who are probably to be replaced later.—V. 86, p. 55.

**United States Steel Corporation.**—*Prices Stand—Meetings of Manufacturers Discontinued for Summer.*—After the adjournment of the meeting of leading steel manufacturers from all sections of the country, held in the offices of the United States Steel Corporation on Thursday, Judge E. H. Gary, who presided, gave out the following:

At the meeting to-day of representatives of the principal manufacturers of steel in this country, the opinion was expressed by each one present that the prices of steel are reasonable and should not be reduced; that reduced prices would not increase purchases; and that most of their customers do not expect or desire any changes. The opinion was unanimous that the meetings should be discontinued for the summer months unless the Chairman should deem it advisable to meet at any time for reasons which do not now appear.—V. 86, p. 1096, 922.

**Welsbach Company, Philadelphia.**—*New Director.*—Morris L. Clothier has been elected a director, to succeed W. W. Gibbs, who resigned.—V. 85, p. 669.

**Waltham Watch Co.**—*Balance Sheet.*—See "Annual Reports" on a preceding page.

*Dividend on Common Stock Reduced.*—The semi-annual dividend declared May 15 on the common stock ($7,000,000), payable July 1, was only ¾ of 1%, as against 1½% previously paid each six months since the re-incorporation in 1907. The "Boston News Bureau" says:

The action of the directors in reducing the common stock dividend was due to a 40% reduction in sales in the past six months. Up to last November the sales of the company were showing a large increase, but since the beginning of the business depression there has been a steady accumulation of manufactured watches, which has tied up a considerable amount of capital. The Waltham plant is now being run on a five-day-a-week schedule with full forces.—V. 85 p. 528

---

"Harnessing the Clouds" is the title of a well-prepared booklet covering the development of water power by the Commonwealth Power Co. for the distribution of high-tension electric current over their large territory in southern Michigan for municipal and commercial purposes, lighting, transportation and manufacturing, in connection with which huge concrete dams have been built across the Grand and Kalamazoo rivers. Copies will be mailed on application to Wm. Hughes Clarke, dealer in investment securities and bank stocks, 415 Ford Building, Detroit Mich.

—Beginning with the issue of June 5, the "Railroad Gazette" and "The Railway Age" will be issued as a single combined periodical under the name "Railroad Age Gazette." The general offices of the consolidated paper will be in New York, but it will have an editorial and business force in the Chicago office of the same calibre, size and importance as that at the office of publication, and it will also have a branch office at Pittsburgh.

—Jose, Parker & Co., 78 Devonshire Street, Boston, call attention to the fact that the new issue of New York New Haven & Hartford (Harlem & Port Chester) 4s are selling to-day at 99 and interest, to net only 4.05%, while the New York New Haven & Hartford debenture 4s, due 1956 (legal for Massachusetts savings banks) are selling at 91 and interest to net 4.45%.

—Samuel K. Phillips and Edgar H. Sensenich have formed a partnership under the name of Phillips, Sensenich & Co., 421 Chestnut St., Philadelphia, to continue the bond and commercial paper business heretofore conducted by Samuel K. Phillips. Mr. Sensenich was connected with the Merchants' National Bank of Philadelphia for nine years.

—Effingham, Lawrence & Co., members New York Stock Exchange and Chicago Board of Trade, have removed from 1 Nassau Street, corner Wall Street, to new offices in the Trinity Building at 111 Broadway. Effingham, Lawrence and Robert H. Simpson are members of this firm, which has private wires to the principal cities.

—Messrs. Wm. A. Read & Co., Bankers, New York, are offering in another column a choice list of municipal and railroad bonds which are legal investments for savings banks and trust funds in New York State; several of the issues are exempt from taxation.

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, May 22 1908.*

A more confident feeling is noticeable in trade, despite unfavorable weather. No very marked improvement has occurred, but the outlook generally is considered more hopeful than in the recent past.

LARD on the spot has been firmer, though without marked change in prices. The demand has continued slow but the receipts of live hogs at Chicago have been small and offerings of products have been light. Western 8.45@8.55c. and City 8@8⅛c. Refined lard has been firmer for Continent and steady for other grades. Trade has been quiet and confined to local jobbers. Refined Continent 9c., South American 9.60c. and Brazil in kegs 10.85c. The speculation in lard futures at the West has been moderately active. Pices have been firm as a rule, influenced by small receipts of live hogs, firm prices at the stock yards and light offerings. Packers have bought at times, through various commission houses.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| May delivery | 8.32½ | 8.37½ | 8.50 | 8.45 | 8.50 | 8.40 |
| July delivery | 8.40 | 8.42½ | 8.57½ | 8.57½ | 8.57½ | 8.47½ |
| September delivery | 8.57½ | 8.60 | 8.72½ | 8.67½ | 8.75 | 8.65 |

PORK on the spot has ruled firm. There has been a small jobbing trade. Dulness has been offset by light offerings and the firmness of other hog products and the small movement of live stock. Mess $14 50@$15 25, clear $16 50@$17 25 and family $17@$18. Beef has been firm. Trade has been quiet, but sales would be larger exept for the smallness of stocks. Mess $13@$13 50, packet $14@$15, flank $13@$13 50, family $16@$16 75 and extra India mess $23@$24 50. Cut meats have ruled firm. There has been a good inquiry during the week, and sales would have been larger but for the smallness of supplies, the demand at times being larger than the production; pickled hams, Western, 10@10⅜c. pickled bellies, 14@10 lbs., 9@9¼c. Tallow has been quiet but firm on small supplies; City 5¼@5¾c. Stearines have been quiet and steady; oleo 11c. and lard 10@10¼c. Butter has been quiet and firmer; creamery extras 23½c. Cheese has been quiet and steady; State, f. c., small, colored, fancy, 14½c.; white 14¾c. Eggs have been quiet and steady; Western firsts 17@17½c.

OIL.—Cottonseed has been active and higher; prime summer yellow 48@49c.; winter 49@50c. Linseed has been firm, with trade fairly active, the demand being limited to small lots. Crushers show little disposition to book orders ahead. City, raw, American seed, 44@45c.; boiled 45@46c.; Calcutta, raw, 70c. Lard has been quiet and firm; prime 67@70c. and No. 1 extra 53@55c. Cocoanut has been firm, with a fair demand for small lots for immediate use. Cochin 7¼@7½c. and Ceylon 6¼@6½c. Olive has been quiet and steady; yellow 65@75c., green nominal. Peanut has been quiet and steady; yellow 65@80c. Cod has been moderately active and steady; domestic 42@43c.

COFFEE on the spot has been quiet and easier. Rio No. 7 6¼c. West India growths have been quiet and steady; fair to good Cucuta 9@10c. The speculation in future contracts has been on a small scale with narrow fluctuations. Early in the week the tendency of prices was upward, owing to buying by prominent dealers and Wall Street interests. Of late, however, weakness in the European markets, reports that valorization coffee was to be offered for sale and liquidation have imparted an easier tone to the market.

The closing prices were as follows:

| | | | | | | |
|---|---|---|---|---|---|---|
| May | 6.10c. | September | 6.05c. | January | 6.00c. | |
| June | 6.05c. | October | 6.01c. | February | 6.00c. | |
| July | 6.10c. | November | 6.00c. | March | 6.05c. | |
| August | 6.05c. | December | 6.00c. | April | 6.05c. | |

SUGAR.—Raw has been dull and easier. Centrifugal 96-degrees test, 4.24c., muscovado, 89-degrees test, 3.74c., and molasses, 89 degrees test, 3.49c. Refined has been quiet and steady. Granulated 5.40c. Teas have ruled firm, with a better demand from distributers. Spices have been quiet and steady. Hops have been dull and steady. Wool has been more active and firm.

PETROLEUM.—Refined has been in good demand and firm. Freight room has been engaged for 180,000 cases for export to Java. Refined barrels 8.75c., bulk 5c. and cases 10.90c. Gasoline has been moderately active and firm; 86 degrees in 100-gallon drums 20c., drums $8 50 extra. Naphtha has been in fair demand and firm; 73@76 degrees in 100-gallon drums 17c., drums $8 50 extra. Spirits of turpentine has been quiet and easier at 45@45½c. Rosin has been dull and easier; common to good strained $3 10.

TOBACCO.—There has been a somewhat better inquiry for domestic leaf, though the sales during the week have as a rule been limited to small lots to fill immediate needs. A more cheerful feeling, however, has prevailed of late, partly because of reported improvement in other branches of trade. A larger business also has been reported in Sumatra. Havana has been quiet. Prices have as a rule been steady.

COPPER has been quiet and steady; lake 12¾@12⅞c.; electrolytic 12⅝@12¾c. Lead has been quiet and easy at 4.22½@4.27½c. Spelter has been quiet and steady at 4.50@4.60c. Tin has been dull and easy; Straits 29½c. Iron has been easier and more active. No. 1 Northern $16 50@$17 and No. 2 Southern $15 75@$16 25.

# COTTON.

*Friday Night, May 22 1908.*

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 53,068 bales, against 50,379 bales last week and 59,126 bales the previous week, making the total receipts since the 1st of September 1907, 7,768,277 bales, against 9,434,142 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,665,865 bales.

Speculation in cotton for future delivery has been less active, but the week has been characterized by not a little irregularity, the swing of prices at times being violent. At first a further rise occurred under the stimulus of continued strength and activity in Liverpool, unfavorable private crop reports from the Southwest, where heavy rains were reported to have caused considerable damage in some localities, firm spot markets at the South and aggressive buying by prominent Wall Street people and large spot interests. Increasing strength of the statistical position was also a factor in the rise. But the weather news, as officially reported, has been in the main favorable, and leading Wall Street and local interests sold heavily on the rise, causing a sharp break. Room traders hammered aggressively and uncovered stop-loss orders, the execution of which accelerated the decline. Liverpool, too, became surprisingly weak, and the spot sales there fell off. Heavy selling orders were received from the English market. New Orleans sent large selling orders. Wall Street interests were credited with having taken a bearish position on the market. There were rumors of private settlements of shorts and the premium on July over October was materially reduced. A large Chicago house announced a cut in dry goods prices. On Thursday, however, came a sharp rebound. Well-known Wall Street interests, it was reported, covered their shorts and again took the long side. Apparently they are merely scalping the market, only on a large scale. Prominent spot interests, too, bought freely, and local and Southern shorts covered. Commission houses were good buyers of the new crop months. There was a fear of bad weather and the spot markets at the South showed noteworthy firmness, with reports of a good inquiry and the offerings light. Another factor which had not a little influence was the report from Fall River that the operatives had voted to accept a reduction in wages and that the mills would resume full time as soon as possible. Reports from the local dry goods market were favorable. New England spinners on the declines are buying from the local stock. They are said to have taken considerable of the low grades during the week and the supply of certificated cotton is steadily diminishing, a fact which tends to restrain short selling. To-day prices advanced at first. The Liverpool advices were surprisingly strong. Large spot interests bought July and October, Wall Street bought and shorts covered. Liverpool and New Orleans sent buying orders. Later on came a decline under heavy liquidation attributed largely to prominent Wall Street interests. Room traders hammered and commission houses sold. The weather was favorable in the main. July was relatively strong throughout the day, closing 60 points over October. Spot cotton has been quiet. Middling uplands closed at 11.10c., showing an advance for the week of 10 points.

The rates on and off middling, as established Sept. 11 1907 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

| | | | | | |
|---|---|---|---|---|---|
| Fair | c 1.75 on | Middling | Basis | Good mid. tinged | Even |
| Strict mid. fair | 1.50 on | Strict low mid | c 0.30 off | Strict mid. tinged | c 0.20 off |
| Middling fair | 1.25 on | Low middling | 1.00 off | Middling tinged | 0.30 off |
| Strict good mid | 0.75 on | Strict good ord | 1.50 off | Strict low mid. ting. | 1.00 off |
| Good middling | 0.50 on | Good ordinary | 2.00 off | Low mid. tinged | 1.50 off |
| Strict middling | 0.25 on | Strict g'd mid. tgd | 0.35 on | Middling stained | 1.25 off |

The official quotation for middling upland cotton in the New York market each day for the past week has been:

| *May 16 to May 22—* | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri |
|---|---|---|---|---|---|---|
| Middling upland | 11.00 | 11.00 | 10.95 | 10.90 | 11.00 | 11.10 |

## NEW YORK QUOTATIONS FOR 32 YEARS.

Continental imports for the past week have been 43,000 bales.

The above figures for 1908 show a decrease from last week of 157,342 bales, a loss of 964,063 bales from 1907, a decrease of 434,248 bales from 1906, and a loss of 551,476 bales from 1905.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to May 22 1908. Receipts. Week. | Receipts. Season. | Shipments. Week. | Stocks May 21. | Movement to May 24 1907. Receipts. Week. | Receipts. Season. | Shipments. Week. | Stocks May 24. |

The above totals show that the interior stocks have *decreased* during the week 26,059 bales and are to-night 28,642 bales more than at the same time last year. The receipts at all the towns has been 5,656 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

| | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| *May 22*— | | *Since* | | *Since* |
| *Shipped*— | *Week.* | *Sept. 1.* | *Week.* | *Sept. 1* |
| Via St. Louis | 9,019 | 395,699 | 7,780 | 749,280 |
| Via Cairo | 3,721 | 187,389 | 1,238 | 209,821 |
| Via Rock Island | 703 | 32,086 | 755 | 79,388 |
| Via Louisville | 1,339 | 48,647 | 1,009 | 89,175 |
| Via Cincinnati | 202 | 45,973 | 247 | 51,049 |
| Via Virginia points | 987 | 87,564 | 967 | 116,662 |
| Via other routes, &c | 576 | 207,839 | 130 | 304,092 |
| Total gross overland | 16,547 | 1,005,197 | 12,126 | 1,589,867 |
| *Deduct shipments*— | | | | |
| Overland to N. Y., Boston, &c | 1,182 | 99,112 | 582 | 157,828 |
| Between interior towns | 263 | 61,816 | 648 | 92,526 |
| Inland, &c., from South | 856 | 57,038 | 1,024 | 55,534 |
| Total to be deducted | 2,301 | 217,966 | 2,254 | 305,888 |
| Leaving total net overland * | 14,246 | 787,231 | 9,872 | 1,283,979 |

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 14,246 bales, against 9,872 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 496,748 bales.

| | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| *In Sight and Spinners' Takings.* | *Week.* | *Since Sept. 1.* | *Week.* | *Since Sept. 1* |

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening from the South denote that rain has fallen in most localities the past week, and at some points the precipitation has been excessive. The temperature has been seasonable. Complaints that recent heavy rains have retarded the development of cotton come from portions of Texas and some districts elsewhere. At a number of points improvement in the crop is noted.

*Galveston, Texas.*—The crop has been retarded by recent heavy rains and lack of sunshine except in Southwest Texas, where the crop is doing well. Hail storms have caused damage in a few localities in Central and North Texas. It has rained on two days of the week, the rainfall being inappreciable. The thermometer has averaged 77, the highest being 82 and the lowest 72.

*Abilene, Texas.*—It has rained on one day the past week, the rainfall being twenty-four hundredths of an inch. The thermometer has averaged 79, ranging from 60 to 98.

*Brenham, Texas.*—We have had heavy rain on one day during the week to the extent of one inch and sixty-nine hundredths. The thermometer has ranged from 66 to 90, averaging 78.

*Corpus Christi, Texas.*—We have had no rain the past week, Average thermometer 79, highest 86, lowest 72.

*Cuero, Texas.*—We have had rain on one day during the past week, the precipitation being ninety-nine hundredths of an inch. The thermometer has averaged 76, the highest being 91 and the lowest 61.

*Dallas, Texas.*—Rain has fallen on one day during the week, the rainfall reaching twenty-three hundredths of an inch. The thermometer has averaged 77, ranging from 62 to 92.

*Fort Worth, Texas.*—We have had rain on two days during the week, the precipitation reaching sixty hundredths of an inch. The thermometer has ranged from 64 to 90, averaging 77.

*Henrietta, Texas.*—We have had rain on one day during the past week, to the extent of seventy-five hundredths of an inch. Average thermometer 80, highest 94, lowest 65.

*Huntsville, Texas.*—We have had rain on one day during the week, the rainfall being one inch and eight hundredths. The thermometer has averaged 79, the highest being 92 and the lowest 65

*Kerrville, Texas* —We have had no rain the past week. The thermometer has averaged 83, ranging from 67 to 98.

*Lampasas Texas.*—We have had excessive rain on three days during the week, the precipitation reaching three inches and three hundredths. The thermometer has ranged from 60 to 96, averaging 78.

*Longview, Texas.*—We have had showers on three days of the past week, the rainfall reaching fifty-four hundredths of an inch. Average thermometer 77, highest 90, lowest 64.

*Luling, Texas.*—We have had rain on one day during the week, the precipitation being thirty-four hundredths of an inch. The thermometer has averaged 80, the highest being 93 and the lowest 66.

*Nacogdoches, Texas.*—We have had rain on two days of the week, the rainfall reaching one inch and twenty-five hundredths. The thermometer has averaged 75, ranging from 63 to 86.

*Palestine, Texas.*—We have had heavy rain on two days of the week, the rainfall being one inch and thirty-six hundredths. The thermometer has ranged from 64 to 88, averaging 76.

*Paris, Texas.*—We have had rain on one day of the past week, the rainfall reaching eighteen hundredths of an inch. Average thermometer 78, highest 92, lowest 64.

*San Antonio, Texas.*—We have had a trace of rain on two days during the week,. The thermometer has averaged 83, the highest being 96 and the lowest 70.

*Taylor, Texas.*—Rain has fallen heavily on two days of the week, the precipitation being one inch and ninety-eight hundredths. Thermometer has averaged 77, ranging from 62 to 92.

*Weatherford, Texas.*—We have had rain on two days during the week, the precipitation reaching one inch and five hundredths. The thermometer has ranged from 63 to 94, averaging 79.

*Ardmore, Oklahoma.*—We have had rain on two days of the past week, the rainfall being eighty-three hundredths of an inch. The thermometer has averaged 75, ranging from 62 to 88.

*Holdenville, Oklahoma.*—It has rained on two days of the week, the rainfall reaching fifty hundredths of an inch. The thermometer has ranged from 61 to 87, averaging 74.

*Marlow, Oklahoma.*—There has been rain on one day during the week, the precipitation reaching thirty hundredths of an inch. Average thermometer 76, highest 92, lowest 60.

*Oklahoma, Oklahoma.*—There has been rain on two days of the week, the rainfall being thirty-eight hundredths of an inch. The thermometer has averaged 75, the highest being 89 and the lowest 61.

*New Orleans, Louisiana.*—There has been rain on three days during the week, the rainfall reaching eighty-six hundredths of an inch. Average thermometer 76.

*Shreveport, Louisiana.*—We have had rain on four day during the week, the rainfall reaching one inch and fifty-five hundredths. The thermometer has averaged 76, the highest being 88 and the lowest 64.

*Alexandria, Louisiana.*—It has rained on four days the past week, the rainfall being two inches and eighty-five hundredths. The thermometer has averaged 75, ranging from 62 to 89.

*Amite, Louisiana.*—We have had rain on four days of the week, the rainfall being eleven inches and sixteen hundredths. The thermometer has ranged from 61 to 89, averaging 75.

*Columbus, Mississippi.*—There has been rain on four days during the week, the rainfall reaching one inch and twenty-eight hundredths. Average thermometer 76 highest 90, lowest 62.

*Leland, Mississippi.*—We have had rain during the past week, the precipitation being two inches and two hundredths. The thermometer has averaged 68.9, the highest being 81 and the lowest 59.

*Vicksburg, Mississippi.*—Rain has fallen on four days during the week, the rainfall reaching two inches and fifty-six hundredths. The thermometer has averaged 72, ranging from 61 to 85.

*Meridian, Mississippi.*—We have had rain on four days during the week, the precipitation reaching two inches and forty-four hundredths. The thermometer has ranged from 64 to 88, averaging 76.

*Helena, Arkansas.*—Cotton is doing well, but is rather rank. Some land outside the levees is overflowed. We had rain on two days the past week, the rainfall reaching one inch and seventy-two hundredths. Average thermometer 72, highest 85, lowest 61.

*Little Rock, Arkansas.*—We have had rain on four days during the week, the precipitation being twenty-nine hundredths of an inch. The thermometer has averaged 76, the highest being 88 and the lowest 64.

*Eldorado, Arkansas.*—Rain has fallen on three days of the week, the precipitation being one inch and twenty-nine hundredths. Thermometer has averaged 76, ranging from 62 to 90.

*Fort Smith, Arkansas.*—We have had rain on three days during the week, to the extent of one inch and ninety-four hundredths. The thermometer has ranged from 60 to 90, averaging 75.

*Mobile, Alabama.*—Heavy rains in the intreior the early part of the week caused a suspension of farm work, but weather was fine the latter portion. Crop reports are improving but there are a number of complaints about delay and damage from previous cool wet weather. The Tombigbee River is still above the flood stage but falling. We have had rain on one day during the week, the precipitation reaching ninety-seven hundredths of an ineh. The thermometer has ranged from 64 to 80, averaging 77.

*Montgomery, Alabama.* The crop outlook is favorable.

Spot holders are letting go more freely. We have had rain on three days during the past week, to the extent of one inch and six hundredths in the early part of the week. Since hot and dry. Average thermometer 79, highest 89, lowest 64.

*Selma, Alabama.*—Rain has fallen on four days during the week, the rainfall reaching one inch and ninety hundredths. The thermometer has averaged 75.5, ranging from 65 to 88.

*Memphis, Tennessee.*—Weather conditions are now perfect and planting is completed. We have had rain on two days of the past week, the rainfall reaching ninety-five hundredths of an inch. Weather now dry and hot. Average thermometer 73.7, highest 84.1, lowest 63.6.

*Madison, Florida.*—We had rain on two days the past week, the rainfall reaching seventy hundredths of an inch. Average thermometer 79, highest 95, lowest 67.

*Tallahassee, Florida.*—We have had no rain during the week. The thermometer has averaged 80, ranging from 66 to 93.

*Augusta, Georgia.*—We have had rain on four days the past week, the rainfall reaching forty-three hundredths of an inch. Average thermometer 76, highest 91, lowest 62.

*Atlanta, Georgia.*—We have had rain on four days of the week, the rainfall reaching one inch and twenty-nine hundredths. The thermometer has averaged 74, ranging from 61 to 86.

*Savannah, Georgia.*—There has been rain each day the past week, the rainfall reaching sixty-four hundredths of an inch. The thermometer has averaged 78, ranging from 67 to 92.

*Washington, Georgia.*—Rain has fallen on four days during the week, the precipitation reaching one inch and nine hundredths. The thermometer has ranged from 60 to 93, averaging 77.

*Charleston, South Carolina.*—We have had rain on five days during the past week, the rainfall being one inch and thirty-eight hundredths. Average thermometer 75, highest 87, lowest 67.

*Greenwood, South Carolina.*—It has rained on one day of the week, the rainfall being fifty hnndredths of an inch. The thermometer has averaged 74, the highest being 85 and the lowest 64.

*Charlotte, North Carolina.*—Rain has fallen during the week, the precipitation reaching one inch and fifty-seven hundredths. The thermometer has ranged from 59 to 88, averaging 70.

*Greensboro, North Carolina.*—We have had rain on five days during the past week, the rainfall being one inch and ninety-two hundredths. Average thermometer 74, highest 91 and lowest 58.

*Raleigh, North Carolina.*—Rain has fallen on five days of the week, to the extent of one inch and fifty hundredths. The thermometer has averaged 74, the highest being 90 and the lowest 58.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climatological Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending May 18, summarizing them as follows:

The temperature conditions during the week ending May 18 1908 were unfavorable in the Pacific Coast States and Plateau regions. Freezing temperatures occurred over a large part of the last-named districts and light to heavy frosts were general. Highly favorable temperatures prevailed in the principal agricultural districts east of the Rocky Mountains. Freezing temperature occurred in the interior of northern New England and frosts in northern New York during the latter part of the week. A large part of the west Gulf States and portions of the upper Missouri Valley suffered from heavy rains and overflows, while portions of the South Atlantic States need moisture. Destructive local storms occurred in portions o' the central valleys and west Gulf States. The sunshine was below the average on the Pacific Coast, generally in the northern districts east of the Rocky Mountains, and in the central and west Gulf States. There was ample sunshine in the lower Missouri, central Mississippi and Ohio valleys and generally throughout the Atlantic Coast States.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

FALL RIVER WAGE SCALE.—Fall River cotton mill operatives, as we intimated last week would be the case, have assented to the new wage schedule which goes into effect on Monday next. The new scale under the sliding agreement will be on the basis of 19.66 cents per cut for weaving, or a reduction of 17.94% from the wage prevailing during the past six months, and will be in force until November next, when a new agreement will be entered into in precisely the same manner as the present adjustment has been made. It is currently reported that with the view of offsetting as far as possible the important reduction in wages the new scale entails, the managers of the mills will put them on a full-time schedule as soon as they can find warrant for doing so.

## BREADSTUFFS.

*Friday, May 22 1908.*

Prices for wheat flour have declined, though the changes have not as a rule been very important. There has been some improvement in the demand of late as a result of the concessions, but the sales have been limited to fill lots for immediate use. Export trade has continued quiet. At the large milling centres at the Northwest and the Southwest a somewhat better business has been done of late, though there is still much room for improvement. The output of the three spring-wheat mills for the past week was larger than in the previous week. At Minneapolis a somewhat better export demand is reported. Rye flour and corn meal have been more active and firmer.

Wheat has shown irregularity, but of late the tone has been stronger in the main, owing in no small measure to aggressive buying by leading elevator interests at the West. There have been numerous reports in circulation, too, of damage to the crop in Kansas by Hessian fly. Moreover, the export demand has increased and Minneapolis and Duluth have reported a brisk demand from the mills at strong prices, while stocks at the two Northwestern markets have shown a noteworthy diminution. The foreign market advices have on the whole been favorable to bullish interests, especially those from Liverpool. Unfavorable weather has been reported in Roumania and Bulgaria as well as in some other parts of Europe, a fact which has not been without a certain effect on sentiment. Reports in regard to the winter-wheat yield in Russia, too, have been favorable, and official estimates of the yield in India make it clear that the crop will fall considerably short of the previous one. The yield in the Punjab is estimated at only 82,560,000 bushels, against 120,800,000 last year. This, with the estimated crop in the United Provinces nearly two-thirds of the total grain area of India, points to a yield for the two districts of 145,536,000 bushels, as compared with 212,164,000 last year, or a decrease of over 66,000,000 bushels. The sensational strength of the corn market at Chicago has also had a bracing effect on wheat. Large commission houses have bought and shorts have covered freely. Supplies in the world continue to diminish at a rapid rate. During the past week the decrease was over 5,000,000 bushels as compared with a decrease in the same time last year of less than 300,000 bushels. On the other hand, the weather has been more favorable, and at times prices have reacted sharply under heavy liquidation. The crop accounts moreover have in the main been favorable. It is not believed that the Hessian fly has caused any widespread damage in the Southwest. The receipts, too, have increased at times. Cutting of new winter wheat, it is stated, will commence in parts of the Southwest on June 1. The reports in regard to spring wheat have been almost uniformly bearish. During much of the time the cash trade has been rather quiet. The Argentine shipments continue on an unexpectedly liberal scale. To-day the market was quiet with narrow changes. Early in the day a slight decline occurred on disappointing cables, liberal Argentine shipments, generally favorable weather and crop reports and liquidation. Later a rally took place on buying by cash interests and commission houses and covering of shorts.

| September delivery in elevator | 85⅞ | 85⅞ | 87¼ | 86⅝ | 86⅞ | 86⅝ |

Indian corn futures have been strong, in the main, influenced by manipulation of the May option at the West, which made a new high record for the bull movement. The receipts have continued light, as the weather at times has been unfavorable for marketing, and shorts have covered. There have been rumors of private settlements with May shorts, but there is believed to be a considerable short interest still outstanding. Efforts are being made to get large quantities of corn to Chicago before the end of the month. The bull leader, however, continues to dispose of his cash holdings. The weather of late has been more favorable, and this has caused selling of the distant months. To-day prices weakened under favorable weather, expectations of large receipts, liquidation and pressure on the new-crop months.

| September delivery in elevator | 63¾ | 63⅝ | 64¾ | 64⅜ | 64⅛ | 63¾ |

Oats for future delivery in the Western market have been extremely dull. Prices, however, have been firm in the main in sympathy with corn. There has been some covering by May shorts. Commission houses have sold the next crop months in a small way at times on favorable crop accounts. The receipts have been rather liberal, but stocks at Chicago have decreased materially of late, owing to liberal shipments by the principal bull. The cash market has been firm. Elevator people have sold the distant months to some extent. To-day prices were dull and easier, owing to depression in corn, favorable weather and crop accounts, the narrowness of the speculation and dulness of the cash market.

## THE DRY GOODS TRADE.

*New York, Friday Night, May 22 1908.*

The primary cotton goods market has been the scene of much greater activity during the past week than for some time, owing mainly to the large influx of buyers attracted by the Arnold Print Works auction sale and the many special offerings of seasonable fabrics by other houses. Generally speaking, the auction sale was regarded as a success in that all offerings were disposed of, and while some of the prices realized did not come up to expectations, this was due principally to the fact that the stylings were in many instances over a year old and consequently more or less out-of-date. The sale was viewed with satisfaction by other houses, as it served to distribute a large quantity of goods which had been hanging over the market and had been a constant menace. The result of other special sales of wash goods was mostly also regarded as satisfactory, and a large volume of goods was disposed of. Another interesting development during the week was a revision in the price of prominent lines of bleached goods, which was followed by such heavy buying that the market almost immediately became firmer and prices were advanced ⅛c. a yard. Little attention was paid to a circular issued by a large Western jobbing house, offering to sell goods at much below agents' lowest prices, as it was regarded as an advertising scheme more than anything else. The volume of business throughout the market generally continued to show signs of improvement, and further advances were recorded in print cloths and heavy brown cotton goods. Export business was steady, with the outlook for the future brighter. The new wage schedule in the cotton mills at Fall River, under the sliding-scale agreement which goes into effect next Monday, calls for a reduction of 17.94%; it has been accepted by the Textile Council. Business in men's wear woolen and worsted goods has been of moderate dimensions, but dress goods have been very quiet.

DOMESTIC COTTON GOODS.—The exports of cotton goods form this port for the week ending May 16 were 3,111 packages, valued at $250,601, their destination being to the points specified in the tables below:

| | 1908 | | 1907 | |
|---|---|---|---|---|
| New York to May 16. | Week. | Since Jan. 1. | Week. | Since Jan. 1. |
| Great Britain | 37 | 254 | 4 | 939 |
| Other European | | 433 | 47 | 508 |
| China | 909 | 11,978 | | 8,949 |
| India | | 3,481 | 25 | 4,429 |
| Arabia | | 11,340 | 805 | 1,875 |
| Africa | 100 | 2,330 | 50 | 3,577 |
| West Indies | 426 | 8,470 | 237 | 9,479 |
| Mexico | 23 | 805 | 45 | 954 |
| Central America | 333 | 5,585 | 273 | 6,295 |
| South America | 1,222 | 17,047 | 303 | 18,847 |
| Other countries | 61 | 6,743 | 46 | 13,671 |
| Total | 3,111 | 68,475 | 1,835 | 86,401 |

The value of these New York exports since Jan. 1 has been $4,485,327 in 1908, against $5,492,032 in 1907

A very large business was concluded in bleached goods, following the announcement of price reductions, and as these applied only to stocks of goods on hand, the market quickly became firmer and values were advanced. Further advances were named on certain lines of sheetings, and there was a better feeling in heavy goods as a result of purchases as far distant as September delivery. Light-weight sheetings were firmer and in fairly good request. Export business included some further sales of 3.50-yard sheetings to the Red Sea, 4.70-yard sheetings to China and standard drills to India; in almost all cases the level of prices is slightly higher than what would have been accepted a few weeks ago. There has been some moderate advance ordering of wide sheetings, sheets and pillow cases, and jobbers have shown more interest in cotton linings. Staple duck has been more active and firmer, and coarse, colored cotton goods have moved somewhat more freely. Domets have met with an improved demand for fall from jobbers. The expected revision of staple print and gingham prices has not yet materialized, and in the meantime goods are being shipped on memorandum. Print cloths have been advanced from ⅛c. to ½c., the latter on 39-inch 68x72s, and steady sales have been made for delivery up to August.

WOOLEN GOODS.—Duplicate ordering of men's wear heavy-weight woolen and worsted goods has continued on a fairly heavy scale again during the week, but, as in the past few weeks, it has again been very unevenly distributed, with the result that, while some mills have been able to start machinery running full time, others find themselves in a very unsatisfactory position. Most of the orders so far received have been for the better class of cutters-up, and while they have been fairly numerous, they have been mostly for smaller yardages than had been expected, and for the more popular fabrics ranging from $1 to $2 rather than for the higher-priced goods. While there are reports of some business for the new spring season having already been taken, there is a decided disposition to withhold openings beyond the usual time, owing to the lateness of the heavy-weight season. There is a good deal of discussion as to how woolens are faring as compared with worsteds, and it would seem that while orders for the latter are by far the more numerous, the former are doing relatively better than in the past. Dress goods continue very inactive, and it is too early as yet to expect otherwise. In the meantime, there are reports of some lines being sold up, but this is only in exceptional cases.

FOREIGN DRY GOODS.—Higher grades of imported woolen and worsted dress goods are meeting with a fair demand. Silks and ribbons show some signs of improvement. The demand for linens for fall is more active. Spot burlaps are steady, but prices for future delivery are slightly easier.

# State and City Department.

## News Items.

**Bayou Terre-aux-Boeufs Drainage District (P. O. St. Bernard), St. Bernard Parish, La.**—*Bonds Declared Valid by District Court.*—On May 7 Judge N. H. Nunez of the Twenty-ninth Judicial District Court upheld the validity of the $100,000 bonds voted in April 1907 for the purpose of establishing a modern drainage and irrigation system in the interior district of St. Bernard from Poydras to Lachinche. The decision was rendered in a friendly suit instituted by Charles Esteves, a property tax-payer, to test the legality of the bond issue and the levying of a special tax of 5 mills for the payment of the same. According to New Orleans papers the decision of Judge Nunez was based on the failure of the plaintiff to commence suit within six months after the election was held, as provided by law.

**Henrylyn Irrigation District, Col.**—*Purchase of Water Rights.*—According to the Denver "Republican" of April 29, this district completed arrangements on April 28 with the Intermountain Water Co. for the purchase of certain water rights of that company in the counties of Grand and Clear Creek. The price paid for these rights is $112,000, payable in bonds of the irrigation district. The amount of water transferred, including the storage of out-of-season water, is capable of irrigating 200,000 acres. This amount supplemented by the original Platte River filing of 50,000 makes a total of 250,000 acres subject to irrigation. It is also stated that only 120,000 acre feet will be utilized at present; 20,000 acres to be applied between Golden and Denver and the remaining 100,000 to be placed in the neighborhood of Hudson and Keene, on the Burlington RR., in the southern part of Weld County. Hudson is 29 miles from Denver and Keene 37 miles, being not quite half way between Denver and Fort Morgan.

**New York City.**—*Arrangements Made for the Sale of $7,000,000 4% Corporate Stock.*—During the past week arrangements were made with J. & W. Seligman & Co. of this city, whereby that firm is given an option running into June on $7,000,000 4% corporate stock at par and interest. These securities are the unsold portion of the $13,000,000 4% stock offered, together with $2,000,000 4% assessment bonds, on Aug. 12 1907. Owing to the financial conditions at that time, the city was successful in disposing of only $2,573,060 of the 50-year stock and $140,425 of the assessment bonds. See V. 85, p. 428. The bonds were subsequently offered over the counter and a number of small lots were disposed of to private investors. Still further amounts were sold to the sinking fund and to contractors in payment of their claims against the city for work done.

## Bond Calls and Redemptions.

**Hartford, Conn.**—*Bond Call.*—Payment will be made July 1 at the Phoenix National Bank of Hartford of $200,000 4% reservoir-construction bonds issued Aug. 1 1893. Maturity July 1 1918, subject to call after July 1 1908.

*The official notice of this bond call will be found among the advertisements elsewhere in this Department*

## Bond Proposals and Negotiations this week have been as follows:

**Albany County (P. O. Albany), N. Y.**—*Bond Offering.*—Proposals will be received until 12 m. June 1 by William P. Hoyland, County Treasurer, for $79,0004 % highway-improvement bonds. Interest semi-annual. Maturity $1,000 yearly on June 1 from 1909 to 1927 inclusive and $60,000 on June 1 1928.

**Allegheny County (P. O. Pittsburgh), Pa.**—*Bond Sale.*—On May 19 the $1,000,000 4% 30-year coupon road-and-highway-improvement bonds offered without success on May 14 (V. 86, p. 1237) were sold to a syndicate composed of the Municipal & Corporation Securities Co., the Pittsburgh Bank for Savings and the Colonial Trust Co., all of Pittsburgh, at par and accrued interest.

**Allen County (P. O. Fort Wayne), Ind.**—*Bond Sale.*—The $2,946 41 6% coupon assessment bonds for the unpaid cost of the construction of the D. C. Smith Ditch (V. 86, p. 1176), were sold on May 13 to D. Witmer at 100.75 and accrued interest. Maturity 10 bonds on May 15 in each of the years 1910 and 1911 and 9 bonds on May 15 1912.

**Anna, Shelby County, Ohio.**—*Bond Sale.*—On May 11 $1,500 6% light bonds were awarded to the Farmers' & Merchants' Bank of Anna for $1,510 (100.666) and interest. A bid of $1,505 was also received from the First National Bank of Barnesville. Authority Section 2835, Revised Statutes. Denomination $300. Date April 1 1908. Interest annual. Maturity $600 April 1 1909 and $900 on April 1 1910.

**Belmar, Monmouth County, N. J.**—*Bonds Not Sold.*—Up to May 13 this borough had not yet succeeded in disposing of $20,000 5% 30-year gold coupon registered water-extension bonds proposals for which were asked until April 16. Denomination $1,000. Date July 1 1908. Interest semi-annually at the Borough Collector's office. Bonds are exempt from all taxes.

**Bertrand School District (P. O. Bertrand), Phelps County, Neb.**—*Bond Offering.*—Proposals will be received until May 28 for $12,500 6% school-house bonds. Authority vote of 173 to 25 at election April 21. Maturity May 1 1928. Hans Rasmussen is Secretary of the School Board.

$5,500,000.00

# CITY OF ST. LOUIS

Public Buildings and Public Improvement

4% TWENTY-YEAR GOLD BONDS

ST. LOUIS, May 12th, 1908.

By virtue of Ordinance No. 22,674, the undersigned are authorized to issue and sell for the City of St. Louis five million five hundred thousand dollars ($5,500,000 00) of St. Louis Public Buildings and Public Improvement Bonds, and **sealed proposals for the purchase of said bonds,** issued for the following purposes, and hereinafter described, will be received at the Mayor's Office, in the City of St. Louis, **until 12:00 o'clock, noon, of the 10th day of June, 1908,** and publicly opened by the undesigned at said place and hour:

| | |
|---|---|
| MUNICIPAL BRIDGE, and purchase of land for approaches | $ 500,000 00 |
| HOSPITALS and purchase of sites | 800,000 00 |
| FIRE DEPARTMENT (Engine Houses and Lots) | 130,000 00 |
| POLICE, CIVIL, CRIMINAL AND OTHER COURTS AND POLICE HEADQUARTERS AND HEALTH DEPARTMENT HEADQUARTERS and purchase of sites | 2,000,000 00 |
| BRIDGES AND VIADUCTS and purchase of land | 400,000 00 |
| KING'S HIGHWAY BOULEVARD, City's share of cost | 500,000 00 |
| PUBLIC SEWERS and purchase of land | 500,000 00 |
| PUBLIC PARKS—Purchase of land | 670,000 00 |
| Total | $5,500,000 00 |

Said bonds will be dated July 1st, 1908, and will each be of the denomination of $1,000 United States Gold Coin, payable twenty (20) years after their date, and will bear interest from their date at the rate of four (4) per cent per annum. Semi-annual interest coupons, payable on the 1st day of January and July, respectively, will be attached to each bond, and both bonds and coupons will be payable to bearer, as he may elect, either at the National Bank of Commerce, in New York, in United States Gold Coin, or at the National Bank of Scotland, Limited, 37 Nicholas Lane, London, England, in pounds Sterling, at the rate of four dollars, eighty-six cents, six and one-half mills ($4.8665) per pound Sterling. The bonds will contain the condition that in payment of principal and interest, the United States Gold Dollar and the Pound Sterling will be calculated at the present standard of weight and fineness. The bonds may be exchanged for registered bonds at any time.

Bidders are requested to state in their proposals the price offered per bond, the par and premium to be stated as one amount.

No bid will be considered that is not made on blank furnished by the Comptroller.

Proposals must be accompanied by a cashier's or certified check, payable to the order of the Comptroller (and subject to his approval) equal to five (5) per cent of the nominal amount of the bonds bid for; said deposit to be returned immediately if the proposal is not accepted, otherwise to be held subject to forfeiture to the City in event of failure on the part of the bidder to comply with his proposal, or, in case of compliance, to be retained as part of the purchase money. A deposit in the required amount to the credit of the City of St. Louis, in the National Bank of Commerce, in New York, on or before Tuesday, June 9th, 1908, will be accepted as full compliance with the requirements relating to deposits. No interest will be allowed on earnest money deposited.

Proposals will be subject to all the conditions and reservations of this advertisement, and must refer to same as a portion of the agreement on the part of the bidder.

Proposals should be enclosed and addressed to the undersigned and endorsed "Proposal for Purchase of St. Louis City Bonds."

The undersigned reserve the right to reject any or all bids.

The Bonds will be delivered against payment therefor in current funds, at the office of the Comptroller in the City of St. Louis, or, if the bidder so elects in his proposal, at the National Bank of Commerce, in New York, on the 1st day of July, 1908.

The opinion of Messrs. Dillon & Hubbard, Attorneys and Counselors at Law, New York City, as to the validity of the bonds, will be furnished the successful bidders by the City.

A sample bond can be seen and further information obtained at the office of the Comptroller

ROLLA WELLS, Mayor.
JAMES Y. PLAYER, Comptroller.

## NEW LOANS.

$30,000

GLEN RIDGE, N. J.

4½% SCHOOL BONDS

Sealed bids will be received by the undersigned until eight o'clock p. m. May 26, 1908, at his office in Glen Ridge, N. J., for the purchase of all or any part of $30,000 4½% coupon School bonds, dated March 1, 1908, and due $3,000 September 1, 1929, and $3,000 annually thereafter until all have matured.

A certified check for 2% of the face value of bonds bid for, payable to the Glen Ridge Board of Education, must accompany each bid. The right is reserved to reject any or all bids.

For further information and blank bid, address,
S. RAYMOND ROBERTS,
District Clerk.

The bonds will be prepared under the supervision of and certified as to genuineness by the Columbia Trust Co. of New York City.

$100,000

City of Lynchburgh, Va.

WATER BONDS.

The undersigned will receive sealed proposals until 12 o'clock noon, JUNE 1ST, 1908 for $100,000 Thirty-four-year non-taxable Water Bonds of the City of Lynchburg, Virginia. These bonds will be issued in denominations of $1,000 each, dated August 1st, 1907, bearing interest at the rate of four and one-half per cent per annum, payable February and August at the office of the Treasurer of the City of Lynchburg, Virginia.

A check for two per cent of the par value of the bonds bid for must accompany each bid. Said check payable to the order of the Treasurer of the City of Lynchburg, Va., and certified to by a responsible bank and deposited as a guaranty of good faith.

The right is reserved to reject any and all bids.

R. C. QUINN, Chairman,
Finance Committee of Board of Aldermen.
JAMES R. GILLIAM, Chairman,
Finance Committee of Common Council.

BONDS TO BE CALLED

CITY OF HARTFORD, CONN.

Notice is hereby given to the holders of the Reservoir Construction Bonds of the City of Hartford, Issued August 1, 1893, maturing July 1, 1918, and redeemable at any time after July 1, 1908, with interest at 4 per cent, that the City, exercising its option, will call in, pay and redeem said Reservoir Construction Bonds on July 2, 1908, and that interest thereon will cease on and after said date.

The Phoenix National Bank of Hartford will pay face value on above bonds on the first day of July, 1908.

CHARLES H. SLOCUM,
City Treasurer.
Hartford, Conn., April 15, 1908.

tion $1,000. Date May 4 1908. Interest semi-annual. Maturity $1,000 yearly on Oct. 4 from 1908 to 1932 inclusive.

**Saskatoon Public School District No. 13, Sask.**—*Debenture Offering.*—Proposals will be received until May 26 by William P. Bate, Treasurer (P. O. Box 7, Saskatoon), for $35,000 debentures. Maturity part yearly for twenty-five years.

**Scottdale School District (P. O. Scottdate), Westmoreland County, Pa.**—*Bond Sale.*—This district has awarded the $24,300 4½% bonds described in V. 86, p. 998, to the First National Bank of Scottdale at par.

**Shelby County (P. O. Shelbyville), Ky.**—*Bond Election.*—At the general election next November the question of issuing $100,000 court-house-construction bonds will be voted upon.

**Sidney School District No. 5 (P. O. Sidney), Dawson County, Mont.**—*Bond Sale.*—The State of Montana on May 16 purchased the $3,300 5-10-year (optional) coupon school-house bonds described in V. 86, p. 1181 at par for 5s. Bids were also received from the First National Bank of Barnesville and the Union Bank & Trust Co. of Helena.

**Sidney School District (P. O. Sidney), Ohio.**—*Bonds Defeated.*—A vote of 83 "for" to 552 "against" the question of issuing $15,000 high-school-building-addition bonds was the result, it is reported, of an election held April 7.

**South Orange, Essex County, N. J.**—*Bond Sale.*—The highest bid received on May 18 for the $48,000 4½% 37-40-year (serial) coupon (with privilege of registration) sewer bonds described in V 86, p. 1244, was one at 105.271 and interest—a basis of about 4.222%, submitted by Blodget, Merritt & Co. of New York City.

**Spokane County School District No. 81, Wash.**—*Bond Sale* —On May 18 the $250,000 20-year school-building and site-purchase bonds described in V. 86, p. 1181, were awarded to N. W. Halsey & Co. of Chicago for $260,063 (104.025) for 4½s—a basis of about 4.201%.

**Stoddard County Drainage District No. 7 (P. O. Bloomfield), Mo.**—*Bond Sale.*—On May 6 the $80,563 20 6% R. L. Snider *et al* drainage-system-construction bonds described in V. 86, p. 1117, were awarded to John Nuveen & Co. of Chicago at par. Bonds are dated May 1 1908 and mature $4,063 20 in 1910, $4,000 yearly from 1911 to 1919 inclusive and $4,500 yearly from 1920 to 1928 inclusive.

**Stonington, New London County, Conn.**—*Bond Sale.*—On May 1 the $100,000 4% 20-year coupon (with privilege of registration) refunding bonds mentioned in V. 85, p. 1662, were disposed of at 98 to N. W. Harris & Co. of Boston. Denomination $1,000. Date May 1 1908. Interest semi-annual.

**Stratford, Ont.**—*Debenture Sale.*—The Dominion Securities Corporation has been awarded, it is stated, $11,000 4½% debentures due Jan. 1 1938.

**Toledo, Ohio.**—*Bids Rejected.*—The City Auditor rejected all bids received on May 6 for the $87,000 4% 10-year coupon refunding bonds described in V. 86 p. 1058.

**Troy, N. Y.**—*Bond Sale.*—On May 19 the $200,000 1-40-year (serial) water-works and the $30,000 1-20-year (serial) Prospect Park 4½% coupon or registered bonds described in V. 86, p. 1244, were awarded to H. W. Poor & Co. of New York City at 106.077 and accrued interest. The following bids were also received:

| | $200,000 Water-Works Bonds. | $30,000 Park Bonds. |

Denomination $1,000. Date July 1 1908. Interest annual.

## NEW LOANS.

### $15,000

### Territory of New Mexico

### 4% BONDS

Sealed proposals will be received by the undersigned Treasurer of the Territory of New Mexico, at Santa Fe, New Mexico, until **MAY 30TH, 1908, AT 10 O'CLOCK A M.**, for the following-described bonds of the Territory of New Mexico. Delivery to be made at New York, Chicago, St. Louis or Denver.

$15,000 00 Armory Building Bonds of the Territory of New Mexico, to be dated April 1st, 1904, due in 30 years from that date, and optiona on and after 20 years from date of issue, payable in New York, bearing interest at the rate of four per cent per annum, payable semi-annually in New York.

No bids for less than par and accrued interest from date of last matured coupon will be entertained; the right being reserved to reject any or all bids.

The Acts of the Territorial Legislative Assembly authorizing the above-described issue of bonds were approved by Act of Congress entitled "An Act to validate certain Acts of the Legislative Assembly of the Territory of New Mexico with reference to the issuance of certain bonds," approved March 2d, 1907.

J. H. VAUGHN,
Treasurer of New Mexico.

### $30,000

### WILMINGTON, DEL.,

### SINKING FUND LOAN.

Sealed bids will be received for $30,000 SINKING FUND LOAN OF WILMINGTON, DEL., until 12:00 o'clock M., MONDAY, JUNE 1ST, 1908. Bonds will date from June 1st, 1908, in denomination of $50 00 or multiples thereof, and bear 4% interest, payable semi-annually on April 1st and October 1st, and will mature $8,700 on the first day of October, 1930; and $21,300 on the first day of April, 1931. All of said issue for use of the BOARD OF STREET AND SEWER COMMISSIONERS, to pay for the curbing, guttering, grading, widening, paving and improving of TENTH STREET, between MARKET and TATNALL STREETS, in the City of Wilmington, Del.

All proposals must be accompanied by certified check payable to the order of "THE MAYOR AND COUNCIL OF WILMINGTON" for 2% of the amount of bonds bid for, the same to be forfeited if the bidder fails to accept and pay for the bonds awarded. The successful bidder or bidders will be required to settle for the bonds, with accrued interest from June 1st, 1908, on or before 12:00 o'clock noon, June 10th 1908. The right to reject any and all bids is reserved.

Address all bids in sealed envelopes to Howard D. Ross, City Treasurer, marked "PROPOSALS FOR SINKING FUND LOAN."

HOWARD ROSS,
City Treasurer,
Wilmington, Del.

*REMOVAL NOTICE.*

As previously announced, "The Chronicle" is now issued from its new home, corner Front, Pine and Depeyster Streets.

*STATE AND CITY SECTION.*

With to-day's issue of the "Chronicle", we send to our subscribers a new number of our "State and City" section revised to date. The editorial discussions in the same embrace the following topics: "The Municipal Bond Sales of 1907" and the "Investments of the New York Savings Banks."

*THE FINANCIAL SITUATION.*

We are nearing one of this nation's most trying events, and it is no surprise that a more than usual state of industrial unrest should prevail. It is no ordinary election of a Chief Magistrate that confronts us. Both parties to the questions at issue feel as if the nation's future were at stake. The pregnant casualty will soon have come and passed. An overruling Providence always has been heretofore, and is still, in control, and will bring us through and out of the clouds and threatenings which seem so ominous to many now, though our ideas of what is best and our hopes of a glad fruition may be buried in the results. There have been numerous occasions in our history, when no worse a situation than the present has been looked upon as a final decadence, which have been succeeded by what we are accustomed to call many a happy accident. So may it be on this occasion.

Within the current week there have been prominent incidents affecting the near-by markets. One of these is the suit brought by the Federal Government against the New York New Haven & Hartford Railroad Company to disrobe it of its trolley lines and deprive it of its ownership of the stock of the Boston & Maine Railroad Company. This action had a highly important influence because it was wholly unexpected—in fact, more than that, because the belief prevailed of an assurance given by Government officials that no legal proceedings would be taken against that road under the Anti-Trust Law. As to the trolley lines, the people of Connecticut have seemed to be satisfied with the ownership of at least the lines within their State of a trolley character. It should be said that the Federal authorities deny than any such assurance as claimed had been given. Whatever, though, may be the truth as to these questions of fact, there is no doubt that the beginning of the suit was a surprise to the public, and had an unfavorable influence on market values. It is quite like the now existing Administration that it should choose to go out of office with a fair amount of display and a stir of hubbub.

This spirit is being exhibited in other conspicuous directions; notably, in the proceedings of various sorts by Government officials which have together been disturbing factors from time to time during the week. The beginning of the taking of the testimony in the Coal Trust suits is a proceeding of that nature; the evidence was begun Monday before Charles Lewis, an attorney appointed by the United States Court in the matter of the anthracite coal combine, charging control of prices and other violations of the Sherman Anti-Trust Law. It seems that the matter brought up Monday was, as stated, to learn the attitude of the defendants as to furnishing the needed information in relation to their affairs. The lawyers present declared that they would furnish the Government with whatever existing facts the Government wished. The Pennsylvania Railroad was asked to furnish the names, capitalization and location of coal companies controlled by the road. On Monday the Department of Justice also agreed with the coal-carrying roads that the case involving the provisions of the law which requires railroads owning coal properties to dispose of their holdings before May 1 shall be heard before three Federal Judges in Philadelphia June 16. In accordance with an understanding with the Department of Justice, the case will be tried upon an agreed state of fates, and no prosecutions will be begun against the railroads directly interested in the suit until a decision of the Court has been reached.

---

The features of the Aldrich-Vreeland currency compromise excite, of course, criticism; but the fact of an agreement on some kind of an emergency currency bill is thought to have been desirable if not necessary, and hence that result is looked upon as a decided advance in clearing up the derangement which has existed in affairs. It is to be remembered that the life of the Act is limited to six years; so if it proves less advantageous than hoped for, and cannot be corrected by amendment, its extinguishment after a comparatively brief trial will come about as a result of the legislation now about to be perfected. Another leading incident has been looked upon as in a measure clearing up the situation—that is, the developments in the Gould properties, signalized by a decline so material in Missouri Pacific Thursday as to unsettle the whole Stock Exchange list of properties. There was good reason for this decided drop in Missouri Pacific. No statement of earnings had been made public for months, but on the day mentioned a report covering the period from July 1 to March 31 was given out, indicating that the company had only earned 2.89% on its $80,000,000 of stock for the nine months, making it evident that the earnings for the full year would probably not be sufficient to keep up any dividend. This fact and the anticipated reorganization of the Wabash-Pittsburgh Terminal Co. explain the abrupt drop in the Stock Exchange value of the Missouri Pacific.

---

The most notable incident of the week was the reduction on Thursday in the rate of discount by the Bank of England of ½ of 1% to 2½%. This action is the more notable because it has been so long deferred; the tendency of the London discount market having, for several weeks, been so unmistakably downward, as indicated by the gradual lowering of the unofficial rate, as to make it improbable that the higher official rate could much longer be maintained. There seems to have been much reluctance manifested by the Bank's Governors to lower its rate while the German Reischsbank maintained the maximum official rate of 5%, and, moreover, while the outside rate was so high at Berlin as to attract gold not only from the Bank of France but from New York. Apparently the Bank of England Governors were awaiting a reduction by the Reischsbank before taking action in the matter; meantime the Bank of England lost con-

trol of the open market and in order to recover such control it has now been forced to make the reduction.

---

A bond negotiation of some interest to Paris bankers because it is to be undertaken, according to the "Economist European," by four of the largest of the private banks in that city, is the financing of an issue of 20 million dollars by the Credit Foncier Egyptien, which issue is secured by the capital of the bank and by mortgages on property in Egypt bearing 7@9% interest. This negotiation is regarded as preliminary to the general reorganization of Egyptian finances (involving larger borrowings) made necessary by the absorption of the reserve fund and principally by the recent decision of the International Court of Appeals, which declares that all corporations with Egyptian directors and capital having head offices in Egypt and only a Secretary's office in Europe, cannot be recognized as foreign corporations, and as they are not Egyptian corporations, they have no corporate existence whatsoever.

---

The direct export this week of $500,000 gold to Switzerland, said to be the first on record, attracted attention because it seemed to indicate the possibilty of further exports thereto, with the object of profitably remitting American gold, as it is being remitted to Paris and to Berlin. The Swiss bank offered inducements to the New York exporters in the form of interest at the Swiss Bank on the gold while it was in transit, crediting the consignee with the amount exported on the day when the shipment was effected, thus pursuing the policy which has been adopted by the German Reischsbank. It is thought likely, therefore, that so long as this policy shall be pursued by the Swiss Bank, not only may the movement to Switzerland continue but other banks in the smaller States of Europe may take advantage of the opportunity which is now offered for the procurement of American gold and attract the metal through similar devices. It may be noted that, according to late advices, the official rate of discount of the Swiss Bank is 4%. At Amsterdam and at Brussels the rate is 3½%, at Vienna and at Madrid it is 4½% and at Copenhagen 6%; the Italian, Portuguese and Spanish banks also maintain comparatively high rates of discount and it would cause no surprise if consignments of American gold were shipped to some of these cities before the present movement terminated.

One incident of the week was the prompt sale by J. P. Morgan & Co. of 16 millions of an authorized issue of $300,000,000 fifty-year Chicago Burlington & Quincy 4% bonds, for which 16 millions subscriptions amounting to about 50 millions were received; on the curb the bonds were largely traded in at 96⅞@98.

---

It is expected that the amounts representing surrenders of public deposits which have been made by the depository banks by reason of the recent call of the Secretary of the Treasury, will ere long to a large extent be returned to the banks through the disbursements by the Government, which are now in excess of revenues. This deficit is steadily increasing, and it is thus far in the fiscal year more than 63½ million dollars. In June, judging from previous years, there may be a smaller deficiency than in May, as the result of the return to the Treasury by disbursing officers of unexpended balances; but it is now expected that the total deficiency for the current fiscal year will exceed 70 millions. The appropriations at the first session of the Sixtieth Congress are unprecedentedly large; hence those that will become available at the beginning of the new fiscal year will draw heavily upon the Treasury cash balance, making it probable that a call will have to be made soon after July 1 for the surrender of about 50 millions of public funds to reinforce such balance, and also to provide for the redemption of some portion of the 64 million Spanish War bonds which will mature Aug. 1. As has been the case with previous recalls of public funds, however, Treasury deficits will contribute to offset, to some extent, the amount withdrawn from the banks.

It may be observed that the Treasury will eventually obtain some relief for its cash balance through the reimbursement by currency-emitting banks, whose notes have been currently redeemed out of the general fund, of the money so advanced in the process of redemption. The notes which have thus far been redeemed amount to about 61 millions, while the 5% redemption fund is deficient 7½ millions; therefore the note-emitting banks which have not reimbursed the Treasury for its advances incident to current redemptions, and have not kept intact their proportion of the redemption fund—because, through delays in the assorting of the redeemed notes, requisitions have not been made for the sum due the Treasury—will have to pay over to the Department the amount of about 68 millions in adjustment of the redemption account. Such payments will presumedly be largely effected through drafts by the note-emitting banks upon their New York correspondents; therefore, the progress which will be made by these banks in adjusting their indebtedness to the Treasury will probably be watched with much interest.

It may be noted that on and after July 1 the new State law requiring trust companies to maintain a cash reserve on deposits equal to 10% thereof will become effective. This increase of 5% in the cash reserve of these institutions will, it is estimated, call for an addition of about 30 millions in the cash holdings of these concerns on the above date; this sum is, however, partly provided by the 1 29-100% excess cash reserve now held, and the remainder is not so large as to cause its withdrawal from the banks to affect loanable supplies in the market.

---

As noted above, Congress, contrary to expectation, has not allowed adjournment to come without passing a bill providing for an emergency currency. With the two Houses so widely apart in their views, it took considerable skill on the part of the conferrees to reach an agreement, but after many meetings the end sought has been attained. The measure in the shape it finally assumed is a compromise, and as such is satisfactory to neither side. We shall hope to review the law at length another week when its full text shall become available and it is possible to see the precise language used and what provisions have been retained, but wish to note here that under the conference agreement the distinctive features of both the Vreeland Bill and the Aldrich Bill remain. As far as we can make out from the accounts in the daily papers, it will be possible under the provisions of the

new Act to take out emergency currency in two separate ways. In its individual capacity it will be possible for a bank to get the new notes (provided it fulfills certain requirements and conditions) on a deposit of State and municipal bonds in the manner notes are now issued on the deposit of United States Government bonds. Acting in conjunction with other banks, it will be possible also for an institution to obtain notes on the pledge of general assets, including commercial paper of limited periods of maturity. Very properly, the designation "National Clearing Houses," which by the Vreeland bill it was proposed to give to the organizations to be formed for the purpose of collective action on the part of banks in taking out the notes based on commercial assets, has been changed, and a name adopted which accurately describes the character of these organizations, they being now termed "National Currency Associations."

The extent to which the permission granted to take out additional notes in either one or both the ways indicated is likely to be availed of must remain for the future to determine. The general disposition has been to condemn the distinctive features of both the two bills which have now been welded into one. But we notice that the critics do not agree among themselves. Each has a different objection to urge and this encourages the hope that possibly we shall all be surprised in finding more of good in the measure than had been supposed possible. Of course the result can only be determined by the event itself. We notice that Mr. A. B. Hepburn makes the point against the bill that "the heavy tax, ranging from 5% to 10%, the redemption fund requirements and other necessary expenses, will preclude the possibility of using the currency except when money commands a very high rate." This point is obviously well taken. But should the measure be condemned on that account? Is it not rather a good feature that the tax is made high enough to ensure the return of the notes after they have served the purpose for which they have been called into being? With permission to emit half a billion of new notes in this manner (this being the maximum fixed in the bill), could the measure be defended if the tax should be left so low that there was no inducement for calling the bills home, thereby presenting the possibility that they might become the basis for a widespread speculation. Besides, what valid reason can be urged for allowing the creation of such a mass of notes except when interest rates *are* high, and hence an actual need exists for a larger volume of bills.

It seems to be thought that the new notes will not come out except at the time of a supreme crisis like that which developed last October and November, thus advertising the fact that the occasion is an extraordinary one; but here, too, views may prove mistaken, for it is easy to conceive that in a period of great trade activity, resort to the provisions of the new law might be had during the crop-moving season; and when once steps in that direction had been taken, and been attended with success, we may be sure the operation would be repeated at the next crop-moving season, or at other periods of the year, though it must be admitted that the contrivance for the issue of notes through the instrumentality of National Currency Associations is an exceedingly clumsy one. One merit the new law will possess. This is referred to by Mr. Hepburn. Last autumn, banks with ample capital, good management and abounding in liquid assets representing the best credits of the country, were obliged to suspend currency payments because, by reason of the hoarding practiced, not enough circulating medium was available to meet the exceptional demands that had developed. As Mr. Hepburn well says, the new law furnishes an emergency currency which will save them that humiliation in the future and will mitigate the loss which the public as well as the banks suffered in consequence of the suspension of currency payments.

---

The difference between promise and performance in the political world is well shown by what is transpiring at the present time in the City of Cleveland. For years Mayor Tom Johnson of that city had been a great power in political affairs. He was elected over and over again, and seemed to be daily increasing in popularity. His sole capital was his antagonism to local traction interests. He was working to get for the local residents lower fares and kept incessantly telling them how much better off they would be if only the municipality could take over these trolley lines and operate them in the interests of the whole community, instead of their being operated for the benefit of the stockholders, as represented by private capital. He made strenuous efforts to get possession of these local lines with that end in view. The owners fought determinedly against having their property virtually confiscated, but finally, when Mr. Johnson last autumn again triumphed at the polls, and it seemed as if he might remain enthroned indefinitely in the Mayor's chair, they in effect threw up the sponge. After much further parleying with the owners, Mr. Johnson at length accomplished his purpose and acquired the lines on terms deemed exceedingly favorable to the city and the reverse to the owners. Mr. Johnson had attained his goal. The lines were now "the people's," and three-cent fares were established.

If, at this juncture, a merciful Providence had removed Mr. Johnson from the scene, he might have remained a popular hero. But no such good luck was in store for him. With the city in possession of the trolley properties, Mr. Johnson was called upon "to make good." Troubles for him began almost the moment the city took possession. The public had been educated to expect much. They were getting little. Instead of the service being improved, it became worse. The traveling public began to grumble, and intimations came that they would prefer to pay the old rate of fare and get decent service. They were told to be patient; that the people themselves now owned the trolley lines, and soon the benefits would be apparent to every one. Confronted with the necessity of making both ends meet, the new management also found itself obliged to discontinue operating non-paying lines. That made more trouble. Then came difficulties with the employees, who wanted more money and who went on a strike when the request for increased pay was refused, thus paralyzing street railway operation. The "Cleveland Finance" says that Mr. Johnson has not lived up to his promises in any respect. Instead of three-cent fares, he is giving three, six, nine and eleven-cent fares. Instead of universal transfers, he has eliminated over twenty-five transfer points. In-

stead of more frequent service, the interval between the cars has been lengthened, and instead of carrying out the contract made by the Cleveland Electric Street Railway with its employees, he is discharging the three-year men and hiring men at much lower wages. Moreover, "Finance" says that were he now a candidate for Mayor, he would be defeated by 20,000 votes —which seems quite likely.

There is a useful lesson in all this. For years blatant demagogues all over the United States have been criticising street railway management and have been telling the public how much better things would be when the public came "into possession of its own". In Cleveland the experiment has been made, and we see the result. It is one thing to criticise the acts of others, and quite another to be called upon to do the same work better ourselves. The experience of our Public Service Commission has been much the same. Great things had been expected of this new body. They devoted themselves first of all to the Brooklyn Bridge "crush," but the crush still remains unrelieved, except so far as the opening of the tunnel to Brooklyn, as the outgrowth of private endeavor, has reduced the pressure. Then they devoted themselves to the trolley lines, with the result that practically all the surface lines in Manhattan Borough and the Bronx are in receivers' hands, and that a large portion of the free transfer privileges previously enjoyed by travelers has been cut off by order of the courts—the receivers having notified the court that they could not pay wages and buy supplies with transfer checks. If these experiences shall lead to the development of a more tolerant spirit towards public service corporations managed by private enterprise, the harm and suffering entailed through the assaults of recent years will not have been without compensating advantage.

---

The grain crop situation in the United States, notwithstanding some unfavorable developments during the month, is on the whole quite satisfactory as May closes and certainly much better than at the same time a year ago. In May of last year, it will doubtless be remembered, all growing crops were adversely affected by weather conditions to an extent greater than the average; this year there has, of course, been deterioration, but hardly more than in what might be called a normal season. It follows, therefore, that the June 1 outlook is decidedly more encouraging this year than it was a year ago. As regards winter wheat the bulk of the advices go to indicate that it has in the main done well during May, and over at least part of the belt an early harvest is anticipated. From some counties in Kansas there are reports of damage by rust and insects; drought has been complained of in another portion of the State and rain in southern districts. Yet Kansas as a whole is counted upon for a materially larger product than in 1907. Floods resulting from the heavy rains of last Saturday and Sunday, as well as the excessive moisture itself, have reduced the promise in Oklahoma and Texas, and minor occurrences of an adverse nature have been reported from various localities. But taking the area as a unit, the consensus of opinion seems to favor a crop much larger than that of last year.

Corn planting has progressed under varying conditions in different sections of the country. East of the Mississippi River and more particularly in the Lake region, seeding has been delayed by unpropitious weather, but in the far West, as a rule, work has gone ahead under favoring conditions, being completed in early sections, and at many points good stands have already been secured. The heavy rains in the Southwest, and in some sections elsewhere, at the close of last week caused further delay or necessitated replanting over quite an extensive area, but with the ground in excellent condition there is ample time, with favorable weather, to plant all intended area. Furthermore, and unless indications are misleading, the acreage finally put under corn will be moderately greater than a year ago, but as to the ultimate yield, it is for the future to determine.

The oats situation, so far as we can learn, is at this time rather mixed. So good an authority as the "Cincinnati Price Current" reports the acreage sown as smaller than intended, owing to unfavorable conditions at time of seeding, and the progress making as only fair. That journal, however, premises that with warm, dry weather, a more encouraging showing is possible later on. But with anything like normal conditions of weather, during the growing season, it is highly probable that oats, as well as all other crops, will give a better yield than that of the rather disastrous year 1907.

The wheat outlook in Canada is, according to current reliable advices, very encouraging. Weather conditions during the sprouting season seem to have been especially satisfactory, giving the crop an excellent start, which, with the considerable increase in area, should, with average conditions from now on, insure a marked augmentation in yield. A notable fact in this connection is the statement of the Canadian Minister of the Interior that seeding in the Province of Alberta was finished nearly a month ahead of last year, and that farming operations all over the Canadian West are far advanced.

Latest reports from abroad indicate that in the United Kingdom, France, Italy and Spain, crop conditions have recently improved, and that in Germany the promise of both winter and spring crops is excellent. In Russia, Roumania, Bulgaria and Turkey, on the other hand, damage from drought is either stated to have occurred, or is feared. The Argentine corn crop is returning a better yield than anticipated. The latest official estimate of yield of wheat in India this year is 212,000,000 bushels, as against 315,386,000 bushels in 1907. The crop, as estimated, is the smallest since 1900, when 200,000,000 bushels were returned as the product of the country. Reviewing the world's grain crop situation pro and con, there would seem just now to be no special reason for disquietude. The current promise may not be for bumper crops, but the outlook is reasonably good for an aggregate yield of grains quite measurably greater than a year ago and a consequent replenishment of the too greatly depleted surplus stock.

---

The new wage agreement entered into between the Textile Council (the operatives' organization) and the Fall River Cotton Manufacturers' Association became effective on Monday of the current week. As stated last week, the agreement entailed upon the operatives a cut in wages of 17.94%, the new price per cut for weaving being 19.66 cents, or 4.30 cents per cut less than the rate prevailing since May 1907. The new

scale is to remain in force until November next. Following the ratification of the agreement, Mr. M. C. D. Borden, who, while not a member of the Manufacturers' Association, generally acts in concord with it, posted notices of a similar reduction (17.94%) in the wages of the Fall River Iron Works Company's mills, effective May 25, and at the same time announced the immediate resumption of full-time working. The resumption of full time concurrent with the reduction of wages has also been the feature at some other points, and it is reported to be the intention of all the corporations at Fall River to adopt the same course as soon as practicable, thus off-setting to a material extent the effect of the reduction in wages. With the cutting-down of wages at Fall River and elsewhere this week, the number of operatives thus affected this spring is not far from 200,000. It is to be regretted that the necessity for a cut in wages existed, but with the lower prices for goods, comparatively high cost of cotton, and poor trade, it was inevitable, and was so recognized by the operatives. At the same time, the new wage scale is above the average of the compensation of recent years, and the very amicable manner in which the adjustment was reached will go far towards preserving a true entente cordiale between employer and employee.

---

With the exception of the reduction, as elsewhere noted, by the Bank of England of its rate of discount from 3% to 2½%, there was no change in official rates by any of the European banks this week.

The New York bank statement of last week showed as the most striking features of actual conditions a reduction of $4,806,200 in cash, largely due to gold exports, an increase of $11,209,500 in loans and of $15,657,600 in deposits. The reserve decreased $8,720,600, to $55,280,625, as the result of the loss of cash and the increase in reserve requirements. Compared with the previous week public deposits decreased $3,102,600, reflecting surrenders of such deposits by New York depositories in anticipation of the maturity of the second installment of the April 28 call for public funds. Owing to the fact that Saturday of this week is a holiday, the bank statement was issued on Friday. The principal changes in actual conditions, compared with those of last week, were a decrease of $11,359,000 in cash, due largely to gold exports and withdrawals of public funds, which withdrawals amounted for the week to $8,679,400. The decrease in reserve was $9,017,675, to $46,262,950 surplus; loans decreased 14 2-3 millions and deposits 12 4-5 millions.

---

Though the New York banks lost 14 millions to the Treasury during the week, largely as the result of surrenders of public funds that were required by the call of April 28, and though there was a further loss of 5 millions on account of exports of gold to Europe and transfers to Montreal, the market for money was not in the least affected. The rise in the rates for domestic exchange at interior points indicated a continued movement hither of unemployed balances, and now that the requisitions by the Treasury for public deposits have been met, the excess disbursements by that department over revenues, constituting fiscal deficits, will contribute to increase supplies of money from that source—that is, the interior. The feature of the time-loan branch of the market this week was an improvement in the demand for over-the-year money, and another feature was the negotiation of sterling loans, that will mature in January, at a guaranteed rate of 4¼%, while domestic loans for this maturity were quoted at 4½@4¾%.

Money on call, representing bank and trust company balances, loaned at the Stock Exchange during the week at 1¾@1½%, averaging about 1⅝%; the above-mentioned institutions loaned at 1½% as the minimum. Time loans on good mixed Stock Exchange collateral were 2½% for sixty day and 2¾@3% for ninety days, 3@3¼ for four months, 3½% for five months, 3½@3¾ for six months and 4¼@4½% for seven to eight months. Commercial paper continues in good request for the best names and there are no accumulations, offerings being promptly absorbed. Rates are 3¾@4% for sixty to ninety-day endorsed bills receivable and 4@4½% for prime four to six months' single names.

---

The Bank of England reduced its rate of discount this week from 3%, at which it had stood since March 19, to 2½%. The cable reports discounts of sixty to ninety-day bank bills in London 1⅝%. The open market rate at Paris is 1⅞@2% and at Berlin and Frankfort it is 3¾%. According to our special cable from London, the Bank of England gained £103,220 bullion during the week and held £37,674,499 at the close of the week. Our correspondent further advises us that all but £2,000 of the gain was due to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports £82,000 (wholly from Egypt); exports, £80,000 (of which £75,000 to South America and £5,000 to Gibraltar), and receipts of £101,000 *net* from the interior of Great Britain.

---

Though the foreign exchange market reflected, in firmer rates for long and easier quotations for short, early in the week the prospects for a reduction in the Bank rate, as indicated by lower open market discounts, the tone grew firmer all around towards the middle of the week. One reason for this firm tone was a demand to remit for stocks that had been sold for European account as the result of the liquidation in our stock market; another reason assigned was the inquiry to cover over-sold exchange, such selling having been encouraged by the expectation that continued gold exports would contribute to a supply of reimbursing bills, and hence to lower rates. The large purchases of grain for export and the announcement of contracts for corn and wheat shipments in considerable amounts were important factors influencing speculative selling of exchange. The gold exports directly to Switzerland, in consequence of inducements offered by the Swiss Bank, and further engagements of gold for Berlin which were stimulated by similar inducements, seemed clearly to show that such transfers of gold abroad were not dependent upon the exchange situation; hence speculative sales of exchange based upon these gold exports appeared likely to be so hazardous as to make desirable prompt covering of such contracts. The statement that there had been the negotiation of sterling exchange loans, maturing in January, was regarded as simply an incident of our monetary situation, and it was thought unlikely that any considerable amounts of such loans would be effected while there is such a narrow margin between

domestic and foreign loans as was indicated by the reported transaction. Possibly, later in the season—or, perhaps, next month, if relative rates for money here and discounts abroad shall be favorable for the negotiation of loan bills, to be covered with the proceeds of commodity exports—there may be such transactions in some volume. The future condition of the exchange market, upon which speculative or other operations are based, will, it seems probable, depend largely, if not wholly, upon relative monetary and discount situations; so far as those abroad are concerned, they can be readily forecasted for, they are moving towards a low basis, while here the movement appears to be in the direction of higher rates.

Gold exports this week were $4,995,000, of which all but $1,195,000 that was sent to Montreal was for Europe; this makes a total of $35,510,000 exported abroad and $3,695,000 to Montreal since the movement began in April. There appears to be a good inquiry for gold at Paris; this is indicated by the competition by French bankers for the Cape gold, which is offered in London, these bankers this week securing the bulk of the $3,000,000 that was sold. The German Reichsbank is still offering the inducements which were made last week, as then noted, for shipments of the metal hence to Berlin, and there is no evidence that the Bank's requirements have been satisfied. So long as our bankers can derive profit from the export movement, the gold will be forwarded to whatever point it may seem to be needed.

Compared with Friday of last week the exchange market on Saturday was steady at a fall of 5 points for short to 4 8710@4 8715 and a rise of 5 points for cables to 4 8735@4 8745; long was unchanged at 4 8525@4 8535. On Monday long declined 10 points to 4 8520@4 8525 and cables 5 points to 4 8735@4 8740; short was unaltered. On Tuesday long rose 10 points to 4 8525@4 8535, short 5 points to 4 8710@4 8720, while cables fell 5 points to 4 8730@4 8735. On Wednesday long was 15 points higher at 48540@4 8550, short 5 points at 4 8715@4 8720 and cables 15 points at 4 8745@4 8750. On Thursday the reduction in the Bank of England discount rate was reflected chiefly in a rise of 10 points for long to 4 8550@4 8560; short was unchanged and cables were 5 points lower at 4 8740@4 8745; on Friday the tone was steady at a rise of 5 points for long and for cables; short was unchanged.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

The following gives the week's movement o fmoney to and from the interior by the New York banks.

| *Week ending May 29 1908.* | *Received by N. Y. Banks.* | *Shipped by N. Y. Banks.* | *Net Interior Movement.* |
|---|---|---|---|
| Currency | $11,431,000 | $2,741,000 | Gain $8,690,000 |
| Gold | 2,080,000 | 400,000 | Gain 1,680,000 |
| Total gold and legal tenders | $13,511,000 | $3,141,000 | Gain $1,037,000 |

With the Sub-Treasury operations and gold exports the result is as follows.

| *Week ending May 29 1908.* | *Into Banks.* | *Out of Banks.* | *Net Change in Bank Holdings.* |
|---|---|---|---|
| Banks' interior movement as above | $13,511,000 | $3,141,000 | Gain $10,370,000 |
| Sub-Treas. oper. and gold exports | 27,600,000 | 49,140,000 | Loss 21,540,000 |
| Total gold and legal tenders | $41,111,000 | $52,281,000 | Loss $11,170,000 |

The following table indicates the amount of bullion in the principal European banks.

| *Banks of* | *May 28 1908.* | | | *May 30 1907.* | | |

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-quarter of the total.

## *THE POLITICAL REVIVAL IN THE FAR EAST.*

The London "Spectator," calling attention to the news of popular uprisings in various Asiatic countries, remarks that "the Western peoples will soon be compelled to revise their ideas of the Eastern world. For centuries past they have thought of Asia as a continent whose inhabitants are lost in apathetic quietude. Now, however, one rarely sees a telegram from any country in Asia that does not record a disturbance, sometimes of the most dangerous kind."

In so far as this comment applies only to news of tribal insurrections, such as that lately reported from the Indian frontier, it can hardly be called a novelty. There have been periods when the spirit of unrest seemed to spread suddenly throughout all these Asiatic dominions. It has been said that the revolutionary ideas which animated Europe in 1848 were largely reflected among the Asiatic peoples. The famous Sepoy Rebellion in India was only the most conspicuous phase of a very general movement. Something the same may be said of the Boxer uprising in China during 1900. In any Oriental community, especially those governed as dependencies of Eastern States, such events are of constant occurrence.

There is, however, a phase of the unrest of Asia, as reflected in the recent news, which has an important bearing on the political developments of the day. We refer particularly to the demonstrations going to prove a new demand among these Eastern peoples for something like responsible self-government. The whole world was lately startled by the granting of something like a parliamentary charter in Persia. That China is passing through a remarkable change in this regard

is recognized by every one, though, with their accustomed self-contained reserve, the Chinese people are letting only the outward and visible signs of the change appear to Western eyes. So of other communities in different parts of the world, which will readily occur to mind.

We suppose this development of the instinct of self-government, in quarters where such aspirations were least expected, is a logical result of Japan's successes in the recent Eastern war. With full allowance for the traditions and prejudices which for centuries have bound these Eastern nationalities to their own ancient social and political system, it is impossible that the part played by free citizenship and representative government in the rise of Japan should be wholly overlooked. It was not only Japan's achievements on the military side which impressed this lesson on the Oriental mind. Immediately before the remarkable conflict between an Eastern and a Western nation on the shores of Asia, there had occurred that singular demonstration of the later nineties commonly known as the partition of China—a movement predicated on the assumption that the Chinese nation, politically speaking, was dying, and that by establishing "concessions" on the coast for the European governments, the "sphere of influence" could be extended thence towards the interior on the plan pursued in Africa, until eventually the Chinese territory should actually have been divided up into dependencies of the Western Powers.

However differently tradition and experience may have led the minds of Oriental people to work on matters of government and social system, their reasoning powers are sufficiently similar to our own to make it certain that some definite conclusions should be drawn from the different attitude assumed by these intrusive Powers towards China and towards Japan. The logical conclusion from such reasoning would be that for self-protection, if for no other purpose, China must imitate in some degree the course of action which had achieved for Japan its remarkable place among the nations.

It is yet too early to draw definite conclusions as to what will be the precise outcome of this new idea in the case of China. The specially interesting point is that the movement to take on new national vigor through the exercise of something like self-government has become general in an unusual degree throughout the world. We have mentioned the case of Persia. The "Spectator," in the article to which we have referred, notices that in Turkey the military caste is demanding freedom from a tyranny that is at once military and sacerdotal. The change that has overtaken the Transvaal region in South Africa is familiar. To many observers Sir Henry Campbell-Bannerman's grant of self-government to a colony, the majority of whose citizens had been trained under the dull and retrogressive organization headed by President Kruger, seemed an experiment of the utmost recklessness. It has, however, thus far resulted remarkably well, and the course of events in the Transvaal and Orange River Colony has proved that even the Boer statesmen of the old regime are adapting themselves with enthusiasm to their new powers and responsibilities.

Russia, with all the handicaps which have surrounded its effort to achieve an independent Parliament, seems at length to have got its Douma into respectable working order and to be some real hand in current legislation. One recent action of the Douma, the report of the National Defence Committee urging the necessity of reducing army conscription, is an illustration of the extent to which these independent powers are invoked. The extremely ill-advised remark of the Minister of Finance, M. Kokovseff, "Thank God we have not a Parliament," called forth distinct repudiation from both the Douma and the Russian press, and led to a public rebuke of the Cabinet Minister by the President of the Douma.

In one respect these new developments among nations hitherto considered neither fit for self-government, nor anxious to achieve it, have a bearing on problems of our own. They certainly cannot be ignored in the case of Cuba, where the United States, under great difficulties, is redeeming its pledge for committing the government fully and fairly into the hands of the Cuban citizens. It is impossible that the meaning of these various incidents should be missed in the matter of the Philippines. There, more than anywhere else in the Eastern world, the problem of aspiration and capacity for self-government is more vital than any other consideration of the day. Nothing would better serve the larger interests and purposes of the United States than proof that the Philippine people were showing such capacity for administration of their own affairs as should warrant the gradual withdrawal by our people from their burdensome responsibilities in the islands.

## *THE NEW HAVEN ROAD'S INTEREST IN OUTSIDE PROPERTIES.*

The action last week by the United States Government against the New York New Haven & Hartford Railroad Co., alleging that the company had violated the provisions of the Sherman Anti-Trust Law in having acquired control of some 1,500 miles of electric railways in the States of Massachusetts, Rhode Island and Connecticut, directs attention to the legal difficulties and snarls into which the policy of aggrandizement pursued by the management in recent years has got this important property. The situation is a most unfortunate one, and what is peculiarly tantalizing is that it is difficult to perceive any good reason for the adoption of a course which was certain to invite the heap of troubles in which the corporation finds itself involved.

As far as concerns the acquisition of the Boston & Maine property, with the view to ultimate consolidation with the New Haven, that is the one act that can with perfect sincerity be defended as being at once in the interest of the two properties themselves and of the general public, although the act has been most vigorously antagonized on behalf of the public. For, as we have pointed out on a previous occasion, the two railroads so dovetail into each other that the question of competition between them on any extensive scale hardly comes up. The lines of the one supplement the lines of the other, and together they would form a harmonious whole, capable of rendering transportation service with increasing efficiency, and at the same time admitting of economies of management that would make improved service entirely feasible from a fiscal standpoint.

We are not among those, therefore, who would join in the chorus of condemnation now being visited

upon the company for this particular act, and which has aroused public ire as has apparently none of the other numerous acts of the last three years in the acquisition of outside properties. On the other hand, we cannot understand why the head of a large corporation of this kind should deliberately, as it were, have affronted public sentiment in the acquisition of about 1,500 miles of trolley road, thereby bringing down upon himself and the corporation he represents the public wrath, when the events transpiring elsewhere from day to day had made it apparent that the move would have precisely such a result.

It was particularly important in the case of the New Haven road that due deference should be paid and full consideration given to the public feeling. The New Haven already held control of practically all the steam railroads in the New England States south of the line of the Boston & Albany RR., and its hold on the steamship business of Long Island Sound was nearly as complete. To add also the trolley lines, and thus to establish at least the semblance of a monopoly in the three lines of transportation,was certainly an act of great daring. In the light of subsequent events, however, does it not partake more of the nature of an inexcusable act of folly, which cannot be defended on sane and rational grounds? Mr. Mellen, certainly, cannot have supposed that, with the public mind in the inflamed state to which it had been brought by political demagogues, no attempt to thwart the scheme would be made.

Thus the acquisition of the Boston & Maine took the appearance of being simply one in a long series of acts of a like nature, all tending to put the New Haven Co. in complete control of the different means of transportation in the whole of the New England section. If the Boston & Maine proposal could have been presented as an independent proposition—that is, had there not been all the many preceding acts of aggression—it would have been viewed, we believe, with favor. The public would have recognized that a union of the two properties was a reasonable suggestion and likely to be attended with benefits rather than the reverse. In the form in which the proposition has actually been presented, it meant a totally different thing. It meant that the dominion which the company purposed to exercise over the three forms of transportation—steam, electricity and water—in the lower half of the New England States, was to be extended so as to cover the upper half also, for the Boston & Maine controls the steam railroad mileage in that part of New England about as completely as the New Haven does the steam railroad mileage of the southern half of New England. Is it at all wonderful, under the circumstances, that the public has not readily acquiesced in the proposal, even though Mr. Mellen is prepared to show that manifold advantages would result, and disclaims any intention to do anything detrimental to public interests?

It is not necessary to consider here whether the United States Government is likely to be successful in its suit against the company under the Sherman Anti-Trust Law. Considerable time must elapse, in any event, before that step can be attended with any results one way or the other. Meanwhile the management is confronted with a much more serious legal situation in another direction because there the issue has already been determined against it. Just two weeks before the authorities at Washington made public announcement of their intention to begin proceedings against the company, the Supreme Judicial Court of Massachusetts handed down a decision in a suit brought by the Attorney-General of that Commonwealth, declaring that the company had exceeded its powers in acquiring control over the Massachusetts trolley lines, and holding that, under Massachusetts law, the company could be restrained by injunction for having thus violated the statute. In view of this decision, the action of the Federal Government seems rather unnecessary, and certainly is somewhat belated.

Because of its importance, it will be interesting to review this decision of the Massachusetts Supreme Court. The Massachusetts statutes provide that a railroad corporation, unless authorized by the General Court (which is the term by which the Legislature is known in Massachusetts), or by certain provisions of the statute not applicable in the present instance, "shall not directly or indirectly subscribe for, take or hold the stock or bonds of, or guarantee the bonds or dividends of, any other corporation." The statutes have been in force in one form or another ever since 1874, and therefore are to be accepted as the declared policy of the State. The New Haven Company, however, undertook to act under Connecticut authority. The Massachusetts statute referred to relates to railroad corporations established under the authority of the Commonwealth and amenable to its laws. It does not include foreign corporations. An important question came up, therefore, in the first instance, namely as to whether the New Haven could be considered a foreign corporation. In other words, whether, by reason of the peculiarities of its organization as a corporation owning and operating a railroad extending into different States, and deriving power and authority from the legislation of different States, it was relieved from the prohibition of the Massachusetts statute.

Judge Knowlton, however, in expressing the views of the Massachusetts Supreme Court, points out that the New Haven Company, while organized under a law of Connecticut, where most of its property lies, and where many laws affecting it have been enacted, was also established under an Act of the Legislature of Massachusetts, and has succeeded to rights and liabilities, or has directly obtained rights and assumed liabilities, under numerous legislative Acts of Massachusetts. There was a consolidation of two corporations, says Judge Knowlton, into a single corporation, which was the creature of both States, operating a railroad extending into both, having the same capital stock to cover the property in both States, and electing its officers and managing its business as a single corporation. Thus, there is nothing that makes it any more a domestic corporation in one of the States than in the other. It is a foreign corporation in neither of them, he declares. It is a domestic corporation in each of them. In most of its features it is a single corporation. In other features it is two corporations acting together as one. It is a single corporation with two parents who live apart and act independently, each having absolute control in its own domain. It owes allegiance and is subject alike to each, and is dependent upon each alike for future favor. In other

words, there was here a legislative consolidation or merger of two corporations upon equal terms—not mere permission to a corporation of one State to enter another State and acquire property or franchises there.

It is also pointed out that in the Massachusetts Act permitting consolidation, it was distinctly provided that the consolidated corporation should at all times be subject to the Legislature of Massachusetts as to that portion of its road in the State, and should be subject to the general laws of the State as to its whole road so far as such laws might be applicable thereto.

The New Haven Company had, relied to some extent upon certain language in the Act of consolidation, and had contended that under it the State of Connecticut could give the corporation franchises and powers to be exercised in Massachusetts which other corporations in Massachusetts are not permitted to exercise. This contention proved of no avail. Judge Knowlton says that when a corporation is made up of two consolidated corporations, holding charters from different States, the new corporation is to be treated as a domestic corporation in each State in reference to the laws of that State relating to its conduct there. He shows, too, that the relations of such corporations to the State, under different statutory provisions, have been considered in many cases. He quotes Justice Field as having said: "By the general law, railroad corporations created by two or more States, though joint in their interests, in the operation of their roads, in the issue of their stock, and in the division of their profits, so as practically to be a single corporation, do not lose their identity, and each one has its existence and its standing in the courts of the country only by virtue of the legislation of the State by which it is created. The union of name, of officers, of business and of property does not change their distinctive character as separate corporations."

Accordingly, it is held that Massachusetts could not have granted the New Haven Co. franchises to be enjoyed and exercised in Connecticut which are contrary to the laws of Connecticut, and, vice versa, Connecticut could not grant franchises to be enjoyed in Massachusetts contrary to the Massachusetts laws, for the corporation in each State is a domestic corporation, and as such it is governed by the laws of the State of its creation in all that it does within that State. The Court thought it plain, too, that in the different provisions of the Statutes of Massachusetts, the Legislature intended to retain control of the consolidated corporation as a domestic corporation in everything that it might do within the Commonwealth and that, in recognizing (as the State did) the company's right to receive franchises and acquire property in Connecticut, the State did not give it an implied right to receive any franchise in Connecticut to be enjoyed or exercised in Massachusetts in violation of the laws or public policy of that commonwealth.

The next point that came up was as to the meaning of the words "shall not directly or indirectly subscribe for, take or hold, the stock or bonds," &c., in the Massachusetts law. Doubtless one purpose of the provisions, says Judge Knowlton, was to protect minority stockholders from the risk of detrimental acts of a corporation ultra vires. But a more important purpose was to prevent a railroad corporation from obtaining, without legislative permission, the control of another corporation so situated that competition between the two might conserve the interests of the public. While combinations of connecting railroads have been encouraged by many enactments, Massachusetts laws are intended to prevent the consolidation of railroad corporations which are natural competitors for the same business, except when authority therefor is obtained from the Legislature. The words "subscribe for, take or hold" are intended to include legal ownership of every kind. The word "indirectly" covers other modes of holding than by taking or holding the legal title. The words together cover every kind of proprietary interest, says Judge Knowlton, in the stock or bonds referred to. It is immaterial how or where the legal title is held so long as the railroad corporation is the equitable or beneficial owner of it. What the Legislature was seeking to prevent, the opinion urges, was influence in the management of the subordinate corporation by the other corporation, however exercised, and whether extending to absolute control or falling short of it.

The question of indirect ownership came up because the New Haven Co.—evidently to guard against conflict with the Massachusetts statutes that might conceivably arise because of direct ownership—had resorted to the organization of a number of intermediate companies. First there was the "Consolidated Railway Co.," which originally held control of numerous trolley lines; then there was the New England Investment & Security Co., a voluntary organization, to which there had been turned over certain of the Massachusetts trolley lines, and then there was a third intermediate organization called the Springfield Railway Companies, which eventually passed to the New England Investment & Security Co., and which holds control of the Springfield Street Ry. But the Court holds that these are all pieces of legal machinery through which the company effects its purpose of getting control of the properties for which it has not been given any franchise under Massachusetts laws. In a word, all the street railway companies in Massachusetts are "indirectly held and controlled and managed in the interest of the defendant as absolutely and completely as it holds and manages its line of railroad between Springfield and New York." "Directly or indirectly subscribing for, taking and holding or guaranteeing the bonds and dividends of another corporation in this commonwealth by a railroad corporation organized under our laws, is the exercise of that which would be a franchise if authority to do it had been granted by the Legislature. It . . . may be restrained by injunction under this statute."

The Attorney-General's "information," apparently, did not cover any but the Massachusetts trolley lines. The ruling of the Court seems to apply equally well to the holding of Boston & Maine stock, since the prohibition is against the holding of stock or bonds "of any other corporation." It has not yet transpired what step the New Haven management intends to take to meet this situation. The Legislature has the matter under consideration, and as nothing could be gained by the adoption of a course that might seriously embarrass the company, it would be best to acquiesce in what has been done, but impose restrictions and regulations calculated to protect public interests.

*GOVERNOR HUGHES AND LIFE INSURANCE.*

After the hundred pages of the Armstrong life insurance law of two years ago, a Martian might have supposed the habit of superimposing patch upon patch of statute would have rested awhile; but it continues as formerly. In 1907, about a dozen laws, mostly amendatory, were passed, two of them, approved on the same day, relating to the same subject and nearly the same in title; this year, between 30 and 40 bills were introduced, of which 8 passed both houses. Of the two or three signed, one permits life companies to become parties to reorganization or protective committees, thus meeting a dangerous condition which was not foreseen when the prohibition of all agreements or participations was inserted in the original law; this was discussed in the "Chronicle" about four months ago. Another new law prohibits misrepresentations made for the purpose of shifting policyholders out of one company into another, this process being called "twisting" in insurance parlance. There has been nothing new which makes the situation as left by the Acts of 1906 materially worse or materially better; nothing which releases the inevitable from the bonds then put on, which still stand deferred.

A bill to slightly modify Section 97, relating to expenses allowed on new business, was passed with no difficulty; it was a compromise measure, made very mild in order to satisfy Governor Hughes's known severity of views on this subject, and the general impression was that he would not oppose it. At a public hearing which he announced, without request from any one, much was said for the bill and not a word against it; notwithstanding, he killed it on last Saturday by the pocket veto, filing a statement respecting it. In this he does again something which has become almost a custom with him; he seriously states a proposition which nobody questions, since its obviousness puts it in the class of truisms; then to this he tags, as though the one proved the other, some proposition which does not follow and has no relation to the other. He recalls the extravagance and waste from over-competition in years now long past; which did exist, as nobody denies; and this would justify his veto, if the measure would revive those past abuses. The proposal of the bill, as correctly stated by him, was to enact that the amounts expended for medical examinations and inspections of proposed risks should not be included in what the present law allows as the maximum cost of procuring new business. This (he says) "cannot be justified, as it would permit unwarrantable outlays and facilitate a return to the injurious conditions of past years."

The Mutual Life tells us that the present restriction came as the company (in pursuance of a deliberate policy) had nearly cleared off the renewal interests of its agents, by commuting and purchasing; therefore, the agents had only their new business to look to for income thereafter; in many other companies this had not been done, and their agents still had large interests in renewal commissions wherewith to tide over, so that an unfavorable effect on a few companies as compared with others followed, necessarily. The additional small margin proposed by the bill now killed would have been (says this company) of great aid just at present; it would have helped the agents out, would have permitted increase in their number, and would have really reduced the cost of new business by increasing the efficiency of a present salaried "manager" system. One of the most prominent agents reminds us that the rejected bill was taken up at the suggestion of a member of the Armstrong committee, who wished to see remedied an injustice that he clearly perceived. The bill was unanimously approved by the insurance committees of both houses; it went unanimously through the Assembly, had only one dissenting vote in the Senate, was urged by all the companies of this State and by most of those outside, and stood almost literally without an opposing voice.

Governor Hughes desires, he says, that agents should be reasonably paid "and that our New York companies shall have the recognition and enjoy the confidence which they deserve"; but his action means that he cannot admit them to be worthy of either. He would deny them any discretion in managing volume and outlays of the business, and he would retain a statute (of which he now more clearly than ever appears the probable author) that sets up the anomaly of a legal maximum, not a minimum, rate of wages. He virtually affirms that he knows the insurance business more intimately and more correctly than any or all of the men with whom it is a life work.

Such a declaration does not suggest comment at any length, but to those who really believe it there can be no difficulty in accepting it forthwith and considering the subject closed. Yet it is remarkable in what strange ways the times are discovered out of joint. There are many persons of a denunciatory habit who would admit wealth to be a good thing, if it had not got into the wrong hands—a misfortune which might readily be cured by a redistribution. There are many others whose talk implies (without explaining how it has occurred so) that all the banks, trust companies, railways, and other great corporations have come under control of incompetent persons; the remedy is to select a few supermen and make out of them public commissions, to which all affairs are to be turned over. The results of this scheme do not appear encouraging thus far; yet we are virtually assured that (if we keep on extending it) everything will be very much right, after everything has been put in a straight-jacket.

It is not expedient (though there be a temptation to do so) to consider the bad features of the Armstrong laws whigh ought to have been and certainly will be sometime removed. Some of the worst have been discussed in the "Chronicle." Suffice it to say that the laws are bad throughout, with scarcely a useful or even innocuous portion; they are bad, not merely in what they contain but in the assumptions upon which they were framed. The time expended on the investigation and its statutory results was insufficient to permit the ablest ten men in the country to frame wise laws, providing they attempted to prescribe such minutiae of regulative and restrictive details. The actual framer or framers had only the shallowest knowledge of the subject, and the animus which impelled them was such as made any just handling of it impossible. No legislation of any considerable amount or of wide scope was timely or needed; and this bad mass, destructive in effects as it was predicted must be, requires to be swept away. That Governor Hughes intends wholesomeness and believes he is striving for it may be admitted; but that does not make it less a

misfortune that he is so perfectly right in his own eyes and so immovably set against conviction.

## *THE ISSUE OF CLEARING-HOUSE CERTIFICATES DURING THE PANIC.*

We have had in mind for some time the preparation of a compilation to show the amount of Clearing-House certificates issued during the financial cataclysm of last autumn by all the various Clearing-House Associations throughout the country. We have felt that complete and accurate data in that regard would be very serviceable both for present use and as a matter of record. We find now that one of the officials of the New York Clearing House has been engaged in this very task for a good many weeks past, obviating the need of ourselves engaging in the work—an undertaking of no mean proportions. During the last two months correspondence with the officials of the different Clearing Houses has elicited figures and facts which have been placed at our disposal and will be found in an elaborate compilation printed on a subsequ ent page—page 1321. The exhibit has particular interest at this juncture when Congress is perfecting a measure of legislation whose avowed purpose is to provide an "emergency" currency to be available in a time of stress like that from which the country has so recently emerged.

The endeavor has been to indicate in a concise way a few leading and essential facts. The items comprise (1) the date of the first issue of certificates in each case; (2) the date of the last issue; (3) the date of the first cancellation; (4) the date of the final cancellation; (5) the aggregate issue, being the aggregate of the several amounts put out from day to day during the whole of the period in which this means of relief was practiced, and (6) the maximum amount outstanding, with the date when such maximum was reached. It can readily be seen that the aggregate of the different issues would not necessarily show the maximum amount outstanding at any one time, since while certificates were still being issued others might be in process of cancellation. As a matter of fact, this is precisely what happened at a number of points, and particularly at New York, and hence in the case of not a few places the maximum amount outstanding falls considerably below the aggregate issue.

Mr. Gilpin, Assistant Manager of the New York Clearing House, sent inquiries to 106 Clearing Houses in the United States, asking as to the use of loan certificates, and cashiers' or Clearing-House checks during the recent disturbance. He received replies from all but nine places. Of the remainder, it appears, 50 had availed of this measure of relief, while the other 47 gave replies indicating that resort to such expedient had not been adopted. Among the nine places from which no returns were received were presumably Kansas City, Columbus, O., Oklahoma City and Montgomery, Ala., for we do not find these in Mr. Gilpin's list, though reports to us while the currency stringency prevailed indicated that action at these points had been taken looking to the issuance of certificates. Except, however, in the case of Kansas City, the amount of certificates in these instances cannot have been very considerable.

The fact of paramount interest in the detailed statement is, of course, the aggregate amount of this Clearing-House currency shown to have been issued. By the table the aggregate is $248,279,700, but, as just indicated, the statement is not absolutely complete. It seemed better to give it now rather than to delay further on the chances of receiving returns from the missing places later on. Barring Kansas City alone, none of the missing returns would swell the grand aggregate to any very great extent. The Kansas City return, however, would add several million dollars to the total. As will be recalled, during the strain the very largest bank in Kansas City became involved in difficulties—we mean the National Bank of Commerce—and the issue of Clearing-House certificates was mainly in aid of that institution. On the day of its suspension, namely December 5 (the bank has since been completely reorganized and is again a prosperous institution with ex-Comptroller Ridgely at its head) the indebtedness of the Bank of Commerce to the Kansas City Clearing House was reported at $3,694,000. Probably, with returns from Kansas City and the few minor missing points included, the aggregate of certificates issued would stand in the neighborhood of 255 million dollars.

In the larger Clearing Houses the certificates were issued, with but few exceptions, for the sole purpose of settling balances between the banks at the Clearing Houses. In other places the certificates were in a number of cases pledged for checks or notes of small denominations meant to serve as currency for general circulation. In still other localities no certificates were issued at all, but cashiers' checks for small, uniform amounts, or checks authorized by the Clearing House, or banks associated, were issued to provide funds for pay-rolls, &c. In the detailed statement which we print, the issues, known or apparent, meant for other than Clearing-House purposes, are noted with an asterisk (*). A number of places which were supposed to have put out Clearing-House certificates now report that none were issued. This is particularly true of Cincinnati, Mobile and Memphis.

It is proper to recall here that Clearing-House certificates and Clearing-House checks were not the only form of emergency issues put out during the trouble. Some few of the railroads and also some industrial corporations—the Standard Oil Co. among the latter—issued checks of larger or smaller denomination in making payments to their employees during the period of extreme stringency and while hoarding was still being practiced, and some of these checks passed current and acted as substitutes for currency for the time being. The matter is of importance at this moment, in view of the amount of new note issues to be allowed in the Vreeland-Aldrich Bill now speeding to enactment in Congress. The limit fixed in that measure for the additional notes which it calls into being is $500,000,000. It is undoubtedly a wise provision to have the amount at some large figure like this, though under a properly-constructed bank-note system the necessity for emergency issues should never arise.

A striking feature disclosed by the tabulation of certificates is the large proportion of the total issued at the financial centres. That shows where measures of relief must be applied when relief becomes necessary. In Congress and among politicians there is always more or less objection to proposed schemes for regulating the currency out of fear that the benefits will accrue to the banks and financial institutions at the leading

monetary centres. The legislator from the West and South is sure to rise in his seat and urge that not enough provision is made for his constituents or for the banks in his bailiwick. In the same way certain Secretaries of the United States Treasury during their incumbency in office were afraid that Government deposits in the financial centres might be an unwise thing, and accordingly sought to put the money with interior institutions.

But such notions embody a serious fallacy. Relief at the financial centres means relief for the whole country. The money is needed at the financial centres in order that these financial centres may be able to meet the demands of the other parts of the country. No feature of the late panic was so noteworthy as the enormous shipments of currency which were made to the West, to the South and to the Pacific Coast from the chief monetary centres. The New York Clearing House was not obliged to issue $101,060,000 of certificates to meet local needs, but to meet the unusual demands of the country banks for currency and for a return of their funds on deposit here. In the same way, Chicago could have got along with very much less than the $39,240,000 of certificates actually issued by its Clearing House, except that the banks at that centre, like those at New York, had to provide for the wants of their out-of-town correspondents. Out of the whole $248,279,700 of certificates issued, as shown by our table, no less than $194,894,000 is supplied by six points, namely, New York, $101,060,000; Chicago, $39,240,000; St. Louis, $15,965,000; Philadelphia, $13,695,000; Boston, $12,595,000, and San Francisco, $12,339,000.

Another interesting way of grouping the figures is by geographical divisions, using for this purpose the grouping employed by the United States Census in its statistics. In this way it is found that the Clearing Houses in the North Atlantic division, comprising the New England section, together with New York, New Jersey and Pennsylvania—or, more specifically, the cities of New York, Philadelphia, Boston, Pittsburgh, Buffalo and Harrisburg—are responsible for $136,076,500 of certificates, while the North Central division, comprising the Central Western States, is accountable for $74,800,200 more, making, altogether, for these two groups no less than $210,876,700 of certificates out of the grand total of $248,279,700 of certificates put out by all the Clearing-House associations. In the South Atlantic group only $7,010,800 of certificates were put out, and in the South Central division $8,960,200. In the so-called Western, or what would be termed here the Pacific, division, the total contribution of certificates was somewhat larger, and yet aggregated no more than $21,432,000, and this included the $12,339,000 issued by San Francisco, already alluded to. The following shows the details for each group.

| | |
|---|---|
| *North Atlantic Division—* | |
| New York | $101,060,000 |
| Philadelphia | 13,695,000 |
| Boston | 12,595,000 |
| Pittsburgh | 7,445,000 |
| Buffalo | 915,000 |
| Harrisburg | 366,500 |
| | $136,076,500 |
| *North Central Division—* | |
| Chicago | $39,240,000 |
| St. Louis | 15,965,000 |
| Milwaukee | 3,718,000 |
| Minneapolis | 1,830,000 |
| St. Paul | 1,900,000 |
| Cleveland | 3,220,000 |
| Youngstown | 541,000 |
| Indianapolis | 1,650,000 |
| Fort Wayne | 345,000 |
| South Bend | 120,000 |
| Detroit | 2,175,000 |
| Des Moines | 1,001,200 |
| Sioux City | 240,000 |
| Omaha | 1,999,000 |
| Lincoln | 208,000 |
| St. Joseph | 515,000 |
| Topeka | 42,000 |
| Wichita | 91,000 |
| | $74,800,200 |
| *South Atlantic Division—* | |
| Baltimore | $3,094,000 |
| Danville | 617,200 |
| *South Atlantic Div. (Continued).* | |
| Lynchburg | $381,000 |
| Wheeling | 195,000 |
| Atlanta | 1,500,000 |
| Savannah | 265,500 |
| Augusta | 370,000 |
| Macon | 325,000 |
| Brunswick | 109,000 |
| Charleston | 115,000 |
| Greensboro | 39,100 |
| | $7,010,800 |
| *South Central Division—* | |
| New Orleans | $5,266,000 |
| Louisville | 2,590,000 |
| Knoxville | 282,500 |
| Nashville | 468,700 |
| Vicksburg | 170,000 |
| Little Rock | 183,000 |
| | $8,960,200 |
| *Western (Pacific) Division—* | |
| San Francisco | $12,339,000 |
| Oakland | 1,250,000 |
| Los Angeles | 2,088,000 |
| Denver | 650,000 |
| Salt Lake | 802,000 |
| Portland | 1,000,000 |
| Seattle | 1,675,000 |
| Spokane | 1,413,000 |
| Tacoma | 215,000 |
| | $21,432,000 |

With reference to the dates of the issuance of the certificates, this in all cases occurred either towards the close of October or some time in November. As concerns the last issue of certificates, where this extended beyond the end of December, it was usually for some special reason, as in the case of New York, where renewed troubles among a number of banks which had been kept afloat through Clearing-House aid for a period of three months, caused the issuance of some certificates as late as Jan. 30. The date of the first cancellation of certificates varied widely among the different Clearing Houses, beginning in some cases, like New Orleans, almost immediately after the process had begun, and in other cases, like Boston, being delayed until January. The date of final cancellation would seem to possess little significance. In some instances the tardy return of a trifling amount of outstanding issues has delayed the date, and in other cases, notably in New York, the fact that some of the institutions which had taken out certificates passed into the hands of receivers, and had to be liquidated, had the same effect.

One other point deserves mention. While the aggregate of certificate issues was $248,279,700, the maximum amount outstanding at any one time was only $219,857,500. This confirms what was said above, that, while new certificates were still in process of issuance, the cancellation of certificates previously issued had already begun. Nor were the certificates actually outstanding always in use. The banks frequently took out certificates as a mere precautionary measure, so that they might have them on hand in case the necessity arose. That was conspicuously true at this centre. The aggregate of the issues here, as noted above, was $101,060,000. The maximum amount outstanding at any one time was only $88,420,000 and the maximum amount in actual use was still less. It has not been easy to calculate the amount in actual use from to day day, but computations have been made that show the maximum was only $74,000,000. Of course the certificates bore interest while they were outstanding, whether in actual use in the payment of balances or not; nevertheless, holding the certificates, where not required, did not cost an institution anything, since, though the interest on the certificates was charged up against it, it also received credit of interest on the certificates held by it—whether certificates received from other institutions in the payment of balances or taken out by itself and not used—and thus the one item necessarily offset the other.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The public sales of bank stocks this week aggregate 147 shares, of which 47 shares were sold at the Stock Exchange and 100 shares at auction. The transactions in trust company stocks reach a total of 52½ shares.

—Notwithstanding the announcement a week ago that Congress had decided to abandon its efforts toward currency legislation, a compromise measure, embodying the principal features of both the Aldrich and Vreeland Bills, was agreed to by the Senate and House conferrees on Wednesday and passed by the House on that day by a vote of 166 to 140.

It is stated that in the haste to have the bill printed the section providing that it shall expire by limitation on June 30 1914 was omitted, thus necessitating another vote on the bill in the House, whether or not it is amended by the Senate. The compromise measure, like the Vreeland Bill, provides that national banks, not less than ten in number, with an aggregate capital and surplus of at least $5,000,000, may form voluntary associations which, however, are designated in the new bill as National Currency Associations, instead of Clearing-House Associations, as in the Vreeland Bill. Emergency currency may be issued through these associations to an amount not exceeding $500,000,000. The new bill makes as a basis for such emergency currency "any securities, including commercial paper, held by a national banking association." It is stipulated that the term "commercial paper" shall be held to include only notes representing actual commercial transactions which, when accepted by the association, shall bear the names of at least two responsible parties and have not exceeding four months to run.

Any national bank belonging to any national currency association having circulating notes outstanding secured by a deposit of United States bonds to an amount not less than 40% of its capital, and which has its capital unimpaired and a surplus of not less than 20%, may obtain emergency notes to an amount not exceeding 75% of the cash value of the securities or commercial paper deposited. There is also a provision under which, upon the deposit of bonds of certain described State, city, town, county, or other municipalities, the notes may be issued to the extent of 90% of the market value of such bonds direct to a bank without the intervention of any National Currency Association. It is stipulated that in no event is the issue of notes based on commercial paper to be in excess of 30% of the unimpaired capital and surplus of a bank. The banks and assets of all banks belonging to any particular association are to be jointly and severally liable to the United States for the redemption of any circulation obtained through the instrumentality of such association, but as between the several banks composing such association each bank shall be liable only in the proportion that its capital and surplus bear to the aggregate capital and surplus of all such banks. The tax on the emergency notes is to be at the rate of 5% per annum for the first month, after which there is to be an additional tax of 1% per annum for each month, until a tax of 10% per annum is reached. A redemption fund equal to 5% of such emergency notes is to be deposited in the Treasury in addition to the 5% redemption fund now required against circulating notes. The bill also contains a provision creating a National Monetary Commission, to be composed of nine members of the Senate and nine members of the House.

—Governor Higgins of Rhode Island has appointed William P. Goodwin of Providence State Bank Commissioner, under the new banking Act passed by the Legislature creating the office and providing for such appointment. The Act, in addition to providing for the general regulation of banks, also materially changes the law governing the investments of savings banks.

—In dismissing a suit brought to hold certain of the stockholders of the Union Surety & Guaranty Co. of Philadelphia liable for double their holdings, Judge Sulzberger of the Common Pleas Court No. 2 held that trust companies organized under the Act of April 29 1874 cannot legally be considered to be conducting a banking business, and accordingly their stockholders are not liable for double the amount of their shares. The receiver of the institution had sought to enforce the double-liability payment of the stockholders, basing his suit on a different Act of 1874 (May 11 1874), which provides that "all stockholders in banks, banking companies, saving fund institutions, trust companies, and all other incorporated companies doing the business of banks or loaning and discounting moneys as such in this Commonwealth, shall be personally liable for all debts and deposits in their individual capacity to double the amount of their capital stock held and owned by each." In dismissing the suit, Judge Sulzberger said:

Banks and trust companies are not identified with each other in the popular mind. Banks are ancient, trust companies modern. Banks deal primarily with merchants; trust companies with all classes, without distinction. Banks lend on personal credit, trust companies on the security of pledged collaterals. Banks take the risk of the business success of mercantile enterprise, while trust companies incur only the risk of a decline in investment values. Banks actively promote commerce, while trust companies manage investments.

What they have in common is that they both receive deposits, which they put out at interest so that dividends or profits may be earned for the shareholders. Even in this respect there are important differences between the two. Normally, banks pay no interest on deposits; trust companies pay such interest. Banks, under the power to discount, are allowed by law to earn interest at a rate somewhat higher than 6%, while trust companies are limited to the ordinary legal rate of 6%.

In 1899, when the Union Surety & Guaranty Co. was chartered, there was no general statute which by its title professed to incorporate trust companies. There was a general statute, the Act of May 13 1876, which provided for the incorporation of banks. The company in question was not incorporated under the latter Act. It did not seek the banking privileges conferred by it, but desired privileges inhering in what are known as trust companies, and accordingly declared in its certificate that it was formed under the Act of April 29 1874, and the several supplements thereto, and that its purpose was "insuring the owners of real estate, mortgages and others interested in real estate from loss by reason of defective titles, liens and incumbrances." Of course, the certificate lacked fullness and even accuracy, but it slavishly followed the mere wording of the law.

It is shown that in the legislative mind the receiving of deposits and their loan on collaterals was not considered banking, or, at all events, had ceased so to be considered; that to the latter term a special and peculiar sense had attached; that before the establishment of the national-banking system the distinctive points of banking were the discounting of commercial paper and the issue of banknotes; that afterward the latter feature was, for the time at least, eliminated, and that then the sole peculiar characteristic of a State bank was the discounting of commercial paper.

—The Cleveland Stock Exchange is now located in new quarters on the top floor of the Hippodrome Building, having removed from its former quarters on May 18.

—Gov. Fort of New Jersey has appointed the following as members of a commission (provided for at the late session of the Legislature) to suggest a law for the taxation of banks, trust companies and savings banks: John O. H. Pitney of Essex County, Bloomfield H. Minch of Bridgeton, William H. Davis of Hudson County, Albert M. Bradshaw of Lakewood and J. Lippincott of Atlantic County.

—The American Bankers' Association, 11 Pine Street, this city, has compiled a statement to show the coming bankers' conventions in the different States. The list will undoubtedly be found useful by many bankers, and we accordingly re-print it herewith:

STATE CONVENTION DATES.

| Date. | State. | Place. | Secretary. | Address. |
|---|---|---|---|---|
| June 4-5-6 | Texas | Fort Worth | J. W. Hoopes, | Austin |
| June 10-11 | Massachusetts | North Adams | G. W. Hyde | Boston |
| June 11-12 | Iowa | Sioux City | J. M. Dinwiddie, | Cedar Rapids |
| June 11-12 | Georgia | Brunswick | L. P. Hillyer, | Macon |
| June 11-12 | West Virginia | Charleston | W. B. Irvine, | Wheeling |
| June 16-17-18 | North Carolina | Morehead City (Atlantic Hotel) | W. A. Hunt, | Henderson |
| June 18-19-20 | Virginia | Hot Springs | N. P. Gatling, | Lynchburg |
| June 18-19-20 | Washington | North Yakima | P. C. Kauffman, | Tacoma |
| June 20 | Maine | Waterville | H. S. Hall, | Waterville |
| June 26-27 | Oregon | Salem | J. L. Hartman, | Portland |
| July 1-2 | North Dakota | Bismarck | W. C. Macfadden, | Fargo |
| July 6 to 12 | Michigan | Marquette | Hal. H. Smith, | Detroit |
| July 9-10 | New York | Frontenac (1,000 Islands) | E. O. Eldredge, | New York |
| July 8-9 | South Dakota | Deadwood | J. E. Platt, | Clark |
| July 15-16 | Wisconsin | Milwaukee | J. H. Puelicher, | Milwaukee |
| July 23-24 | Minnesota | Duluth | E. C. Brown, | Minneapolis |
| July 23-24-25 | Bank Clerks | Providence | G. E. Allen, | New York |
| July 23-24 | Colorado | Colorado Springs | A. A. Reed, | Boulder |
| July 27-28 | Montana | Billings | Frank Bogart, | Helena |
| Sept. 23-24-25 | Maryland | Baltimore | Chas. Hann, | Baltimore |
| Sept. or Oct | Illinois | Chicago | F. P Judson, | Chicago |
| Sept. or Oct | Am. B'krs' Ass'n | Denver | F. E. Farnsworth, | New York |

—An important incident of the convention of the California Bankers' Association, which adjourned on the 16th inst. after a three days' session at Pasadena, was the movement toward the establishment of a State Clearing-House Association. Action in this direction was started some little time ago by C. E. Woodside, bond officer of the Los Angeles Trust Co. of Los Angeles. The result of his efforts was the appointment at the convention of a committee of fifteen, which at once prepared recommendations relative to the formation of such an organization, and providing for the appointment of a sub-committee to work out the details of organization. These recommendations, which were unanimously adopted by the association, are as follows:

The committee appointed by your body to formulate plans relative to the organization of a State Clearing-House Association beg leave to submit the following recommendations:

First: That a State Clearing-House Association be formed to include, if possible, all the banks of the State.

Second: That the State Clearing-House Association be divided into districts, each district to be managed by a local committee under the control of a general association.

Third: That each district select and employ its own independent examiner and that examinations and reports be made in accordance with rules and regulations established by the general association.

Fourth: That laws be enacted creating a State Superintendent of Banks in place of the present Board of Bank Commissioners, and that the Superintendent of Banks, in causing examinations of State banks to be made, employ so far as possible the examiners that have been selected by the districts of the Clearing-House Association.

Fifth: That all banks be required to publish in local papers statements of their conditions on the dates designated by the Comptroller of the Currency.

Sixth: That a committee of three be appointed by the California Bankers' Association to take charge of the details of organizing a State Clearing-House Association and that the necessary expenses of such committee be paid out of the Treasury of the California Bankers' Association.

J. J. MOREY, Chairman.
C. E. WOODSIDE, Secretary.

San Francisco and Los Angeles are among the cities operating their own clearing houses, and both organizations maintain their own independent examiner. These two cities, Mr. Woodside states, will form two districts of the State association, the remainder of the State being divided into districts in accordance with location. As far as our knowledge goes, this will be the first State Clearing-House Association in the United States. Through such an organization

it is expected that the banking system of California will be so strengthened that every emergency can be handled with ease, and the possibility of loss reduced to a minimum.

—A discussion of the subject of "Bonds as a Secondary Reserve for Banks" by Cyrus Peirce, Manager of the San Francisco office of N. W. Halsey & Co., was also one of the features of the annual convention of the California Bankers' Association. In summarizing the question, the following conclusions were arrived at by the speaker:

First, that bonds bought for strictly panic reserve must be bought without regard to net return, and only the question of their immediate marketability can be taken into consideration.

Second, if a bank is so situated that it is not likely to have sudden and abnormal calls on its money, it may invest a smaller proportion of its reserve in these especially marketable bonds but may make various investments among other securities which are equally marketable in normal times, and which net a higher rate of interest.

This, Mr. Peirce stated, leaves only one important point to be considered by the banker, and that is the source from which he obtains his securities; and whether it be his banking correspondent in a reserve city, or whether it be a recognized dealer in bonds, he should know that he is getting expert advice upon which he can rely, and that in time of trouble he will be assured of a willingness and ability to assist without regard to the question of profit on the transaction then in hand.

—Under an amendment to the New York banking law passed at the late session of the Legislature, the interest to be paid on deposits by savings banks is to be arrived at not only after deducting necessary expenses and reserving such an amount as may be deemed expedient as a surplus, but also after providing for the amortization and gradual extinction of premiums or discounts on all securities owned by the bank so as to bring them to par at maturity. The amendment became a law with the approval of the Governor on April 13. We give it herewith in full, showing the new matter in italics and old matter to be omitted in brackets.

AN ACT

*To amend the Banking Law in relation to the rate of interest to be paid to depositors and the deduction of a fund to amortize or retire at maturity premiums paid on securities.*

*The People of the State of New York, represented in Senate and Assembly, do enact as follows:*

Section 1. Section 123 of chapter 689 of the laws of 1892, entitled "An Act in relation to banking corporations," is hereby amended to read as follows:

Section 123. Rate of interest; extra dividends.—The trustees of every such corporation shall regulate the rate of interest or dividends not to exceed five per centum per annum upon the deposits therewith, in such manner that depositors shall receive as nearly as may be, all the profits of such corporation, after deducting necessary expenses *and providing in a manner approved by the Superintendent of Banks, for the amortization or gradual extinction of premiums or discounts on all securities owned by such corporations so as to bring them to par at maturity*, and reserving such amounts as the trustees may deem expedient as a surplus fund for the security of the depositors, which to the amount of fifteen per [cent] *centum* of its deposits, the trustees of any such corporation may gradually accumulate and hold, to meet any contingency or loss in its business from the depreciation of its securities or otherwise. The trustees may classify their depositors according to the character, amount and duration of their dealings with the corporation, and regulate the interest or dividends allowed in such manner that each depositor shall receive the same ratable portion of interest or dividends as all others of his class. The trustees of any such corporation shall not declare or allow interest on any deposit for a longer period than the same has been deposited, except that deposits made not later than the tenth *business* day of the month, commencing any semi-annual interest period, or the third *business* day of any month, or withdrawn upon one of the last three *business* days of the month, ending any quarterly or semi-annual interest period, may have interest declared upon them for the whole of the period or month when so deposited or withdrawn. No dividends or interest shall be declared, credited or paid, except by the authority of a vote of the board of trustees duly entered upon their minutes, whereon shall be recorded the ayes and nays upon each vote; but accounts closed between dividend periods may be credited with interest at the rate of the last dividend, computing from the last dividend period to the date when closed, if the by-laws so provide. Whenever any interest or dividend shall be declared and credited in excess of the interest or profits earned and appearing to the credit of the corporation, *after making the deduction for expenses and amortization aforesaid*, the trustees voting for such dividend shall be jointly and severally liable to the corporation for the amount of such excess so declared and credited. The trustees of any such corporation whose surplus amounts to fifteen per [cent.] *centum* of its deposits, at least once in three years, shall divide equitably the accumulation beyond such authorized surplus as an extra dividend to depositors, in excess of the regular dividends authorized. A notice posted conspicuously in a bank of a change in the rate of interest shall be equivalent to a personal notice.

Section 2. This Act shall take effect immediately.

Approved April 13 1908.

—We also give this week the new section which has been added to the banking law of New York requiring monthly meetings of directors of banking institutions. In addition to other provisions, the new section calls for the designation of an officer who shall be required to submit to each director or trustee at each meeting, or to an executive committee of not less than five members of the board, a written statement of all purchases and sales of securities, and of every discount and loan, exclusive of those less than $1,000, made since the last regular meeting, together with a description of the collateral to the loan. The section reads as follows:

AN ACT

*To amend the Banking Law relative to monthly meetings of boards of directors or trustees, and reports thereto.*

*The People of the State of New York, represented in Senate and Assembly, do enact as follows:*

Section 1. Chapter 689 of the laws of 1892 entitled "An Act in relation to banking corporations," is hereby amended by adding thereto a new section, to be section 39-a thereof, to read as follows:

Section 39-a. Meetings of directors or trustees and reports thereto.—The directors or trustees of every corporation to which this chapter is applicable shall hold a regular meeting once in each month. They shall by resolution duly recorded in the minutes of the proceedings of such corporation designate an officer or officers whose duty it shall be to prepare and submit to each director or trustee at each regular meeting of the board, or to an executive committee of not less than five members of such board, a written statement of all purchases and sales of securities, and of every discount and loan, exclusive of discounts and loans of less than one thousand dollars, made since the last regular meeting of the board, describing the collateral to the loans so made as of the date of the meeting at which such statement is submitted. Such statement shall also contain a list giving the aggregate of loans and discounts to each individual, firm, corporation or association, whose liability to such corporation has been increased one thousand dollars or more since the last regular meeting of the board, together with a description of the collateral to such loans held by such corporation at the date of the meeting at which such statement is submitted. A copy of such statement, together with a list of the directors present at such meeting, verified by the affidavit of the officer or officers charged with the duty of preparing and submitting such statement, shall be filed with the records of the corporation within one day after such meeting, and be presumptive evidence of the matters therein stated.

Section 2. This Act shall take effect immediately.

Approved April 27 1908.

—It has been definitely decided to hold the annual convention of the American Bankers' Association in the week beginning Sept. 27. As previously announced in these columns, Denver will be the convention city.

Major Charles Elliot Warren, President of the New York State Bankers' Association, announces that with the consent of the council of administration of the State organization, arrangements have been made with the New York Central lines for a "bankers' special" from New York to Denver for the accommodation of members from New York and the contiguous territory. This train will be a duplicate of the "bankers' special" to the Pacific Coast in 1903. The route to Denver will be a direct one, but on the return trip a visit to Yellowstone Park and other points of interest will be included. It is contemplated that the round trip will consume from two and a half to three weeks. Mr. Warren will be glad to assign space, in the order of receipt, to those desiring to join the party.

The New York State Bankers' Association will meet in annual session July 9 and 10 at the Hotel Frontenac, Thousand Islands. A special train, for the exclusive use of the bankers, will leave the Grand Central Station on Wednesday evening, July 8, provided there is a sufficient number of persons to warrant it. The train is scheduled to arrive at 6:25 a. m. July 8 at Clayton, where direct connection is made with the steamer due to arrive at Frontenac at 7:20 a. m. For those desiring to make a day trip, special parlor cars will be attached to the "Thousand Islands Special," leaving the Grand Central Station July 8 at 7:45 a. m. The social features of the program will include special steamboat excursions through the St. Lawrence, a banquet at the Hotel Frontenac in the evening of July 9 and a carnival of fire in the evening of July 10.

—James V. Lott, Cashier of the Liberty National Bank of this city, died suddenly on Thursday night. Mr. Lott had been Cashier of the Liberty National since January 1907. He had previously been connected with the Mercantile National in a similar capacity and had been in the service of the latter for over twenty-five years.

—The new six-story banking establishment of the Importers' & Traders' National Bank of New York is now nearing completion on its old site at 247 Broadway, corner Murray St. The bank will occupy the entire 15,000 square feet of space in the building. Counting the Chemical National, the Park National, the Liberty National and the Title Guarantee & Trust, it is the fifth downtown Broadway institution to erect a bank building exclusively for the use of its own departments. Two alternatives presented themselves to the management of the institution either of erecting a bank building devoted entirely to its own uses on this valuable site, which fronts 25 feet on Broadway and 102 feet on Murray Street, or purchasing adjoining property for a wider frontage on Broadway and building a "sky-scraper" to profitably defray the investment on the addtional Broadway space. The final plans drawn by the architect, J. H. Freedlander, 244 Fifth Avenue, and accepted for the present edifice, permit the entrance of twice as much air, light and sun on the six floors of its 25x102 structure than if the bank had added 50 or more feet to the Broadway side and confined its offices to two of the lower floors of a sky-scraper. With these requirements to meet, the architect has successfully evolved a banking plant which is worth the inspection of banking men. The facade of the building is of white South Dover marble, of classic design; two Corinthian columns appear on the Broadway front and six pilasters on the Murray Street side. The public entrance on Broadway and all the window frames are of bronze with handsome grill work on the first and second

floor windows. The interior of the main floor is of marble and bronze, and the officers' and directors' rooms are beautifully decorated with Circassian walnut wainscoting

Of the most interest to the visitor is the disposition and appointments of the various departments, which the architect has so ably arranged on the six floors. On the first floor are the receiving departments for the receiving and note tellers and collection clerks, the second floor has the paying departments for paying tellers, balance and individual bookkeepers and assistant cashiers. The officers' quarters and the loan and discount departments are located on the third floor, while the fourth, fifth and sixth floors accommodate the directors' rooms and the general clerks. In the center of the main floor there are special electric elevators connecting all floors, besides a private elevator and entrance in the rear. The building is entirely fireproof, with skeleton construction and tile-floor arches. The sub-basement is given over altogether to the machinery plant, consisting of heating and ventilating apparatus, electric light, vacuum sweeping system and ice-water refrigeration. The Importers' & Traders' National Bank, known over for half a century as one of New York's representative and conservative institutions, was organized in 1855 and, in addition to dividends paid, has earned in surplus and undivided profits $7,487,147. At the last bank call, May 14, deposits were $27,690,992 and total resources $38,503,048. The directors are: Edward Townsend, President; H. H. Powell, John Arbuckle, Isaac D. Fletcher, Henry C. Hulbert, Henry R. Ickelheimer, Adolph Lewisohn, James R. Plum, Edward C. Rice, Edward Van Volkenburgh, John J. Walton and P. B. Worrall.

—In addition to the change in the presidency of the Hungarian-American Bank of this city, noted last week, the bank also has a new cashier in A. H. Watson, who was chosen to the post last month. Mr. Watson had previously been Cashier of the Richmond Borough National Bank.

—The Metropolitan Trust Co. of this city has paid in full all the claims of the former depositors of the failed Oriental Bank which have been presented at the offices of the trust company, 49 Wall St. The only unpaid accounts are those of a few small depositors who are absent from the city or abroad, and cannot be reached. It will be recalled by our readers that when the affairs of the defunct Oriental Bank were in a tangled condition, Brayton Ives, President of the trust company, proposed an arrangement to the court which provided for the immediate payment of all the Oriental's depositors by his company. The company's act was somewhat unique, and elicited much praise. As has been heretofore noted, the company is also identified with the reorganization of the Williamsburgh Trust Co., having agreed to advance the sum of $1,500,000 to aid in its reopening.

—Judge Hough has dismissed the petition in bankruptcy filed against the New York Stock Exchange house of W. L. Stow & Co. on July 11 1907. The action was consented to by the petitioning creditors and others interested. The firm suspended on April 15 1907.

—The directors of the Hudson Trust Co. of this city, at a special meeting on the 22d inst., elected Louis H. Holloway as Vice-President and director of the institution. Mr. Holloway had been a Vice-President of the Mechanics' & Traders' Bank.

—August Heckscher and August Belmont Jr. have been elected directors of the Windsor Trust Co. of this city, succeeding Andrew Freedman and August Belmont, resigned.

—The Fidelity Trust Co. of this city submits a statement at the close of its first year, May 21 1908, showing deposits of $4,208,172 and total resources of $5,845,876. The institution started business May 22 1907 with a capital and surplus of $750,000 each, and in the twelve months has accumulated undivided profits of $102,340. The report shows cash on hand and in banks of $1,416,743, representing a reserve of 30% against the above-mentioned deposits. It is announced that the average reserve since May 22 1907 has been 26.91%. The company's accounts exceed 1,000. In a circular to its stockholders and friends, it is pointed out that the institution offers no inducements in the way of free collections of country checks, or in the line of payment of high rates of interest to attract deposits, believing that the only growth worth attaining is based on sound and substantial business principles. Samuel S. Conover is President and Andrew H. Mars is Secretary.

—The National Copper Bank of this city, which began business a year ago, has applied for membership in the New York Clearing House Association. The bank's deposits under the call of May 14, were $17,049,077.

—The directors of the Carnegie Trust Co. of this city declared the initial dividend on the stock of the institution, being a semi-annual dividend of 3%, payable June 1.

—The Grand Jury this week filed four additional indictments against Thomas A. McIntyre on charges of larceny and grand larceny in the first and second degrees. He was released on $1,000 bail for each indictment. Mr. McIntyre had been indicted last week on a charge of grand larceny for which he furnished bail to the amount of $25,000. George C. Ryan, another member of the firm of T. A. McIntyre & Co., was indicted with Mr. McIntyre this week, and released under $25,000 bail.

—The attempted merger of the Brooklyn Bank and the International Trust Co. of Brooklyn Borough is held as null and void under an order granted by Judge Betts of Kingston on Saturday last, in which he authorizes the transfer of the assets of the trust company to the bank, with the approval of the shareholders of the respective institutions. The order also allows the bank to execute a contract for a loan, with the object of reorganization.

—Four vacancies in the board of the Williamsburgh Trust Co. of Brooklyn Borough, which is undergoing reorganization, have been filled by the election to the board of Erskine Hewitt, George R. Sheldon, William Allen Butler Jr. and J. Horace Harding. Brayton Ives's election as President of the company was noted last week. Plans are being perfected for its early reopening.

—Charles Colyer, who became President of the City Trust Co. of Newark, N. J., last October, resigned on the 19th inst. on account of ill-health. Frederick W. Hannahs has been chosen as the new head of the institution.

—W. C. Fitzgerald has been elected Treasurer of the Rittenhouse Trust Co. of Philadelphia to succeed Robert B. MacMullin, resigned.

—An involuntary petition in bankruptcy was filed on the 27th inst. against the Pittsburgh Stock Exchange house of George W. MacMullen & Co. The Guarantee Title & Trust Co. has been named as receiver. The liabilities, according to the petition, will reach $1,800,000, and the assets about $350,000 less. The members of the firm are George W. MacMullen and Sanford B. Evans.

—Oliver F. Piper, Cashier of the closed People's Bank of California, Pa., who had been indicted on a charge of conspiracy to defraud the bank, has been acquitted of the charge by a verdict returned by the jury on the 21st inst. The bank closed its doors last November.

—S. Gross Horwitz was appointed receiver for the Southern Trust & Deposit Co. of Baltimore on the 25th inst. upon a bill of complaint filed by the State. The action was the result of an examination made by J. Dukes Downes, at the instance of State Treasurer Murray Vandiver. It is alleged that the examination shows that the capital of the company, amounting to $70,000, has been practically wiped out, and that the company is insolvent. The available assets, it is claimed, aggregate $74,345, while the liabilities aggregate $212,397. The charges made by the State are denied by the interests in control of the institution. A statement has been issued by counsel representing new interests which lately became identified with the company, with reference to its affairs. They state that an examination made on April 14 1908 by certified public accountants employed to examine its books showed it to be solvent, but that new capital should be subscribed in order to make it a paying investment to its shareholders. On the strength of this, it is added, a syndicate loaned the company $15,000 about ten days ago, "and was proceeding with every prospect of success to have subscribed the balance of the stock of the corporation."

—John W. H. Geiger, ex-Cashier of the Canton National Bank of Baltimore, died on the 14th inst. Mr. Geiger had resigned as Cashier of the institution in Jan. 1907, and in the

following July had been convicted of misusing its funds and sentenced to five years' imprisonment. Two weeks ago a verdict was returned by the United States District Court sustaining the action of the lower court. An appeal had been registered with the United States Supreme Court, but pending this Mr. Geiger was to have begun his sentence.

—A controlling interest in the National City Bank of Washington, D. C., has passed to the Union Savings Bank of that city. Of the 3,000 shares of the National City, 1,600 have been purchased by the new interests at $170 per $100 share. As a result of the change in the control of the National City, that institution will take over the deposits of the Washington Exchange Bank, an institution affiliated with the Union Savings Bank, and the Exchange Bank will be placed in liquidation. The last-named bank has a capital of $150,000 and deposits of about $230,000. E. Quincy Smith, President of the Union Savings Bank, has been elected President of the National City, and Edward S. Munford has become its Vice-President. A. G. Clapham remains as Cashier and R. E. White as Assistant Cashier of the National City.

—The Commercial Savings & Trust Co. of Cleveland has been merged with the Citizens' Savings & Trust Co. of that city. It is reported that under the consolidation agreement the Citizens' acquires the entire assets of the Commercial, assuming all its liabilities. The merger was ratified on the 21st inst., and became operative the following day. The Commercial Savings & Trust Co. had a capital of $500,000, surplus and profits of about $475,000 and deposits o 3¾ million dollars. It was formerly known as the Dime Savings & Banking Company, the name having been changed on March 2 last, when it opened in new quarters in the Williamson Building. The institution was organized in 1890. The Citizens' Savings & Trust has a capital of $4,000,000, surplus and profits of over $3,000,000 and deposits of nearly $34,000,000.

—The executive council of the Michigan Bankers' Association, at its recent spring meeting, elected Hal H. Smith as Secretary of the association, to succeed Col. Fred E. Farnsworth, who retired last fall with his appointment as Secretary of the American Bankers' Association. Resolutions commending the zeal and ability of the retiring Secretary during his occupancy of the office had been prepared by a committee, and were read at the council meeting, and at a dinner tendered to the council in the evening Col. Farnsworth was presented with a silver tea service. The annual meeting of the association is to be held at Marquette in July. The bankers will leave Detroit on the steamer St. Ignace on July 6, arriving at Marquette July 8, where they will remain for two days.

—The checks issued by the Chicago Clearing House between November 14 and December 19 1907 in payment of Clearing-House certificates have been put to a novel use, having been converted into paper for a cover for a folder containing the latest statement of the First National Bank of that city. The checks, which were made of the finest bond paper, were reduced to pulp, and made into the cardboard cover of the folder so that, as the bank states, the same material which found so useful a place last fall, now furnishes a souvenir which, while recalling the emergency then existing, also records its happy ending. In the facts given by the bank with regard to the checks, it is stated that the amount prepared was $13,873,000, while that paid out was $7,600,300. A small amount still remains outstanding, probably being held as souvenirs. The new statement of the First National (May 14) shows deposits of $100,305,526 and total resources of $117,966,027. The First Trust & Savings Bank has deposits (May 15) of $33,403,934 and total resources of $37,038,477.

—L. A. Goddard has resigned the presidency of the Fort Dearborn National Bank of Chicago to become Vice-President of the State Bank of that city. Mr. Goddard will begin his new duties next week. W. A. Tilden, President of the Drovers' Deposit National Bank, will probably be chosen as the head of the Fort Dearborn National. He is already a member of the board of directors of the latter.

—The United States Trust Co. of Chicago, which is the name adopted last fall by the Jennings Real Estate, Loan & Trust Co., was placed in voluntary liquidation on the 19th inst. In its report to the State Auditor May 12 the institution's deposits were given as $7,224. These, it is stated, have been paid in full by the Assets Liquidation Co., which has been appointed liquidating agent. The institution began business in 1906. It had a capital of $200,000.

—The Third National Bank of St. Louis removed on the 17th inst. from its old banking rooms at 417 Olive Street to its new eighteen story building, on the southwest corner of Broadway and Olive Street. The old quarters had been occupied by the bank for thirty-four years, and had been remodeled several times to meet its growing needs. The institution commenced business in its new quarters on the 19th, remaining open long after the regular banking hours, to permit an inspection of its new home. The building is one of the most imposing in the city. The bank occupies all the ground floor, half of the basement and half of the second floor—a total area of 17,000 square feet. The upper portion of the building is divided into offices. The artistic furnishings and appointments of the new banking rooms combined with its modern contrivances for the safe and speedy dispatch of business and the comfort of its patrons, present an especially attractive appearance, as befits an institution of the standing of the Third National. The bank's total resources are (May 14) $36,553,938. It has a capital of $2,000,000, surplus and profits of $2,251,253 and deposits of $29,931,447. The officials are C. H. Huttig, President; W. B. Wells, Vice-President; G. W. Galbreath, Cashier; J. R. Cooke, D. 'A. P. Cooke, R. S. Hawes, H. Haill and J. F. Farrell, Assistant Cashiers.

—Fred. J. Heyne has been elected Cashier of the National City Bank of Houston, Texas, succeeding S. M. McAshan, resigned.

—Alfred Le Blanc has become Vice-President of the Bank of Orleans, of New Orleans, La., succeeding Peter E. Hellwege, who has resigned both as Vice-President and director. Mr. Le Blanc has been identified with the bank, since its establishment, as stockholder and director.

—The banking house of Dexter Horton & Co. of Seattle, which recently increased its capital from $200,000 to $1,000,000, through a conversion of the surplus, has created a new surplus of $100,000, by transferring that amount from undivided profits account. After the transfer undivided profits still amount to $125,000.

—The stockholders of the Bank of Italy of San Francisco have ratified the proposition to increase the capital of the institution from $500,000 to $1,000,000. The time of issuance and selling price of the new stock has been left to the discretion of the directors. It is expected, however, that one-half of the proposed issue, namely 2,500 shares, will be sold at once at $110 per share.

—Through the recent acquisition of a controlling interest in the Western National Bank of San Francisco by some of the leading stockholders of the Metropolis Trust & Savings Bank of that city, unison of interest between the two institutions has been brought about. In a circular to the shareholders of the Metropolis, it is stated that in order to turn this alliance to the profit of the latter's stockholders, a holding company is to be formed to be known as the San Francisco Securities Company, which will buy the stock of the Metropolis Bank and the Western National, on condition that the present holders in the respective banks will purchase stock of the Securities Company to an amount equal to that paid by the company for the stock which it purchases. The stock of the banks will be bought at the rate of $125 per share by the Securities Company and the stock of the latter will be sold at the rate of $100 per share, this being equivalent to one and one-quarter shares of the holding company for one share of bank stock. Each bank will retain its present place of business, and will conduct its affairs as formerly. It is also announced that there is no present intention of changing the management of either bank; but that in thus working in sympathy they will be enabled to broaden their sphere of usefulness. The Western National Bank has a capital of $1,000,000 and the Metropolis Trust & Savings Bank a capital of $717,958.

—The 38th annual report of the Royal Bank of Canada, for the year ending Dec. 31 1907, is presented in unusually attractive book form. The cover bears a striking reproduction of the bank's head office at Montreal, and photographs of various branches of the institution are shown within the

covers. The bank reports net profits for the year, after the usual deductions, of $742,035, as against $604,495 the previous year. With the balance of $74,875 at the credit of profit and loss Dec. 31 1906, there was available for appropriations the sum of $816,910. Out of this the bank paid dividends aggregating $390,000 (at the rate of 10% per annum); $20,000 was transferred to the Officers' Pension Fund and $250,000 written off bank premises account, leaving a balance of $156,910 to be carried forward. During the year there was an increase of $800,812 in deposits, which advanced from $32,464,686 on Dec. 31 1906 to $33,265,498 Dec. 31 1907. The total assets are now $46,351,498, against $45,437,517 at the end of 1906. The bank has a paid-up capital of $3,900,000 and a reserve fund of $4,390,000. Edson L. Pease is general manager. S. H. Voorhees, of 68 William Street, is the New York agent.

—H. B. Walker, one of the New York agents of the Canadian Bank of Commerce (head office Toronto) has been appointed manager of the bank in Montreal. C. D. Mackintosh who had been acting manager at Montreal since the death of Frank H. Mathewson, takes the place of Mr. Walker in the New York agency. It is also announced that John Aird, the manager of the Winnipeg branch, in addition to continuing in that capacity, will assume the position of Superintendent of the Central Western branches, with jurisdiction over seventy branches.

—The directors of the Bank of St. John's (Banque de St. Jean) at St. John's, Quebec, at a meeting on April 28 decided to place their institution in voluntary liquidation. This course, it was said, was determined upon owing to the fact that the bank, with its capital (paid in) of $316,166 and deposits (Feb. 29 1908) of but $396,300, was not considered in a position to compete successfully with other institutions. It has since been reported that the condition of the bank is not as good as was at first thought. The shareholders, is stated, will be called on to make good the losses, and about $200,000 will be required to meet the liabilities.

—G. Bruce-Webster, the New York agent of the Chartered Bank of India, Australia and China (head office London), is now in receipt of the directors' annual report for the year ending December 31 1907, which statement discloses a net profit of $1,807,758 68, including a balance of $466 847 brought forward from the previous year. The interim dividend of $260,000 on the old capital stock of $4,000,000, at the rate of 13% per annum, was paid to shareholders for the half-year to June 30 1907; a further sum of $90,000 has been appropriated to pay a bonus of 10% on the salaries of the staff, leaving $1,457,758, out of which $85,341 interest was paid on the new capital to Dec. 31 1907, the directors proposing a final dividend on the old shares at the rate of 15% yearly, making 14% for the entire year. Besides this, $250,000 will be added to the reserve fund, increasing it to $7,625,000 and $50,000 to the officers' superannuation fund; $125,000 was written off the premises account and $647,418 carried forward to the new profit and loss account. The company's chief liabilities are: call and time deposits, $61,443,655; bills and loans payable, $16,193,972; acceptances account customers, $6,133,417. Its total resources are $105,376,159, and the reserve fund to-day stands at $7,375,000, which contrasts with $525,000 in 1864, when the bank's liabilities were only $25,000,000. In 1884 the liabilities increased to $45,000,000; in 1894 to $55,000,000; in 1904 to $85,000,000, and in 1907 to $105,376,159. The corporation was established by royal charter in 1853 with a capital of $3,220,000, which in 1864 was raised to $4,000,000 and last year to $6,000,000.

—The gross profits of the Swiss Bankverein for the year ending December 31 1907, as shown in the annual report presented to the stockholders at the ordinary general meeting on March 20th, amounted to £376,537, exclusive of £10,821 brought forward from the previous year. The net profits, after the deduction of all expenses and the writing off of bad and doubtful debts, were £240,420. Of this £200,960 was paid in dividends at the rate of 8%, and £28,700 was set aside for the directors and managers, leaving £10,760 to be carried forward to the new account. During the year the Bank in Basle, of which practically the entire capital had been acquired by the Swiss Bankverein, entered into liquidation; after successfully completing the liquidation and distributing 1,105.70 francs per share, there was a surplus of £112,894 available from the liquidation, of which £4,000 was applied by the Swiss Bankverein for the endowment of a fund to be devoted to the encouragement of higher commercial education in Basle; £13,511 was contributed to the Pension Fund; £13,476 was set aside to defray the expenses of the organization of an Agency and two sub-offices, leaving £81,907 to be carried to the Special Reserve of the Bankverein, which was thereby increased to £402,000. The Swiss Bankverein has a capital of £2,512,000 ordinary and special reserves of £653,200 and total assets of £14,604,860.

## *IMPORTS AND EXPORTS FOR APRIL.*

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for April, and from it and from previous statements we have prepared the following interesting summaries:

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.
(In the following tables three ciphers (000) are in all cases omitted.)

*Note.*—In places marked with an asterisk (*) the certificates, in some cases, besides being used for settling balances between banks at the Clearing House, were also used as the basis for the issue of subsidiary certificates meant for circulation. In other cases the certificates themselves were for small denominations and served the purpose of currency
*b* Maximum not reported; therefore taken same as aggregate issue. *x* May 1 1908.

## Monetary and Commercial English News

(From our own correspondent.)

*London, Saturday, May* 16 1908.

This week there has been a very decided change both in the temper and in the course of the stock markets. Instead of the hesitation and pessimism that have reigned so long there is quite a hopeful feeling in which all classes share. Money has become rather abundant and cheap, and prices have risen in all departments. The main cause of the change, of course, is this ease in the money market. It is true that France continues to take large amounts of gold, and it is possible that she may go on absorbing the metal for some time longer. Rates are quite as low in London as in Paris, and the French banks are taking gold partly to prevent rates from falling still lower here and partly to employ the money to greater advantage in Germany, Italy and elsewhere. After a while, however, that will stop. Meantime, in spite of the gold shipments, money is quite abundant and cheap, and the conviction is spreading everywhere that it will continue so all through the summer.

In addition to this, the speech of the Prime Minister when introducing the budget last week has made a strong impression upon the business community. For the moment it seemed as if the budget statement would be disregarded. But Mr. Asquith's setting out of the immense amount of debt that has been redeemed during the past five years and the certainty that another 15 millions sterling or thereabouts will be redeemed in the current year has attracted wide notice. The "bears" have consequently recognized that stock has become scarce and that it is time for them to cover. No doubt a very considerable proportion of the business this week has been due to "bear" covering. The "bear" covering has not been confined to consols and other high-class securities. It has extended to all departments of the Stock Exchange. It has been very large, for example, in British railway stocks, in which there was a large "bear" account, owing, partly, to the decline in trade, partly to the unfavorable traffic returns, and partly to the unsatisfactory relations of employers and employed. Now, however, those who had sold short have become thoroughly alarmed, and they are covering and bringing about a decided rise.

There has likewise been a decided recovery in speculative securities, such as De Beers and Rio Tintos. There has even been a decided recovery in South African gold-mining shares. The impression not only of the ordinary Stock Exchange man, but of the very best observers in the city, is that the pessimism had been carried too far, that money now is certain to be plentiful and cheap for a long time to come, and that therefore the improvement that has set in will be maintained—always provided, of course, that something entirely unforeseen and untoward does not happen. Even in Paris, there has been more activity this week. Paris is pessimist partly because of the state of Morocco, partly because of the relations between France and Germany, and partly because of its fear of the income tax, and generally because of the political condition of all kinds. But even Paris has recognized that the time for "bearing" had come to an end, and the "bears" accordingly have been closing out their accounts. In Berlin, likewise, there has been larger activity. The activity still is not very great, but there is more business and prices are higher. There is likewise a more hopeful feeling

The general impression is that until money becomes far more plentiful and cheap, much activity cannot be looked for, and besides that the borrowing on an enormous scale of all the governments,—imperial, federal, provincial and municipal—will prevent any very decided speculation.

The low level of the Paris exchange upon London continues to give rise to a great many rumors. For example, it has been stated that Paris is preparing for a large Russian loan. We believe, however, that the statement is quite unfounded. There must be in the long run, of course, a big Russian loan. But at the present time it is very unlikely, firstly, because the Russian Government thinks that the credit of Russia has improved so much that it ought to be able to borrow at 4% or nearly, whereas the French bankers are doubtful whether a 4% loan, unless it was brought out at a great discount, could be floated. Accordingly, the Russian Government at present is borrowing at home and hopes to be able to get all the funds it needs, at all events until the autumn. Then it may reconsider its position. Moreover, the Paris market may then be more favorable than it is at present. The impression of the well-informed is that there will not be for some little time yet much recovery in the Paris exchange upon London, but that the gold withdrawals will very soon cease if the recovery on the stock exchange is maintained. Paris has now an enormous accumulation of unemployed money. The gold held by the Bank of France, for example, this week is very nearly 117¾ millions sterling. Therefore, if the recovery here is maintained, Paris will follow the lead. It will probably begin to buy on a considerable scale, and after a while, if there is a real increase in business, contango rates here will rise, and then it will be worth the while of the French banks to increase the balances they are employing in London. In any case, the best opinion is that money in London will remain both plentiful and cheap. At present moment the discount rate for the very finest bills is only about 1⅞%, while day-to-day money is only 1½%.

The India Council offered for tender on Wednesday 10 lacs of its bills and the applications amounted to less than half a lac at 1s. 3 29-32d. per rupee. Applicants for bills at 1s. 3 29-32d. per rupee were allotted in full.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of May 14:

Gold—Paris again bought all the available gold in the open market, amounting to about £300,000, the price being fractionally lower at 77s. 10¼d., the cheque which at one time showed a tendency to harden, being once more down to 25s. 11½d. and weak. Paris has further secured over £1,000,000 from New York. The amount expected from the Cape next week is £548,000. At the Bank £161,000 in sovereigns has been received, of which £59,000 was from Australia and £80,000 from Egypt, and has lost, also in sovereigns, £170,000 to Paris. For the week: Arrivals—South Africa, £457,000; West Africa, £22,000; West Indies, £14,000; Brazil, £14,000; Australia, £74,000; Malta, £10,000; total, £591,000. Shipments—Bombay, £108,400; Calcutta, £5,000; total, £113,400. For the month of April: Arrivals—Germany, £721,000; West Africa, £159,000; South Africa, £3,429,000; India, £177,000. Shipments—Germany, £53,000; India, £377,000; France, £2,671,000; Argentina, £288,000.

## DIVIDENDS.

The following shows all the dividends announced for the future by all large or important corporations:

*Dividends announced this week are printed in italics.*

| Name of Company. | Per Cent. | When Payable. | Books Closed. Days Inclusive. |
|---|---|---|---|
| **Railroads (Steam).** | | | |
| Atch. Top. & Santa Fe, com. (No.15) | 2½ | June 1 | Holders of rec May 8 |
| *Atlantic Coast Line Co. (quar.)* | 2 | June 10 | May 30 to June 9 |
| Atlantic Coast Line RR | 2½ | July 10 | June 23 to July 10 |
| Boston & Albany (quar.) | 2½ | June 30 | Holders of rec. May 29 |
| Boston & Lowell | 4 | July 2 | May 25 to May 30 |
| *Boston Revere Beach & Lynn* | 3 | July 1 | ------ |
| Buff. & Susq., pf. (quar.) (No. 24) | 1 | June 1 | Holders of rec. May 18 |
| Chestnut Hill (quar.) | 1½ | June 4 | Holders of rec. May 20 |
| *Chicago & North Western, common* | 3½ | July 1 | Holders of rec. June 6 |
| *Preferred (quar.)* | 2 | July 1 | Holders o rec. June 6 |
| Cin. N. O. & Tex. Pac., pref. (quar.) | 1¼ | June 1 | May 17 to May 31 |
| *Delaware & Hudson Co. (quar.)* | 2¼ | June 15 | Holders of rec. May 25 |
| *Detroit & Mackinac, preferred* | 2½ | July 1 | June 16 to July 1 |
| *Mexican Southern* | 3*b* | May 29 | ------ |
| New York Philadelphia & Norfolk | 6 | June 1 | Holders of rec. May 15 |
| Norfolk & Western, common | 2 | June 18 | Holders of rec. May 29 |
| *Northern Pacific (quar.)* | 1¾ | Aug. 1 | July 11 to Aug. 2 |
| Phila. Germantown & Norristown (quar) | 3 | June 4 | Holders of rec. May 20 |
| Pitts. Bessemer & Lake Erie, pref. | 3 | June 1 | Holders of rec. May 15 |
| Southern Pacific, com. (quar.) (No. 7) | 1½ | July 1 | ------ |
| Preferred (No. 8) | 3½ | July 15 | July 1 to July 14 |
| Union Pacific, common (quar.) | 2½ | July 1 | May 28 to June 16 |
| **Street and Electric Railways** | | | |
| American Railways (quar.) | 1½ | June 15 | May 30 to June 4 |
| Columbus(O.) Ry., com.(quar.) (No. 20) | 1¼ | June 1 | Holders of rec. May 15 |
| Grand Rapids Ry., common (quar.) | 1 | June 1 | Holders of rec. Mch. 15 |
| Kansas City Ry. & Light, pref. (quar.) | 1¼ | June 1 | May 20 to May 31 |
| Norfolk Railway & Light | 1½ | June 5 | May 26 to June 5 |
| *Northern Ohio Trac. & Light (quar.)* | ½ | June 15 | June 2 to June 15 |
| Rochester Ry. & Lt.., pref. (quar.) | 1¼ | June 1 | Holders of rec. May 25 |
| **Trust Companies.** | | | |
| *Carnegie (No. 1)* | 3 | June 1 | ------ |
| **Miscellaneous.** | | | |
| Adams Express | $4 | June 1 | May 19 to May 31 |
| *American Can, preferred (quar.)* | 1¼ | July 1 | Holders of rec. June 17 |
| American Caramel, preferred (quar.) | 2 | July 1 | June 12 to July 1 |
| *American Chicle, common (monthly)* | 1 | June 20 | June 16 to June 21 |
| American Cotton Oil, preferred | 3 | June 1 | May 17 to June 1 |
| American Express | 3 | July 1 | Holders of rec. May 29 |
| American Radiator, common (quar.) | 1 | June 30 | June 21 to June 30 |
| American Shipbuilding, com. (quar.) | 1 | June 1 | May 19 to June 1 |
| Amer.Smelters Securities, pref. A (quar.) | 1½ | June 1 | May 23 to June 1 |

On the basis of averages, "circulation" amounted to $57,267,200 and United States deposits (included in deposits) to $30,673,300; actual figures May 23, circulation: $57,226,700; United States deposits, $28,549,600.

The statements compiled by the State Banking Department, together with the totals for the Clearing-house banks, both the averages for the week and the actual figures at the end of the week, are shown in the following table. In the figures for State banks and trust companies all of these institutions in Greater New York are included.

+Increase over last week —Decrease from last week.

*a* Includes bank notes. *b* After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to $714,143,600, an increase of $2,818,900 over last week's figures.

*Note.*—In the case of the Clearing-House banks, the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shown. The Clearing-House actual figures included United States deposits amounting to $28,549,600; a decrease of $3,102,600 from last week; averages included United States deposits of $30,673,300, a decrease of $1,025,100 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS & TRUST CO'S OUTSIDE OF GREATER NEW YORK.
*Week ending May 23 1908.*

| | Loans. | Deposits. | Reserve. | % of Res. |

| Trust companies | 117,652,700 | 124,572,200 | 29,725,300 | |
| | —131,300 | +617,600 | +258,000 | |

+Increase over last week. —Decrease from last week.

To-day being a legal holiday, the statement for this week was issued Friday afternoon. For the State banks and trust companies in Greater New York not reporting to the Clearing House it shows an increase in loans and investments of $5,375,000 as compared with last week's figures, an increase in specie of $2,587,200, an increase in legals of $71,500, an increase in total deposits of $12,741,100, an increase in reserve on deposits of $9,534,000 and an increase in net deposits of $8,299,100.

The Clearing-House banks' statement of averages for the week ending May 29 is summarized on the following page. The actual figures on Friday morning show the following changes from May 23: Decrease in loans of $1,411,400; decrease in specie of $14,618,200; increase in legal-tenders of $2,392,800; decrease in deposits of $12,830,900; decrease in circulation of $137,700, and decrease in surplus reserve of $9,017,675.

**Reports of Non-Member Banks.**—The following is the statement of condition of the non-member banks for the week ending May 23, based on average daily results:

*Wall Street, Friday Night, May 29 1908.*

**The Money Market and Financial Situation.**—Security prices have continued, practically without interruption, the downward movement which commenced on Tuesday of last week. They are now near the level at which they stood a month ago, showing that the recent advance did not have a very substantial basis, and the events of the week have not been sufficiently favorable to support the market at the higher level.

Gold exports for the week amount to $4,995,000, $3,800,000 of which goes to Europe and $1,195,000 to Canada. All the prominent European banks report larger reserves, and a reduction of the Bank of England's discount rate from 3 to 2½% is expected to be followed by a lower official rate at Berlin.

The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 1½% to 1¾%. To-day's rates on call were 1½@1¾%. Commercial paper quoted at 3¾@4% for choice 60 to 90-day endorsements and for 4 months best single names; 4@4½% for a slightly lower grade of 4 to 6 months' single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £103,220, and the percentage of reserve to liabilities was 51.80, against 51.77 last week.

The rate of discount was reduced May 28 from 3% as fixed March 19 to 2½%. The Bank of France shows an increase of 56,800,000 francs gold and 1,775,000 francs silver.

To-morrow being Memorial Day and a legal holiday, the Clearing-House bank statement was issued to-day. It shows, on the basis of averages, a decrease in loans of $3,929,400; decrease in circulation of $116,800; decrease in deposits of $11,134,500 decrease in specie of $13,325,600; increase in legal-tenders of $1,966,600, and a decrease of $8,575,375 in surplus reserves. In the following we give the figures for the previous week in our usual form in order to preserve the record.

| | 1908. Averages for week ending May 23. | Differences from previous week. | 1907. Averages for week ending May 25. | 1906. Averages for week ending May 26. |

| Surplus excluding U. S. deposits | 64,153,700 | Dec. 8,378,150 | 23,606,100 | 11,298,700 |

*Note.*—The Clearing House now issues a statement weekly showing the total of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the preceding page.

**Foreign Exchange.**—The market was irregular early in the week, influenced by expectations, which were later realized, of a reduction in the Bank of England discount rate. Subsequently a demand to cover shorts and to remit for stocks sold for European account caused a stronger tone. Gold exports to Europe, $3,800,000 for the week, and since the movement began, $35,510,000; $1,195,000 gold was sent to Montreal this week.

To-day's (Friday's) nominal rates for sterling exchange were 4 86@4 86½ for sixty day and 4 88@4 88½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8555@4 8565 for long, 4 8715@4 8720 for short and 4 8740@4 8750 for cables. Commercial on banks 4 8520@4 8530 and documents for payment 4 84¼@4 85⅜. Cotton for payment 4 84¼@4 84⅜, cotton for acceptance 4 8520@4 8530 and grain for payment 4 85¼@4 85⅜.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 17½*d*@5 16⅞*h* for long and 5 15⅝*a*@5 15⅝*d* for short. Germany bankers' marks were 94 15-16@95 for long and 95 7-16@95½*a* for short. Amsterdam bankers' guilders were 40 23@40 25 for short.

Exchange at Paris on London to-day 25f. 13c. Week's range 25f. 13½c. high and 25f. 13c. low.

The week's range for exchange rates follows:

| | Long | Short | Cables |
|---|---|---|---|
| *Sterling Actual—* | | | |
| High | 4 8555 @ 4 8565 | 4 8715 @ 4 8720 | 4 8745 @ 4 8750 |
| Low | 4 8520 @ 4 8525 | 4 8710 @ 4 8715 | 4 8730 @ 4 8735 |
| *Paris Bankers' Francs—* | | | |
| High | 5 17½ @ 5 16⅞ | 5 15⅝*a* @ 5 15⅝ | |
| Low | 5 18⅛ @ 5 17½ | 5 15⅜*d* @ 5 15⅝ | |
| *Germany Bankers' Marks—* | | | |
| High | 94 15-16 @ 95 | 95 7-16 @ 95½*d* | |
| Low | 94¾ @ 94⅞ | 95 7-16*a* @ 95 7-16 | |
| *Amsterdam Bankers' Guilders—* | | | |
| High | | 40¼ @ 40 5-16 | |
| Low | | 40 21 @ 40 23 | |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston, selling, $1 per $1,000 premium. New Orleans, bank, 50c. per $1,000 discount; commercial, 75c. per $1,000 discount. Chicago, 50c. per $1,000 premium. St. Louis, 75c. per $1,000 premium. San Francisco, $1 per $1,000 premium.

**State and Railroad Bonds.**—Sales of State bonds at the Board $42,000 Virginia 6s def. trust receipts at 37 to 40

The volume of business in railway and industrial bonds has been further reduced, averaging about $2,800,000, par value, per day, as against a recent volume nearly twice as large. As has been the case frequently of late, Monday's trading was the most spirited, followed by diminishing activity. The latter was accompanied this week by declining prices, although net losses are, in most cases, measured by fractions.

Among the exceptional features are Wabash-Pittsburgh Term. 2ds and Wabash ref. and ext. 4s, which declined 4½ points; Rock Island coll. trust 5s and St. Louis & San Francisco ref. 4s, which are 1½ to 2 points lower, and Mexican Central con. 4s, which are the only active issue showing an advance. They close 1¼ points higher than last week.

**United States Bonds.**—Sales of Government bonds at the Board are limited to $2,000 3s coup. 1908-18 at 101⅜. The following are the daily closing quotations; *for yearly range see third page following.*

| | Interest Periods | May 23 | May 25 | May 26 | May 27 | May 28 | May 29 |

* This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The daily transactions in stocks have averaged little more than half as large as last week and the decline in prices then in progress has continued. A few issues have held steady, and to-day's market was firmer; but almost the entire active list shows a decline within the week of from 2 to 7 points. Missouri Pacific was conspicuous for a decline of 19 points. St. Paul, after recovering about 2 points, is nearly 7 points lower, and Union Pacific, ex-dividend, is 7¼ lower than last week. Reading has been exceptionally active and covered a range of nearly 6 points, with a net loss of 2½. Northern Pacific and Interboro-Metropolitan are the only active railway issues that show fractional net gains. National Lead has been a notably strong feature. It advanced 4 points during the early part of the week and retains over half the gain. Smelting & Refining is up 1⅝ points, but other industrial issues, following the general trend of the market, are lower.

*For daily volume of business see page* 1333.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

**Outside Market.**—Trading in outside securities was extremely dull this week, with prices inclined to sag. Most stocks show minor losses. The new C. B. & Q. 4s "w. i." were prominent on one day. Sixteen millions had been offered by J. P. Morgan & Co. at 95½, and were so largely oversubscribed that the price rose to 97⅛. Then, on transactions of about $2,000,000, the price declined to 96⅞, with a recovery to 97. The following day they were placed on the unlisted department of the Stock Exchange, where the closing price to-day was 00 . The usually active copper stocks shared in the general apathy. Boston Consolidated Copper opened the week at 13, sank to 10¾ and recovered finally to 11⅝. British Columbia Copper weakened from 5 to 4⅞. Butte Coalition from 23¼ fell to 22, with a subsequent recovery to 23⅜. Davis Daly Estates went up from 3 to 3⅛ and down to 2⅞. Dominion Copper advanced from 1⅜ to 1 15-16. Greene Cananea declined from 9¾ to 9¼ and recovered to 9⅜. Nevada Consolidated Copper moved irregularly, going down from 12 to 11¾ and up to 12½. The close to-day was at 11⅞. United Copper common went from 7⅝ to 6⅞ and up to 7⅜, ending the week at 7. Nipissing, after fluctuating between 6⅞ and 7, developed considerable activity to-day and sold up to 7½. Goldfield Daisy declined from $1 08 to 87 cts., moving up finally to 92 cts. Goldfield Consolidated fluctuated between 5½ and 5⅛. There were few transactions in industrials. American Tobacco sold down from 341 to 335 and up to 337. Standard Oil lost about 7 points to 597. Chicago Subway dropped from 22⅝ to 20, the final transaction to-day being at 20⅝. Tidewater 6% notes were active, declining from 98⅞ to 98. Consolidated S. S. 4s declined from 10⅛ to 9½ but sold up to 10⅝.

Outside quotations will be found on page 1333.

# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

| ROADS. | Latest Gross Earnings. Week or Month. | Current Year. | Previous Year. | July 1 to Latest Date. Current Year. | Previous Year. |

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.

d The company now includes the earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. in both years For April taxes and rentals amounted to $311,828, against $222,137 in 1907; after deducting which, net for April 1908 was $2,619,723, against $2,074,108 last year. For period from July 1 to April 30, taxes and rentals were $2,455,609 in 1908, against $1,963,650 in 1907.

e Large decrease in April due to washouts.

g These results are in Mexican currency.

h For April 1908 additional income showed a deficit of $4,059, against a credit of $3,017 in 1907; and for period from July 1 to April 30 was $25,173 in 1908, against $48,581 last year.

k For April 1908 additional income was $17,104, against $17,643 in 1907, and for period from July 1 to April 30 was $172,748 in 1908, against $194,019 last year,

x These figures are on the basis of accounting required by the Inter-State Commerce Commission.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges.

*c* These figures are for consolidated company. *d* These are results for main line. *f* No earnings for Detroit Jackson & Chicago Ry. for Jan. 1907 included in these figures. *h* Decrease due to strike and boycott. *k* Does not include the Charing Cross Euston & Hampstead Ry. for last year

**Street Railway Net Earnings.**—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month we bring together all the roads reporting, as is done to-day.

| Total assets | 213,820,927 | 192,476,883 | Tot. liabilities | 213,820,927 | 192,476,883 |

*a* Includes $7,302,219 equipment under contract and $2,506,131 equipment in suspense "June 30 1907."

*b* Includes Jefferson City & Springfield RR., $4,527 Webb City spurs, $130,378; Webb City spurs, Fort Scott & Southern Ry., $42,431; Webb City spurs, extensions to Mear's Mines, $8,753; Webb City spurs, Granby extension, $207,604; Ft. Scott Central, Oronogo extension, $80,107; new shops, Sedalia, Mo., $975,912; crusher and gravel tracks, $1,077,981; Wichita terminals, $123,550; cost of surveys at various points on line of the Missouri Pacific Ry. Co., $33,590; total, $2,684,833.

*c* Includes, besides the bonds outstanding on June 30 1907, $2,147,000 of the $10,000,000 additional "collateral 40-year 4% gold bonds just listed (making $27,147,000 thereof outstanding March 31 1908); also the $5,897,000 2-year 6% "collateral and convertible gold notes," dated Feb. 10 1908 (V. 86, p. 286,) since largely converted into Kansas & Colorado Pacific refunding 6s (see V. 86, p. 1043). —V. 86, p. 1160, 1043.

### Georgia Railway & Electric Co., Atlanta, Ga.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President P.S.Arkwright, Atlanta, Ga., Feb. 15 1908, says:

*Improvements, &c.*—The total mileage of railway track, on a single-track basis, owned and operated is 161.1 miles. Of this amount 10.4 miles were built and 13.671 miles were entirely rebuilt during the year. Out of the total mileage 150.2 miles have been built or rebuilt since Jan. 1 1899.

During the year $1,038,931 was expended on extensions of track, additional double track, additions to steam and electric plants, additional cars and equipment, acquisition of land and construction of buildings, and additions to car shops, and additional mains, services, meters and improvements for the Gas Company.

*New Stock.*—The common stock was increased during the year $2,500,000; 4,952 shares were sold to raise funds for the uses of the company and 20,048 shares were distributed among the common stockholders in payment, at par, of the extra dividend of 33 1-3% declared out of the surplus of the company.

*Bonds.*—Consolidated bonds to the amount of $158,000 were issued to the company on account of new construction and properties acquired.

There were retired under sinking fund provisions $25,000 bonds of the Atlanta Consolidated Street Ry. Co. and $10,000 first consols of Georgia Railway & Electric Co.

*City Lighting—Rate Reduction.*—The contract with the city of Atlanta for lighting streets, which expires April 1 1908, was renewed during the year for a period of five years from April 1 1908. In connection therewith the company agreed to a reduction of its maximum rates to private consumers from 12 cents to 10 cents per k.-w. hour for current used for lighting purposes and from 7 cents to 6 cents per k.w. hour for current use for power purposes. Both city lighting contract and electric current rates are, therefore, satisfactorily settled for five years.

*Taxation.*—During the year the assessment of our physical property and franchises for taxation was largely increased, the amount fixed being entirely satisfactory to the public authorities.

*Earnings.*—The gross earnings for 1907 show an increase over the preceding year of $414,417, or 14.32%; operating expenses increased $235,431, or 16.49%; net earnings increased $178,987, or 12.20%.

After paying all fixed charges and preferred stock dividends of 5%, the surplus earnings for the year amounted to $741,384. Out of the surplus earnings a dividend of $6 per share on the common capital stock was paid in quarterly installments of $1 50 each in February, May, August and November. After providing for these dividends, the balance of the surplus earnings for the year, namely $312,936, was credited to profit and loss.

*Controlled Company.*—The Atlanta Northern Railway Co., the capital stock of which is owned by this company, shows for the year 1907 (1906 inserted for comparison)—Ed.):

### Norfolk & Portsmouth (Va.) Traction Co.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President R. Lancaster Williams, under date of March 23 1908, says in substance:

*General Results.*—The year 1907 was an important era in the history of your company, and perhaps the most important year in the history of the territory served by it.

Notwithstanding the difficulties attendant upon the operation of the properties during the period of reconstruction and the disappointing attendance at the Jamestown Exposition, the results of the operations of the properties owned and controlled by the company during the year were, upon the whole, satisfactory.

The Exposition opened on April 26 and continued until Nov. 30, and in the handling of the business incident thereto your company handled approximately 24,300,000 passengers and ran about 4,000,000 car miles While the Exposition was not a financial success, we believe that it did much for the upbuilding, in a permanent sense, of the territory served by your system.

Incident to handling the patronage of the Jamestown Exposition, which included not only the transportation of passengers to and from the grounds, but also the electric light, electric power and gas used at the Exposition, it was incumbent upon your company to build a double-track line from Ocean View to Sewell's Point, erect terminals at the Exposition, acquire additional rolling stock, erect a transmission line and lay a gas main to the grounds, rebuild and enlarge the Pine Beach pier, rehabilitate the Norfolk & Atlantic Terminal Ry. lines, build the Intramural Railway, and construct the Reeves Ave. power plant, &c.

*Improvements and Additions.*—The Ocean View & Sewell's Point line had long been in contemplation as a permanent feature of the system and, it is expected, will handle a large business, particularly during the summer months of each year. It is laid with 70-lb. rails and standard ties, and is constructed entirely upon private right of way, except on 99th St. for a relatively short distance. Its construction involved the building of two bridges, one of which is a standard drawbridge.

For several years prior to the acquisition of the Norfolk & Atlantic Terminal line by your company, but little money had been expended upon its maintenance and rehabilitation was required. The road is now in standard operating condition.

The Exposition transmission line, which is of a permanent character, will carry the power to the Sewell's Point piers of the Virginian Railway—an extensive permanent improvement in this territory. (See Tidewater Co., V. 86, p. 1286.)

During the year your company purchased 84 new cars of approved types, 45 of which were equipped with motors and all but eight with air brakes for train service. The single-truck cars used prior to the Exposition, in the city service, are now being sold, and our standard equipment will henceforth be improved semi-convertible cars with double trucks, enabling the company to render better service and handle more passengers at slight, if any, increased cost of operation.

The new central power station on Reeves Ave., begun in July 1906, was ready for operation at the opening of the Exposition. The building is of brick, steel and concrete construction, thoroughly fireproof, fronting 200 feet on the Port Warden's line of the harbor. It has 10,500-k.w. normal capacity Curtis turbines of General Electric Company's manufacture, divided into three units of 3,000 k.w. each and one 1,500 k.w., being sufficient to care for the needs of the territory for some time to come.

The construction of this power plant has permitted us to close down the Norfolk & Atlantic Terminal power plant, the Norfolk & Ocean View power plant, and we shall shortly be able to close the plant at Cove St., in Norfolk, and the two power plants at present operating in Portsmouth, and the generating station at Ocean View. A new sub-station of fireproof construction has been completed and is now in operation at Ocean View; and the Cove St. plant is being rapidly converted into a modern sub-station similarly equipped. An additional sub-station will be erected during the ensuing year in Portsmouth.

Half of the cost of the new gas main was paid for by the Exposition Company. The main was laid through a rapidly growing section of Norfolk and will be a permanent asset of great value to the Norfolk City Gas Co.

The Intramural Railway, constructed and operated under an arrangement with the Exposition Company, proved unprofitable, and the net loss upon this operation has been charged to profit and loss.

*Outlook.*—During the year the company expended $1,867,399 in improvements and betterments to the properties, in additions and extensions, and in the construction and acquisition of new properties. The improvements, some of which have already been stated, and the acquisition of new property and equipment, will, it is believed, result in a very decided increase in the revenues of your company, not only at present, but in the future, and will enable the company constantly to improve its service and reduce its ratio of operating cost. The standard of the entire system has been materially raised.

*Note Issue.*—Financial conditions have been such that it has been impossible for your company to sell upon advantageous terms sufficient bonds to take care of its construction expenditures. Arrangements have been completed for notes of two, three and four-year maturities, secured by collateral. A large proportion of the floating debt has been liquidated through the sale of these notes since the close of the fiscal year, Dec. 31 1907.

*IMPROVEMENTS, ADDITIONS, RECONSTRUCTION, &c.*

| | 1907. | 1906. |
|---|---|---|

## International Nickel Co., New York.

*(Report for Fiscal Year ending March 31 1908.)*

The directors, under date of May 26, say:

During the past year $1,548,182 was expended for new construction, equipment and replacements.

During the same period there has been provided out of earnings the sum of $178,577 for the following funds: Regular allowance for depreciation of plants, $215,975; exhaustion of minerals, $94,352; and bond sinking fund, $168,250.

There has been appropriated from the surplus for further depreciation of properties, $300,000.

### Treasurer James L. Ashley says:

The profits are computed on the sales actually made to customers, and all inventories are taken at cost. Finished material and material in process include no inter-company profits. The increase in accounts payable over last year is accounted for by unmatured obligations for the purchase of silver ores, against which the corresponding amount of fine silver is held and included in inventories. All other purchases of material, supplies, &c., are paid for in cash. The major part of the company's cash on hand is in the trust companies drawing full rate of interest.

### President A. Monell says:

During the past fiscal year the power plant at the falls of the Spanish River, in the province of Ontario, Canada, has continued in successful operation.

The installation of electric mine hoists and compressors has been completed and the machinery is now in operation. The third unit at the power plant, also referred to, is now in course of erection.

The board of directors has deemed it advisable to appropriate from the surplus a further sum of $300,000 to write down the cost of the properties. This is set forth in a special entry upon the balance sheet.

Our efforts to introduce nickel into new commercial arts have been vigorously continued.

As the business conditions of the past year, especially the latter part thereof, are so well known, it is hardly necessary to state that our own business felt the general depression.

## United States Smelting, Refining & Mining Co.

*(Report for Fiscal Year ending Dec. 31 1907.)*

### President W. G. Sharp, May 1 1908, says in substance:

*Output, &c.*—The following table shows (1) the metals contained in bullion produced in 1907, including metals from custom ores, but not including the production in Mexico, and (2) the average prices at which metals were sold during the year [the figures for 1906 are inserted for comparison—Ed.]:

| | Production 1907. | Production 1906. | Average Price 1907. | Average Price 1906. |
|---|---|---|---|---|
| Copper | 38,518,378 lbs. | 33,856,287 lbs. | Per lb. $0.1883 | $0.1947 |
| Lead | 53,617,324 lbs. | 27,828,644 lbs. | Per lb. 0.0520 | 0.550 |
| Silver | 6,739,269 ozs. | 4,852,293 ozs. | Per oz. 0.6520 | 0.684 |
| Gold | 235,822 ozs. | 162,537 ozs. | Per oz. 20.5600 | 20.320 |

The quantities in 1907 include metals unsold at the end of the year.

The tonnage of ore produced from your own mines (Centennial-Eureka, Mammoth and United States Mining) was 406,748 tons, of which the values of the metal contents were in the proportion of 56% copper, 4% lead, 18% silver and 22% gold.

The Compania de Real del Monte y Pachuca began operating June 30 1907 and during the latter half of last year the tonnage extracted from the mines in Mexico was 39,023 metric tons, while the metal contents of the ores shipped to smelters and mills, including the company's own mill at Pachuca, were 1,557,854 ozs. of silver and 7,324.61 ozs. of gold.

*Balance Sheet.*—The consolidated balance sheet sets forth the combined assets and liabilities of the company and its subsidiaries, which are:

1. The United States Mining Co., which also owns either the whole or a majority of the stocks of United States Smelting Co., Centennial-Eureka Mining Co., Mammoth Copper Mining Co., United States Stores Co., United States Lime Co. and United States Metals Refining Co.; and also owns one-half of the stock of the International Metals Selling Co. and a majority of the stock and bonds of the Niagara Mining & Smelting Co.

2. Your company owns all the preferred stock and a majority of the common stock of the American Exploration Co., and has acquired during the year additional holdings in the Richmond-Eureka Mining Co.

3. In addition to the nine-tenths of the stock of the Real del Monte Mining Co. of Maine already owned, your company acquired during the year all the remaining capital stock of that company, namely 15,984 shar s, which were received in exchange for an equal number of shares of preferred stock of the United States Smelting Refining & Mining Co. Through this ownership your company is the holder of over 99% of the stock of the Compania del Real del Monte y Pachuca, in Mexico.

The liabilities from one company to another are eliminated in the consolidated balance sheet from both liabilities and assets.

*Capital Expenditure in 1907.*—There has been paid and charged to capital account for additional stocks acquired and for construction and other additions to property in 1907, $4,681,520, as follows:

| | |
|---|---|
| Refineries at Chrome and Grasselli | $408,400 |
| Smelter buildings and plant at Bingham Junction, Mammoth and Chrome | 1,390,692 |
| Mine equipment and buildings | 152,837 |
| Railroad and tramway construction | 537,179 |
| Other capital expenditure | 187,984 |
| Additional investments in stocks of subsidiary companies, including assessments for development and construction in Mexico | 2,004,428 |

*Stockholders.*—The total number of preferred stockholders is 5,104 and of common stockholders 1,405 at this date.

*American Exploration Co.*—Notice was given to your company on Sept. 23 1907 by the other parties to the contract of their desire to dissolve the American Exploration Co. All new exploration work has been stopped preparatory to such liquidation and dissolution.

*General.*—At the Mammoth plant in California there has been completed during the past year the enlargement of the smelter; also the converting plant and the railroads connecting the mine and the smelter and the Quartz Hill mines with the Southern Pacific Ry. These are now (April 1908) all in operation and will nearly double the smelting capacity at Mammoth, and permit the converting of Mammoth matte into copper bullion at that plant in place of shipping the matte to Utah to be converted as heretofore. Ores from the Centennial-Eureka mine also can be shipped to the Mammoth smelter in case of necessity.

At the smelting plant in Utah many additions were made with a view to avoiding damage to the surrounding farms by smelter smoke, and the United States Circuit Court has recently modified its decision so as to permit the operation of your lead smelter. Preparations are being made to resume at your Utah plant the smelting of custom ores and ores from your Centennial-Eureka and Bingham mines.

The balance sheet shows a decrease of $1,433,569 in the surplus, due to the abnormal metal market conditions in 1907. A large part of this decrease is represented in the reserve provided out of earnings. In our custom smelting business the necessity of carrying in stock large quantities of metals in ores and in process at the smelters, in transit to and in process at the refineries, for periods varying from three to five months, resulted in heavy losses due to the stagnant metal market and the rapidly declining prices. These losses had to be written off Dec. 31. Your company starts the year 1908 with all stocks of metals, &c., marked down to market values at Dec. 31, when prices were practically at the lowest level of the year. On an advancing market gains will be made in these items.

*EARNINGS AND OPERATIONS OF ALL COMPANIES FOR YEAR.*

| Per Cent. | | Bullion Produced 1907. | Average Price. | Value 1907. | Value 1906. |

*a* Of the first mortgage bonds issued (originally $700,000) $94,000 were bu Dec. 31 1905 in the treasury or deposited with various banks as collateral; bet these are not given among assets, being deducted before arriving at ent figures shown under liabilities.

[In 1901 two dividends of 1¾% each were paid on the preferred stock (then $1,031,400), none since till 1907. In 1904 the stock was changed to present amount. V. 79, p. 790.]—V. 86, p. 672.

## Consolidation Coal Company (of Maryland).

*(Report for Fiscal Year ending Dec. 31 1907.)*

President C. W. Watson, Baltimore, March 18 1908, says in substance:

*Tonnage.*—The total output for the year of coal mined by the company was 2,092,016 tons as compared with 2,128,879 the preceding year, being a decrease of 36,863 tons. This output was obtained as follows:

| *Mine.* | 1907. | 1906. | *Mine.* | 1907. | 1906. |
|---|---|---|---|---|---|
| Ocean No. 1 | 439,395 | 494,577 | Ocean No. 7 | 1,083,423 | 1,084,156 |
| Ocean No. 2 | | 3,139 | Ocean No. 8 | 70,355 | 115,662 |
| Ocean No. 3 | 314,873 | 273,619 | Ocean No. 9 | 37,849 | 31,435 |
| Ocean No. 3½ | 136,439 | 109,867 | Pumping Station | 9,682 | 16,424 |

The coal mined by lessees of the company on royalty amounted to 420,463 tons, as compared with 368,292 tons for the year 1906, an increase of 52,171 tons.

*Railroad Department.*—The coal tonnage handled by the Cumberland & Pennsylvania RR. during the year amounted to 3,718,786 tons, distributed as follows:

| | | | |
|---|---|---|---|
| To Balt. & Ohio RR. | 2,900,936 tons | To Chesap. & O. Canal | 203,527 ton |
| To Pennsylvania RR. | 416,592 tons | To local | 197,731 ton |

This onnage is a decrease of 47,362 tons as compared with the preceding year.

*Rolling Stock.*—The stockholders of the Cumberland & Pennsylvania RR. Co. on Dec. 5 1907 authorized the purchase of 1,000 steel underframe coal cars of 100,000 pounds capacity; also 523 wooden coal cars of 60,000 pounds capacity.

—V. 86, p. 725.

## Fairmont Coal Company.

*(Report for Fiscal Year ending Dec. 31 1907.)*

This company is controlled by the Consolidation Coa Co. (which see above.)

President C. W. Watson, under date of March 18 1908, writes in substance:

*Explosion.*—The stockholders are no doubt familiar with the deplorable accident that occurred at Monongah Mines Nos. 6 and 8, on Dec. 6, by which 353 persons came to their death. The coroner's jury found from the evidence that the explosion "was caused either by what is commonly known as a blow-out shot or by the igniting and explosion of powder in Mine No. 8;" also that while the evidence as to the cause of the initial explosion was conflicting "the traces of gas in these mines were slight, and not considered dangerous, and dust which was created was removed or kept watered down as far as was deemed practicable, and that in operating these mines the company complied with the mining laws of the State."

Thorough repairs have been made at both of these mines and they resumed operation, Monongah No. 8 on Jan. 28 and Monongah No. 6 on Feb. 5.

*Sale of Coal Cars.*—The stockholders, at a meeting held on Dec. 5 1907, authorized the sale to the Baltimore & Ohio RR. Co. of the 2,000 coal cars the purchase of which was mentioned in the report for 1906. At the same meeting the sale of the Gaston Cas Coal Co. and West Fairmont Coal & Coke Co. coal cars, owned by this company ,was authorized.

*Production of the Company.*

Dividends paid during 1907 and charged to surplus account, $173,602.—V. 85, p. 209.

# GENERAL INVESTMENT NEWS.

## RAILROADS, INCLUDING STREET ROADS

**Boston Elevated Ry.**—*West End Consolidation Bill Signed.*—Acting Governor Draper of Massachusetts on May 28 signed the bill authorizing the consolidation of the properties and franchises of the Boston Elevated Railway Co. and the West End Street Railway Co. Compare V. 86, p. 917.

**Brooklyn Rapid Transit Co.**—*Coney Island Five-Cent Fare Bill Vetoed.*—Governor Hughes on May 23 vetoed the bill passed by the Legislature, which, although general in form, was intended to provide for a five-cent fare from Manhattan to Coney Island.

The bill provides in effect that no railroad company (other than a steam or trunk line railroad) shall charge more than 5 cents for a continuous ride on the lines operated or controlled by it within any city or village unless the Public Service Commission shall give its consent for an additional fare. The Governor says it is plainly intended to affect charges over existing lines, establishing a maximum rate of 5 cents without regard to the length of the route or the reasonableness of such a fare, which can only be determined after investigation. No provision is made for this purpose; in other words, it is an arbitrary maximum imposed by legislative fiat, which, if unreasonable and confiscatory, would be upset on application to the courts.

The public hearings by the Public Service Commission on the petition of various complainants who desire it to fix a 5-cent fare for the Coney Island service were closed on Monday and briefs were ordered to be filed on Monday next.—V. 86, p. 1223, 1099.

**Calumet & South Chicago Ry.**—*Bond Issue.*—This company, recently formed by consolidation of the Calumet Electric and the South Chicago City Ry., has made a first mortgage to the First Trust & Savings Bank of Chicago, as trustee, to secure an issue of $5,000,000 5% gold bonds of $1,000 each, dated Feb. 1 1908 and due Feb. 1 1927, interest payable February and August at office of trustee. No prior liens, we are informed, remain outstanding. All the new bonds are outstanding. Press reports state that a block of $1,000,000 for rehabilitation purposes will be sold shortly. The capital stock is also $5,000,000. The officers follow:

President, Ira M. Cobe; Vice-President, D. M. Cummings; Secretary and Treasurer, O. S. Gaither. Directors—Ira M. Cobe, D. M. Cummings, O. S. Gaither, C. B. Hart, J. B. Forgan, L. A. Busby.—V. 86, p. 1223, 917.

**Carolina Clinchfield & Ohio Ry.**—*Mortgage.*—The shareholders voted on May 25 to authorize a mortgage to secure $15,000,000 30-year 5% bonds. The bonds will be dated June 1 1908 and mature June 1 1938. There will be reserved $5,000,000 for extensions, improvements and betterments. The road will be completed this year from Dante, Va., to Bostic, 208 miles, and by July 1 1909 to Spartanburg. Compare V. 86, p. 667, 856.

**Chesapeake & Ohio Co.**—*Consols Offered—To Become a First Lien July 1 1908.*—Moffat & White, New York and Graham & Co., Phila., are offering at 112 and int., yielding about 4.3%, the unsold portion of a block of $2,000,000 first consolidated mortgage gold 5s, due May 1 1939. Authorized issue, $30,000,000; outstanding (including this $2,000,000), $27,858,000. A circular says:

This block of $2,000,000 consolidated 5% bonds has been sold by the Railway Co. for the purpose of refunding an equal amount of series "A" 6% bonds falling due on July 1 1908, which the company has arranged with the trustee to pay off and cancel at maturity. By the retirement on July 1 of $2,000,000 series "A" 6% bonds and $13,354 series "B" 6% bonds, the consolidated 5% bonds enter the class of important first mortgage railroad bonds, becoming a first mortgage directly or through collateral on 592.9 miles of railroad, all of which, except 18 miles, is in the main line of the Chesapeake & Ohio Ry.—V. 86, p. 1041, 228.

**Chesapeake Western Ry.**—*Judgment.*—Judgment by default for $485,162 was rendered Wednesday in the Supreme Court against the company in favor of Thomas Stokes, on thirteen notes made by the company between Nov. 6 1902 and April 28 1904.

Further assets of the company were sold at auction Wednesday in liquidation of a loan. They consisted of 5,000 shares of the Pocahontas Company, 50 shares of the Midland Railway Co. and $79,500 Washington Cincinnati & St. Louis Railroad Co. first mortgage bonds and a tin box said to contain maps, profiles, &c. The entire lot was bid in for $1,000. Compare V. 86, p. 1284, 980.

**Chicago Burlington & Quincy RR.**—*New Bond Issue—Bonds Offered.*—J. P. Morgan & Co., offered this week at 95½ and interest $16,000,000 general mortgage 4% bonds, due March 1 1958, interest payable March 1 and Sept. 1. These bonds are part of an issue of $300,000,000 issued under an indenture of trust and mortgage dated March 2 1908, under which the Central Trust Co. of New York and Oliver M. Spencer are trustees. The bonds offered were quickly oversubscribed.

The bonds are in the form of coupon bonds of $1,000 each, which may be registered as to principal only or may be exchanged for full registered bonds without coupons. in denominations of $5,000, $10,000 and $50,000. Registered bonds may also be exchanged for coupon bonds.

Lee, Higginson & Co. were authorized to sell the bonds in Boston.

**Abstract of Letter from President George B. Harris, New York, May 25 '08.**

Referring to the general mortgage dated March 2 1908 and maturing March 1 1958, securing an issue of bonds not exceeding $300,000,000 in the aggregate, of which you are to offer for public sale or subscription $16,000,000, I beg to say that this mortgage is now a first lien on about 3,070 miles of completed road, and on the retirement of the outstanding bonds enumerated in the mortgage will become a first lien on the entire railroad mileage enumerated in the mortgage, aggregating 8,599 miles.

*Disposition of the $300,000,000 Bonds Secured by the Mortgage.*

| | |
|---|---|
| Reserved for the special purpose of retiring all outstanding bonds of the company, of previous issues, at this date aggregating $167,565,000 (of which $17,428,300 are held in various sinking funds) | $175,000,000 |
| Issuable to meet expenses of retiring said prior bonds | 2,000,000 |
| To be issued for reimbursing the treasury of the company for outlays already made by it for betterments of and additions to the property covered by the mortgage | 45,000,000 |
| Issuable only for additions, improvements and betterments of and to the mortgaged property, which, when acquired, must be placed under the lien mortgage, thereby increasing the mortgaged property by the full amount of such additions | 78,000,000 |

*Approximate Surplus Income of the Company, Available for Payment of Interest and Dividends, for Years ending June 30.*

| 1903. | 1904. | 1905. | 1906. | 1907. |
|---|---|---|---|---|
| $21,490,807 | $19,280,042 | $21,958,265 | $20,818,335 | $21,172,726 |

Interest and sinking fund payments for the year ended June 30 1907 $8,017,518

The rate of interest permitted by the mortgage on the bonds secured thereby is such as the board of directors of the company shall fix, not exceeding 5% per annum, payable in semi-annual installments on March 1 and Sept. 1 in each year.

The $16,000,000 bonds now offered for sale by the company are part of the $45,000,000 issuable for reimbursing the company's treasury, and the rate of interest thereon has been fixed by the board at 4% per annum.

*Called Bonds.*—On June 1 there will be payable at par and interest by the trustees, No. 50 State St., Boston, $11,000 Tarkio Valley RR. and $10,000 Nodaway Valley RR. 1st 7s. —V. 86, p. 167.

**Chicago Cincinnati & Louisville RR.**—$1,000,000 *Receiver's Certificates Authorized.*—The United States Court at Indianapolis on May 26 authorized the receiver to sell at his discretion, for not less than par and interest, $1,000,000 6% receiver's certificates of $1,000 each, due in three years, but subject to call on any interest day, the issue to have a first lien on all the property and assets of the road. The "Indianapolis News," citing the decree, states that the proceeds are to be applied in part as follows:

Included in this is $40,808 for taxes; $81,334 for wages; $142,386 for money owed by the road for ticket and freight balances as agent for othe common carriers; $202,093 for various repairs, new work and the purchase of various necessary aritcles; $5,050 for additional work; $100,000 for rental of equipment held under car trust agreements as they mature within the next six months; $25,000 for the payment for seven new locomotives that are now in the possession of the road; $120,000 for new passenger and freight equipment to be purchased on a car-trust contract, on which not to exceed 30% of the whole purchase price is to be paid; $60,000 for deficiency in receipts until June 1; $25,000 to build connections from the C. C. & L. to lines of the Queen and Crescent at Cincinnati and the Kensington & Eastern between Hammond and Chicago; $160,000 for turnbles, roundhouses, coaling stations, water tanks, &c. Compare V. 86, 793, 856.

**Chicago Joliet & Kansas City Ry.**—*Bond Issue.*—A mortgage has been filed to the Carnegie Trust Co. of New York, as trustee, covering this road, projected from Chicago west and southwest to Joliet, Keithsburg, &c., in order to secure an issue of $15,000,000 5% gold bonds due March 1 1938 but subject to call after March 1 1913 at 105.

"To provide funds for the construction and equipment" of the road, there were recently offered for sale in New York $6,000,000 "depositary certificates" issued against the deposit with the trustee of certain stock trust certificates (representing "full paid" stock) and of certain of the $15,000,000 first mortgage bonds, the latter to be sold and the proceeds used to pay off the depositary certificates with 5% interest thereon, leaving the deposited stock to be distributed among the holders of the "depositary certificates." Said certificates were to be issued in three series of $2,000,000 each, designated as "A", "B" and "C".—V. 86, p. 1159, 720.

**Chicago Rock Island & Pacific Ry.**—*Bonds for Subsidiary Company.*—The Texas Railroad Commission has authorized this company's subsidiary, the Chicago Rock Island & Gulf Ry., to issue $331,000 additional bonds on account of 11 miles between Irving and Carrollton in Dallas County, Texas. All the company's capital stock and bonds are owned by the parent company, pledged as part security for its 4% refunping bonds.—V. 86, p. 602, 420.

**Detroit Toledo & Ironton Ry.**—*Default on Notes.*—The interest due June 1 on the $5,500,000 3½-year 5% notes, it is learned, will be allowed to go to default. The interest on the $4,253,000 general lien 4s due June 1 will be paid at maturity.—V. 86, p. 794, 602.

**Evansville & Terre Haute RR.**—*Listed.*—The New York Stock Exchange has listed $473,000 additional first general mortgage 5% 50-year bonds due ,1942 making the total amount listed to date $3,145,000.

The bonds listed were issued for additions, improvements, betterments and equipment under Article First, Sub-division 4 of the mortgage, the remainder ($3,855,000) of the $7,000,000 authorized issue being reserved to retire underlying bonds.

*Earnings.*—For 9 mos. ending Mch. 31:

| 9 mos. | Gross. | Net(ov.tax.) | Oth. inc. | Int. & rent. | Bal., sur. |
|---|---|---|---|---|---|
| 1907-08 | $1,728,436 | $570,591 | $196,876 | $443,879 | $323,589 |
| 1906-07 | 1,726,684 | 647,470 | ---- | ---- | ---- |

—V. 86, p. 1224.

**Fairmont & Clarksburg Traction Co.**—*Stock Increased.*—A press dispatch states that the stockholders will meet during June to vote on a proposition to increase the capital stock from $2,000,000 to $5,000,000.—V. 86, p. 600.

**Galveston Harrisburg & San Antonio Ry.**—*Tax Law Held Unconstitutional.*—The United States Supreme Court on Monday, in a test case against the company, by a vote of 5 to 4, held unconstitutional the law passed in 1905 by the Texas Legislature, imposing an annual tax on railroads equal to 1% of their gross earnings in such proportion as the length of the line within the State bears to the total length.

Justice Holmes, who writes the majority opinion, holds that the tax is an interference with inter-State commerce, while Justice Harlan, for the minority, says the tax is justified as being merely an occupation tax.—V. 84, p. 803.

**Hagerstown (Electric) Railway Co.**—*Consolidation.*—*New Stock.*—The shareholders at Hagerstown on May 20 voted to increase the capital stock from $200,000 to $400,000 and also to take over the assets of the Hagerstown & Boonsboro, Hagerstown & Northern and Hagerstown & Myersville trolley companies.

The new stock will all be issued in the near future. There are outstanding $350,000 bonds on account of the properties to be acquired.—V. 84, p. 339.

**Illinois Central RR.**—*Report of Stockholders' Committee Based on Official Information—Proceedings at Annual Meeting—Source of Floating Debt*—$5,266,000 *Sterling 3½s Given a Lien on Road Preparatory, it is Supposed, to Making a Refunding Mortgage.*—Secretary George A. Fairfield of the Hartford, Conn., Board of Trade, and Francis R. Cooley, the well-known Hartford banker and broker, together constituting the committee which represented local stockholders at the recent meeting in Chicago, makes the following report to those stockholders whose proxies were given them:

The call for the meeting of stockholders was:
(a) To vote on an increase of stock. Of this we approved, and believe that stockholders whom we represented also approved. (b) To authorize the purchase of the property, corporate rights and franchises of the Kensington & Eastern RR. Co. (c) To authorize the purchase of the property, corporate rights and franchises of the Memphis State Line RR. Co.

Both of the above railroads had been under construction for some time under separate charters, but with funds furnished by our company, for which all the bonds and stock of those companies were received. The Kensington & Eastern RR. makes a connection for the Illinois Central with the new town of Gary and with several trunk lines east. The Memphis & State Line RR., about 16 miles, goes around the city of Memphis, relieving the heavy traffic along the river front of that city, which has become troublesome to the municipality and difficult for the railroad. Both these votes were approved by your committee.

The floating debt of the company last fall amounted to about $30,450,000, incurred substantially as follows:

| | |
|---|---|
| Advances to Indianapolis & Southern RR. | $3,750,000 |
| Construction on Yazoo & Mississippi Valley lines | 1,030,000 |
| Sundry subsidiary lines as per abstract (a) of the company's statement, about | 830,000 |
| Advances to other railroads, including line to Birmingham and terminals, about | 10,000,000 |
| Real estate in New Orleans and Chicago | 840,000 |
| For equipment, about | 14,000,000 |

A demand for security was made upon the company by holders of the unsecured notes, which was furnished by the mortgage of its equipment, upon which there was no lien. Your committee are informed that there is no intention to sell the notes secured by this mortgage (V. 86, p. 1042.)

The Indianapolis & Southern RR. connects at Indianapolis, an important railroad centre, with many important lines. The line to Birmingham, of which our company owns one-third, besides its terminals at Birmingham, opens a connection over the Central Railroad of Georgia to Savannah.

The following vote was also passed:

"Whereas, on July 21 1886, the Illinois Central RR. Co. entered into a trust agreement with the United States Trust Co. of New York to secure the payment of certain bonds known as Illinois Central sterling 3½% bonds of 1950, maturing July 1 1950, the aggregate amount authorized being $5,352,000 and the aggregate amount outstanding June 30 1906 being $5,266,000, it being covenanted in the said trust agreement and in each of the said bonds that no mortgage should thereafter be made upon the railroads, which were then known as the Illinois Central RR. and the Chicago St. Louis & New Orleans RR., or either of them, to secure the payment of any other indebtedness, until all the bonds of said series should be secured by a mortgage lien upon each of the said railroads, to be duly authorized by the holders of a majority of the stock of the said railroad companies respectively, having priority over any other mortgage that might be thereafter executed;

"And, Whereas, It is intended by the Illinois Central RR. Co. to secure the payment of other indebtedness upon the railroad which was on July 21 1886 known as the Illinois Central RR.

"Now, therefore, in compliance with the said covenants of the Illinois Central RR. Co. contained in the said agreement and bonds respectively, the directors of this company are hereby authorized to secure all of the said Illinois Central sterling 3½% bonds of 1950 by a mortgage lien upon the railroad, which was on July 21 1886 known as the Illinois Central RR., having priority over any other mortgage that may be hereafter executed upon the said railroad, the form of the said instrument securing the said mortgage lien to be such as the directors may determine."

This vote is a necessary preliminary step before the company can issue a refunding mortgage to take up its outstanding bonds.

The officers present at the meeting were: President Harahan, Vice-President Hackstaff and General Counsel Dickinson, who willingly answered all questions asked by your committee and gave us valuable information, of which the above is a brief summary.—V. 86, p. 1284, 1042.

**International & Great Northern RR.**—*Listed.*—The New York Stock Exchange has listed $6,879,500 Farmers' Loan & Trust Co. certificates of deposit for second mortgage bonds and has authorized the listing from time to time, but prior to Jan. 1 1909, of additional amounts of said certificates on notice of issuance in exchange for outstanding second mortgage bonds, making the total amount authorized to be listed $10,391,000.

*Time Extended till July 1.*—The second mortgage bondholders' committee, Mark T. Cox, Chairman, referring to the aforesaid listing, announces that the time within which to deposit bonds under the agreement of March 2 1908 is now extended to and including July 1 1908, after which date bonds will be accepted only in the discretion of the committee and under such penalty as may be fixed by the committee.—V. 86, p. 1285, 1159.

**Iowa Central Ry.**—*Bonds Sold.*—E. H. Rollins & Sons have purchased an additional block of $1,250,000 of the first and refunding 4% bonds, making $2,000,000 of the issue taken by that firm. There are now $4,070,000 refunding bonds outstanding in the hands of the public, $1,330,000 being also held in the treasury. Compare bond offering, V. 86, p. 1042, and V. 86, p. 229.

**Lehigh & New England RR.**—*Guaranteed Equipment Trust.*—The $450,000 4½% equipment trust certificates, series A, recently authorized, are described as follows:

Dated June 1 1908 and due $30,000 annually from 1909 to 1923, both inclusive, but subject to call at any interest period at 102½. Interest payable Dec. 1 and June 1 at office of Guarantee Trust & Safe Deposit Co., Philadelphia, the trustee. Denomination $1,000. Equipment covered, 300 steel coal cars, 300 steel under-frame box cars and three consolidation locomotives. Both principal and interest of the issue are guaranteed by the Lehigh Coal & Navigation Co.—V. 86, p. 1159, 918.

**Lehigh Valley RR.**—*Listed.*—The New York Stock Exchange has listed $1,539,000 additional general consolidated mortgage 4s, due 2003, making the total amount listed $23,539,000. The additional bonds represent cash advances made in payment of annual installments on car trusts and "stock purchase bonds."

*Purposes for Which the $23,539,000 Outstanding Gen. Consol. 4s Were Issued.*

| | |
|---|---|
| For capital advances made by payment of annual installments on car trusts and on Connell, Seneca, Righter and Warrior Run "stock purchase bonds," | $6,103,000 |
| To redeem $9,568,000 "mortgage and collateral trust" 5% gold bonds at 107½ | 10,286,000 |
| To redeem $2,000,000 5% five-ten-year gold coal pledge bonds of Lehigh Valley Coal Co. at 102½ | 2,050,000 |
| To redeem $5,000,000 National Storage trust certificates | 5,100,000 |

*Income Account, Eight Months ending Feb. 29 1908.*

| | | *Deductions—* | |
|---|---|---|---|
| Gross earnings | $24,241,955 | Additions and improv'ts | $1,278,906 |
| Operating expenses | 15,888,353 | Interest on bonds | 2,357,373 |
| Net earnings | $8,353,602 | Interest on equip. trusts | 116,038 |
| Income from investments and net earns. of transportation cos. operated jointly, &c | 1,265,229 | Rentals leased lines and guaranties | 1,544,315 |

| | | Miscellaneous | 210,717 |
| Total net income | $9,618,831 | Total deductions | $6,261,749 |
| Net income | | | $3,357,082 |

Dividends at the rate of 6% yearly on the outstanding $40,334,800 common stock and of 10% yearly on the $106,300 preferred stock call for $1,620,479 for the eight months, leaving a balance, surplus, of $1,736,603. —V. 86, p. 480, 52.

**Los Angeles Dock & Terminal Co.**—*Further Facts.*—Secretary Walter M. Campbell has favored us with the following:

The property is now separated by a strip of land about 600 feet wide across which the San Gabriel River flows to the ocean. The War Department has decided that the San Gabriel is navigable and has ordered the San Pedro Los Angeles & Salt Lake Ry. Co. to remove its trestle or put in

a draw-bridge of 80 feet clear span across the mouth of the river and is now constructing such draw-bridge of the lift type. As soon as this is completed, a channel 30 feet deep at low tide will be dredged to deep water, connecting this company's lands and channels with the ocean. Jetties have already been built on each side of such channels. The company owns in fee about 650 acres, some 435 acres of which now being improved for harbor purposes are covered by the mortgage. A portion of the enterprise will be completed at the end of six months, the whole within two years. (Compare unofficial statement in V. 86, p. 1103.)

Of the company's authorized issue of capital stock ($1,500,000, all common), $500,800 is outstanding; par of shares, $100. The company has made a first mortgage to the Southern Trust Co. of Los Angeles, as trustee, to secure an issue of $500,000 6% gold bonds of $500 each, due in 20 years, but subject to call after 5 years in any amount at 105; interest payable Jan. and July at office of the trustee. President and Treasurer, George H. Bixby.—V. 86, p. 1103.

**Los Angeles Harbor RR.**—*New Enterprise.—Bond Issue.*—Early in March this company and the Los Angeles Harbor Co. were incorporated under the laws of California, each with $2,500,000 capital stock, the railroad company for the purpose of building a steam railway from Los Angeles to Wilmington, Cal., 20 miles, and the Harbor Company to build a dock and deep water harbor in Wilmington Bay adjoining San Pedro. The railway company has authorized an issue of $2,000,000 bonds and the harbor company a bond issue of $1,000,000. The Harbor Company will control the railroad. The bonds, we are informed, will not be offered to the public.

President, A. C. Bird, Security Building, Los Angeles, Cal., formerly Vice-President of the Chicago Milwaukee & St. Paul, and more recently in charge of traffic of all the Gould lines; W. J. Arkell, Vice-President; F. C. Wintrode, Secretary, and J. W. Oakley, Treasurer.

Directors—A. C. Bird, W. J. Arkell, New York; F. S. Cary, Wilmington; Jacob Baruch, N. W. Myrick, L. C. Gates, Fielding J. Stilson, F. C. Wintrode, A. P. Maginnis and H. C. Oakley of Los Angeles.

See also Los Angeles Dock & Terminal Co. above.

**Louisville & Eastern RR.**—*Merger Planned.*—See Louisville Frankfort & Eastern Traction Co.—V. 82, p. 1102.

**Louisville Frankfort & Eastern Traction Co.**—*Proposed Merger.*—The Louisville "Courier-Journal" of May 19 states that this company is being organized with $2,500,000 common and $750,000 preferred stock, and an authorized bond issue of $3,500,000, for the purpose of taking over certain interurban lines now entering Louisville, among them the Louisville & Eastern RR. the President of the new company, it is stated, will be Samuel Insull of Chicago. John C. C. Mayo, it is understood, will also be interested.

**Louisville & Nashville RR.**—*Listed.*—The New York Stock Exchange has listed $3,000,000 additional unified 50-year 4% bonds, due 1940. making the total amount listed to date $40,562,000. The additional bonds were issued on account of the retirement of prior liens canceled as follows:

| | |
|---|---|
| Memphis & Ohio RR. Co. sterling mortgage bonds, which matured June 1 1901 | $2,752,000 |
| L. & N. general mortgage and Ev. Hend. & Nash. division bonds, redeemed for sinking fund | 226,000 |
| For premiums on bonds for sinking funds | 22,000 |

*Statement of Issuance of* $61,136,000 *Unified* 4% *Gold Bonds.*

[Including $40,562,000 listed as above, $17,000 canceled, $18,200,000 deposited as collateral for $23,000,000 five-twenty collateral trust bonds and $2,357,000 unlisted in treasury L. & N. RR. Co.]

| | | | |
|---|---|---|---|
| Construction | $3,424,701 | Prior issues | $22,037,545 |
| Extensions | 3,210,931 | Double track | 451,000 |
| Sinking funds | 6,154,315 | Purchase of roads | 6,829,709 |
| Prem. on bonds for s. f. | 467,900 | Improvements | 4,438,010 |
| Corporate purposes | 5,000,000 | Purchase of bridges | 1,500,000 |
| Purchase of stocks | 1,637,512 | New general office building, Louisville | 664,945 |
| Equipment | 5,319,808 | | |

*Earnings of L. & N.*—For nine months ending March 31:

| *Nine Mos.* | *Gross.* | *Net.* | *Other Income.* | *Charges.* | *Bal. for Div.* |
|---|---|---|---|---|---|
| 1907-08 | $34,663,731 | $8,444,820 | $978,851 | $7,327,648 | $2,096,022 |
| 1906-07 | 35,836,601 | 11,544,107 | | | |

Dividends at the rate now paid, 6% yearly, call for $2,700,000 (4½%) for the nine months.—V. 86, p. 795, 721.

**Mexican Central Ry.**—*Plan Operative.*—See National Railroad of Mexico below.—V. 86, p. 1100, 1042.

**Mississippi Central RR.**—*Called Bonds.*—The company will redeem on July 1 $42,000 first 5s of 1905, Nos. 85 to 126 inclusive, at the office of Harvey Fisk & Sons, No. 62 Cedar St., New York City.—V. 86, p. 1101.

**Missouri Pacific Ry.**—*Listed.*—The New York Stock Exchange has listed $8,000,000 additional "collateral 40-year 4% gold loan" due 1945, making the total amount listed to date $33,000,000.

The $10,000,000 additional bonds, all disposed of since June 30 last, are issued against the deposit with the trustee of a like amount of stock of the St. Louis Iron Mountain & Southern Ry., the entire issue thereof being $44,391,250, of which $44,336,600 is owned by the Missouri Pacific. The Iron Mountain paid a dividend of 10% from the earnings of the year ending June 30 1907.

*Earnings.*—For 9 months ending March 31 1908 (including St. Louis Iron Mountain & Southern):

| | | | |
|---|---|---|---|
| Gross earnings | $33,638,459 | Total net income | $11,241,210 |
| Net earnings | 8,853,521 | Charges | 8,937,664 |
| Other income | 2,390,689 | Dividends, 6 mos. (2½%) | 1,935,210 |
| Balance, surplus | | | $371,336 |

Charges as above, $8,937,664, include: Interest on bonds, $6,505,806; rentals and taxes paid, $1,293,075; sundry amounts, $1,138,782.—V. 86, p. 1033.

**Missouri River & Northwestern Ry.**—*Sale Ordered.*—A press dispatch from Rapid City, S. D., on May 22 states that Judge McGee has ordered the foreclosure sale of this property, fixing the date for June 22; upset price $350,000. The sale is granted upon the request of the Cleveland Trust Co., as trustee of a mortgage of $1,000,000. V. E. Crouch, having resigned as a receiver, C. O. Bailey has been appointed in his stead.—V. 85, p. 1577.

**National Railroad of Mexico.**—*Plan Operative—Further Deposits to Be Received Until June 6.*—The bankers in charge of the readjustment and union of the Mexican Central Railway Co., Ltd., and the National RR. Co. of Mexico announce that as a very large majority of the securities called for under the plan dated April 6 have been deposited thereunder, they have declared the plan operative. See plan in V. 86, p. 918, 982. Holders of securities who have not yet deposited them may have an opportunity to do so, the time for making such deposits having been extended to June 6, after which date no deposits will be received, except in the discretion of the readjustment managers.

Securities and stock of the Mexican Central Railway Co. must be deposited with the Central Trust Co. of New York or Kidder, Peabody & Co. of Boston, while deposits of stock of the National RR. Co. must be made with the Mercantile Trust Co. of New York.—V. 86, p. 1225 982.

**National Railways of Mexico.**—*Offering of Prior Lien Bonds.*—Speyer & Co., Kuhn, Loeb & Co., Hallgarten & Co. and Ladenburg, Thalmann & Co., all of New York, associated with Kidder, Peabody & Co. in Boston, and various financial houses in Europe, are offering for subscription at 94% by advertisement on another page, $13,750,000 of this new company's prior lien 4½% sinking fund redeemable gold bonds maturing July 1 1957. The subscription will close at 3 p. m. on June 3.

Pablo Macedo, Chairman of the Board of Directors, writes in part as follows (see further particulars in advertisement, and also in plan, V. 86, p. 918, 982):

The Mexican Government will hold a controlling interest in the stock of this company.

The prior lien 4½% bonds will rank before the $160,000,000 guaranteed general mortgage 4% sinking fund redeemable gold bonds, maturing Oct. 1 1977, principal and interest and sinking fund installments of which are to be unconditionally guaranteed by the Mexican Government (which amount may be increased for refunding purposes as provided in the mortgage.)

On the completion of the readjustment the bonds (by means of the deposit of securities and shares under the plan of readjustment) will be practically a prior lien charge on the entire Mexican Central Ry. system (about 3,428 miles), and also practically a charge on the National RR. Co. of Mexico system (about 3,558 miles), subject to outstanding indebtedness of about $57,750,000 charged upon the property of the National RR. Co., and subject to the lines of the Mexican International & Interoceanic Companies, to their respective outstanding issues, a large amount of which, comprising the voting control, is held by the National RR. Co. Of the indebtedness of the National RR. Co., $33,000,000 can be redeemed on not more than six months' notice.

Sufficient prior lien bonds and general mortgage bonds are reserved to redeem the bonds and obligations of the Mexican Central Ry. Co., Ltd., and the National RR. Co. of Mexico, the deposit of which is not invited by the plan, with the object that ultimately the bonds may become an absolute first charge on the combined properties of the National and Central Ry. Companies.—V. 86, p. 1225, 982.

**New York-Canadian Pacific Ry.**—*Vetoed.*—Gov. Hughes vetoed Assemblyman Frisbie's bill extending the time for the completion of this projected road.—V. 80, p. 1059.

**New York Central Lines.**—*Listed.*—The New York Stock Exchange has listed Guaranty Trust Co. certificates for $30,000,000 New York Central Lines Equipment Trust of 1907. See full particulars and form of certificate and list of equipment against which $20,387,000 of the certificates were issued in V. 86, p. 168; also remarks in last annual report of the New York Central & Hudson River RR., V. 86, p. 798, and list of equipment leased by the New York Central and Lake Shore & Michigan Central, two of the companies joining in the equipment trust, in V. 86, p. 800, 803.

The equipment delivered to May 8 1908 consists of 523 engines, 17,081 freight cars and 136 passenger cars, costing $29,610,620, against which certificates were issued for 90% of such cost, or $26,649,558. Cash has been deposited with the Guaranty Trust Co., trustee, for $3,350,442, against which the remainder of the $30,000,000 certificates authorized have been issued.—V. 86, p. 168.

**New York & Long Island RR.**—*Bill to Enable City to Purchase Signed.*—Governor Hughes on May 22 signed the Frawley bill, designed to enable the city, should it desire, to purchase the property.

The law authorizes the Public Service Commission of the First District, with the approval of the Board of Estimate and Apportionment of New York City, to acquire on agreed terms lines of railway already constructed or in process of construction which might be built as rapid transit railways. The Governor says the bill should have contained a provision for condemnation, and such authority should later be added. Compare offer to sell, V. 86, p. 669.

*Decision Affirmed.*—The Court of Appeals last week affirmed the decision of the lower courts which granted an injunction restraining the city from interfering with the construction of the tunnel pending trial of the action brought to determine the validity of the company's charter. See V. 85, p. 1339, 1518.—V. 86, p. 669.

**New York Chicago & St. Louis RR.**—*Bonds Offered.*—N. W. Harris & Co. of New York and Boston and the Harris Trust & Savings Bank of Chicago offer, by advertisement on another page, at 89½ and interest, netting over 4.75%, $2,000,000 of the outstanding $3,000,000 25-year 4% gold debenture bonds, dated May 1 1906, tax-free in Pennsylvania. Denominations $1,000 and $5,000 and multiples of $5,000. The indenture to the Guaranty Trust Co. of New York, trustee, provides that no new mortgage can be placed on the property without equally securing the bonds of this issue thereunder. The bankers point out that the net earnings in 1907 were over 3½ times the interest charges.—V. 86, p. 1038.

**Norfolk & Portsmouth Traction Co.**—*Note Issue.*—See "Annual Reports" on a preceding page.

*New President.*—John Blair McAfee of Philadelphia, has been elected President to succeed R. Lancaster Williams, who resigns because of pressure of duties as a receiver of the Seaboard Air Line, but will act as chairman of the executive committee.—V. 86, p. 1225.

**Oklahoma Central Ry.**—*Receivership.*—A press dispatch from Paul's Valley, Okla., May 28, announces that this company, operating from Lehigh to Chickasha, 132 miles, has been placed in the hands of a receiver. President Carter, it is stated, attributes the company's embarrassment to "radical legislation, which first prevented the sale of the

road and then blocked a loan of $300,000 already arranged in Philadelphia." Compare V. 82, p. 752, 393.

**Pensacola (Fla.) Electric Co.**—*No Dividend at Present.*—The directors have decided not to pay on June 1 the usual semi-annual dividend of 3% on the $300,000 6% cumulative preferred shares. Stone & Webster, the General Managers, in a circular say:

The income of your company has been impaired by a strike of its employees which resulted in materially increased expenses and a loss of earnings through a boycott. The strike has now ended and earnings and expenses are returning to the normal basis.

Your directors wish us to state that the trouble was of a purely temporary nature and that no fears need be entertained as to the future of your property. The territory which your company serves is naturally prosperous and business conditions are sound and satisfactory, although adversely affected temporarily by the general depression which the country is now experiencing.

The better discipline which will result now that the menace of constant labor troubles has been removed, will enable your directors to operate the property more beneficially than heretofore, both for the security holders and the people of Pensacola.

It is hoped that the dividend now passed will be made up in the not distant future.—V. 84, p. 1183.

**Pontiac Oxford & Northern RR.**—*Receiver's Sale.*—Receiver Robert J. Lounsbury announces by advertisement that he will sell the road at public auction on Aug. 20 at Pontiac, Mich., as follows:

Under a decree of the Circuit Court of the State of Michigan for the County of Oakland in Chancery, entered March 30 1908 nunc pro tunc, as of Jan. 20 1908 in the suit of Charles H. Stone and others against Pontiac Oxford & Northern RR. and others, subject to the lien of the first mortgage securing $400,000 6% bonds and taxes not accrued. Cash on hand or in bank, bills and accounts payable and judgments obtained by the company or the receiver are excepted. Compare V. 85, p. 1340; V. 84, p. 509; V. 77, p. 299.

**Rapid Transit in New York City.**—*Subway Bill Vetoed.*—Governor Hughes on May 24 vetoed the bill introduced by Assemblyman W. R. Robinson, authorizing the sale of franchise rights to construct and operate rapid transit subways in the City of New York, with the reservation to the city of the right to purchase the property of the grantee at the expiration of a fixed period which was not to exceed fifty years. The Governor says in part:

These railways, except in the case of certain extensions of existing lines, cannot now be constructed save by the use of public moneys. The purpose of the bill is to authorize construction also by private capital. This bill, in its main feature, means that to have additional rapid transit in New York we should give 50-year grants. I do not believe in that policy. The city should not lose its control over its highways for rapid transit purposes for such a period.

The Legislature has passed a concurrent resolution for an amendment of the Constitution providing that indebtedness incurred for rapid transit improvements should not, under specified conditions, be considered in estimating the debt limit. If this is again passed by the next Legislature, it can be adopted in November 1909.

*Conditional Award of Brooklyn Subway Contracts.*—Subject to approval by the Board of Estimate, the contracts for the construction of all six sections of the "Fourth Avenue (Brooklyn) subway," from the Manhattan Bridge to 43d St., South Brooklyn, have been awarded by the Public Service Commission, the contract prices aggregating $14,886,762 for railroad work (exclusive of rails and other equipment) and $999,617 for pipe galleries; total, $15,886,379.

| | 1st Sec. | 2d Sec. | 3d Sec. | 4th Sec. | 5th Sec. | 6th Sec. |
|---|---|---|---|---|---|---|
| | $ | $ | $ | $ | $ | $ |
| RR. work | 1,020,476 | 3,436,019 | 3,392,091 | 2,283,553 | 1,945,641 | 2,808,982 |
| Pipe gal'ries | 101,374 | 58,695 | 208,135 | 206,672 | 251,076 | 173,665 |

Contractors: First section, Nassau to Willoughby St., James P. Graham (who sought to be relieved of the contract on ground of omissions from estimate); second and third sections, Willoughby St. to Sackett St., William Bradley; fourth section, Sackett St. to 10th St., and sixth section, 27th to 43d streets, E. E. Smith Constructing Co.; fifth section, 10th St. to 27th St., Tidewater Building Co. and Thomas B. Bryson.

*New Proposition Which May Affect Above Plan.*—The Interborough Rapid Transit Co. on May 26 submitted to the Public Service Commission an offer to build for $1,200,000 a subway road from the Flatbush Ave. terminal of the present subway in Brooklyn to the Manhattan Bridge, and thence over the bridge to a connection with the Third Ave. elevated railroad in Manhattan, passengers to be carried from any part of its elevated system in Manhattan to the Flatbush Ave. station for a single fare. This proposition, since covering the first section of the aforesaid "Fourth Avenue subway," may possibly delay the construction of the remainder of the line.

*Declines to Operate.*—The Brooklyn Rapid Transit Co., because of the expense involved, and for other reasons, has given notice that it cannot undertake to operate its trains through the $9,000,000 subway loop which the city has nearly completed, connecting the Manhattan termini of the Brooklyn, Manhattan and Williamsburgh bridges.—V. 86, p. 1160, 1044.

**Rochester (N. Y.) Railway & Light Co.**—*Bonds Offered.*—Richardson & Clark, Providence, R. I., are offering at 95½ and interest, yielding the investor 5¼%, $1,600,000 first consolidated mortgage 5% gold bonds, due July 1 1954, but subject to call at company's option at 110 and interest. Interest payable January and July. Issued with approval of the New York State Public Service Commission. A circular says:

*First Consolidated Mortgage 5% Bonds, Authorized,* $16,000,000.

| | | |
|---|---|---|
| Reserved to retire underlying issues | $5,448,000 | |
| Reserved for betterments, improvements, &c., to be issued under proper restrictions only | 3,255,000 | $8,703,000 |
| Total present issue | | $7,297,000 |
| Capital stock—5% cumulative pref. stock, $3,000,000; common stock (now paying 5%), $6,500,000; total | | $9,500,000 |

The company was organized July 1 1904 by a combination of the street railway, electric-light and gas companies of Rochester, N. Y., and it is the only company operating a street railway and making and selling gas and electricity for light and power in that city. The railway is operated through the ownership of the entire common stock of the Rochester Ry. Co., which has outstanding $4,375,000 5% bonds and $3,000,000 5% preferred stock. Rochester is the third city in the State of New York; it has a population of 225,000 and possesses large possibilities for the development of street railway, light and power business. During the last five years the tracks, rolling stock and other property of the railway company have been renewed to meet the demands of a constantly increasing traffic.

The franchises are unlimited as to time and liberal in their provisions, constituting a very valuable asset which it would be impossible to duplicate at the present time.

In January 1906 the control of the company passed into the hands of the New York Central RR.; the price paid for the common stock being $125 a share, and $1,100,000 of the preferred stock also was taken at $100 a share.

*Income Account for the Year ending Dec. 31 1907.*

| | | | |
|---|---|---|---|
| Gross earnings | $2,364,290 | Add—Other income | $193,440 |
| Operating expenses | 1,158,174 | Total net income | $1,399,556 |
| Net earnings | $1,206,116 | Fixed charges | 764,150 |
| Surplus available for dividends | | | $635,406 |
| Undivided profits of the Rochester Ry. Co. for the year 1907 applicable to its common stock owned by the Rochester Ry. & Light Co | | | 296,738 |
| Total surplus over charges | | | $932,144 |

—V. 86, p. 1101, 982.

**St. Louis Iron Mountain & Southern Ry.**—*United States Supreme Court Defines Liability under Car-Coupler Act.*—The United States Supreme Court on May 18 handed down a decision holding the company liable for damages for the death of an employee arising from violation of the car-coupler act.

The suit was brought by the widow of one Taylor, who was caught between two cars while attempting to couple them. It was contended that while the drawbars were not of the standard height prescribed by the American Railway Association and Inter-State Commerce Commission, as required by law, the company by furnishing shims or metal wedges to raise them, and in other ways, had complied with the common-law requirement as to the use of reasonable care. The Court, in an opinion by Justice Moody, held that Congress, not satisfied with the common-law duty and its resulting liability, had prescribed that no cars should be used in inter-State commerce which did not comply with the standard and that the plain prohibition of the law was violated.—V. 86, p. 422.

**St. Louis & San Francisco RR.**—*Listed.*—The New York Stock Exchange has listed $1,553,000 additional 4% refunding bonds, due 1951, making the total amount listed to date $66,000,000.

The bonds listed have been issued under Section Second, Sub-division C, for additions, improvements, betterments and equipment.

*Earnings.*—For 9 months ending March 31 1908 (including Chicago & Eastern Illinois):

| Nine Mos.— | Gross Earnings. | Net after taxes. | Other Income. | Interest, Rents, &c. | 3% on 1st Pf. stk. | Balance, Surp. |
|---|---|---|---|---|---|---|
| | $ | $ | $ | $ | $ | $ |
| 1907-08 | 37,264,844 | 10,235,543 | 972,888 | 10,023,571 | 149,806 | 1,035,054 |
| 1906-07 | 36,926,494 | 12,263,708 | ---- | ------ | ---- | ----- |

Interest, rents, &c., as above, include: interest, $8,212,301; rentals and sinking funds, $647,698; dividends on stock trust certificates, $1,045,716; dividends to Chic. & East. Ill. stock held by the public, $117,855.—V. 86, p. 1226, 982.

**Suburban Rapid Transit Co., Winnipeg.**—*Offering of Guaranteed Bonds.*—The Dominion Securities Co., Montreal, Toronto and London, is offering for sale 5% first mortgage bonds, guaranteed absolutely by the Winnipeg Electric Ry. Co. An advertisement says:

Bonds due Jan. 31 1938. Interest Feb. 1 and Aug. 1; principal and interest payable at Bank of Montreal, Toronto, New York, and London, Eng. Trustee, Royal Trust Co., Montreal. A first mortgage on suburban lines running westwardly from Winnipeg. The company has broad powers and an exclusive franchise for 35 years. Endorsed on each bond is the absolute guaranty of the Winnipeg Electric Ry. Co., whose surplus earnings available for Suburban Rapid Transit Co. bond interest were (1907) $560,000; or over 20 times the amount required.

**Tampa (Fla.) Electric Co.**—*Mortgage.*—The shareholders will meet June 2 to vote on authorizing an issue of $2,000,000 bonds to provide for floating debt, the cost of extensive improvements now in progress, additional equipment and future capital requirements. Stone & Webster of Boston are the general managers of the property.—V. 85, p. 1271.

**Tidewater Company.**—*Heavily Over-subscribed.*—The subscription books for the $17,000,000 6% notes, which opened May 27, were immediately closed, the issue having been heavily over-subscribed. The notes were offered by Redmond & Co. and the Equitable Trust Co., in last week's "Chronicle." See page 1286.

**Toledo Railways & Light Co.**—*Settlement with City as to Claims—Franchise Question Still Open.*—The directors on April 30 approved the terms of settlement with the city in regard to all outstanding claims The city council ratified the settlement on May 4 1908.

The balance found to be due the city is $242,612, which is to be paid $50,000 each six months, beginning March 1909, until the amount is canceled, with interest at 6%. The penalties and interest on account of unpaid paving assessments, amounting to $516,851, will be marked off the records of the county.

This settlement does not affect the question as to the company's franchises which begin to expire in 1909, with important expirations following in 1911; and especially in 1912. A city official writes: "It is altogether improbable that any new franchises will be granted to the company unless the company is willing to accept a straight three-cent fare."—V. 86, p. 1226.

**Virginia-Carolina Ry.**—*No Connection.*—See Virginia & Carolina Southern Ry. below.

**Virginia & Carolina Southern Ry.**—*Mortgage—Bonds for Sale.*—A mortgage has been filed to the New York Trust Co., as trustee, to secure not exceeding $2,000,000 of 5% 50-year gold bonds of $1,000 each, dated Jan. 1 1908 and due Jan. 1 1958. Of the bonds, $120,000 have been issued at the rate of $8,000 per mile on the 15 miles of road already completed. President Armfield, Fayetteville, N. C., May 22 1908, writes:

The company was incorporated by the State of North Carolina in January 1906, and was organized in December of the same year, with a paid in capital of $40,000. The stockholders are: A. W. McLean of Lumberton, N. C.; John Blue and C. N. Blue of Aberdeen, N. C., and J. F. L. Armfield of Fayetteville, N. C.

The southern terminus is Lumberton, N. C., where a connection is made with the Seaboard Air Line and the Raleigh & Charleston R. roads. The northern terminus is Fayetteville, N. C., a distance of 34 miles. Construction was begun at Lumberton, and is completed to St. Pauls, N. C., which is 15 miles from Lumberton. Arrangements are now being made to complete 12 miles further north, which will connect us at Hope Mills, N. C., with the Atlantic Coast Line. RR. We have issued bonds to the amount of $8,000 per mile covering the 15 miles completed, making $120,000. The bonds were paid over to the Atlantic Improvement Co. for the construction, right of way, rolling stock, &c., which we now have. The Atlantic Improvement Co., whose stockholders are the four above-mentioned gentlemen, is now in possession of the bonds and is offering them for sale.

The bonds are, of course, a first mortgage on the road, including all property owned, such as terminals, right of way, rolling stock, depots, &c.

The company has no connection with the Virginia-Carolina Ry., extending from Abingdon, Va., to Crandall, Tenn., 25 miles.

**Wabash RR.**—*Receivership for Subsidiary.*—See Wabash-Pittsburgh Terminal Ry. below.—V. 86, p. 1102, 1045.

**Wabash-Pittsburgh Terminal Ry.**—*Receivership.*—At Pittsburgh yesterday the United States Circuit Court appointed as receiver of the property F. H. Skelding, the President of the First National Bank of that city.

*Protective Committee.*—The interest on the $29,500,000 first mortgage 4% bonds falls due June 1 and it is generally supposed will remain unpaid. The Wabash RR. Co. owns the entire $10,000,000 capital stock of the company, but it is believed hardly feels justified in advancing the funds necessary to enable the road to meet its interest charge, the earnings of the Wabash-Pittsburgh Terminal, it is understood, still falling considerably short of the amount required.

The following first mortgage bondholders' protective committee is announced:

President J. N. Wallace of the Central Trust Co., Chairman; Paul Morton, Haley Fiske, Harry Bronner, Myron T. Herrick, Gordon Abbott and George P. Butler.—V. 82, p. 1440.

**Western Maryland RR.**—*Collateral to Be Sold at Auction June 9.*—Notice is given that the Mercantile Trust Co. will sell at public auction at 12:30 p. m. on June 9, at the exchange salesrooms, 14 and 16 Vesey St., 19,993 shares, par value $50, of the capital stock of the George's Creek & Cumberland RR., or such part thereof as may be necessary to realize sufficient funds to pay the amount then due upon a note of the Western Maryland RR. Co. dated Oct. 17 1907, for the prinicpal sum of $1,101,875. Compare V. 86, p. 1227.

*Status.*—There have been many vague rumors of recent weeks regarding the possibility of a change in control of the Western Maryland RR. and the Wabash-Pittsburgh Terminal Ry., both of which have been held by the Gould interests. The report that John D. Rockefeller and associates had arranged to secure control of the Western Maryland, so far as is known has no further basis in fact than that the Rockefeller interests have for some time past had a large interest in the bonds of the Western Maryland and have two representatives on the committee of "general lien and convertible mortgage" bondholders, of which Alvin W. Krech is Chairman. Probably because of the association of Mr. Rockefeller with H. H. Rogers in the management of the Standard Oil Co., it has been suggested that the Western Maryland and possibly the Wabash-Pittsburgh Terminal might eventually be brought into close relations with the Virginian Ry., the important enterprise which is being financed by Mr. Rogers and which was fully described on p. 1286 of last week's "Chronicle."—V. 86, p. 1227, 980.

**Winnipeg Electric Ry.**—*Guaranteed Bonds Offered.*—See Suburban Rapid Transit Co. above.—V. 86, p. 604.

**Worcester (Mass.) Consolidated Street Railway.**—*Proposed Bonds.*—Application has been made to the Massachusetts Railroad Commission for authority to issue $922,000 bonds to retire floating debt and $2,260,000 bonds to retire funded debt.—V. 85, p. 1647.

**Youngstown & Ohio River (Electric) RR.**—*Status.*—The "Cleveland Finance" of May 9 said:

The securities [illegible] syndicate mortgages and will not be distributed [illegible] for some time. The bonds now outstanding aggregate $1.[illegible] The road will cost about $1,6[illegible],000 cash. It will shortly be in complete operation.—V. 85, p. 532.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**Aetna Portland Cement Co.**—*Sold Under Foreclosure.*—Judge Wisner at Flint, Mich., on May 22 confirmed the recent foreclosure sale of the property for $180,000 to John A. Meyer of Boston, representing the holders of bonds, of which the issue was $400,000. See V. 84, p. 1054.—V. 86, p. 858.

**American Pneumatic Service Co.**—*Report.*—For fiscal year ending March 31:

| *Fiscal Year—* | [illegible] | *Charges, incl. [illegible] Depreciation* | [illegible] |
|---|---|---|---|
| 1907-08 | [illegible] | $106,821 | $[illegible] |
| 1906-07 | [illegible] | [illegible] | [illegible] |

—V. 85, p. [illegible]

**Burlington (Vt.) Gas Light Co.**—*Earnings.*—E. H. Gay & Co., Boston, New York, &c., in offering at a price to yield about 5.3% on the investment a block of the 5% first mortgage 50-year gold bonds, report the earnings for 1907, which we compare with those for 1906 as follows:

| *Earn[illegible]* | [illegible] |
|---|---|
| Gross rec[illegible] | [illegible] |
| Op. exp[illegible] | [illegible] |
| Net [illegible] | [illegible] |
| [illegible] | [illegible] |
| 58,[illegible] | [illegible] |

—V. [illegible]

**Chicago-Virden [illegible] Co.**—*Called Bonds.*—Twenty first mortgage 6% bonds [illegible] dated July 1 1901, of $1,000, have been drawn for redemption [illegible] at par on July 1 1908 at the First Trust & Savings Bank, Chicago, trustee.—V. 73, p. 511.

**Columbia Gas & Electric Co., Cincinnati, Cleveland, &c.**—*Bonds Offered.*—[illegible] & Co., 66 Wall St., are offering on a [illegible] basis to yield 5%, first mortgage 5%, 20-year gold bonds, dated Jan. 1 1907 and due Jan. 1 1927. Interest payable Jan. 1 and July 1. Denomination $500 and $1,000 (c*). Total amount authorized, $25,000,000; issued, $11,914,000; a "first mortgage covering all property, real and personal, now owned or subsequently acquired." Sinking fund commences in 1910. Capital stock, $50,000,000, in $100 shares (V. 85, p. 1404, 1521). A circular says:

**Properties of Columbia Gas & Electric Company.**

a. **Cleveland** (population 500,000).—Practically all the stock of the Cleveland Gas Light & Coke Co. (total authorized stock issue $5,000,000—Ed.) and the People's Gas Light Co. (total authorized stock issue $1,000,000—Ed.), supplying artificial gas in Cleveland, Ohio, and suburbs. The Cleveland Gas Light & Coke Co. was incorporated in 1846 and serves the territory in Cleveland east of the Cuyahoga River, the territory west of the Cuyahoga River being served by the People's Gas Light Co., incorporated 1868. The business of these two companies has been profitable from the start. Consecutive dividends have been paid each year. They have no bonds nor preferred stock and their quick assets vastly exceed their current accounts payable. Their surplus is invested in Government bonds and Cleveland real estate. Their net earnings for the past four years have averaged more than $550,000.

b. **Cincinnati** (population 425,000).—Ten thousand shares of the capital stock of the Union Gas & Electric Co. of Cincinnati, which supplies all the gas and electricity for light, heat and power sold in the city of Cincinnati and suburbs. (Total authorized stock $10,000,000, of which $5,000,000 is 6% cumulative preferred.—Ed.) The net profits of this business for the past three years have averaged more than $1,540,000 (compare V. 86, p. 601; V. 85, p. 473; V. 83, p. 577, 912). The Union Company proposes to substitute natural for artificial gas, and has contracted to purchase from the Columbia Gas & Electric Co. natural gas on terms which should net the Columbia Company in excess of $1,500,000 annually (3% on its total issue of stock) and largely increase the net earnings of the Union Gas & Electric Co. (Compare lease of Cincinnati Gas & Electric Co., V. 83, p. 892, 1231; V. 85, p. 407).

c. **Covington, Newport, Bellevue, Dayton, Latonia, Fort Thomas** (combined population 125,000).—A 90-year lease (see V. 84, p. 1489) of the public utilities, consisting of gas, electricity and street railway service in the cities and towns named, located in Kentucky, opposite Cincinnati, and including the water supply in Bellevue, Dayton and Fort Thomas, covering the following properties: Union Light, Heat & Power Co.; Cincinnati Newport & Covington Railway Co.; Bellevue Water, Fuel & Gas Light Co.; Dayton Electric Light & Power Co.; Covington Gas Light Co.; Citizens' Municipal Light & Power Co.; South Covington & Cincinnati Railway Co.; Covington & Latonia Railway Co.; Newport Electric Street Railway Co.; Covington Cincinnati & Rosedale Railway Co.; Cincinnati West Covington & Ludlow Street Railway Co.; Cincinnati Covington & Erlanger Street Railway Co.

This lease yielded the Columbia Gas & Electric Co. a profit for the year 1907 of about $163,000, and the profit hereafter, through growth and sale of natural gas, should show as follows: From operation of lease in 1908; $225,000 and in 1909 $300,000; from distribution of natural gas in 1908 $550,000 and in 1909 $900,000; total in 1908, $775,000; in 1909, $1,200,000.

d. **West Virginia and Kentucky.**—*Gas, Oil and Mineral Lands.*—The Columbia Gas & Electric Co. has acquired oil, gas and mineral rights by leases, contracts, agreements, royalties and ownership in fee of 257,841 acres of land, located in central and southwestern Virginia and in eastern Kentucky. The company has 30 wells now on this property, which have a daily capacity of 100 million cubic feet of free flow natural gas, and additional wells are being drilled. In the opinion of eminent authorities these fields will produce a sufficient quantity of natural gas to supply Cleveland, Cincinnati and Covington and their environments, and the intervening towns between those cities and the gas fields for at least thirty years.

e. **Pipe Lines.**—Out of the unissued bonds it is proposed there shall be sold sufficient to cover the cost of constructing a pipe line to convey natural gas from the company's properties in West Virginia and Kentucky to Cincinnati, Covington and intervening points, and another pipe line for the purpose of supplying natural gas to Cleveland and the smaller municipalities en route. The company's plans provide that should the natural gas supply diminish, artificial gas may be manufactured from the vast quantities of coal underlying the company's properties and be carried via its pipe lines to the various cities and towns. The prices realized from the sale of by-products will leave the gas practically without cost to the company. (V. 84, p. 1184.)

*Estimated Future Earnings.*

| | 1908. | 1909. |
|---|---|---|
| Cleveland—Net profits from operation | $700,000 | $1,800,000 |
| Cincinnati—From contract to supply natural gas to the Union Gas & Electric Co. upon completion of pipe line | 750,000 | 1,500,000 |
| Covington, Newport, &c—Net profits from operation of leased properties | 225,000 | 300,000 |
| Net from distribution of natural gas through existing mains and extensions in Covington, Newport, &c | 550,000 | 900,000 |
| Line service en route to Cleveland and Cincinnati | 140,000 | 140,000 |
| Total income | $2,365,000 | $4,640,000 |
| Gas field expenses and administration ($60,000 in 1908· $75,000 in 1909) | 360,000 | 485,000 |
| | $2,005,000 | $4,155,000 |
| Interest on bonds—$18,000,000 bonds (average issue for year) at 5% | 900,000 | |
| $20,000,000 bonds (av. issue for year) at 5% | | 1,000,000 |
| Surplus for stock | $1,105,000 | $3,155,000 |

Directors.—Charles P. Taft, capitalist, Cincinnati, Chairman; C. H. Beardslee, Cleveland, O., Pres. Cleveland Gas Light & Coke Co.; F. B. Enslow, Huntington, W. Va., Pres. Huntington National Bank; James C. Ernst, Covington, Ky., Pres. Cinc. Newport & Cov. Light & Traction Co.; Henry A. Everett, Cleveland, O., capitalist; J. Walter Freiberg, Cincinnati, O., distiller; Julian M. Gerard, New York City, banker; Otto Germer, Erie, Pa., stove manufacturer; Caleb E. Gowen, Cleveland, O., Pres. Hutton, Cincinnati, O., banker and broker; Charles A. Lieb, New York City, Vice-Pres.; M. E. Moch, Cincinnati, O., Vice-Pres. Cincinnati Trust Co.; C. R. Morley, Cleveland, O., capitalist; William D. Rees, Cleveland, O., capitalist; Wm. B. Saunders, Cleveland, O., attorney; Archibald S. White, New York City, President.

Transfer Agent, the Cincinnati Trust Co., Cincinnati, O.; Registrar of Transfers, Union Savings Bank & Trust Co., Cincinnati, O.—V. 85, p. 1404.

**General Electric Co.**—*Orders and Shipments.*—For three months ending April 30:

| *Orders received—* | | *Sales billed—* | |
|---|---|---|---|
| 1908 | $10,033,173 | 1908 | $9,208,826 |
| 1907 | 18,602,962 | 1907 | 16,035,060 |
| 1906 | 11,639,997 | 1906 | 10,339,164 |
| 1905 | 12,029,715 | 1905 | 8,672,691 |
| 1904 | 9,913,279 | 1904 | 8,966,966 |
| 1903 | 11,460,437 | 1903 | 8,245,822 |

V. 86, p. 1157, 1045.

**Great Northern Portland Cement Co.**—*Sold.*—At the foreclosure sale in Baldwin, Mich., on May 6, the property was bid in for $85,000 by William Lucking of Detroit said to be acting for the holders of bonds issued under the $600,000 mortgage. Union Trust Co. of Detroit was trustee —V. 86, p. 172.

**International Coal & Coke Co., Ltd. Montreal.**—*Temporary Dividend Reduction.*—A circular sent out not long since over the signature of Secretary W. G. Graves says [illegible]

You will have noticed by the balance sheets of 1906 and 1907 that the company has an outstanding obligation of $200,000, for which the bond issue ($300,000) is pledged as collateral, this being the purpose for which such bonds were authorized.

The directors deemed it wise to begin dividends on Feb. 1 1907, instead of applying its funds in liquidation of the indebtedness, hoping that, with favorable reports, increased tonnage and regular dividends, it would be possible to make satisfactory disposition of the company's treasury stock and thus retire the amount referred to. This has not been possible, as during the year 1907 the general financial conditions became more and more uncertain and disturbed.

In view of the foregoing, the board consider it wise to change their policy and to hold the treasury stock intact, and for the present apply part of the earnings in reduction of their bonded debt, thus leaving the property free and unencumbered.

This circular is to advise you that the next quarterly dividend will be 1¼%. The directors consider such a course as distinctly in the shareholders' interests, and should tend to enhance the value of every holding.

The directors wish to state that the physical conditions in and about the mine are excellent, and it is hoped their action will be approved by every shareholder and that no needless sacrifice of the stock will be made in consequence of temporarily reduced dividends.

[The company has collieries at Coleman, Alberta. Its authorized capital stock is $3,000,000, of which $2,800,000 is outstanding; par of shares one dollar. Dividends were begun in Feb. 1907, when 1% (quarterly) was paid, and were subsequently increased so as to make 5½% paid during the year; 2% was paid in Nov. 1907 and again in Feb. 1908. The May 1908 distribution as above shown was only 1¼%.

*Report for Calendar Years.*

| | *Coal Produced.* | *Coal Sold.* | *Coke Produced.* | *Net Profits.* | *Dividends (5½%).* | *Bal., Sur.* |
|---|---|---|---|---|---|---|
| 1907 | 372,480 tons | 310,482 tons | 39,121 tons | $251,049 | $154,000 | $97,049 |
| 1906 | 334,230 tons | 284,595 tons | 31,066 tons | 198,192 | None | 198,192 |

A. C. Flummerfelt is President.—Ed.]

**International Paper Co.**—*Called Bonds.*—Twenty-three first mortgage 6% gold bonds, due May 1 1916, have been drawn for redemption, and will be paid at 105 and accrued interest by the Old Colony Trust Co., trustee, in Boston on June 1 1908, on which date interest will cease.—V. 86, p. 859, 423.

**Lackawanna Live Stock Transportation Co.**—*Equipment Trust.*—An equipment trust agreement to which this company and the Haskell & Barker Co. of Michigan City, Ind., are parties, has been filed to secure an issue of $210,000 4% gold bonds due in installments.

**Laurentide Paper Co., Grand Mere, Que.**—*Listed in Toronto.*—The Toronto Stock Exchange has listed this company's securities, as follows:

First mtge. 6% 20-year gold bonds, due Jan. 2 1920, interest Jan. 2 and July 2, total authorized and issued (including about $160,000 redeemed by sinking fund) ..... $1,200,000
Preferred stock, 7% cumulative, dividends paid Q.-J ..... 1,200,000
Common stock (present dividend rate 6% yearly, F. & A.) ..... 1,600,000
(Annual dividend rate on common stock: 1903, 8%; 1904, 7%; 1905, 6%; 1906, 6%; 1907, 6; 1908, Feb., 3½%. Par of shares, $100.) - V. 85, p. 1084; V. 83, p. 440; V. 79, p. 630, 2591.

*Report.*—For fiscal years ending June 30:

| | *Surplus Over Interest.* | *Deprec'n Reserve.* | *Pref. Div. (7%).* | *Com. Div. (6%).* | *Balance. Surplus.* |
|---|---|---|---|---|---|
| 1906-07 | $283,321 | $20,000 | $84,000 | $96,000 | $83,321 |
| 1905-06 | 271,846 | 20,000 | 84,000 | 96,000 | 71,846 |

Working expenses in 1907 include extraordinary repairs, changes and improvements aggregating $34,062, and $15,372 lost in unsuccessful litigation which originated at the time of the organization of the company in 1899. The obligations to the bank have been reduced $474,000, largely due to the improved handling of the log supply. The report says: "There has been a decided improvement in the paper market, and the outlook for the coming year is excellent."

**Lehigh Coal & Navigation Co.**—*Guaranteed Equipment Trust.*—See Lehigh & New England RR. under Railroads above.—V. 86, p. 1103.

**Louisville (Ky.) Gas Co.**—*Bonds Awarded.*—The $200,000 bonds due in 1918 recently advertised for sale were awarded to the Fidelity Trust Co. of Cleveland at a premium of $1 01 for each $1,000 bond. The proceeds will be used for extensions. The "Louisville Times" says:

The company will probably continue to pay its regular dividends. The city of Louisville owns $925,000 of the stock and gets about $65,000 a year for its share of dividends. The charter of the gas company has twelve more years to run. The company will lay about six miles of six and four-inch main this summer. At the present time there are hundreds of applicants for fuel gas and illuminating gas on streets where there are no mains. Compare V. 86, p. 984.

**Massachusetts Gas Companies, Boston.**—*Earnings of Controlled Companies.*—Net earnings of the subsidiary companies for April and the ten months ending April 30:

| | —April— | | —10 mos. end. Apr. 30— | |

*After allowing 7% interest on $1,500,000 invested in three collieries.

*Purchase of West Virginia Coal Property.*—The control of the Federal Coal & Coke Co. of Fairmount, W. Va., has been acquired in the interest of the Massachusetts Gas Companies, through the purchase, it is said, by the New England Gas & Coke Co. of 72% of the capital stock ($500,000 or $50,000) and a majority of the $500,000 bonds for a sum said to be $1,250,000 cash. President James L. Richards of the New England Gas & Coke Co. is quoted as saying in substance:

The Massachusetts Gas interests have secured control of the Federal Coal & Coke Co. of Fairmount W. Va., a well known property consisting of about 5,500 acres, containing about 70,000,000 tons of coal which experiments have shown to be particularly well suited for their purposes. The following officers have been elected for the Federal Coal & Coke Co.: President, James L. Richards of Boston; Vice-President, J. L. Lewis of Fairmont; Treasurer, Robert Grant, Assistant Treas., Edward B. Page, and Secretary, John C. Rose, all of Boston.

The Federal Coal & Coke Co. is at present producing 1,000 tons per day, a large portion of which will be supplied to the New England Gas & Coke Co., and it is the intention of the present owners to develop the coal property at once so that their output will be increased to about 5,000 tons per day.—V. 86, p. 984, 510.

**Michigan Lake Superior Power Co.**—*Warning to Bondholders—Report of Receivers.*—John Pitcairn of Philadelphia, Chairman of the first mortgage bondholders' committee, on May 19 gave out the following:

I am advised that an effort is being made to buy up the first mortgage bonds of the Michigan Lake Superior Power Co. Though I am unable to go into an extended explanation at this time, I suggest that you consult the committee before disposing of any of these bonds at a sacrifice.

The committee, includes besides Mr. Pitcairn, Charles H. Graham, Percy M. Chandler and Samuel F. Houston of Philadelphia; Thomas M. King and Alexander J. Hemphill of New York.]

A report of the receivers places the responsibility for the failure of negotiations with the Chandler-Dunbar Water Power Co. on the representatives of that company, and states that inasmuch as the passage by Congress of the Young Bill, granting the Chandler-Dunbar Company important water-power rights on the St. Mary's River would imperil the investment and prior rights of the Michigan Lake Superior Power Co., the receivers are making every effort to secure the defeat of this legislation. Compare V. 84, p. 697.

**National Fuel Co., Denver, Col.**—*Called Bonds.*—Nine 7% gold mortgage bonds, Nos. 14, 21, 43, 63, 73, 88, 94, 97 and 112, will be called for redemption at the office of the International Trust Co., trustee, Denver, Col., on July 1.—V. 85, p. 225.

**Natural Food Co. of Niagara Falls, N. Y.**—*New Name.*—This company, it is announced, has changed its name to the Shredded Wheat Co.—V. 79, p. 631.

**New York Air Brake Co.**—*Bonds Admitted to Unlisted Department.*—The New York Stock Exchange on May 16 admitted to quotation on the unlisted department this company's issue of $3,000,000 6% 20-year first mortgage bonds. Compare V. 86, p. 1104, 921, 797, 725.

**North Butte (Copper) Mining Co.**—*Dividends Resumed.*—After an intermission of six months, dividends have been resumed on the $6,000,000 capital stock by the declaration of a dividend of $1 per share, payable June 25, contrasting with $2 quarterly from June 1906 to Sept. 1907, both inclusive. Par value of shares $15. Compare V. 86, p. 1104 V. 85, p. 1344.

**Ontario Power Co.**—*Important Contract for Power.*—The Government of Ontario, which, through the Hydro-Electric Power Commission, recently received competitive tenders for 30,335 horse-power electric energy to be delivered to fifteen different municipalities in Canada, has awarded the contract to the Ontario Power Co., subject, it is understood, to final ratification by the several municipalities concerned.

*Amounts of Power (h.p.) Applied for by the Several Municipalities.*

| | | | | | |
|---|---|---|---|---|---|
| Toronto | 10,000 | Stratford | 1,500 | Hespeler | 400 |
| Hamilton | 1,500 | St. Thomas | 1,500 | St. Mary's | 1,500 |
| London | 5,000 | Woodstock | 1,200 | Preston | 600 |
| Brantford | 1,500 | Berlin | 1,000 | Waterloo | 685 |
| Guelph | 2,500 | Galt | 1,200 | New Hamburg | 250 |

The estimate of maximum cost of power to the municipalities ready for distribution therein ranges from $17 50 and $18 10 respectively per horse power in the case of Hamilton and Toronto to $29 50 for St. Mary's and New Hamburg. The municipalities will meet the cost of necessary transmission lines from Niagara.—V. 85, p. 226, 1522.

**Pacific Mail Steamship Co.**—*Report.*—For year ending April 30:

| *Fiscal Year—* | *Gross earnings.* | *Total expenses.* | *Dep., repairs, &c.* | *Bal., sur. or def.* |
|---|---|---|---|---|
| 1907-08 | $4,336,312 | $4,367,635 | $397,494 | def. $428,817 |
| 1906-07 | 4,839,244 | 4,294,548 | 414,292 | sur. 130,404 |

—V. 84, p. 1303.

**Passaic Steel Co.**—*Sale of Personal Property Authorized.*—Judge Lanning in the United States Circuit Court at Trenton on May 28 authorized the receivers to sell the personal property, but denied their application to sell the real estate free of the lien of the encumbrance of the $2,500,000 mortgage.

The real estate, if sold, it is held, must be sold subject to the mortgage lien, or under foreclosure suit, in which the receivers are parties defendant.

*Receiver's Certificates.*—The Court on Jan. 20 last authorized the issue of $25,000 receiver's certificates, and also of an additional $25,000 when necessary, the certificates not to bear over 5½% interest.—V. 86, p. 112.

**People's Gas Light & Coke Co., Chicago.**—*Additional Bonds Sold.*—The company has sold to N. W. Harris & Co. and the Harris Trust & Savings Bank an additional $500,000 of refunding mortgage 5% bonds, making the total amount outstanding $12,900,000.

*Title to Office Property.*—James H. Meagher, General Counsel of the company, is reported to have taken title to the leasehold interest and building at 151 Michigan Ave., where part of the new $1,500,000 office building to be built by the company will stand.—V. 86, p. 1104, 725.

**Pillsbury-Washburn Flour Mills Co., Ltd.**—*Preferred Dividend Indefinitely Postponed.*—The directors of this English corporation, it is stated, have decided to postpone the dividend on the preference shares which it was voted last December to pay "at such time as the board shall resolve that payment can conveniently be made."—V. 85, p. 158.

**Railway Equipment Corporation, Philadelphia.**—*Dividend.*—This company, which had long paid regular monthly dividends of 1½% on its $1,375,000 capital stock (with occassional "extras"), made in April and again in May this year a distribution of only ¾ of 1%. Compare V. 85, p. 725.

**Shredded Wheat Co.**—*New Name.*—See Natural Food Co.

**Southern States Land Co.**—*Called Bonds.*—Thirty-eight mortgage bonds were paid on May 1 at $512 50 per bond, with accrued interest, at Knickerbocker Trust Co., New York.—V. 85, p. 1085.

**Standard Oil Co. of Iowa.**—*Reduction of Capital Stock.*—At the annual meeting on May 14 it was voted to reduce the capital stock from $1,000,000 to $1,000 and the limit of indebtedness from $666,666 to $666 66.

**Standard Oil Co., New Jersey.**—*Reduction of Stock by Subsidiary.*—See Standard Oil Co. of Iowa above.—V. 86, p. 1046, 984.

**Sultepec (Mex.) Electric Light & Power Co.**—*Stock Increase* —This New York corporation filed on May 7 a certificate of increase of capital stock from $300,000 to $1,000 000.

A mortgage for $500,000 was made in 1906. Henry Seibert is President; Clinton L. Rossiter, 14 Court St., Brooklyn, N. Y., Treasurer.—V. 83, p 277; V. 85, p. 1146.

**Superior Coal Co.**—*New President.*—C. H. Sternberger of Toledo, it is announced, will on June 1 succeed his brother, Morris Sternberger, as President.

The company is a New York corporation operating extensive coal mines in Jackson County, Ohio, its annual output, press reports say, being from 900,000 to 1,000,000 tons. The capitalization is reported as still $2,000,000 stock and $2,000,000 of an authorized issue of $4,000,000 5% bonds. Compare V. 82, p. 575.

**Union Iron & Steel Co.**—*Change in Control.*—Rogers, Brown & Co., the well-known iron firm of Buffalo, on May 25 obtained control of the property of this bankrupt corporation, through the purchase for $25,000 of its entire issue of $200-000 first mortgage 6% bonds, dated April 2 1906, which were offered at auction on the floor of the Cincinnati Stock Exchange by the brokerage house of Charles C. Murray & Co.—V. 85, p. 1345.

**Union Oil Co., California.**—*New Stock.*—The shareholders voted on May 21 to increase the limit of capital stock issue from $10,000,000 ($8,000,000 outstanding) to $50,000,000. The officials are non-committal as to the purposes of the increase. A Los Angeles paper, referring on May 10 to the probability of an increase to $30,000,000 or $50,000,000, said:

With the increase, say, to $30,000,000, the stockholders will be given three shares for one, which will leave in the treasury $6,000,000 for development purposes as needed. Earnings on this basis would give dividends at 6% yearly on the entire new capital.—V. 86, p. 340.

**United States Steel Corporation.**—*Called Bonds.*—On July 1 there will be paid at the Fidelity Title & Trust Co. in Pittsburgh $100,000 bonds of the H. C. Frick Coke Co., drawn for redemption at 105 and interest.—V. 86, p. 1289, 1096.

**Western Union Telegraph Co.**—*Application to Bring Suit Denied.*—Justice McCall in the Supreme Court in this city on May 22 denied the application of Attorney-General Jackson for permission to bring action against the company and the Postal Telegraph & Cable Co. to annul their charters on the ground of violation of the Donnelly (State) Anti-Trust Act. Compare V. 86, p. 112.

The Court says its attitude on applications of this character was recently fully explained in the matter of the Consolidated Gas Co. of New York (V. 86, p. 483, 796) and further that "there is no merit in fact or warrant in law for the permission sought."—V. 86, p. 985, 672.

**Wilkinson Transportation Co., Syracuse, N. Y.**—*Offering of Steamship Bonds.*—The Detroit Trust Co., Detroit, Mich., the mortgage trustee, is offering at prices to net 5½% the unsold portion of a total issue of $225,000 5% coupon gold bonds, secured by a first mortgage on the two new steel freighters, *J. F. Durston* and *A. E. Nettleton*, capacity 8,000 tons and 11,000 tons respectively. Cost of vessels, $745,000. A circular says:

Bonds dated April 1 1908, payable in ten annual installments. Denomination $1,000. Interest (Jan. 1 and July 1) and also principal payable at the office of trustee. President, S. H. Wilkinson; Sec. and Treas., G. B. Leonard. The same interests own and operate the L. C. Smith Transit Co. and the United States Transportation Co., both of which own fleets of considerable size.

**Yukon Gold Co.**—*Report on Property, &c., to Canadian Authority.*—See "Engineering and Mining Journal" of New York for May 16 and May 23 1908.—V. 86, p. 804.

---

—Spencer Trask & Co., investment bankers, William and Pine streets, New York, have issued the eleventh edition of their circular entitled "Short-Term Notes and Collateral Trust Bonds," copies of which are distributed gratuitously. The circular comprises twelve pages, and describes seventy-two short-term investments, including all of the recent well-known issues.

—The investment bankers, J. S. & W. S. Kuhn, Incorporated, of Pittsburgh and Chicago, have recently opened offices in the Real Estate Trust Building, Philadelphia, under the management of W. G. Audenreid Jr. Mr. Audenreid formerly represented the Kuhn interests in Philadelphia as a member of the firm of Audenreid & Bowker, 400 Drexel Building.

—The May number of "The Imprint" contains some specially beautiful pictures in color. This publication is designed, engraved and printed monthly by the American Bank Note Co. to illustrate the various classes of their work, and is very artistic. Copies may be had on request. The American Bank Note Co. are now in their new building, 70-72 Broad St.

—The banking house of Rudolph Kleybolte & Co., of 115 Broadway, has been incorporated under the name of the Rudolph Kleybolte Company, Inc. The capital of the corporation is $50,000; the amount, it is stated, is to be increased later.

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, May* 29 1908.

The process of trade recuperation is proceeding very slowly and conservatism is still manifest everywhere. Iron sales have increased as the result of price revisions, and the textile markets have shown more activity for the same reason. Prices for grain are relatively high.

LARD on the spot has been firmer, owing to an increased demand, partly for export. Offerings have been light and the strength of corn has also had an effect. Western 8.50@8.60c. and City 8¼c. Refined lard has been dull but firm on light offerings. Refined, Continent 9c., South America 9.60c. and Brazil, in kegs, 10.85c. The speculation in lard futures at the West has been moderately active. Prices have shown irregularity, declining at times on larger receipts of hogs than expected and weakness in live-hog prices. But packers have given support on declines, causing rallies. The advance in corn has also had a strengthening effect at times.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

| | *Sat.* | *Mon.* | *Tues.* | *Wed.* | *Thurs.* | *Fri.* |
|---|---|---|---|---|---|---|
| May delivery | 8.37½ | 8.35 | 8.42½ | 8.47½ | 8.40 | 8.42½ |
| July delivery | 8.42½ | 8.42½ | 8.55 | 8.57½ | 8.47½ | 8.52½ |
| September delivery | 8.60 | 8.60 | 8.70 | 8.72½ | 8.67½ | 8.70 |

PORK on the spot has been dull but firm on light offerings. Local jobbers have purchased on hand-to-mouth scale. Mess $14 50@$15 25, clear $16 50@$17 25, and family $17@$18. Beef has been quiet but firm. Stocks continue small, though there has been a slight increase in the supply of late. Mess $13@$13 50, packet $14@$15, flank $13@$13 50, family $16@$16 75 and extra India mess $23@$24 50. Cut meats have been strong as a rule, with a moderate jobbing trade. Pickled hams 10@10⅜c. and pickled bellies, 14@10 lbs., 8¾@9¾c. Tallow has been quiet and steady; City 5⅜@5¾c. Stearines have been quiet and steady; oleo 11c. and lard 10@10¼c. Butter has been quiet and easy; creamery extras 22½c. Cheese has been dull and steady; State, f. c., small, colored, fancy, 14½c.; white 14¾c. Eggs have been quiet and easy; Western firsts 16½@17½c.

OIL.—Cotton seed has been firm but less active; prime summer yellow 49c., white 49@52c. Linseed has been firm, despite weakness in the raw material. There has been a moderate demand, chiefly for small lots. City, raw, American seed, 44@45c.; boiled 45@46c., and Calcutta, raw, 70c. Lard has been firm, with a moderate jobbing trade. Prime 67@70c. and No. 1 extra 53@55c. Cocoanut has been quiet and easier on larger offerings. Cochin 7@7¼c. and Ceylon 6¼@6½c. Olive has been quiet and steady; yellow 65@75c. Peanut has been quiet and steady; yellow 65@80c. Cod has been moderately active and steady; domestic 42@43c. and Newfoundland 44@45c.

COFFEE on the spot has been quiet and firm. Rio No. 7, 6¼@6⅜c. and Santos No. 4, 8⅜@8⅞c. West India growths have been moderately active and easier; fair to good Cucuta 8⅞@9¾c. The speculation in future contracts has been extremely dull and prices have shown little change. On the whole the tone has been firm, owing to light offerings and buying attributed to local dealers and roasters. At times Europe has bought on a small scale. The principal sellers have been tired local holders. The speculation has been wholly professional with most traders disposed to await developments.

The closing prices were as follows:

| | | | | | | |
|---|---|---|---|---|---|---|
| May | 6.10c. | September | 6.10c. | January | 6.05c. |
| June | 6.15c. | October | 6.05c. | February | 6.05c. |
| July | 6.15c. | November | 6.05c. | March | 6.10c. |
| August | 6.15c. | December | 6.05c. | April | 6.10c. |

SUGAR.—Raw has been firmer on light offerings and an increased inquiry. Centrifugals, 96-degrees test, 4.27@4.36c., muscovado, 89-degrees test, 3.77@3.86c., and molasses, 89-degrees test, 3.52@3.61c. Refined has been in moderate demand and easier. Granulated 5.20@5.30c. Spices have been firm and more active. Teas have been steady with a moderate demand for the cheaper grades. Wool has been firm with a better demand. Hops have been quiet and steady.

PETROLEUM.—Prices have been firm with trade active. Refined barrels 8.75c., cases 10.90c. and bulk 5.00c. Gasoline has been in good demand and firm; 86-degrees in 100-gallon drums, 20c., drums $8 50 extra. Naphtha has been moderately active and firm 73@76 degrees in 100-gallon drums 17c., drums $8 50 extra. Spirits of turpentine has been quiet and easy at 45c. Rosin has been dull and weak, common to good strained $2 95.

TOBACCO.—Prices for domestic leaf have ruled steady. Trade has been quiet. An increased inquiry from manufacturers has been reported at times, but actual sales have been limited to small lots, there being no disposition to anticipate needs. Sumatra has been fairly active and firm. Havana has been quiet and steady.

COPPER has been quiet and steady; lake 12¾@12⅞c. and electrolytic 12½@12⅝c. Lead has been quiet and firmer at 4.32½@4.37½c. Spelter has been quiet and steady at 4.55@4.60c. Tin has been quiet and easier. Straits 28½c. Iron has been firm and more active, No. 1 Northern $16 50@$17, and No. 2 Southern $15 75@$16 75.

# COTTON.

*Friday Night, May 29 1908.*

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 64,162 bales, against 53,068 bales last week and 50,379 bales the previous week, making the total receipts since the 1st of September 1907, 7,832,439 bales, against 9,490,514 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,658,075 bales.

Speculation in cotton for future delivery has been on only a moderate scale and although at one time prices were very strong, owing to heavy rains and floods in the Southwest, there has latterly been considerable realizing, which has led to a reaction. The July option, however, has been conspicuously firm and has greatly increased its premium during the week over both October and December. Still, the speculation has been largely professional, and this fact is beginning to be felt, particularly as much of the short interest among the smaller operators has been eliminated. Of late, too, the weather has somewhat improved, the heavy rains ceasing and temperatures rising. Wall Street and Southern operators have sold, in the one case it is supposed partly for short account and in the other as hedges. There has also been a good deal of scattered liquidation, not only for local and Wall Street account, but also for such out-of-town interests as have recently taken part in the speculation for a rise. The spot sales too at Liverpool, which were recently 15,000 to 20,000 bales a day, have latterly fallen to 8,000. On the other hand, however, the consensus of opinion here is that the crop outlook is less favorable than it was a month ago. Some local reports on the condition have appeared, putting it at about 10% higher than a year ago. Some argue that though the crop is two weeks late, as compared with normal conditions, it is about a fortnight in advance of last year, though it is insisted that excessive rains and cool weather have retarded growth, delayed planting or necessitated a good deal of replanting. Meantime the stock here is small and steadily decreasing, while a better demand from New England is reported at New York, even for the lower grades. In Liverpool, too, the stock is much smaller than that of a year ago. In fact, the statistical position generally is cited by the bulls as favorable to their interests. They are also encouraged by some reports of improvement in the dry goods trade. To-day the transactions were small and mainly to even up over the holiday —Memorial Day. This liquidation took the shape of some selling of July, which was, accordingly, a little lower, and of covering in the next crop months, which were therefore slightly higher. Spot cotton has been quiet. Middling uplands closed at 11.40c., an advance for the week of 30 points.

The rates on and off middling, as established Sept. 11 1907 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

The rates on and off middling, as established Sept. 11 1907 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Continental imports for the past week have been 88,000 bales.

The above figures for 1908 show a decrease over last week of 135,298 bales, a loss of 910,852 bales from 1907, a decrease of 470,876 bales from 1906, and a loss of 611,931 bales from 1905.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to May 29 1908. Receipts. Week. | Receipts. Season. | Shipments. Week. | Stocks May 29. | Movement to May 31 9107. Receipts. Week. | Receipts. Season. | Shipments. Week. | Stocks May 31. |

EAST INDIAN RAINFALL.—The Secretary of State for India at London received the following telegram from the Viceroy of India of date May 18:

Some rain fell during the week in every province; it was moderately heavy in part of northern and northeastern India, and has benefited standing crops and facilitated the preparation of lands for autumn crops in that area. The general position is little changed, but in central provinces there has been a considerable increase in number of weavers requiring relief, while in United Provinces there has been a decrease of 30,000 in the total numbers on relief. In the latter provinces arrangements for provision of small works in the neighborhood of villages to take the place of large public works, on which the bulk of the famine-stricken are now employed, are progressing steadily.

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph from the South this evening indicate that rain has fallen in most sections during the week. In southern Oklahoma and northern Texas on Saturday and Sunday last excessive rainfall caused rivers to overflow, inundating farm lands and doing other damage. Elsewhere the rainfall has been light and at some points dry weather has prevailed. Temperature has been favorable in the main and from many districts outside of flooded sections improvement in the crop is reported.

*Galveston, Texas.*—Torrential rains have done much damage in northern Texas, washing uplands and overflowing all river-bottom lands. The cultivation of the crop has been materially interfered with in the northern half of the State and hot, clearing weather is needed for proper work. There has been rain on one day the past week, the rainfall reaching one inch and eighty-six hundredths. The thermometer has averaged 76, ranging from 68 to 83.

*Abilene, Texas.*—It has rained excessively on two days of the week, the rainfall reaching seven inches and sixteen hundredths. The thermometer has ranged from 60 to 88, averaging 74.

*Brenham, Texas.*—Rain has fallen heavily on three days of the week, the rainfall being two inches and twenty-eight hundredths. Average thermometer 76, highest 88, lowest 64.

*Corpus Christi, Texas.*—We have had rain on two days during the week, the precipitation reaching six hundredths of an inch. The thermometer has averaged 80, the highest being 84 and the lowest 76.

*Cuero, Texas.*—There has been excessive rain on one day the past week, the rainfall reaching three inches and seventy-six hundredths. The thermometer has averaged 77, ranging from 60 to 91.

*Dallas, Texas.*—Rain has fallen heavily on two days of the week, the precipitation being four inches and four hundredths. The thermometer has ranged from 62 to 87, averaging 75.

*Fort Worth, Texas.*—We have had excessive rain on two days of the week, the precipitation being six inches and thirty hundredths. Average thermometer 74, highest 86, lowest 62.

*Henrietta, Texas.*—Rain has fallen heavily on one day of the week, to the extent of one inch and seventy hundredths. The thermometer has averaged 74, the highest being 89 and the lowest 60.

*Huntsville, Texas.*—We have had heavy rain on one day during the week, to the extent of three inches and seventy-one hundredths. The thermometer has averaged 81, ranging from 73 to 89.

*Kerrville, Texas.*—Rain has fallen excessively on two days during the week, the precipitation reaching three inches and twenty-seven hundredths. The thermometer has ranged from 68 to 91, averaging 80.

*Lampasas, Texas.*—We have had excessive rain on three days during the past week, the rainfall being three inches and seventy-five hundredths. Average thermometer 75, highest 89 and lowest 61.

*Longview, Texas.*—Rain has fallen on two days the past week, to the extent of forty-five hundredths of an inch. The thermometer has averaged 78, the highest being 95 and the lowest 61.

*Luling, Texas.*—It has rained heavily on three days during the week, the rainfall being two inches and fifty-two hundredths. The thermometer has averaged 76, ranging from 61 to 90.

*Nacogdoches, Texas.*—Rain has fallen on one day during the week, the precipitation reaching sixty-one hundredths of an inch. The thermometer has ranged from 63 to 87, averaging 75.

*Palestine, Texas.*—We have had rain on one day during the past week, the rainfall being seventy-seven hundredths of an inch. Average thermometer 77, highest 86, lowest 68.

*Paris, Texas.*—We have had rain on three days during the week, the rainfall being one inch and forty-eight hundredths. The thermometer has averaged 76, the highest being 89 and the lowest 63.

*San Antonio, Texas.*—We have had excessive rain on three days of the past week, the rainfall being three inches and sixty-six hundredths. The thermometer has averaged 74, ranging from 58 to 90.

*Taylor, Texas.*—It has rained excessively on two days of the week, the rainfall reaching four inches and fifty-six hundredths. The thermometer has ranged from 60 to 86, averaging 73.

*Weatherford, Texas.*—We have had excessive rain on four days during the past week, the rainfall being six inches and thirty-five hundredths. Average thermometer 75, highest 89, lowest 60.

*Holdenville, Oklahoma.*—There has been rain on four days the past week, the rainfall reaching seven inches and ninety-eight hundredths. The thermometer has averaged 72, ranging from 61 to 83.

*Mangum, Oklahoma.*—It rained on three days in the early part of the week, the rainfall reaching four inches and ninety hundredths. The thermometer has ranged from 54 to 89, averaging 72.

*Oklahoma, Oklahoma.*—There has been rain on four days during the week, the precipitation reaching seven inches and twenty-nine hundredths. Average thermometer 70, highest 83, lowest 57.

*Alexandria, Louisiana.*—Dry all the week. The thermometer has averaged 82, the highest being 93 and the lowest 70.

*Amite, Louisiana.*—We have had rain on one day during the week, to the extent of thirty-five hundredths of an inch. The thermometer has averaged 78, ranging from 66 to 91.

*Shreveport, Louisiana.*—The highest known flood crest in the Red River—43 feet 2 inches—was reported on Thursday at Arthur City, Texas. Many thousand acres of crops are claimed to have been destroyed. We have had rain on three days during the past week, the rainfall being seventy-four hundredths of an inch. Average thermometer 79, highest 90 and lowest 68.

*New Orleans, Louisiana.*—Rain has fallen on two days of the week, the precipitation being three inches and nine hundredths. The thermometer has averaged 81.

*Columbus, Mississippi.*—It has rained on one day of the week, the rainfall being twenty-four hundredths of an inch. The thermometer has averaged 80, the highest being 96 and the lowest 65.

*Leland, Mississippi.*—We have had rain on one day during the past week, to the extent of fifteen hundredths of an inch. Average thermometer 74.7, highest 85, lowest 64.

*Meridian, Mississippi.*—We have had no rain during the past week. Average thermometer 78, highest 93 and lowest 63.

*Vicksburg, Mississippi.*—We have had a trace of rain on one day during the past week. Average thermometer 78, highest 89, lowest 70.

*Nashville, Tennessee.*—We have had rain during the week, the rainfall being sixty-seven hundredths of an inch. Average thermometer 76, highest 91 and lowest 61.

*Memphis, Tennessee.*—Weather conditions very favorable and cultivation is progressing well. We have had rain on two days during the past week, to the extent of seventy-one hundredths of an inch. Average thermometer 79.7, highest 91.2, lowest 69.

*Mobile, Alabama.*—Fine weather in the interior. Cotton

generally has good stands and is growing and developing rapidly. Blooms are reported in a few localities. We have had rain on one day during the past week, the rainfall being thirty-three hundredths of an inch. Average thermometer 80, highest 90, lowest 69.

*Montgomery, Alabama.*—With hot days and nights, crops are improving rapidly and getting clean. A few blooms are reported. We have had no rain the past week. Average thermometer 81, highest 90, lowest 67.

*Selma, Alabama.*—We have had rain on two days of the past week, the rainfall reaching ten hundredths of an inch. Average thermometer 81, highest 94, lowest 67.

*Little Rock, Arkansas.*—Weather more favorable for farm work, but considerable land in valleys of White, Arkansas and Red rivers is under water. We have had rain on two days of the past week, the rainfall reaching six hundredths of an inch. Average thermometer 78, highest 87, lowest 69.

*Eldorado, Arkansas.*—We have had rain on one day the past week, the rainfall reaching two hundredths of an inch. Average thermometer 77, highest 91, lowest 63.

*Fort Smith, Arkansas.*—We have had rain on three days of the past week, the rainfall reaching thirty-six hundredths of an inch. Average thermometer 75, highest 88, lowest 64.

*Helena, Arkansas.*—Fine farming weather. Crops are in very good condition. No complaints. We have had rain on one day during the past week, to the extent of four hundredths of an inch. Average thermometer 79.5, highest 89, lowest 68.

*Tallahassee, Florida.*—There has been rain on one day during the past week, the precipitation being one inch and fifteen hundredths. The thermometer has averaged 80, ranging from 67 to 93.

*Madison, Florida.*—We have had rain on one day of the week, the rainfall reaching one inch. The thermometer has averaged 80, the highest being 95 and the lowest 69.

*Atlanta, Georgia.*—We have had rain on three days the past week, the rainfall being seventeen hundredths of an inch. The thermometer has ranged from 63 to 90, averaging 77.

*Augusta, Georgia.*—It has rained on three days during the week, the rainfall having reached twenty-one hundredths of an inch. The thermometer has averaged 78, the highest being 94 and the lowest 65.

*Savannah, Georgia.*—There has been rain on two days during the week, to the extent of seventy-four hundredths of an inch. The thermometer has averaged 79, ranging from 69 to 90.

*Washington, Georgia.*—There has been rain on three days during the week, the rainfall reaching ninety-two hundredths of an inch. Thermometer has ranged from 64 to 98, averaging 81.

*Greenwood, South Carolina.*—There has been no rain the past week. The thermometer has averaged 78, ranging from 66 to 90.

*Stateburg, South Carolina.*—We have had light rain on three days during the week, the rainfall reaching forty-two hundredths of an inch. More rain will soon be needed. The thermometer has ranged from 64 to 91, averaging 77.

*Charlotte, North Carolina.*—The week's rainfall has been five hundredths of an inch, on one day. The thermometer has averaged 77, the highest being 89 and lowest 63.

*Greensboro, North Carolina.*—There has been rain on one day during the week, the rainfall reaching twenty-two hundredths of an inch. The thermometer has averaged 76, ranging from 63 to 90.

*Raleigh, North Carolina.*—We have had only a trace of rain during the week. The thermometer has ranged from 64 to 90, averaging 77.

*Charleston, South Carolina.*—There has been rain on three days during the week, to the extent of nineteen hundredths of an inch. The thermometer has averaged 78, the highest being 90 and the lowest 70.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

| | | *May 29 1908.* | *May 31 1907.* |
|---|---|---|---|
| | | *Feet.* | *Feet* |
| New Orleans | Above zero of gauge | 18.9 | 17.3 |

According to the foregoing Bombay appears to show a *decrease* compared with last year in the week's receipts of 14,000 bales. Exports from all India ports record a loss of 48,000 bales during the week and since Sept. 1 show a *decrease* of 513,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for yarns and steady for shirtings. Merchants are buying very sparingly. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

| | 1908. | | 1907. | |

EGYPTIAN COTTON CROP.—Messrs. R. & O. Lindemann of Alexandria, under date of Friday, May 8, have advised their Boston agents, Messrs. L. H. A. Schwartz & Co., as follows:

Arrivals of old crop continue very large and it is quite certain that the crop will exceed 7 million cantars. Stock, though reduced by quite heavy shipments this week, remains large.

The plants (of new crop) are still backward but otherwise everythin progresses well and water is sufficient for the present. There has been no re sowings to date.

SHIPPING NEWS.—As shown on a previous page, the exports o cotton from the United States the past week have reached 43,012 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

| | | *Total bales.* |
|---|---|---|
| NEW YORK | To Liverpool May 26 Armenian, 1,323 upland, 25 foreign May 28 Arabic, 100 | 1,448 |

## BREADSTUFFS.

*Friday, May 29th* 1908.

Prices for wheat flour have been steady in the main. The trading has continued on a hand-to-mouth basis here. There is no more disposition to anticipate requirements now than there was some months ago. Export trade has been stagnant. While a few mills at some of the large centres of the Northwest and the Southwest report a slight improvement in the demand, business as a whole has been extremely dull everywhere. The output continues in excess of the sales. Rye flour and corn meal have been quiet and steady.

Wheat has been subject to manifest manipulation in the interest of bulls, particularly at the West, where large operators have been marking up prices at the expense of prominent shorts. The believers in better prices have been favored, as they contend, by decreasing world's stocks, heavy rains in the Southwest, reports of Hessian fly in Kansas and the fact that large interests at the West had seemingly sold the market short with a free hand. In fact, it appears that certain interests which were heavily "long" of corn were short of wheat, while interests quite as prominent were long of wheat and short of corn, the result being a nervous erratic wheat market, with more or less violent fluctuations. Yet the general impression is that the outlook for the crop is on the whole favorable, and though the world's shipments are considerably smaller than at the same time last year, they are larger than they were recently. The Northwestern receipts, however, are smaller than they were a year ago. At times a good cash demand has prevailed there. European markets, moreover, have on the whole been pretty firm. Drought is reported in southeastern Europe, and, although the export trade during the past week has been light, it is argued that the inevitable result of any deficiency in European crops must sooner or later appear in a good European demand for American wheat. A London statistician takes the ground indeed that there will be "quite a struggle between supply and demand in Europe before the new crop becomes available," adding: "We do not suggest that there will not be enough to go round, but we do think that within the next two months buyers may find it difficult to supply their wants at present prices." The technical position, however, viewed from the speculative standpoint has been weakened by the recent heavy liquidation of short obligations and of late less attention has been paid to reports of rains and insects in the Southwest. To-day interest centered largely in May at Chicago. Fluctuations in it were frequent and sharp. At one time it was 2 cents higher than at the close on Thursday, owing to bull manipulation and covering of shorts. It closed at $1.10½, showing a net rise for the day of 1½ c. May here was easier. New-crop months here and at the West declined, owing to excellent crop prospects in most sections of the country and general selling.

Indian corn futures have advanced. The dominating factor has been the manipulation of the May option at Chicago, which has advanced to new high records, selling up to 82¾c. on Thursday. There has been considerable covering in the open market at times. It has also been reported that private settlements amounting to more than 5,000,000 bushels of short May have been made, largely for account of a prominent Wall Street operator. The weather has been more favorable in the main but heavy rains have occurred in some sections at times and it is believed that, owing to the delay in field work, the acreage will be considerably smaller than was originally intended. Bulls on May are supposed to have sold the distant months rather freely of late. There has been scattered selling, too, of the new-crop months on the generally better weather. To-day prices were firm early on covering of shorts and unsettled weather in some sections, but later the market weakened, owing to a break in May, liquidation and selling of the distant months by cash interests.

Oats for future delivery in the Western market have advanced, owing to bull manipulation of May, the strength of corn and covering of shorts. May established a new high record. Bulls have been favored by reports of insect damage in Illinois and Indiana and also by a falling off in the receipts. The covering was active at times. Cash interests which have been back of the May manipulation have sold the new-crop months rather freely. The weather of late has been favorable in the main and there has been considerable selling of the distant months on better crop prospects in most sections. To-day prices were firmer early on covering of shorts and bullish crop reports from some sections. Later the market weakened, May falling sharply, on liquidation. Deliveries on May contracts during the month have amounted to about 9,000,000 bushels.

*Late July.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climatological Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending May 25, summarizing them as follows:

The temperature during the week ending May 25 1908 over the Eastern half of the country was above the normal and generally favorable, but in the Rocky Mountain and plateau regions and on the north Pacific Coast it was much below the normal, and unfavorable. Light frosts occurred in the upper Missouri Valley and on the north Pacific coast, and light to heavy frosts and freezing temperatures were common throughout the middle and northern Rocky Mountain and Plateau regions.

Very heavy rains fell over a large part of Texas, generally throughout Oklahoma, in portions of the upper Mississippi and Red River of the North valleys and northern Rocky Mountain region. Damaging freshets occurred in Texas, and much low land in Oklahoma and Louisiana was flooded.

There were severe local storms in the western portion of the upper Lake region, Texas and portions of the south Atlantic States during the fore part of the week, but most of the country experienced no damaging local storms.

There was much cloudiness in the Atlantic coast districts northward of Georgia, in Texas, and from the upper Lake region westward to the north Pacific coast; elsewhere there was more than the usual sunshine.

For other tables usually given here see page 1323

## THE DRY GOODS TRADE.

*New York, Friday Night, May* 29, 1908.

The expedited revision in the price of staple prints and ginghams was duly announced during the week and was of such a radical character that buyers have since been active in placing orders, both for immediate requirements and for future needs. While some are inclined to criticize the action of manufacturers in naming such low prices, the best sentiment in the trade is that they have done wisely in making the lowest prices possible at once, rather than reducing values gradually, and that they will meet with the same success that has followed similar action in other departments of the market. Orders generally in the primary market have been received in somewhat larger volume, Western centres having apparently appreciated the fact that prices have been put on the lowest possible level, and that any further movement is likely to be upward rather than downward. While lines like prints, ginghams and wide sheetings have been marked down until they are on a level with other goods, advances have taken place in print cloths, drills, sheetings and linings, which at one time were sold considerably below the actual cost of manufacturing. The new wage scale at Fall River went into effect on Monday last and since that time some of the largest mills have announced the resumption of full time. Export business has been rather quieter, although some sales to India and China have been recorded; trade with miscellaneous countries has been irregular, with foreign manufacturers competing more actively for what business is offering. The men's wear woolen and worsted goods market is fairly active and duplicate orders for dress goods have been coming in rather more freely.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 23 were 2,232 packages, valued at $160,522, their destination being to the points specified in the table below:

| | 1908 | | 1907 | |
|---|---|---|---|---|
| New York to May 23— | Week. | Since Jan. 1. | Week. | Since Jan. 1. |
| Great Britain | 2 | 256 | 18 | 957 |
| Other Europe | 3 | 436 | 14 | 552 |
| China | | 11,978 | 1,094 | 10,043 |
| India | 554 | 4,035 | 110 | 4,539 |
| Arabia | 50 | 11,399 | | 18,753 |
| Africa | 29 | 2,359 | | 3,597 |
| West Indies | 471 | 8,944 | 288 | 9,767 |
| Mexico | 5 | 810 | 51 | 1,005 |
| Central America | 110 | 5,695 | 187 | 6,482 |
| South America | 458 | 17,505 | 381 | 19,228 |
| Other countries | 547 | 7,290 | 275 | 13,946 |
| Total | 2,232 | 70,707 | 2,148 | 88,849 |

The value of these New York exports since Jan. 1 has been $4,645,849 in 1908, against $5,647,722 in 1907.

The reduction of 1¼c. in the price of staple prints to 1¾c. was more than had been generally expected and has been followed by the placing of some large orders by jobbers and others who have been waiting for some time for this development; a heavy business is looked forward to at these prices, as it is realized that the curtailment of manufacture of these goods has been considerable, and that the market may not remain long at this level. The reduction in the price of standard staple ginghams to 5c. was not quite so severe, but seems to have met the demands of the trade. Converters have been fairly large buyers of heavy brown drills and sheetings during the week, believing that there is more work in store for them shortly. Prices have held firm and drills are slightly higher than they were a week ago. Medium and light-weight drills and sheetings have met with a moderate request and continue firm. Sales for export have included about 2,500 bales of light-weight sheetings for China and 1,000 bales of drills for India, and inquiries are in the market for some 3.25-yard drills for China. Domestic purchases of bleached goods, particularly the better-known tickets, have been heavy. Wide sheetings have been placed upon a very low level and the reduction has been followed by an increase in the demand. Linings have been advanced in sympathy with the firmer tone of the gray goods market. Coarse, colored cottons have been quiet, but standard duck has been sold in fair quantities. Napped goods are firmer. Narrow print cloths are slightly higher and fair orders have been received, both for these and for wide goods.

WOOLEN GOODS.—Duplicate orders for men's wear heavy-weight woolen and worsted goods have been again received in fair volume during the week and the number of manufacturers who are now assured of a moderately satisfactory season is daily increasing. Some are favored more than others, however, and while some lines are practically sold up, other mills do not yet know where they stand. The goods that have been mostly ordered up to the present time are the medium and cheaper grade fabrics, but a large reordering business is expected in high-grade goods later on. It is stated that the volume of woolen business so far placed compares very favorably with that of worsted and that the former will be relatively larger than the latter, when compared with the two or three preceding seasons. Strong efforts are being made to delay the openeing of new spring lines as long as possible, but some of these have already been shown. Duplicate ordering of dress goods has been rather heavier during the past week, but it has gone mostly to a few individual mills, and has not been satisfactorily distributed. The bulk of the orders are for worsteds, and the only woolen fabric to be taken in any volume is broadcloth, manufacturers of which report a very satisfactory demand.

FOREIGN DRY GOODS.—There is some pressure still to sell imported woolen and worsted dress goods and supplies are believed to be heavy. Sales of silks and ribbons at first hands are very small. Linen orders for future delivery have been considerably heavier. Burlaps are easier for all positions.

**Importations and Warehouse Withdrawals of Dry Goods.**

The importations and warehouse withdrawals of dry goods at this port for the week ending May 23 1908 and since Jan. 1 1908, and for the corresponding periods of last year, are as follows:

# STATE AND CITY DEPARTMENT.

*STATE AND CITY SECTION.*

With to-day's issue of the "Chronicle" we send to our subscribers a new number of our "State and City" section revised to date. The editorial discussions in the same embrace the following topics: "The Municipal Bond Sales of 1907" and the "Investments of the New York Savings Banks."

## News Items.

**Connecticut.**—*Atlantic Coast Line RR. Bonds as Investments for Savings Banks.*—State Bank Commissioner N. S. Lippitt, has decided that the bonds of the Atlantic Coast Line RR. Co. are legal investments for Connecticut savings banks. Attorney-General Marcus H. Holcomb had given an opinion, it will be remembered, that the bonds did not meet the requirements of the savings bank law, owing to the fact that the company paid its last dividend with 4% certificates of indebtedness instead of in cash. See V. 86, p. 680.

**Illinois.**—*Legislature Adjourns.*—The regular session of the Forty-fifth General Assembly, said to be the longest ever held by this or any other State, ended at noon on May 23. The Legislature began work on Jan. 9 1907, and, as already stated in V. 84, p. 1260, took a recess on May 16 1907 until Oct. 8 1907. Prior to adjournment the Legislature passed the labor bill requested by the State Federation and providing that mine operators report working conditions of mines. The revenue and bond measures urged by Mayor Busse of Chicago for the purpose of increasing the borrowing power of municipalities failed to pass.

**Nevada.**—*Death of Governor.*—John Sparks, Governor of Nevada, died at 8:30 a. m. on May 22. Governor Sparks was 64 years of age and was elected Governor in 1902 and again in 1906 by large majorities. Lieutenant-Governor D. S. Dickerson succeeds him as Governor.

**New York City.**—*Bonds Listed.*—On May 28 the $47,000,000 4½% gold corporate stock (four issues) due in 1957, and $3,000,000 4½% gold assessment bonds (two issues) due in 1917, sold on Feb. 17 (V. 86, p. 498), were admitted to the Stock List of the New York Stock Exchange.

**New York State.**—*Exemption from Taxation.*—The Legislature of 1908 passed a bill (Chapter 256, Laws of 1908) which provides for an amendment to Section 7 of Chapter 685, Laws of 1892, as amended by Chapters 192 and 466, Laws of 1893, Chapter 54, Laws of 1897 and Chapter 333, Laws of 1901. This amendment provides that "all bonds of a municipal corporation, until payable, shall be exempt from taxation for town, municipal or State purposes," whereas under the old law Section 7 exempted from taxation only bonds issued for refunding purposes.

*Governor's Special Message to Legislature.*—Governor Hughes, in a special message sent to the Legislature on May 27, recommended legislation on the following subjects:

Extension of the jurisdiction of the Court of Claims so as to give it authority to consider all claims, thus doing away with the necessity of the Legislature passing special bills authorizing persons to go to court for relief.
Making an additional appropriation for the elimination of grade crossings.
Making an appropriation to carry the case of the Consolidated Gas Company against the Attorney-General to the United States Supreme Court. The case is on the calendar for next fall, but there is no money available for the Attorney-General to defend the action.
Providing that the celebrated "Ike" Baker farm at Comstock, Washington County, be used as the site for a State farm for women misdemeanants, which was established by a law passed at the regular session.
Authorizing villages to borrow money in anticipation of the payment of taxes.
Making suitable provision so that the city of New Rochelle can borrow money and be placed on a sound financial basis.
Authorizing the village of Geneseo, Livingston County, to borrow money.
Legalizing taxes and bond issues in several villages for local improvements.
To provide suitable harbor facilities for the barge canal at Syracuse.

The subject of race-track gambling, which was the real occasion for the convening of the Legislature in extraordinary session, is not referred to, it being withheld awaiting the recovery of a Senator whose vote would be necessary to pass the measure desired by the Governor.

**Oklahoma.**—*Legislature Adjourns.*—The first Legislature of this State which convened Dec. 2 1907 adjourned at midnight on May 26.

**Rhode Island.**—*Legislature Adjourns.*—The Legislature of this State, which has been in session since the first Tuesday in January, adjourned on May 26. One of the more important measures passed during the closing hours of the session was the "Banking Act," which provides for the general regulation of banking institutions in Rhode Island through the appointment of a Bank Commissioner and by restrictive legislation. The Act makes some important changes in the Statute regulating the investments of savings institutions. Another Act passed by the Legislature provides for the submission to a vote of the electors of the State of a $300,000 bond issue for the purpose of erecting certain buildings at the State institutions.

**Sacramento County (P. O. Sacramento), Cal.**—*Bonds Declared Valid.*—The State Supreme Court on April 26 declared valid the $1,105,000 bonds voted last September for the purpose of erecting a court-house, constructing roads and building and repairing bridges. The decision was rendered in a suit brought by Howard K. Johnston and others to compel the County Auditor to recognize the validity of the issue, the bonds of which he had refused to sign, on the ground that they could not be legally issued. According to the San Francisco "Chronicle," the first objection of the Auditor, to the effect that the law does not authorize bonds payable from taxes to be levied on property, including the city property, for work to be done outside of the municipality, was disposed of by the Court by quoting a section of the Political Code which plainly showed the bonds to be valid from that point of view. The only other objection made was that the tax levied for the purpose of paying the interest on the bonds would not be available at the time the first installment of the interest became due, the interest being payable semi-annually. The Court held that the law contemplated only the necessity of a tax levy to provide for the payment of the interest once a year. The payment of the first installment could be deferred. It was only important that the tax be sufficient to pay the interest and make up the necessary sinking fund and that it be collected annually. This, the Court maintained, had been provided for.

**Tuscaloosa, Tuscaloosa County, Ala.**—*State Supreme Court Declares Bonds Valid.*—In a lengthy opinion handed down by the State Supreme Court on May 12, Associate Justice Thos. C. McClellan upheld the validity of the $125,000 5% coupon water-works bonds offered last June. See V. 84, p. 1446. In answer to the objection of the plaintiff that, according to the last Federal decennial Census there were not 6,000 people in Tuscaloosa at the time of the bond election, as required under the Constitution, Justice McClellan holds that no court has the right to read into the Constitution what is not reasonably implied. He holds that there is no provision in the section of the Constitution limiting the bonded indebtedness which makes the Federal Census the only means of determining the population of the city or town. The Court also points out that although the population of a municipality might have been slightly under 6,000 at the time of the last Census, yet within a year from that date it might have increased to above the limit. If the contention of the plaintiff held good, the city would have to wait nine years before being able to avail of the provision in the constitution relating to municipalities having a population of 6,000.

## Bond Calls and Redemptions.

**Abington Township, Montgomery County, Pa.**—*Bonds Drawn.*—The following bonds were drawn for payment May 1 at the Jenkintown National Bank of Jenkintown:

Class D, Nos. 16, 17 and 18. Denomination $1,000.
Class D, Nos. 56, 57, 58 and 59. Denomination $500.
Class D, Nos. 226, 227, 228, 229 and 230. Denomination $100.
Class G, Nos. 436, 437 438 and 439. Denomination $500.

**Austin Township, Cass County, Mo.**—*Bond Call.*—This township called for payment April 3, 5% refunding bonds numbered from 24 to 30 inclusive. Denomination $1,000. Date January 1 1893.

**Calumet Township, Pike County, Mo.**—*Bond Call.*—Call was made for payment April 1 of 4% refunding bonds numbered from 1 to 18 inclusive. Denomination $1,000. Date April 1 1898.

**Camp Branch Township, Cass County, Mo.**—*Bond Call.*—Refunding 5% bonds dated Nov. 19 1887 and numbered from 15 to 22 inclusive were called for payment April 3. Denomination $1,000.

**Carthage, Jasper County, Mo.**—*Bond Call.*—This city called for redemption on May 10 4% funding bonds Nos. 16 to 20 inclusive. Denomination $500. Date May 10 1900.

**Cass County (P. O. Harrisonville), Mo.**—*Bond Call.*—Interest ceased on April 3 on 4% refunding bonds numbered from 30 to 63 inclusive and number 84 for $1,000 each. Date Jan. 1 1893.

**Clinton School District (P. O. Clinton), Henry County, Mo.**—*Bond Call.*—This district called for payment May 1 5% bonds numbered 13 and 14. Securities are in denomination of $500 and are dated May 1 1897.

**Dade County (P. O. Greenfield), Mo.**—*Bond Call.*—In addition to the $4,000 5% refunding bonds numbered from 347 to 350 inclusive, called for payment April 1 (V. 86, p. 870), call was also made for the redemption on the same day of $8,000 5% refunding bonds numbered from 185 to 200 inclusive. Denomination $500. Date June 1 1894.

**Denver, Colo.**—*Bond Call.*—W. J. Fine, City Treasurer, called the following bonds for payment April 30:

STORM SEWER BONDS.

South Capitol Hill Storm Sewer Dist., Bond No. 26.

SANITARY SEWER BONDS.

Harman Special Sanitary Sewer Dist. No. 1, Bond No. 7.
Highlands Sanitary Sewer Dist. No. 6, Bond No. 8.
Highlands Special Sanitary Sewer Dist. No. 7, Bonds Nos. 23 to 25, inclusive.
Highlands Special Sanitary Sewer Dist. No. 8, Bonds Nos. 9 and 10.
South Capitol Hill Special Sanitary Sewer Dist., Bond No. 8.
South Side Sanitary Sewer Dist. No. 3, Bond No. 15.

SIDEWALK BONDS.

Central Sidewalk Dist., Bond No. 14.
East Capitol Hill Sidewalk Dist. No. 1, Bond No. 9.
Sidewalk Dist. No. 8, Bonds Nos. 22 to 24, inclusive.
Sidewalk Dist. No. 9, Bond No. 18.
Sidewalk Dist. No. 10, Bonds Nos. 46 and 47.
Sidewalk Dist. No. 12, Bond No. 51.
South Broadway Sidewalk Dist. No. 1, Bonds Nos. 53 and 54.
South Broadway Dist. No. 2, Bond No. 16.

IMPROVEMENT BONDS.

Capitol Hill Improvement Dist. No. 1, Bonds Nos. 137 to 148, inclusive
Capitol Hill Improvement Dist. No. 2, Bonds Nos. 87 to 89, inclusive.
Capitol Hill Improvement Dist. No. 3, Bonds Nos. 91 to 93, inclusive.
Capitol Hill Improvement Dist. No. 4, Bonds Nos. 83 to 91, inclusive.
East Capitol Hill Improvement Dist. No. 1, Bonds Nos. 51 to 53, inclusive.
East Colfax Avenue Improvement Dist. No. 1, Bonds Nos. 34 to 39, inclusive.
East Denver Improvement Dist. No. 1, Bonds Nos. 74 to 76, inclusive.
Eighteenth Avenue Improvement Dist. No. 1, Bonds Nos. 46 to 49, inclusive.
Grant Avenue Improvement Dist. No. 1, Bond No. 46.
High and Race Streets Improvement Dist. No. 1, Bond No. 24.
Highlands Improvement Dist. No. 1, Bonds Nos. 28 and 29.
South Broadway Improvement Dist. No. 2, Bonds Nos. 30 to 34, inclusive.
South Fourteenth Street Improvement Dist. No. 1, Bond No. 21.
Thirteenth Street Improvement Dist. No. 1, Bonds Nos. 10 and 11.

PAVING BONDS.

Alley Paving Dist. No. 2, Bond No. 21.
Alley Paving Dist. No. 4, Bond No. 18.
Broadway Paving Dist. No. 1, Bond No. 82.
Champa Street Paving Dist. No. 1, Bonds Nos. 70 and 71.
Eighth Avenue Paving Dist. No. 1, Bond No. 45.
Grant, Logan and Seventh Avenues Paving Dist. No. 1, Bond No. 28.
Welton Street Paving Dist. No. 1, Bond No. 26.

SURFACING BONDS.

## Bond Proposals and Negotiations this week have been as follows:

**Abington School District (P. O. Jenkintown), Montgomery County, Pa.**—*Bond Offering.*—Proposals will be received until 2 p. m. June 1 by Edwin S. Hallowell for $70,000 4% gold coupon bonds. Denomination $1,000. Date July 1 1908. Interest semi-annually at the Jenkintown National Bank. Maturity $25,000 payable "any time after July 1 1918"; $15,000 payable "any time after July 1 1923," $15,000 payable "any time after July 1 1928" and $15,000 payable "any time after July 1 1933."

**Acquackanonk Township School District (P. O. Clifton), Passaic County, N. J.**—*Bond Sale Postponed.*—The sale of the $63,500 4½% coupon building and addition bonds, which was to have taken place May 26 (V. 86, p. 1237), was postponed until June 2.

**Akron, Summit County, Ohio.**—*Bond Sale.*—The highest bid received on May 28 for the $47,746 5% bonds described in V. 86, p. 1237, was submitted, it is stated, by the Second National Bank of Akron. Maturity on April 1 as follows: $11,106 in 1909; $11,706 in 1910; $10,556 in 1911; $7,956 in 1912; $4,506 in 1913, and $2,916 in 1914.

**Alcorn County (P. O. Corinth), Miss.**—*Bond Offering.*—Further details are at hand relative to the offering on June 2 of the $10,000 5% coupon bonds issued to gravel the public roads of this county, mentioned in V. 86, p. 1237. O. M. Hinton, Chancery Clerk, will offer these bonds at public auction at 2 p. m. on that day. Authority Section 333, Chapter 17, Code of 1906. Denominations: $100, $500 and $1,000. Date, day of issuance. Interest annually at the County Treasurer's office. Maturity twenty years, subject to call after five years. Bonded debt at present $23,000. Assessed valuation for 1907 $2 820 000.

**Alliance, Ohio.**—*Bond Sale.*—A list of the bids received on May 25 for the four issues of 5% bonds aggregating $45,100 described in V. 86, p. 1237, follows:

**Ames, Story County, Iowa.**—*Bonds Voted.*—This city, it is stated, has authorized the issuance of bonds to the amount of $15,000 for the purpose of installing water-works.

**Arthur, Ontario.**—*Debentures Awarded in Part.*—We are advised that $2,000 of the three issues of debentures aggregating $13,700, described in V. 86, p. 992, have been awarded to Wray R. Smith.

**Ballinger, Runnells County, Tex.**—*Bond Offering.*—Proposals will be received until 2 p. m. June 8 by the Citizens' National Bank of Ballinger, acting as fiscal agent for this city, for the $20,000 5% 20-40-year (optional) street-improvement bonds voted on March 17 and registered on May 9 by the State Comptroller. See V. 86, p. 1237.

**Belmont, Mass.**—*Bond Sale.*—On May 27 an issue of $10,000 4% 30-year tax-free coupon sewer bonds dated June 1 1908 was awarded to F. S. Moseley & Co. of Boston at 109.037—a basis of about 3.511%. Denomination $1,000. Interest semi-annually at the Fanueil Hall National Bank in Boston.

The following bids were received:

| | |
|---|---|
| F. S. Mosely & Co., Boston | 109.037 |
| Blodget, Merritt & Co., ost | 108.59 |
| Dennison & Farnsworth, Cleveland and Boston | 108.317 |
| Adams & Co., Boston | 108.311 |
| Estabrook & Co., Boston | 108.29 |
| Crocker & Fisher, Boston | 108.02 |
| Merrill, Oldham & Co., Bost | 107.175 |
| Whicher, Young & Conant Boston | 107.08 |
| Parkinson & Burr, Boston | 107.07 |
| Blake Bros. & Co., Boston | 107.05 |
| E. H. Rollins & Co., Boston | 106.556 |
| R. L. Day & Co., Boston | 106.53 |
| Perry, Coffin & Burr, Boston | 106.52 |
| N. W. Harris & Company, Boston | 106.278 |
| A. B. Leach & Company, Boston | 104.08 |

**Bessemer, Geogbic County, Mich.**—*Bond Offering.*—Proposals will be received until 6 p. m. June 1 by Wm. L. Guyer, City Clerk, for $25,000 5% water-works bonds. Authority sections 3247, 3248, 3249 and 3250, Compiled Laws of Michigan. Denomination $500. Interest semi-annual. Maturity $2,500 yearly on June 1 from 1911 to 1920 inclusive, but subject to call, however, before that time. Certified check for 5% of bonds bid for is required. These bonds were offered but not sold on May 4.

**Big Spring Township, Seneca County, Ohio.**—*Bond Sale.*—On May 25 the $12,000 4½% coupon road-improvement bonds described in V. 86, p. 1296, were awarded, it is stated, to the Tiffin National Bank of Tiffin for $12,210 50, the price thus being 101.754. Maturity $1,000 each six months from Sept. 1 1914 to March 1 1920 inclusive.

**Billings School District No. 2 (P. O. Billings), Yellowstone County, Mont.**—*Bond Sale.*—An issue of $30,000 coupon bonds was disposed of on May 23 to the State Board of Land Commissioners at par for 4 3-5s. Purchaser to furnish blank bonds. Following are the bids:

| | |
|---|---|
| State Board of Land Commissioners, Helena (for 4 3-5s) | *par* |
| Harris Trust & Savings Bank, Chicago (for 4½s) | $30,609 |
| A. B. Leach & Co., Chicago (for 5s) | 30,015 |
| Mason, Lewis & Co., Chicago (for 5s) | 31,044 |
| MacDonald, McCoy & Co., Chicago (for 5s) | 30,243 |
| Farson, Son & Co., Chicago (for 6s) | 30,615 |

Bids were also received from C. H. Coffin and S. A. Kean, both of Chicago, but as these were not accompanied by the required certified checks, they were not considered.

**Birmingham, Jefferson County, Ala.**—*Bonds Not Sold.*—We are advised that all bids received on May 25 for the purchase of the $100,000 5% sanitary sewer bonds mentioned in V. 86, p. 1238, were rejected. Our informant adds that these bonds may possibly be disposed of at private sale.

**Boston, Mass.**—*Bond Offering.*—Proposals will be received until 12 m. June 4 by Charles H. Slattery, City Treasurer, for the following bonds:

$364,000 4% registered bonds for various municipal improvements. See V. 86, p. 1296. Maturity June 1 1928.
300,000 4% registered sewer bonds. Maturity June 1 1938.
2,000,000 4% registered Boston tunnel and subway bonds. Maturity June 1 1948.

100,000 4% registered Northern Avenue and Sleeper Street bonds. Maturity June 1 1938.
655,000 4% registered bonds for separate systems of drainage, mentioned in V. 86, p. 1296. Maturity June 1 1938.
1,000,000 4% registered bonds for land and buildings for schools. Maturity June 1 1928.

Denomination $1,000 or any multiple thereof. Interest June 1 and Dec. 1 at the City Treasurer's office by check, if so desired. Bonds are exempt from taxation. Certified check on a Boston national bank, payable to the "City of Boston, Chas. H. Slattery, Treasurer," or a cash deposit equal to 1% of amount of bonds bid for, is required. Interest will begin June 10, the date of delivery.

**Burlington, Kit Carson County, Col.**—*Bond Offering.*—Proposals will be received until 12 m. June 8 by E. C. Baker, Town Clerk, for $12,000 6% gold coupon water-works-construction bonds. Denomination $500. Date June 1 1908. Interest semi-annually at Kountze Bros., Bankers, New York City. Maturity June 1 1923, subject to call after June 1 1918. Bonds are exempt from taxation. Certified check for $120, payable to E. C. Baker, is required. Bonded debt, this issue. Assessed valuation $147 000.

**Butler School District (P. O. Butler), Butler County, Pa.**—*Bonds Not Sold*—Up to May 15 no sale had been made of the $40,000 4% coupon or registered tax-exempt high-school (Series "A") bonds which Harry L. Graham, Secretary Board of Education, is offering at par and accrued interest from March 2 1908. See V. 86, p. 933.

**Caldwell, Burleson County, Tex.**—*Bond Sale.*—This city on May 1 sold $8,500 5% 10-30-year (optional) water refunding bonds to Burleson County. Denomination $500. Date June 1 1908. Interest annually on March 1.

**Calgary, Alberta.**—*Price Paid for Debentures.*—We are informed that the price paid by Wood, Gundy & Co. of Toronto for the $76,000 4½% 20-year water-works debentures recently awarded them (V. 86, p. 619) was $68,400 or 90. Denomination $1,000. Date June 1 1908. Interest semi-annual.

*Debenture Sale.*—On May 18 the three issues of 4½% 30-year debentures, aggregating $435,000, described in V. 86, p. 1238, were purchased by G. A. Stimson & Co. of Toronto for a client in London, Eng., at 92.55 and accrued interest. A list of the bidders follows:

G. A. Stimson, Toronto.....92.55 | Dominion Securities Co., Tor..90.11
Wood, Gundy & Co., Toronto..91.55 | Aemilius, Jarvis & Co., Tor....89.80

**California.**—*Bond Offering.*—San Francisco papers report that proposals will be received until July 2 by Wm. R. Williams, State Treasurer, for $250,000 4% sea-wall bonds. These securities are part of the issue of $2,000,000 4% sea-wall bonds voted on Nov. 8 1904 (V. 79, p. 747), $250,000 of which were disposed of, as already reported by us, on March 8 1906.

**Cambridge, Guernsey County, Ohio.**—*Bond Sale.*—On May 18 the seven issues of 4½% street assessment bonds, aggregating $47,923.10, described in V. 86, p. 1238, were awarded to Weil, Roth & Co. of Cincinnati for $48,163.10 (100.50) and interest. A bid of $48,010.10 was also received from the First National Bank of Cleveland. Maturity one-tenth of each issue yearly on March 1 from 1909 to 1918 inclusive.

**Cambridge School District (P. O. Cambridge), Ohio.**—*Bond Sale.*—On May 21 the $65,000 4½% coupon high-school bonds described in V. 86, p. 1238, were awarded to Breed & Harrison of Cincinnati at 103.247 and accrued interest. The bids were as follows:

| | | | |
|---|---|---|---|
| Breed & Harrison, Cinc | $67,101 00 | Farson, Son & Co., Chic | $66,597 00 |
| Seasongood & Mayer, Cinc | 67,067 00 | Hoehler & Cummings, Tol | 66,577 50 |
| Weil, Roth & Co., Cincin | 67,015 00 | Western-German Bk., Cin | 66,465 50 |
| W. R. Todd & Co., Cincin | 67,013 00 | A. Kleybolte & Co., Cinc | 66,462 50 |
| Otis & Hough, Cleveland | 66,860 00 | First Nat. Bank, Clevel'd | 66,139 75 |
| Security Savings Bank & Trust Co., Toledo | 66,802 00 | Denison & Farnsworth, Cleveland and Boston | 66,071 00 |
| Hayden, Miller & Co., Clev | 66,692 00 | | |

Maturity $1,000 each six months from March 5 1909 to March 5 1922 inclusive, $2,000 on Sept. 5 1922 and $1,000 on March 5 and $2,000 on Sept. 5 each year from 1923 to 1934 inclusive.

**Camden County (P. O. Camden), N. J.**—*Bids Rejected.*—The following bids, all of which were rejected, were received on May 27 for the purchase of $8,000 Haddonfield and Camden and $41,000 Marlton 4½% coupon (with privilege of registration) turnpike bonds:

R. M. Grant & Co., N. Y...104.87 | W. N. Coler & Co., N. Y....103.50
N. W. Halsey & Co., N. Y...103.817 | H. L. Crawford & Co., N. Y.103.128
N. W. Harris & Co., N. Y...103.691 |

Denomination $500. Date May 1 1908. Interest semi-annually at the United States Mortgage & Trust Co. in New York City. Maturity May 1 1928.

**Campbell County (P. O. Jacksboro), Tenn.**—*Bond Sale.*—We are advised that the $50,000 5% 10-30-year (optional) coupon road bonds described in V. 86, p. 872, were awarded on May 2 to W. H. Gass of Knoxville at 100.67 and accrued interest. Interest semi-annually at the County Treasurer's office.

**Cape May City, Cape May County, N. J.**—*Bond Sale.*—The Fidelity Trust Co. of Newark purchased on May 26 the $105,000 5% 30-year coupon bonds at 103 and the $45,000 5% 2-year bonds at par. The bonds are described in V. 86, p. 1296. This was the only bid received.

**Cincinnati, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. June 25 by the Sinking Fund Trustees, Charles T. Greve, Secretary, for $600,000 4% coupon refunding Southern Ry. bonds. Authority, Section 113, Municipal Code. Denomination $1,000. Date July 1 1908. Interest semi-annually at the American Exchange National Bank in New York City. Maturity July 1 1958. subject to call after July 1 1938. Bid must be made on a printed form furnished by the Sinking Fund Trustees and accompanied by an unconditional certified check for 2% of bonds bid for, drawn on an incorporated bank or trust company in Cincinnati and made payable to the said trustees. Delivery of bonds July 6 1908.

**Clark County School District No. 7, Wash.**—*Bond Sale.*—The Citizens' National Bank of Vancouver, offering 100.50 for 6s, was the successful bidder on May 23 for $3,800 6% school-building bonds offered on that day. An offer of par for 6s was also received from Wm. D. Perkins & Co. of Seattle. Denomination $200. Interest annual. Maturity 1918, subject to call after three years.

**Cliffs School District (P. O. Cliffs), Klickitat County, Wash.**—*Bond Sale.*—On April 4 an issue of $3,000 5% 1-10-year (optional) school-house bonds was disposed of to the State Board of Finance at par. Denomination $1,000. Date June 1 1908.

| Perry, Coffin & Burr, Boston | 106.36 | |

The water bonds are dated Jan. 1 1908 while the school-house bonds are dated Dec. 1 1907. Denomination $1,000. Interest semi-annual.

## NEW LOANS.

$5,500,000.00

# CITY OF ST. LOUIS

Public Buildings and Public Improvement

4% TWENTY-YEAR GOLD BONDS

ST. LOUIS, May 12th, 1908.

By virtue of Ordinance No. 22,674, the undersigned are authorized to issue and sell for the City of St. Louis five million five hundred thousand dollars ($5,500,000 00) of St. Louis Public Buildings and Public Improvement Bonds, and **sealed proposals for the purchase of said bonds,** issued for the following purposes, and hereinafter described, will be received at the Mayor's Office, in the City of St. Louis, **until 12:00 o'clock, noon, of the 10th day of June, 1908,** and publicly opened by the undersigned at said place and hour:

| | |
|---|---|
| MUNICIPAL BRIDGE, and purchase of land for approaches | $ 500,000 00 |
| HOSPITALS and purchase of sites | 800,000 00 |
| FIRE DEPARTMENT (Engine Houses and Lots) | 130,000 00 |
| POLICE, CIVIL, CRIMINAL AND OTHER COURTS AND POLICE HEADQUARTERS AND HEALTH DEPARTMENT HEADQUARTERS and purchase of sites | 2,000,000 00 |
| BRIDGES AND VIADUCTS and purchase of land | 400,000 00 |
| KING'S HIGHWAY BOULEVARD, City's share of cost | 500,000 00 |
| PUBLIC SEWERS and purchase of land | 500,000 00 |
| PUBLIC PARKS—Purchase of land | 670,000 00 |
| Total | $5,500,000 00 |

Said bonds will be dated July 1st, 1908, and will each be of the denomination of $1,000 United States Gold Coin, payable twenty (20) years after their date, and will bear interest from their date at the rate of four (4) per cent per annum. Semi-annual interest coupons, payable on the 1st day of January and July, respectively, will be attached to each bond, and both bonds and coupons will be payable to bearer, as he may elect, either at the National Bank of Commerce, in New York, in United States Gold Coin, or at the National Bank of Scotland, Limited, 37 Nicholas Lane, London, England, in pounds Sterling, at the rate of four dollars, eighty-six cents, six and one-half mills ($4.8665) per pound Sterling. The bonds will contain the condition that in payment of principal and interest, the United States Gold Dollar and the Pound Sterling will be calculated at the present standard of weight and fineness. The bonds may be exchanged for registered bonds at any time.

Bidders are requested to state in their proposals the price offered per bond, the par and premium to be stated as one amount.

No bid will be considered that is not made on blank furnished by the Comptroller.

Proposals must be accompanied by a cashier's or certified check, payable to the order of the Comptroller (and subject to his approval) equal to five (5) per cent of the nominal amount of the bonds bid for; said deposit to be returned immediately if the proposal is not accepted, otherwise to be held subject to forfeiture to the City in event of failure on the part of the bidder to comply with his proposal, or, in case of compliance, to be retained as part of the purchase money. A deposit in the required amount to the credit of the City of St. Louis, in the National Bank of Commerce, in New York, on or before Tuesday, June 9th, 1908, will be accepted as full compliance with the requirements relating to deposits. No interest will be allowed on earnest money deposited.

Proposals will be subject to all the conditions and reservations of this advertisement, and must refer to same as a portion of the agreement on the part of the bidder.

Proposals should be enclosed and addressed to the undersigned and endorsed "Proposal for Purchase of St. Louis City Bonds."

The undersigned reserve the right to reject any or all bids.

The Bonds will be delivered against payment therefor in current funds, at the office of the Comptroller in the City of St. Louis, or, if the bidder so elects in his proposal, at the National Bank of Commerce, in New York, on the 1st day of July, 1908.

The opinion of Messrs. Dillon & Hubbard, Attorneys and Counselors at Law, New York City, as to the validity of the bonds, will be furnished the successful bidders by the City.

A sample bond can be seen and further information obtained at the office of the Comptroller

ROLLA WELLS, Mayor.
JAMES Y. PLAYER, Comptroller.

## NEW LOANS.

# $1,000,000

## REFUNDING GOLD BONDS

OF

# JERSEY CITY, N. J.

## 4½ PER CENT PER ANNUM

EXEMPT FROM TAXATION

Sealed proposals will be received by the Board of Finance of Jersey City, at its meeting to be held in the City Hall, Friday, June 5, 1908, at 3 o'clock p. m., when they will be publicly opened, for the whole or any part of $1,000,000 Refunding (coupon) Bonds, to refund floating indebtedness; said bonds are issued under and by virtue of an Act entitled "An Act authorizing the incorporated cities, towns, townships and boroughs of this State to fund their floating indebtedness and their matured and maturing bonds," approved March twenty-third, eighteen hundred and ninety-nine, and the amendment thereto entitled "An Act to amend an Act entitled "An Act authorizing the incorporated cities, towns, townships and boroughs of this State to fund their floating indebtedness and their matured and maturing bonds,' approved March twenty-third, one thousand eight hundred and ninety-nine," which amendment was approved February 11th, nineteen hundred and one, and the amendment to said Act entitled "An Act to amend an Act entitled "An Act to amend an Act entitled "An Act authorizing incorporated cities; towns, townships and boroughs of this State to fund their floating indebtedness and their matured and maturing bonds, approved March twenty-third, one-thousand eight hundred and ninety-nine and which said amendment was approved February eleventh, one thousand nine hundred and one," which Act was approved April twenty-fifth, nineteen hundred and seven.

The principal of said bonds is payable on the thirtieth day of June, 1928, in gold coin of the United States of America, of the present standard of weight and fineness, and the interest, at the rate of 4½ per cent per annum, is payable in said coin semi-annually on the first day of January and July of each year.

Proposals should be enclosed in a sealed envelope and endorsed "Proposals for Refunding Bonds of Jersey City," and handed to the Clerk of the Board of Finance in open meeting to be held Friday, June 5, 1908, at 3 o'clock p. m., in the City Hall.

Each bid must be accompanied by a certified check to the order of the City Treasurer of Jersey City for 2 per cent of the par value of the bonds bid for, the amount of said check to be credited upon said bid if accepted, and will be returned forthwith if not accepted.

Said bonds shall bear date of July 1, 1908, and shall be delivered on July 1, 1908, the purchaser paying any accrued interest on the bonds to the day of delivery.

By ordinance passed by the Board of Finance May 12, 1908, authorizing the issue of these bonds, a sinking fund was also created for the purpose of paying the principal of said bonds when due. The Board reserves the right to reject any or all bids if deemed for the best interests of Jersey City.

By order of the Board of Finance,
FRANCIS GORMLEY,
City Comptroller.

**Taylor, Williamson County, Tex.**—*Bonds Voted.*—This city has voted to issue the $25,000 5% 20-40-year (optional) street-improvement bonds mentioned in V. 86, p. 624.

**Tecumseh School District No. 92 (P. O. Tecumseh), Pottawatomie County, Okla.**—*Bond Sale.*—On May 19 the $10,000 school-building bonds described in V. 86, p. 1244, were awarded to John Nuveen & Co. of Chicago as 5½s. Other bids received were as follows: Oklahoma Bond & Trust Co. for 6s, MacDonald, McCoy & Co. of Chicago par for 5½s and Thos. J. Bolger & Co. of Chicago 101 for 6s.

**Todd County (P. O. Long Prairie), Minn.**—*Bond Sale.*—The $50,700 10-year drainage and ditch bonds, proposals for which were asked until May 12 (V. 86, p. 1117) have been purchased by the Union Investment Co. of Minneapolis for $51,195 (100.976) and accrued interest for 5s. Purchaser to furnish blank bonds. Date day of issuance.

**Toledo School District (P. O. Toledo), Lucas County, Ohio.**—*Bond Sale.*—On May 26 the $150,000 4¼% 20-year school bonds, proposals for which were received on May 23, were awarded to the Security Savings Bank & Trust Co. and Hoehler & Cummings, both of Toledo, at their joint bid of 102.325. Following are the bids:

| | |
|---|---|
| Security Savings Bank & Trust Co., Toledo<br>Hoehler & Cummings, Toledo | $153,487 50 |
| Otis & Hough, Cleveland | *153,687 50 |
| Cleveland Trust Co., Cleveland<br>First National Bank, Cleveland<br>Ohio Savings Bank & Trust Co., Toledo | 153,351 00 |
| Central Trust & Safe Deposit Co., Cincinnati | 153,255 00 |
| Provident Savings Bank & Trust Co., Cincinnati<br>German National Bank, Cincinnati | 153,165 00 |
| Hayden, Miller & Co., Cleveland | 152,687 00 |
| H. S. Warren & Co., Detroit | 152,511 00 |
| N. W. Harris & Co., New York | 152,088 00 |
| A. & J. Frank, Cincinnati | 150,000 17 |
| Northern National Bank, Toledo (for $50,000) | Par |

| C. W. Bond, Toledo (for $1,000) | Par |

*Provided bonds are delivered as follows: "$50,000 as soon as duly executed and approved; $50,000 on or before July 10 at their option and $50,000 on or before Aug. 15 at their option, entire premium to be paid on delivery of first installment of bonds."

A bid at par for $3,000 4½% bonds was also received from I. E. Knisely, President of the Northern National Bank of Toledo, but this offer was not considered. See V. 86, p. 1244 for a description of these bonds.

**Troy School District (P. O. Troy), Idaho.**—*Bond Sale.*—On May 16 this district sold $12,000 5% school-house bonds to the State of Idaho at par. Denomination $1,000. Maturity "ten and twenty years."

**Tulare High School District (P. O. Tulare), Tulare County, Cal.**—*Bond Sale.*—On April 22 this district disposed of $40,000 5% 1-20-year (serial) high-school bonds to the Los Angeles Trust Co. of Los Angeles on a 4⅞% basis. Denomination $1,000. Date May 1 1908. Interest annual.

**Vancouver, B. C.**—*Debenture Offering.*—Proposals will be received until 4 p. m. June 26 by G. F. Baldwin, City Comptroller, for $1,975,000 4% 40-year debentures.

**Van Wert County (P. O. Van Wert), Ohio.**—*Bond Sale.*—On May 23 $17,500 4½% ditch-improvement bonds were awarded to Geo. H. Marsh at par. Accrued interest, if any, to be paid by purchaser. Authority Sections 4481 and 4482, Revised Statutes. Denomination $500. Date May 30 1908. Interest semi-annually at the County Treasury. Maturity $6,000 on May 30 in each of the years 1909 and 1910 and $5,500 on May 30 1911. Bonds are exempt from taxation.

**Watertown, Jefferson County, N. Y.**—*Bond Sale.*—The $80,000 trunk-sewer, $24,500 school and the $11,435 fire-department-building 4% 30-year registered bonds offered on April 21, have been awarded to Kountze Bros. of New York City. Bonds are tax-exempt and are described in V. 86, p. 999.

**Weehawken Township (P. O. Station 1, Hoboken), Hudson County, N. J.**—*Bond Sale.*—The $27,000 4½% coupon Clifton Road improvement bonds described in V. 86, p 1182, were sold on May 11 to A. B. Leach & Co. of New York City at 100.877. Maturity $1,000 yearly on July 1 from 1915 to 1923 inclusive and $2,000 yearly on July 1 from 1924 to 1932 inclusive.

**Westfield, Union County, N. J.**—*Bond Offering.*—Proposals will be received until 8 p. m. June 15 by Lloyd Thompson, Town Clerk, for $20,000 5% coupon sewer, sidewalk

## NEW LOANS.

**$30,000**

**WILMINGTON, DEL.,**

**SINKING FUND LOAN.**

Sealed bids will be received for $30,000 SINKING FUND LOAN OF WILMINGTON, DEL., until 12:00 o'clock M., MONDAY, JUNE 1ST, 1908. Bonds will date from June 1st, 1908, in denomination of $50 00 or multiples thereof, and bear 4% interest, payable semi-annually on April 1st and October 1st, and will mature $8,700 on the first day of October, 1930; and $21,300 on the first day of April, 1931. All of said issue for use of the BOARD OF STREET AND SEWER COMMISSIONERS, to pay for the curbing, guttering, grading, widening, paving and improving of TENTH STREET, between MARKET and TATNALL STREETS, in the City of Wilmington, Del.

All proposals must be accompanied by certified check payable to the order of "THE MAYOR AND COUNCIL OF WILMINGTON" for 2% of the amount of bonds bid for, the same to be forfeited if the bidder fails to accept and pay for the bonds awarded. The successful bidder or bidders will be required to settle for the bonds, with accrued interest from June 1st, 1908, on or before 12:00 o'clock noon, June 10th 1908. The right to reject any and all bids is reserved.

Address all bids in sealed envelopes to Howard D. Ross, City Treasurer, marked "PROPOSALS FOR SINKING FUND LOAN."

HOWARD ROSS,
City Treasurer,
Wilmington, Del.

COAL AND MINERAL PROPERTIES
Examined, Developed, Managed
837 Drexel Bldg., PHILADELPHIA, PA

## ENGINEERS.

**H. M. Byllesby & Co.**
Incorporated

**ENGINEERS**

DESIGN, CONSTRUCT AND OPERATE RAILWAY, LIGHT, POWER, HYDRAULIC AND GAS PLANTS

**EXAMINATIONS and REPORTS**

American Trust Building, CHICAGO
Oklahoma City, Oklahoma. Mobile Ala.
San Diego, Cal.

**J. G. WHITE & CO.,**
*Engineers, Contractors,*
**43-49 Exchange Place, - NEW YORK**
Investigations and Reports on Electric Railway, Gas, Electric Light and Power Transmission Properties for Financial Institutions and Investors.
**Electric Railways, Electric Light and Electric Power Plants Financed, Designed and Built.**
*London Correspondent:*
**J. G. WHITE & CO., Limited,**
9 Cloak Lane, Cannon St., E. C.
*Canadian Correspondents:*
**CANADIAN WHITE CO., Limited,**
Montreal
Principal Philippine Office, Manila, P. I

**STERN & SILVERMAN, Inc.**
Engineers and Contractors
**CONSTRUCTION OF RAILROADS**
Investigation and reports on organization and operation of existing roads.
Land Title Building, PHILADELPHIA, PA
Established 1893

Established 1889
**A. L. REGISTER & CO.**
Successors to PEPPER & REGISTER
**Engineers & General Contractors**
112 North Broad St., - Philadelphia.

# The Commercial & Financial Chronicle

VOL. 86. JUNE 6, 1908. NO 2241. | Published every Saturday by WILLIAM B. DANA COMPANY, Front, Pine and Depeyster Sts., N. Y. C. William B. Dana, Prest.; Jacob Seibert Jr., Vice-Prest and Sec.; Arnold G. Dana, Treas. Addresses of all, Office of the Company.

## *THE FINANCIAL SITUATION.*

The stock market the current week opened, as the previous week closed, on an assumed improving tendency in several important departments of trade, and, consequently, in stock values. Chief in influence on Monday among the new trade movements was pig iron, in which department enlarged buying was evident; a second was an extensive opening, on what was reported to be full time, of cotton-goods manufactories, and general reports to the daily press from nearly all the manufacturing centres in New England States of work begun on an enlarged scale. The better accounts with reference to iron were, of course, the most forceful, there being considerable new buying, thereby ridding the market of surplus stocks and giving a better tone to prices. Of course, the passage of the Emergency Currency Bill by the Senate Saturday, and the signature of the President to the same, removed one subject of more or less irritation, and the adjournment of Congress removed another; it is always a decided relief to the public when our lawmakers finish their annual task and leave Washington. Altogether, the public feeling was on Monday decidedly buoyant, notwithstanding the extremely unfavorable reports of important railroads, such as the Pennsylvania, the Erie, &c. There were, however, other properties which evidenced good results in net earnings, through material savings in outgoes. The truth is that a loss in gross earnings must in time be of itself a curtailment in expenses.

It is difficult to follow the varying incidents since Monday and weigh the influence of each. Altogether, it has been obvious that conditions have not to the same extent favored the market. A notable change was a cut in steel bars on Tuesday. A conspicuous feature in that movement was that the leaders in the industry apparently took a prominent part in the initiative of the cut, notwithstanding they had, at all the conferences as to making lower prices, taken a stand against such a procedure. What there was back of the transaction to change views did not appear. The bad reports of earnings of leading roads noted above may have had an influence; also the reports that the rumors of better conditions as to general trade and a wide starting-up of all kinds of manufacture in New England and elsewhere were overdrawn by the dispatches to the press. As to steel, the cut was attributed to the fact that among the smaller independent steel producers the situation became so intense that the step was sure to come, and the leaders forged the way of the inevitable, mainly to prove that their diagnosis was correct, that the sales would not be increased by lower prices. There was likewise a report current that Russia was in the market for a large lot of steel rails, the idea being that the Government was about to double the track of the Siberian Railroad. Consequently, the market was eased up to attract this possible buyer.

At all events, on Thursday the adverse influences which since Monday had one by one been developing seemed to culminate. No doubt the sudden demoralization in the iron and steel conditions was especially disappointing. Previously, that basic industry seemed to be impregnable, made so mainly because those who were foremost in conducting it saw no need, in the present or future, for lowering rates for either iron or steel, and the general public pinned their faith to the optimism of these leaders. So long as iron and steel wore an aspect of stability, encouragement in progress towards recovery had an anchor outside the bar, sure and steadfast. Union Pacific also met a peculiarly heavy break, for which there was really no possible excuse or reason; but the Union Pacific, in addition to iron and steel, was another of the stand-bys of the more hopeful class, and, being attacked so furiously at the moment of having placed a large loan at auspicious figures in the markets of Europe and America, when a rise in values was looked for, and was a reasonable expectation, dashed hopes and depressed the market beyond the requirements of the occasion. Yesterday the tone was a little better, but with dealings on a very restricted scale.

---

The chief facts relating to the Chinese indemnity proceedings are well known to our readers. It may be, however, that some are not knowing to the picayune proportions the negotiations have of late assumed. If any individual desired to deal justly with a neighbor, which neighbor had overpaid, or been overcharged, for damage done to his potato patch, he would, if a gentleman, desire to show liberality in fixing on the rebate and hasten to settle with the least possible friction the over-payment. It so happens that the "individual" referred to is the Chinese nation, a kindly people but not our equal in fighting equipment, while the other party was the House of Representatives, a bumptious body with a good bit of narrow-minded selfishness when dealing with one it considers an inferior. We can see no other explanation of the dilemma at the moment. The over-payment agreed upon and adjusted grew out of the Boxer troubles in 1900.

Our share of the indemnity was settled off-hand at 25 million dollars, but when our Government, through the heads of its Army and Navy departments, came to examine into the affair, it was at once disclosed to them that the assumed amount was largely exaggerated. So, after the appointment of commissioners and taking full evidence with reference to our expenses and losses, and death claims, also claims of missionary societies, the commissioners found that the amount due us, estimating every item presented at a maximum value, did not exceed $11,650,000. Later, the interest and other awards were added, so that the total was increased about three-quarters of a million dollars, and in this shape the Lodge bill passed the Senate. But when the measure came up in the House, it was referred to the Committee on Foreign Affairs, which Committee reported the bill with an amendment investing the Court of Claims with jurisdiction de novo and providing for a reservation of $2,000,000 for the payment of any further awards the Court of Claims might allow. It should be noted that the commission referred to submitted its report in November 1902, and the Department of State reviewed the findings and notified the Chinese authorities that the surplus as they found it would be remitted. Secretary Root, commenting on this new action of the House Committee, very naturally and reasonably shows some irritation, and states that the House Committee's action in treating the settlement of the Department of State as a nullity is without justification and cannot be maintained. In our view the House has taken a step which seems not only

inequitable, but has turned an arrangement that was merely a restitution honest dealing called for, intended likewise as a courteous kindness from one nation to another, into a case of loose morals and rude manners.

---

It is noteworthy that last week the gold holdings of the Bank of France were £122¾ millions sterling, or 3 millions in excess of the hitherto unprecedented sum attained by that institution. It is also of interest to remark that while there has been an accretion of gold by the Bank in recent years, its holdings of silver have diminished. The amount of this metal now held is £36½ million, compared with £51 2-3 millions in 1892 and £44 1-3 millions in 1905, when the gold stock was £119 millions. Then the total cash was £163 millions, whereas now such cash is £159¼ millions. The apparent policy of the Bank in reducing silver holdings and of increasing those of gold may be due to a desire to dominate the European financial situation with its gold and to obtain advantages over such other States as are more dependent upon silver than is France. Gold has come to be the only metal that is available for credits; hence the largest holder of such metal, and the nation which can attract it to itself and retain its possession against all adverse conditions, must, it would seem, reach and secure a financial supremacy which cannot be overthrown.

As the result this week of the enormous gold holdings of the Bank of France, the private rate of discount in Paris fell to 1¾%, or 1¼% below the official figure; the unofficial rate in the market was, however, higher than that ruling in London by ⅜ of 1%; hence Paris continued to draw gold from the British capital and it secured the whole of the offerings of 3 million dollars of gold that was disposed of in that market on Monday. The German Reischsbank's official rate of discount was reduced to 4½%; this was expected last week because of the reduction then in the Bank of England rate. The failure at that time to take this action may have been due to the large loss of cash, presumedly to the interior, shown by the German Bank at the end of the month, and the large and increasing gold holdings by the Bank of France. The President of the Reichsbank, we may presume, was reluctant to assent to a reduction in the rate under these circumstances. He may have been also apprehensive lest such a course would encourage over-trading, which he is desirous to prevent. Moreover, so long as the Bank maintains a rate which contributes to establish higher unofficial figures in the market than prevail elsewhere, Germany can attract gold from all European centres, and also from New York, and thereby accumulate a supply of the metal, which seems to be desired. Furthermore, the demonstration by the President of the Reichsbank of his ability to attract gold, through the maintenance of firm discount rates, would seem to answer the criticism of the Agrarians that the Bank's policies in respect of the attraction of gold had not been sufficiently vigorous; hence the inquiry into the matter by the Government commission.

American exporters of gold hence to Europe have this week, partially at least, overcome the obstacle to the volume of the movement that has been interposed by the insufficient supply of commercial gold bars, as the result of the inability of the New York Assay Office—because of its dismantling preparatory to reconstruction of the plant—to manufacture such bars. Part of a consignment amounting to $250,000 that was engaged on Monday for shipment to Berlin consisted of jewelers' bars, of which the office had a liberal supply, but hitherto they have not been availed of because of their small size and also for the reason that the charge therefor is greater than is that for commercial bars; the remainder of the consignment, or $1,000,000, also for Berlin, was in gold coin. The fact that the jewelers' bars and the coin were sent to Germany would seem to indicate that there still is urgency there in the demand for gold; indeed, so long as relatively higher rates for discount in Berlin than for money in New York prevail, gold will most likely be exported in greater or less volume.

---

It may be noted that one important provision of the Emergency Currency Act of May 30 is that which is contained in Section 14; this provides that the requirements of Section 5191 of the Revised Statutes, regarding the maintenance of reserves by national banks against their deposits, shall not apply to deposits of Government money. It will be remembered that in September 1902, during the administration of Secretary Shaw, he made a ruling that deposits of public funds were exempt from the requirements of the cash reserve that was demanded to be held against other deposits. This ruling was not conformed to by the New York Clearing House, chiefly because it was thought that it would tend to misleading comparisons of weekly conditions. In the statements that were issued by the Association, however, the average amount of public deposits was separately recorded, so that computations of reserves less those against public funds might be made if desired.

Section 15 of the new law provides for a minimum interest charge of 1% on the average monthly deposits of public funds; an exception is, however, made in the case of such deposits as are in regular depositories. It is reported from Washington that there are outstanding about 72 millions of public deposits that are subject to the interest charge, and an equal amount that is exempt from such requirement. It seems likely that if prominent New York national banks shall take the initiative in organizing National Currency Associations under the Act of May 29—which many of them have decided to do—their example may be followed by institutions in other sections of the country. Indeed, it is reported that several groups of banks are making preparations therefor.

---

The defeat of Governor Hoke Smith for renomination for a second term at the Georgia primaries this week is a political event possessing significance outside of the confines of the State where it occurred. It looks like a sign of the times pregnant with important consequences. The newspaper headlines tell us that Governor Smith's defeat was a revolt against prohibition and disfranchisement of the negroes. To us it appears due to entirely different causes. Prohibition has recently made conspicuous progress elsewhere in the South and we know of no reason why Georgia should be an exception to the rule—that is, why sentiment in that State should be developing the opposite of that in the surrounding States. The reason why Governor Smith was beaten is a wholly different one, and is only dimly hinted at in the dis

patches. During his brief term of office Governor Smith has distinguished himself above everything else by a policy of hostility towards railroad and other corporate interests. Last summer, when for some inscrutable reason all the political powers in the South appeared to be up in arms against the railroads, he took a very prominent part in the movement and gave expression to some utterances that were certainly not calculated to allay excitement. Now, with the railroads in a slough of despond and all business depressed, these views are no longer popular.

One of the first acts of Governor Smith's administration was to remove arbitrarily one of the railroad commissioners, Joseph M. Brown, and it appears that this is the very man who has now thwarted Mr. Smith in his ambition for a second term. When Mr. Brown was removed as railroad commissioner, he was replaced by S. G. McLendon, who became Chairman of the Board. In accepting the office of Chairman, Commissioner McLendon (as we showed in our issue of Sept. 7 last) read a statement prepared by him and which he afterwards stated, according to the "Savannah News," had been read and sanctioned by Governor Smith, which was one of the most remarkable official documents ever promulgated. The Commissioner gave some ludicrous figures, which he made the basis of an allegation that the people of the United States were called upon to pay annually into the pockets of the railroads $130,000,000 on "over-capitalization." "This is one crime of over-capitalization," he said, "and another is a wrongful distribution of the products of labor." Since these remarks were coined, the whole railroad situation in the South has changed, railroad revenues having fallen off in a frightful manner, throwing a large portion of the population in that section out of employment, and it accordingly has become too plain for argument that further attacks on the railroads must recoil on their promoters. Thus it happens that even Commissioner McLendon has seen a light, and he now talks in a totally different strain. We quoted him recently as having used the following words in a speech made before the Carrollton (Ga.), Board of Trade on March 16: "It is a time when foolish men should be asked to remain silent. It is a time when from the multitude of sane counsel there should come wise suggestion in the place of wild assertion."

In these remarks Mr. McLendon showed appreciation of the fact that conditions had changed and that public sentiment would no longer support the old policy of hostility toward corproate interests, and particularly towards railroads. In the experience of Governor Smith this week in his contest at the Georgia primaries we have evidence to the same effect. The newspaper dispatches tell us that a remarkable feature of the campaign at the primaries was that ex-Railroad Commissioner Brown did not make a single speech and is not known personally throughout Georgia. It was stated as doubtful if one in a thousand of the men who voted for Mr. Brown would know the man if they met him. This merely confirms what we have said. It was not the personality of the man that the voters considered. It was the thing he stood for. In Governor Smith they saw embodied the policy of destruction and confiscation which had brought sorrow and idleness, or lower wages and reduced income, to nearly the whole population; for, it is to be observed, that in Georgia the legislative Solons under Governor Smith's administration have transformed the Board of Railroad Commissioners into a board endowed with functions modeled on the Public Service Commission laws of this State. In Mr. Brown, on the other hand, they recognized a man who, whatever his personal characteristics and predilections, was committed to a more conservative course, and who declared for the abrogation of the Commissioner's jurisdiction over local public service corporations. What has happened in Georgia is likely to happen in a great many other States between now and election time.

---

Every one will hope that the effort which the National Prosperity Association, organized at St. Louis, is making to coax back business prosperity will succeed. Acting on the suggestion of the promoters of that movement, a number of manufacturing establishments in different parts of the country which had been wholly or partly idle resumed work on an increased scale on June 1—the day which had been set for the general inauguration of a policy of renewed activity. It is not possible to say from the accounts in the papers how far the policy of resumption has been carried, since the newspapers are themselves deeply suffering from the prevailing depression in trade and doing everything possible to promote favorable views. We are afraid, however, that there is not full recognition (and in certain quarters no recognition at all) of the underlying causes of the present trade prostration. There is a disposition among business men, and still more so on the part of politicians, to think that there is really nothing ailing the country, that last autumn's financial revulsion merely destroyed confidence, that all that is needed is a revival of confidence, and that confidence can be restored by simply resuming work. In reviewing on a subsequent page to-day the annual statement of the Amalgamated Copper Company, we make some remarks indicating how erroneous such views are.

As indicating the general tendency to take optimistic views, we may refer to a dispatch from Atlantic City dated June 3, printed in the New York "Times," and saying that not a dissenting voice was raised when William Judson, President of the National Wholesale Grocers' Association, of the United States, declared that "the financial panic was only a memory; that prosperity pervaded all parts of the country and that times, now good, are steadily growing better." We notice that even President Hepburn of the Chase National Bank of this city, is engaged in helping along the National Prosperity Association scheme. At a meeting of the Chamber of Commerce on Thursday, he succeeded in having a resolution adopted without objection authorizing the President of the Chamber to appoint delegates to a National Prosperity Convention, should any be held. He argued that the Prosperity League of St. Louis had accomplished good results already in reviving prosperity as the outcome of its efforts, and it might be thought wise to hold a national convention to further the movement later on. If such a convention should be held, it seemed to him, that the Chamber should be represented.

Thus, everything is being done to invite a return of prosperous conditions if it can be done by such means and measures. The one unfortunate feature is that the situation of the most important trade of all, the railroad industry, is being completely ignored. The

railroads are the largest consumers of iron and stee in the country, and it is because orders from that source have been so heavily reduced that the iron and steel industry is so greatly depressed—the lack of activity and employment in these two great branches of industry in turn accounting for the diminished consumption and diminished buying power in business in general. We regret to be obliged to state that in the railroad carrying business there is as yet not the slightest signs of any revival, and so long as that is the case recovery elsewhere must be slow, if not indefinitely delayed.

For two years or more the railroads, because of the agitation against them and the resulting loss of confidence, on the part of investors, in their stability and earning capacity, have been unable to borrow with any freedom. Once or twice a month, now-a-days, we get news of the negotiation of some gilt-edged loan for a fairly considerable amount by a corporation of excellent credit and high standing. But these are hardly more than a drop in the bucket. The iron and steel works of the country having been reduced to idleness through the inability of the railroads to command new capital on an extensive scale for extensions and improvements, the shipments of coal and other minerals are being correspondingly reduced, and the railroads, as a consequence, are suffering heavy losses in earnings. Consider the situation in that regard of two large Eastern trunk lines. The Pennsylvania Railroad is one of the two we have in mind. That company has this week issued its return for April, showing a falling off in gross earnings on the lines directly operated East and West of Pittsburgh in amount of no less than $5,402,100 as compared with the corresponding month last year. Dispatches from Philadelphia state that the showing for May will be little if any better. Thus, we have a loss on the part of simply one very large railroad system at the rate of over $65,000,000 a year. On the New York Central system, including the Lake Shore and other lines, the loss for the same month was $3,488,848, being at the rate of $42,000,000 a year.

The two systems combined, therefore, are having $107,000,000 less per year to spend than they had in 1907. This means that outlays in all departments must be contracted—if not to the full extent of the shrinkage in revenues, at least as nearly so as possible. Any other course would mean eventual bankruptcy, which would aggravate still further the distress being experienced. In point of fact, the Central lines met the loss of $3,488,848 in gross earnings by reduction of $3,089,775 in expenses, and the Pennsylvania met its loss of $5,402,100 by a cut in expenses of $3,953,700. In other words, there was a diminution in the expenses of these two systems in this single month of over $7,000,000, being at the rate of $84,000,000 a year. It may not be pleasant news to hear, but so long as this state of things continues, we cannot see how there can be much hope of a revival of activity in trade in general. Efforts at promoting a return of prosperity must be directed, therefore, to relieving the railroads. This is equivalent to saying that the entry of capital to the railroad industry, cut off by Inter-State Commerce and Public Service Commission laws, must again be encouraged. It seems to us the matter rests largely with the politicians, and particularly with the leaders of the two great political parties.

---

We remarked last week that the Armstrong insurance laws of 1906 are bad not merely in details but in the assumptions upon which they were founded. An incident occurred on last Monday which illustrates and proves this. On that day a regular annual election of trustees was held by the Mutual Life and on the following day the company sent word to the newspapers of the result; but for this sending word, the incident would apparently have not been noted at all, so quiet was it. In the election of 1905, 199 votes were cast, mostly by employees of the home office, and when this fact was discovered, in answer to questions, at the investigation of September following, a great deal of indignant talk was indulged in, and it was supposed that another startling exposure had been made. The investigators and some of the newspapers immediately assumed that the managers of the mutual companies had been suppressing the principle of mutuality by disfranchising the policyholders. Acting upon this assumption (and disregarding better-informed persons who pointed out how mistaken it was), the framer of the new laws proceeded to sweep the old boards of trustees out of existence, require the preparation of lists of policyholders' addresses, and construct a clumsy and wasteful piece of machinery for the purpose of enabling policyholders to obtain their rights of control.

As was predicted would be the case, a fierce contest began by outside parties for the control of these assets, amounting to nearly a billion of dollars. The contest lasted from early summer until the day of election in December, and even longer, for the result was not officially determined until April. Approximately 300,000 votes were cast in the Mutual and not far from that number in the New York; the result was the triumph of the Administration tickets in each of the four companies to which this part of the law applied. This was the natural and expected conclusion, although the vote was light, large as it seems; the number and bitterness of the charges brought against the boards of trustees cannot be forgotten yet, and several indictments, still untried and not likely to be brought to trial, were obtained against the prominent parties on the opposition side. Then all attempt at overthrow was abandoned and the subject passed so completely out of mind that, as was the case in previous years, the public have to be reminded of it by reading that an election has been held. The result on last Monday was the unanimous election of the Administration ticket of 23 (including six who were on the defeated ticket of two years ago), and this was done by casting a total of 93 votes. Only a few weeks ago the annual election was held in the New York Life, with a like result, a like nominal vote, and a like absence of notice by anybody outside.

The assumption that policyholders have been prevented from voting was therefore wrong, and the machinery for enabling them to vote was a needless and expensive piece of interference. There is no way of putting compulsion upon them, and what has prevented their voting is the inevitable inconvenience of so doing and the lack of any motive. The elections have been bitterly denounced as "farcical"; the term is not just, and if it were, there is no way of having it otherwise. It has been so through the whole term of life insurance and is naturally so. For one

instance, about fifteen months ago an annual election was held at the home office of the Union Mutual in Portland, Maine. There were present 43 persons, who represented (including themselves) 253 policyholders and $265,000 insurance; but the total outstanding insurance then was a little over 67 millions and the number of policyholders about 44,000. The contrast between the number of voters and number of votes is more striking because this is comparatively a local company, in which (were there any evident reason) a feeling of interest in an election could more easily be aroused.

These practical cases emphasize their own moral; the subject does not need elaboration. When there is no "issue" there is no interest; how could there be? A life insurance company has no "policy"; it is merely a matter of reasonably good business handling and reasonably faithful trusteeship. Every consideration of common sense and custom is against turning out trustees who have been serving reasonably well; therefore, to refrain from voting when there is nothing to be voted upon is natural, not farcical.

---

Bank clearings for May 1908 in the aggregate for the whole country exhibit a smaller percentage of loss from the corresponding period of the previous year than had been the case with any similar comparison for either of the six preceding months. This seemingly more satisfactory showing, however, does not arise through any general improvement in individual clearings totals, but is directly ascribable to an important augmentation of the New York aggregate as a result of much heavier dealings in share properties at the Stock Exchange. Those transactions, in fact, exceeded the total for any month since March 1907, and furthermore it is the first time since then that any monthly sales' aggregate has covered a greater number of shares than in the like interval of the preceding year. For the month the local transactions reached a total of 20,975,022 shares, against 15,827,245 shares in May of 1907, but for the five months the aggregate is only 74,997,001 shares, against 106,445,154 shares a year ago. Bond dealings for the month likewise were of noticeably large volume, exceeding the total for May in any year since 1901, being larger than for any month since January 1906 and well ahead of the monthly average of either 1905, 1906 or 1907. At the Boston Stock Exchange the month's transactions in 1908 were also in excess of 1907, having been 1,171,283 shares, against 854,070 shares, but the five months' results were only 4,575,431 shares, against 8,222,041 shares. This recrudescence of activity in stock operations is one of the signs of the times indicating increasing confidence in the stability or worth of corporate properties—a confidence that must be the precursor of any well sustained business revival.

It should be stated, however, that of individual clearings only 13 cities out of the 114 included in our compilation on the first page of this issue report gains over the previous year. The loss for the whole country in May, as compared with the month of 1907, reached 12.5% and for the five months is 24.2%. Compared with two years ago, the declines are 17.9% and 25.7%, respectively. Outside of New York the decline in the aggregate for May is 17.4% and for the five months 15.4% when compared with 1907; and the losses 5.7% and 6.5%, respectively, contrasted with 1906. Of the various groups into which we have divided the cities, the most satisfactory exhibit is made by the "Other Western," where, although the month's loss as compared with 1907 is 7.3%, there is a gain for the period since Jan. 1 of 0.3%. The Middle section, owing to the stock operations at New York, to which we have referred above, shows a much smaller decrease (11.1%) than in earlier months of 1908, but the falling off for the elapsed portion of the year is heavy. In other sections there are no features calling for attention that have not been referred to in preceding months.

---

Commercial failures continue on the decrease, indicating that the insolvencies produced by last fall's panic and the succeeding monetary stress have been substantially harvested. Moreover, there are not wanting tangible signs that the business affairs of the country are steadily though slowly approaching the time when they will again reach a normal basis. We referred two weeks ago to some of the favoring elements in the situation. This week we learn of the return of other large bodies of men to employment, West and South, and the gradual resumption of full time. The developments considered in connection with the decline in volume of failures and the less unfavorable showing bank clearings are now making, fosters the belief that from this time the business situation will expand with a good deal of regularity. Setbacks will occur as they accompany every turn of conservative business progress.

The statement of failures for May compiled by Messrs. R. G. Dun & Co. is the most satisfactory monthly exhibit since that for July 1907, and while in number of bankruptcies and amount of liabilities there is a noticeable increase over the period a year ago, comparison with May 1906 is not particularly unfavorable to the current year. According to the statement, the number of failures in May this year was 1,379, with liabilities of $13,643,381, against 857 in number and indebtedness of $9,965,410 in the month of 1907, and 899 and $12,992,809 in 1906. As in earlier recent months a large portion of the liabilities this year is supplied by a few firms, the indebtedness of 20 accounting for $4,140,627, leaving the average liability of the remainder $6,992, which compares with $6,962 last year and a mean of a little below $7,000 for the fourteen years back to 1894.

Manufacturing insolvencies account for $6,988,988 of the May 1908 total, that figure comparing with $4,758,725 in 1907 and $4,038,273 in 1906. Disasters were conspicuously numerous this year in the machinery and tools and printing and engraving departments. Trading failures were somewhat less than in April, the liabilities involved amounting to $5,570,684, which contrasts with $4,035,245 in May 1907 and $4,812,842 in 1906. Among brokers, transporters, &c., the situation in May this year was actually better than in the month of either 1907 or 1906, the liabilities for the three years being, respectively, $1,083,709, $1,171,440 and $4,141,694. Suspensions of financial institutions were much heavier in May than in April, involving 20 in number, with liabilities of $5,247,455. In May 1907 but one small bank, with obligations of $10,000, went to the wall, but in the month of 1906 the amount of liabilities covered by 10 banking failures was $3,799,338.

---

The International Cotton Congress (spinners and manufacturers) held their fifth annual session in Paris this week. It was a notable gathering of representatives of the world's great textile industry. The attendance was large and comprehensive, delegates from fifteen countries, including India and Japan, being present, while the subjects of debate and discussion covered a wide range of topics of manifest importance to the cotton-manufacturing industry. Greatest interest centered upon the situation as regards the production of the raw material. From remarks of European delegates it developed that American domination of the supply gave the producers of that country the control of the price, and the opinion was freely and feelingly expressed that Americans seemed unwilling to deliver supplies at fair prices. To remedy these conditions two methods were proposed; one was to stop improper speculation, the other the old one of fostering and extending cotton production in Africa, Egypt and elsewhere. Some of the speakers expressed opinions that in ten years' time a supply of 10,000,000 bales annually outside the United States could be secured.

This feature was discussed at great length, Europeans expressing confidence that the desire could be attained if faithfully pursued. Each session of the Congress has expressed the same confidence, but hitherto with meagre results. American delegates contended that our Southern States were capable of supplying the needs of the entire world. It was suggested that European manufacturers could materially assist by aiding the South in securing adequate labor to extend the cultivation of the staple, instead of indulging in illusory dreams of large supplies from new and untried fields. The outcome of the discussion was the adoption of a resolution instructing the permanent committee to study a method of creating reserves of cotton in Europe sufficiently large to insure the industry against inordinate prices due to American speculation. At the same time European governments were invited and urged to advance the production of cotton in colonial possessions.

Another matter of importance that came before the Congress was a proposition to change the system of purchasing cotton, and an undoubted step in the right direction was taken in instructing the contract committee to recommend to the cotton exchanges of Europe the substitution of the net-weight basis of purchase for the present one, which allows a shrinkage (or tare) of thirty pounds in a bale of 500 pounds. Probably, however, nothing of greater importance was discussed than the need of concerted action in times when conditions become abnormal, in the matter of curtailing consumption. To that end a resolution was adopted inviting all confederated associations in the various countries to join in a harmonious curtailment during periods of abnormally high prices and consequent distress arising from overproduction of goods. The Congress adjourned on Wednesday to meet in 1909 in Italy.

---

The cotton crop situation this spring, or more correctly speaking on June 1, as indicated by the investigations made by us in connection with the issuing of our annual report on acreage and condition, is so fully set out on subsequent pages that but brief reference to the subject is called for here. That the area has been further increased (1.31%), according to our compilation, is a fact brought out quite clearly by the replies to our inquiries, and this notwithstanding seeming efforts by farmers' organizations and others to bring about a material curtailment. We say "seeming" advisedly, because with the recent and present highly profitable returns from cotton raising it is hard to concede sincerity to the efforts, or to believe that those who tendered advice to reduce area expected to see it followed. It was that feature of the situation, therefore, to which we directed especial attention this spring, and while, as our completed report shows, a very conservative course as regards planting has been followed, and early intentions have been modified in some sections, we have failed to find any evidence whatever of concerted inclination to noticeably reduce acreage. Folly would be too weak a word to use in characterizing any such course with the world's requirements of cotton, under normal conditions, steadily and materially increasing from year to year, and the United States the only source of supply from which any important augmentation in amount of yield can be expected.

Another important feature of this spring's investigations is that the outlook for the crop is at this date much better than at the corresponding time a year ago. Planting was completed earlier on the average, and weather conditions have in the main been much more favorable. There have, of course, been complaints from time to time of lack of moisture or an excess of rain in various localities, and a period of low temperature in late April and early May served to check development temporarily over most of the cotton belt. Furthermore, on the 23d and 24th of May very heavy rains caused floods in Southern Oklahoma and Northern Texas. But on the whole weather conditions thus far this season have been more satisfactory than last, and consequently the plant is generally more advanced and quite well up to the average of recent years in size and condition. It is of course however not safe to assume on the basis of the present situation that a large crop is assured. With normal seasons from now on and no early frosts, a crop of somewhere about record proportions might be expected, but it all depends upon weather developments during the remainder of the summer and fall to hazard any opinion as to ultimate yield.

---

Cotton exchange methods, especially as regards the classification of cotton and the range of grades deliverable on contracts, were further quite exhaustively reviewed in Parts II. and III. of the report of Commissioner Herbert Knox Smith of the Bureau of Corporations, which was made public towards the close of last week. This final portion of the report on the investigation of cotton exchanges (the bodies at New York and New Orleans being the specific ones investigated) fittingly supplements Part 1., issued early in May, and gives like evidence of close and intelligent study of the subject. Moreover, it is quite clear from the manner in which some of the matters are elucidated that the Commissioner had the assistance of able practical cotton men in its preparation. It bears the hall-mark of intimate knowledge. Mr. Smith again directs criticism against the exchanges, but of a much less drastic nature than in Part I., but at the

same time does those bodies the justice of pointing out the utter impracticability of some of the suggestions they and he have received calculated to improve matters.

The Commissioner, while recognizing the difficulties attending the classification of cotton, admitting that it is not and cannot be an exact science, is of the opinion that more weight than is now given should be accorded to length, strength and character of staple, and less to mere superficial appearance. He, in effect acquits the New York Exchange of extreme charges of wrong grading, but asserts that over-classification has frequently occurred here, and cites an instance where cotton really below the contract standard was virtually forced into the New York certificated stock by the Board of Appeals against the judgment of the Classification Committee. The fact that as a rule the New York stock is largely composed of the least desirable grades furnishes, in Mr. Smith's opinion, special reason for maintaining the integrity of its classification. He looks with favor on the suggestion for uniform standards of the leading grades as the most feasible method of improving present methods, and considers that such standards would tend to harmonize quotations in different markets.

Discussing the range of grades deliverable on contracts, the report states that the most practical restrictive limitation would appear to be the adoption of the low-middling clause. This, it is contended, by narrowing the range of deliverable grades would materially lessen the difficulties of classification and of establishments of differences, and would tend to prevent such abnormal discounts as, compared with middling spots, have frequently occurred. Mr. Smith seems to recognize the fact, however, that no matter how restricted the range of grades deliverable on contract, even though the delivery of one specific grade was provided for, the contract, owing to other special characteristics required, would fail to meet the needs of most spinners.

The Commissioner concludes by stating in effect that a proper system of establishing differences and a uniform and accurate method of classification is of far greater importance than the restricting of the grades deliverable. He is of the opinion that the adoption of his recommendations would be an important step towards placing the future business upon a thoroughly commercial and equitable basis and would largely remove antagonism to the character of the contract. The Commissioner's recommendations seem worthy of careful and earnest consideration.

---

As noted above, the Pennsylvania's return of earnings for the month of April has been published this week and shows the largest loss in gross earnings yet recorded for any month since the decline has been in progress. The remark applies to the gross results for both the lines East of Pittsburgh and Erie and those West of Pittsburgh. On the Eastern lines the shrinkage in gross as compared with the same month last year amounts to $2,848,500 and on the Western lines to $2,553,600, making together a decrease for this one month alone in the large sum of $5,402,100. In March the falling off on the combined lines was $3,530,000; in February $2,934,300; in January $3,673,200, and in December $2,489,100. Of course the present year there was a pretty general suspension of coal mining in the bituminous regions pending the adjustment of the question of wages, and as the Pennsylvania RR. is the largest coal-carrying system in the United States, that circumstance undoubtedly had an important influence in swelling the amount of the decrease. As in the months preceding, there was a very considerable curtailment in the expenses; nevertheless, even after the saving in this way, a large loss in net remains, namely $653,900 on the Eastern lines and $784,500 on the Western lines, making together $1,438,400 decrease in the net. Last year in April the comparison was with the time of the coal strikes in the previous year, and accordingly the figures then recorded large gains—$4,418,600 improvement in the gross and $580,400 improvement in the net. In the following we show the gross and net earnings for the last six years for the lines East of Pittsburgh and Erie, being the only portion of the system for which we have the data for such a comparison.

---

The Imperial Bank of Germany on Thursday reduced its official rate of discount from 5% to 4½%. With this exception there was no change in official discount rates by any of the European banks.

The Russian Finance Minister has proposed to the Cabinet the immediate issue of an internal 5% loan for 100 million dollars to cover the deficit in the 1908 budget and other expenditures; the approval of the Douma will have to be obtained. It is reported that the State savings banks will take about 35 million dollars of the loan, and it is expected to be a great success.

---

Money on call representing bank and trust company balances loaned at the Stock exchange during the week at 1¾% and at 1¼%, averaging about 1½%; the above-mentioned institutions loaned at 1¼% as the minimum. Time money was quite inactive for the shorter and in fair demand for the longer maturities; offerings were at 2@2¼% for sixty day and 2½% for ninety days. For four to five months the ruling rate was 2¾% and for six months offerings were at 3½%, which has recently been bid. One feature was a 4⅛@4¼% rate for over-the-year money, reflecting a slight concession. Commercial paper was quoted at 3¾@4% for sixty to ninety day endorsed bills receivable and 4% for prime four to six months' single names; good paper of this maturity sold at 4½@5%.

---

The Bank of England rate of discount remains unchanged at 2½%. The cable reports discounts of sixty to ninety day bank bills at London 1⅜%. The open market rate at Paris is 1¾@1⅞% and at Berlin and Frankfort it is 3⅝%. According to our special cable from London, the Bank of England gained £523,704 bullion during the week and held £38,198,203 at the close of the week. Our correspondent further advises us that the gain was due wholly to heavy im-

ports. The details of the movement into and out of the Bank were as follows: Imports, £1,042,000 (of which £1,000,000 from India unearmarked, £25,000 from Egypt, £7,000 from South America, £5,000 from Australia and £5,000 from Paris); exports, *nil*, and shipments of £518,000 *net* to the interior of Great Britain.

---

The foreign exchange market was irregular and lower early in the week, influenced by some speculative selling in the expectation of a supply of bills resulting from the large over-subscription in London of the National Railways of Mexico securities. Lower open market discounts at the British capital, due to preparations for the payment of the above-noted subscriptions, and also for an installment of 5 million dollars on the Pennsylvania bond negotiations, had some slight effect upon our exchange rates. A partial recovery in such rates followed a sharp fall on Tuesday in exchange at Paris on London, which seemed to indicate a resumption of exports of gold from London to Paris; such movement appeared likely to be important for the reason that French bankers' requirements were unsatisfied, they having secured the whole of the 3 million dollars Cape gold that had been offered in the bullion market. As call money at London was ½ of 1% and open market discounts were 1⅜@1½% —or lower by nearly ½ of 1% than at Paris—it was regarded as probable that French balances would continue to be steadily withdrawn from the British capital and that this movement might stimulate a renewal of gold shipments hence to Paris as an arbitration operation. After the middle of the week the exchange market grew firmer, but it was heavy at the close on the news of the expected placing of 20 millions of the 50 millions Union Pacific 4% bonds in London. The reduction of the German Reichsbank's discount rate caused a rise in marks, and arrangements were made for a shipment of gold coin to Berlin on Saturday and also next week.

The relatively higher rates for time money in New York than for discounts in London ought, it would seem, to encourage the transfer of British capital hither for employment in our market through the negotiation of ninety-day bills that would be drawn in expectation of procuring cover therefor with low exchange, resulting from the export of commodities, at the beginning of and during the grain and cotton export season. Such negotiations as seem likely to be made advantageous, in part at least, through the loaning of the proceeds of the ninety-day bills, are, however, discouraged because of the uncertainty regarding the maintenance of even steady rates for time loans that would mature ninety days hence. Should our supply of money be considerably augmented, through the emissions of emergency circulation by national currency associations, rates for time loans maturing in September, and even in the later months of the year, might easily be so low as to afford little or no profit to bankers who negotiated ninety-day loan bills, or such as would fall due later by reason of renewals; therefore whatever advantage was obtainable through such negotiations would have to result from the difference between the rate for the exchange when it was sold and that ruling when cover for the bills was sought. Moreover, not only would there be uncertainty regarding the profitable employment of the proceeds of the long bills, but low rates for money at the periods of the maturity of the exchange might so affect such exchange by advancing rates as to involve bankers undertaking these negotiations either in loss, or greatly minimize their profits. Therefore transactions of this character, which ordinarily, or under normal monetary and exchange conditions, are more or less profitable and in large volume, would probably not be undertaken to any considerable extent.

The exports of gold this week were to Berlin and they were limited in volume, amounting to only $1,750,000, of which $1,250,000 consisted of coin and $500,000 of bars; of the latter, however, $250,000 were in the form of jewelers' bars, which are rarely exported because of their small weight and comparatively high premium—five cents per $100; whereas the premium on commercial bars is four cents per $100. The supply of the latter is still limited because of the dismantling of the New York Assay Office, as heieinbefore noted. As above stated, arrangements have been made for the shipment next week of further consignments of gold coin to Berlin.

The market for exchange opened on Monday 10 points higher for long, compared with Friday of last week, at 4 8560@4 8565, and 5 points lower for cables at 4 8740@4 8745; short was unchanged at 4 8715@4 8720. On Tuesday long fell 10 points to 4 8545@4 8555, short 20 points to 4 8695@4 87and cables 15 points to 4 8725@4 8730. On Wednesday long declined 5 points to 4 8540@4 8550, while short recovered 15 points to 4 8710@4 8715 and cables 5 points to 4 8730@4 8735. On Thursday long rose 10 points to 4 8550@4 8560 while short fell 15 points to 4 8695@4 8705 and cables 10 points to 4 8720@4 8730. On Friday the market fell 10 points all around.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

The market closed on Friday at 4 8540@4 8550 for long, 4 8690@4 8695 for short and 4 8710@4 8720 for cables. Commercial on banks 4 8515@4 8525 and documents for payment 4 84¼@4 85⅛. Cotton for payment 4 84¼@4 84⅜, cotton for acceptance 4 8515 @4 8525 and grain for payment 4 85@4 85⅝.

---

The following gives the week's movement of money to and from the interior by the New York banks.

| *Week ending June 5 1908.* | *Received by N. Y. Banks.* | *Shipped by N. Y. Banks.* | *Net Interior Movement.* |
|---|---|---|---|
| Currency | $12,470,000 | $3,658,000 | Gain $8,812,000 |
| Gold | 1,349,000 | 747,000 | Gain 602,000 |
| Total gold and legal tenders | $13,819,000 | $4,405,000 | Gain $9,414,000 |

With the Sub-Treasury operations and gold exports the result is as follows.

| *Week ending June 5 1908.* | *Into Banks.* | *Out of Banks.* | *Net Change in Bank Holdings.* |
|---|---|---|---|
| Banks' interior movement, as above | $13,819,000 | $4,405,000 | Gain $9,414,000 |
| Sub-Treas. oper. and gold exports | 27,349,000 | 25,556,000 | Gain 1,793,000 |
| Total gold and legal tenders | $41,168,000 | $29,961,000 | Gain $11,207,000 |

The following table indicates the amount of bullion in the principal European banks.

| Banks of | June 4 1908. | | | June 6 1907. | | |

| Tot. week. | 426,910,059 | 109,077,931 | 535,987,990 | 401,341,018 | 110,133,264 | 511,474,282 |
| Prev. week | 426,108,671 | 110,051,138 | 536,159,809 | 401,665,960 | 110,365,267 | 512,031,227 |

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-quarter of the total.

## *CANADA, ENGLAND AND THE UNITED STATES.*

Next month an occasion of rather unusual interest is to be celebrated at Quebec. It is the three hundredth anniversary of the founding of that city by Champlain, and is to be observed by the dedication, on the Plains of Abraham, of a memorial to Wolfe and Montcalm, the English and French commanders in the historic contest of 1759, as a result of which Quebec capitulated to the English and Canada passed from the possession of France to that of England. More than ordinary importance has been attached to the preparations for this event, and for several interesting reasons.

In the recent meeting at the Mansion House in London, to prepare for the English part of the celebration, the speeches dwelt primarily on the relations between the Dominion and the mother country. The tenor of the speeches indicated that a special effort will be made through this occasion to cement the good relations between England and the colony. There are, however, two other aspects of the celebration which give it a somewhat peculiar aspect. In the first place, it naturally has already occurred to the mind of those organizing the celebration that great care must be taken to respect the feelings of France. At the present juncture in the restoration of cordial relations between Great Britain and France, the celebration of a victory whereby England deprived Franceof its trans-Atlantic domain presented some delicate problems. These have been very largely surmounted by the selection, as the occasion for observance, of the discovery of Quebec by a French emissary, and by the further and very judicious coupling of Montcalm with Wolfe in the memorial to be erected.

It will be noticed that this action is not in line with the curious precedent which one of our own colonial societies somewhat ineptly undertook to establish a few years since, in requesting the Canadian Government to permit the erection on the spot where the American general Montgomery fell in 1775 of a monument commemorative of his services. Montgomery had been the leader of a daring foray of American troops upon the Canadian stronghold of our English antagonists, and the dry reply of the Canadian Premier to this American petition was that he deeply regretted that the rule and tradition of governments did not permit them to allow the establishment of a memorial to commanders engaged in an effort to overturn them.

It will hardly be possible that this occassion should pass without frequent references to the relations between Canada and the United States. To this, in fact, Mr. Bryce made some reference in his recent New York speech. The attitude which we have occupied toward this colonial dominion beyond our Northern border has been peculiar from the first. In the Anglo-French conflict which culminated in Wolfe's achievement at Quebec, volunteer soldiers from the colonies which now constitute the United States participated. It was a struggle all along the line of the American outposts between the English and French possessions in the new world, and was made memorable, not only by the battles on the St. Lawrence, but by such well-known episodes as that in which Braddock and Washington figured, on the spot now occupied by Pittsburgh.

When war broke out in 1775 between England and the United States, capture of Canada was an exploit which naturally appealed to our diplomatists and generals. The attempted invasion was a dismal failure; it resulted, indeed, in the driving of the American outposts well back to the south even of the New York lakes. Yet subsequent events show to what extent the idea persisted. Franklin, opening up the peace negotiations towards the close of the War of Independence, coolly notified the British Government that its wisest policy was "to act nobly and generously," and "to cede all that remains in North America." Canada and Nova Scotia, he argued, ought to be thrown in and called "an indemnification for the burning of our towns." Even at the climax of the negotiations between the English and American commissioners in 1782, Franklin returned to his original idea, submitting a memorandum wherein he intimated that the English, in return for our Government's repayment of the losses to the expatriated American loyalists, should hand over Canada to the United States. Looked at in retrospect, the suggestion was a bit grotesque. Probably it was in any case merely a move by this shrewd old diplomatic bargainer to fix high terms which he knew would have to be scaled down in compromise. Yet one is sometimes tempted to ask what England might have done in this regard, supposing the French co-operation in our demand for indemnity to have continued as persistently throughout the negotiations as it was at the beginning. Canada in 1782, it must always be remembered, was a very different stake for the British Government than it is to-day, with its grain fields and its gold deposits.

From this proceeds very naturally the question which, in one way or another, may come up at the celebration in Quebec—is the incorporation of Canada into the United States part of what Fourth-of-July orators used to call the "manifest destiny" of the American Republic? No doubt this question would be differently answered according to the sentiment and predisposition of the man who considers it. To those who have studied the character of our Canadian neighbors, it is not easily possible to give any other answer than the negative. It has been said regarding some of the Canadian communities that their inhabi-

tants are more English than the English—meaning by this that the Imperial idea, and the loyalty to the mother country, was so keen as to supersede many local considerations. This is perhaps a sentiment which might be modified by events. But another factor which is bound to grow in potency is the increasing sentiment of nationality on the part of the Canadian States. It is to the amazing growth of Canada's agricultural Northwest to which this must largely be ascribed—a phenomenon of the day which has counterbalanced the large ratio of French population in lower Canada.

And in fact, as regards even these distinctively French communities—some of which to-day speak only the language of their Continental ancestors—it must be observed that the progress of events has brought them closer to the feeling of common colonial nationality. The vague idea of the return of Canada as a French possession, which seemed actually to have been maintained up to a quarter of a century ago in many portions of the Dominion, may now be said to have completely disappeared. The prolonged occupancy of the Canadian Premiership by an eminent French-Canadian, and his consistent attitude of loyalty to Great Britain, has been perhaps the surest witness to this altered feeling.

Nor are we by any means sure that the position of the United States, or the welfare of the American continent as a whole, would be materially furthered by the amalgamation of the communities north and south of our Canadian border. It is not always a special advantage that countries touching one another should be turned from their own peculiar line of development into that pursued by one another. The rise of Canadian nationality, independent of the United States and under the sheltering auspices of England, may very possibly play an important part in the history of the next half-century or so. What special problems may arise for solution as between Great Britain and its Canadian colonies is a question which is even now occupying the minds of diplomatists on both sides of the Atlantic. That they would be any more satisfactorily solved through the union of Canada with the United States, we doubt.

## *THE NEW CURRENCY LAW.*

The United States Senate succeeded on Saturday afternoon last in overcoming the obstructive measures which had been interposed against the Aldrich-Vreeland Currency Bill, and passed the bill by the decisive vote of 43 to 22. The President immediately approved the Act, and it is therefore now a law. The New York Clearing House, always alert, has been giving careful consideration to the provisions of the new law, and particularly the section providing for the organization of collective bodies of banks (or National Currency Associations, as they are termed in the Act), so as to have the machinery for the issue of emergency notes in working order should occasion for its use at any time arise. Of course the Clearing House can not act in an official capacity in the matter, since it includes State banks as well as national banks, but the outcome of this week's conferences is that next Tuesday ten of the larger banks will take independent action, meeting at the Clearing House for that purpose. We think this move is wise. There does not appear to be the least likelihood that any special currency issues will be needed, either in the immediate future or for a long time to come. But it is always well to be forehanded and ready for any contingency, no matter how remote the possibility of its happening. Prudence and preparedness are nowhere more to be commended than in the banking world.

Prompt action by our Clearing House banks is also to be commended because it indicates ready obedience to the authority of Congress and shows due respect for the laws. Never was a measure so widely and generally opposed, in and out of Congress, as this very Act which has now been put on the Federal statute books. Many of the objections urged against the proposition are well founded. But the bill is now a law, and it is the duty of every one, particularly the banks, to see all that it is executed and applied in good faith, and that the good possible is gotten out of it, both for the benefit of the banks themselves and for the community at large. Some of the newspapers which showed such decided antipathy to currency legislation of any kind are still keeping up their hostility and publishing "scare" headlines and columns of matter intended to show what direful things are going to happen under the operation of the new law. Such a course has nothing to commend it. It is not a time for sulking, for disappointment or for resentfulness. No bank is compelled to take out the emergency currency for which provision is made by the new statute, but the law deserves a fair trial. Quite possibly, too, notwithstanding its defects, it may prove more serviceable than generally supposed.

We publish the full text of the measure on a subsequent page. It marks an important innovation in the issue of bank notes under the Federal system. The principle of having the notes secured by specific collateral is retained, but a departure is inaugurated in the kind of collateral or security to be used for this purpose. Previously, in fact ever since the inauguration of the national banking system, circulating notes could only be taken out against a deposit of United States bonds. Now, for the first time, bonds other than United States bonds may, to a certain extent, and under certain restrictions and limitations, be used for this purpose—though only on payment of a high tax. This particular privilege, it would seem, can be availed of directly by a bank; that is, co-operation with other banks is not necessary to that end. Only State and municipal bonds, however, are available in such instance.

Notes may also now be taken out in still another way—we mean secured by the general assets of a bank as specifically set apart for that purpose, but only on the collective action of a definite number of banks having a certain required capital and surplus and fulfilling prescribed requirements and conditions. It is this feature of the law to which our New York Clearing-House banks have been giving consideration the present week. Section 3 contains the provisions for the issue of circulating notes on a bank's own initiative. To be qualified to get the additional notes, it is an indispensable prerequisite that a bank must have circulating notes outstanding secured by the deposit of United States bonds to an amount of not less than 40% of its capital. In other words, if a bank has not now the required 40% of circulation based on United States bonds, it must first take out notes in the old way to the requisite extent before it can think

of applying for additional circulation based on State and municipal obligations. The same requirement must be complied with where notes are sought based on the general assets of a bank through the National Currency Associations created by the law. To take out notes based on State and municipal bonds, a bank must also have a surplus of not less than 20%, the same requirement applying also to any bank becoming a member of a National Currency Association. The bonds to be accepted for the additional circulation are defined as "bonds or other interest-bearing obligations of any State of the United States, or any legally authorized bonds issued by any city, town, county or other legally constituted municipality or district in the United States which has been in existence for a period of ten years, and which for a period of ten years previous to such deposit has not defaulted in the payment of any part of either principal or interest of any funded debt authorized to be contracted by it, and whose net funded indebtedness does not exceed 10% of the valuation of its taxable property, to be ascertained by the last preceding valuation of property for the assessment of taxes." These the Treasurer of the United States is to accept, with the approval of the Secretary of the Treasury, "in such proportions as he may from time to time determine, and he may with such approval at any time require the deposit of additional securities, or require any association to change the character of the securities already on deposit."

The Secretary of the Treasury is given other wide discretion in the matter, and would seem to have the power to veto entirely an application for additional notes, for it is provided that, when the Comptroller of the Currency transmits an application for additional circulation to the Secretary, with his recommendation, the latter shall, "if in his judgment business conditions in the locality demand additional circulation, approve the same, and shall determine the time of issue and fix the amount, within the limitations herein imposed, of the additional circulating notes to be issued." The amount of notes to be issued is not to exceed 90% of the market value of the State and city obligations deposited, and not in any event in excess of the par value of the bonds.

The provisions for the creation of National Currency Associations, and the issue of additional circulating notes through their instrumentality, are quite elaborate. The law opens with the declaration that "national banking associations, each having an unimpaired capital and a surplus of not less than 20%, not less than ten in number, having an aggregate capital and surplus of at least $5,000,000, may form voluntary associations to be designated as National Currency Associations." As in order to join, the bank must have a surplus of 20%, it is evident that a new bank formed without a surplus would not be eligible until it had created a surplus of that magnitude. It will be seen, furthermore, that it takes not less than ten banks to organize a National Currency Association, each having unimpaired capital and a surplus of not less than 20%, and that the aggregate capital and surplus must be at least $5,000,000.

There is also a provision that "not more than one such National Currency Association shall be formed in any city." Moreover, the several members of a National Currency Association "shall be taken, as nearly as conveniently may be, from a territory composed of a State or part of a State, or contiguous parts of one or more States." Any national bank is to be entitled to membership in the association for its city or territory provided it possesses the requisite qualifications, and no bank may be a member of more than one association.

In these provisions we have a reason why the Clearing Houses throughout the country should at once consider the advisability of having the national banks included within their menbership, proceed to organize National Currency Associations in their respective localities, to forestall action on the part of any clique or coterie of banks to get control of the machinery and management of such associations. For, since only one such association may exist in any given city, the first ten banks that might organize for the purpose in such city would have possession of the field. The affairs of every Currency Association are to be managed by a board consisting of one representative from each bank and each Association is to have a President, a Vice-President, a Secretary, a Treasurer and an Executive Committee of not less than five members. Each association is to have and exercise any and all powers necessary to carry out the purposes of the Act, "namely, to render available, under the direction and control of the Secretary of the Treasury, as a basis for additional circulation, any securities, including commercial paper, held by a national bank." It will be seen that the phrase reads, "*any securities*, including commercial paper."

The term "commercial paper" is "to include only notes representing actual commercial transactions, which, when accepted by the Association, shall bear the names of at least two responsible parties and have not exceeding four months to run." No national bank is to be authorized in any event to issue notes based on commercial paper in excess of 30% of its unimpaired capital and surplus. No such limit is apparently provided for the other "securities" authorized. The board of the Association is to pass upon all securities offered in the first instance, and such securities must be satisfactory to it. Having secured the approval of such board, the Secretary of the Treasury is then given wide discretion, the language reading: "If he be satisfied with the character and value of the securities proposed and that a lien in favor of the United States on the securities so deposited and on the assets of the banks composing the Association will be amply sufficient for the protection of the United States, he may direct an issue of additional circulating notes to the Association on behalf of such bank, to an amount in his discretion, not however, exceeding 75% of the cash value of the securities so deposited." State and municipal bonds may also be offered through the Currency Associations, and in that event notes may be issued to the extent of 90% of the market value of the bonds. The proviso noted in the case of direct application by a bank, that notes may not be issued in excess of the par value of the State and municipal bonds deposited, is here absent.

All the banks members of an Association, and all their assets, are to be jointly and severally liable to the United States for the redemption of the circulating notes thus issued. But as between the several banks composing an Association, each bank is to be liable only in the proportion that its capital nd surplus may bear to the aggregate capital and

surplus of all the banks composing the association. Any association may at any time require of any of its constituent banks a deposit of additional securities or commercial paper, or an exchange of the securities already on deposit, and in case the request is not complied with the Association is given authority to sell the securities and paper already in its hands at public sale and deposit the proceeds with the Treasurer of the United States as a fund for the redemption of the additional circulation. In case of any deficiency, the Association may recover from the bank the amount of the same, through the courts, and is to have the benefit of the lien in favor of the United States created by the Act upon the assets of such bank.

The total amount of notes issued to any bank, whether secured by U. S. bonds in the old way or in the ways provided by the new law, is never at any time to exceed the amount of the bank's capital and surplus and the aggregate of emergency notes under the new statute is fixed at $500,000,000. In order that the distribution of notes shall be as equitable as practicable between the various sections of the country, the Secretary of the Treasury is not to approve applications in any State in excess of the amount to which such State would be entitled to the additional notes on the basis of the proportion which the capital and surplus of the national banks in such State bears to the total capital and surplus of all the banks in the United States. However, in case the applications from any State are not equal to the amount to which such State would be entitled, the Secretary of the Treasury may in his discretion, and "*to meet an emergency*", assign the amount not applied for to banks in other States "in the same section of the country."

A redemption fund against the new notes equal to 5 per cent of such notes is to be held in addition to the 5 per cent redemption fund required under the old law. The limit previously existing on the deposit of lawful money by banks wishing to retire their circulation, namely $9,000,000 a month, is retained as far as notes secured by U. S. bonds are concerned, but no limit is placed on the deposit of lawful money or national bank notes for the purpose of retiring the emergency notes. A distinction, however, is made in the treatment of such deposits in this last instance. Instead of being covered into the Treasury they are to be retained in a special fund for the purpose of redeeming the notes.

Whereas the tax on notes secured by U. S. bonds is only one-half per cent per annum when the bonds bear 2 per cent interest and 1 per cent when the bonds bear more than 2 per cent interest, the tax on the new notes is to be at the rate of 5 per cent per annum for the first month and to increase by 1 per cent per annum for each additional month the notes stay out, until 10 per cent is reached. The new law is to remain in force only until June 30 1914.

One other provision in the Act deserves mention. Under Section 15 the banks must hereafter pay interest on Government deposits. All banks designated as "regular depositories of public money" are to pay "upon all special and additional deposits" made by the Secretary of the Treasury in such depositaries, and all banks designated as "temporary depositaries" are to pay upon all sums of public money deposited in such banks. The phraseology of this provision is giving the legal advisers of the banks a good deal of trouble. Interest is to be at such rate as the Secretary may prescribe but not less than one per cent per annum, and the rate charged is to be equal and uniform throughout the United States. By Section 14 of the Act, it is expressly provided that the banks need not hold any cash reserves against Government deposits.

## *THE NEW SCHEME OF LAND TITLES REGISTRATION.*

The bill for registration of land titles was approved by Gov. Hughes on May 21 and goes into effect on Feb. 1 next. A commission, appointed under Chapter 628 of the laws of 1907, to investigate the whole subject, held meetings during September and October, including several public hearings, and seven members submitted a majority report on Jan. 30 last, including the bill which has now become law. The law relates to "registering titles to real property and facilitating and expediting its transfer." It is a voluminous document, containing 66 sections, and we pass over those of minor importance.

Section 3 provides that, whenever in any county the amount of business under the Act makes it proper that one or more Justices of the Supreme Court shall devote his entire time to it, the Appellate Division in such county "shall" designate Justices to constitute the "title part" in that court. Registrars of titles in the several counties are also provided for. Application for registration must be made to the Supreme Court, which tribunal shall always be open for such purpose, as well in vacation as in term time. Real property or any right or title therein "may" be brought under the Act by making application, in person or by guardian or other legal representative.

Any person duly admitted to practice as an attorney or any corporation duly authorized to guarantee or insure titles (and no other person or institution) may be admitted and licensed (Sec. 9) to practice as an official "examiner of title," the licensing and practicing to be done under rules prescribed by the court. "Before" application is made for registration of a title, it must be "thoroughly examined and certified" by an official examiner of title. The application (sometimes called in the Act a "complaint") may be made by the persons claiming to own the title in fee simple, or by persons claiming to hold "the power of appointing or disposing in fee simple" of the estate in land or some right over it. No mortgage, lien or claim less than a fee simple shall be registered unless the title to the property in fee simple has been first registered. The existence of a mortgage or other subordinate lien shall not bar property from being brought under the Act, but any such subordinate lien (inferior to a fee simple) shall be noted on the registration certificate when issued.

Section 15 provides for something analogous to the caveat in patent law, denominated here a "caution." Any person claiming to have any sort of interest in or lien upon a piece of real property, or any part thereof, may file with the registrar the written notice thus styled, setting forth the nature of his claim, and stating that he requires notice to be given him when any application to register is made as to this property. Any owner of land may file this cautionary notice as respects any land abutting on his own, and the regis-

trar shall keep a duly-indexed list of these cautionary notices; within ten days after filing any application to register, he shall mail written notice to persons who have filed "cautions" with respect to the property.

When the application (denominated "complaint") has been duly filed, with its accompanying papers, "the court shall determine whether or not the plaintiff appears to have a title that should be registered." [Here the reader should note that examining and certifying by an official examiner of title, as above stated, must be done *before* this procedure by and before the court can begin.] For the purpose of determining the propriety of registering, the court "may" require a further examination, by the same official examiner who has already done the work or by another, and "may" also require further or amended survey, certificates, affidavits, "or any other proper evidence or proof." When the court is satisfied, it shall direct issue of a "summons" (in a method closely following that in beginning civil actions); this summons is to be made in person, or by mail, or by publication, according to the circumstances; but a copy must in every case be conspicuously posted on each parcel of land included for at least forty days before application for final judgment. These processes are set forth in detail in Sections 16 to 22. Section 23, which affirms the conclusiveness of the result thus attained, is in full as follows:

"No judgment of registration shall be made unless the court is satisfied that the title to be registered accordingly is free from reasonable doubt.

"The judgment and any order made and entered in an action under this Act shall, except as herein otherwise provided, be forever binding and conclusive upon the State of New York and all persons in the world, whether mentioned and served with the summons and said notice specifically by name, or included in the description as all other persons, if any, having any right or interest in or lien upon said property or any part thereof. It shall not be an exception to such conclusiveness that any such person is an infant, lunatic, or is under any other disability or is not yet in being."

The next section provides that any registration may be set aside by making good an allegation of fraud, provided the action is begun within ten years; as to any action to set aside or modify, on other grounds than fraud, the time limit is six months.

The object sought is to make real estate titles more readily acceptable and transferable, so that a proposing purchaser or lender need concern himself only with the value of the property itself, and need not look beneath the surface of the title document which is shown to him; this excellent object is sought by offering what is apparently a State warranty or an assurance that no inquiry or attack can ever go back of a particular date when the certificate was issued. Yet the reader should note that there is no distinct State warranty, and that the law, as above quoted, does not in terms say anything more than that the action and judgment of the registering court shall be final upon all persons. The law may intend to make the certificate unassailable; yet, whether it does that by its terms, and whether it has constitutional power to do so, is not entirely certain. To fully carry out the aim of this scheme, it must confer absolute legal finality upon the titles which it certifies, or else it practically adds only another method of title searching; and its certificates must be generally accepted, or else its usefulness is limited. Each of these must be left for time to determine.

Section 58 provides that a tenth of 1% of value according to the last assessment for local taxation shall be paid to the registrar, upon the original registration. This is for an insurance fund, but any person may be released from paying it provided he states that he waives recourse to the fund, in which event the words "without recourse to the insurance fund" shall be noted on the certificate or any copy. The owner may subsequently change his mind and pay the assessment, whereupon the waiver of recourse shall be canceled and be so noted on the document.

Any person who, without negligence on his part, sustains loss because of registration of another person as owner of property, or who loses any estate or right "through fraud or in consequence of any error or mistake" in any certificate of title, can proceed against the insurance fund, *having first exhausted* any other right of action or other remedy he possesses. A personal liability for errors on part of registrars and others is declared, and the insurance fund is ultimately liable; no provision is made for formal liability against the State or a county.

This system, known ordinarily as the Torrens, takes its name from Robert Torrens, an Irishman who conceived the idea while living in Australia and procured its adoption there half a century ago. Something of the kind is in use in Germany, Ireland, Switzerland and Canada. It is more or less used in Massachusetts, Illinois, Minnesota, Colorado, California, Oregon and Washington. The minority of three in the investigating commission opposed it as not having proved itself feasible and satisfactory, one of them deeming it certain to be a failure in New York because money cannot be borrowed on registered property, and therefore owners will lack motive to register; he thought it conceivable that the Legislature might make registration mandatory, but he could not conceive of a law to compel investors to make loans. One of the signers of the majority report, however, made some inquiries in Massachusetts and ascertained that some 25 savings banks there made loans in 1907 on registered property.

The object of the law is to avoid repeated examinations of titles and the multiplication of records; to establish indefeasibility in ownership of real property, facilitate transfers and loans, and make it more readily and inexpensively available for buyers and borrowers. There are a number of sections for the purpose of making transfers more easy which we do not take space to state; only by experience can it be determined how well guarded they are, and how carefully the law itself has been drawn as a whole.

The great desirability of these objects is manifest. Formerly, whoever wished to buy or lend on mortgage must take his chances on the competence and faithfulness of private searchers, and the ways in which a defect or a cloud may attach to a title are many. Later came the guaranty companies, which undertake to do the work once for all and interpose themselves between their client and any source of disturbance; their guaranty is equivalent to an insurance policy, it is largely trusted, and it is as good as the issuer, just as other insurance claims when undisputed. This plan offers itself as an improvement and substitute. Considered as a proposition of insurance, the insurance offered is not a formal liability against the State or any sub-division, although public officials are made de-

fendants in form; the insurance fund to be provided is the guarantor, and if this fund prove insufficient to fully satisfy a judgment the remainder stands at interest as a lien on the first moneys coming into the fund. The property whose owners do not choose to pay their assessment (the premium) do not come under the insurance. How many registering owners will choose to come under it is, of course, conjectural; but all of them, with or without that fund behind them, come under the general warrant of the scheme, namely that in six months after the procedure and registration are completed the title becomes unassailable, except for fraud, and in 9½ years more it cannot be attacked even for fraud. And yet the law does not say in those words that "the title" shall become unassailable, but (Section 23 above quoted) that "the judgment and any order made and entered in an action under this Act" shall be forever binding and conclusive. If a broad and absolute indefeasibility can be thus given to a title, this is the substance in the scheme and furnishes the real insurance; then the special insurance provided is of chief value during the ten years and stands afterwards as a second guaranty which need not be availed of.

Nothing appears in the law to forbid any client of a title guaranty company who chooses to do so from availing himself of this method also; it is all left for individual choice, there being nothing mandatory anywhere. The courts are not to designate a special part for this business until there is enough of it to make that appear necessary, and although the county clerks in counties not otherwise provided for "shall" be registrars, they must wait for the initiative from owners. On the surface of the case, the title companies have the ground under their feet attacked and might be expected to be at least secretly hostile to the scheme; how seriously they are disturbed about it is uncertain. An opening for their services in part is made by the need for official examiners, but this work is open also to all admitted attorneys.

Opinions favorable and unfavorable were obtained by the investigators, the opposed minority seeming to be most successful in procuring them. Opinions from Chicago were especially unfavorable, one being that the market value of a Torrens title is limited to those willing to accept it. One bank president holds that the enacted indefeasibility itself is good only against those who have been brought into the proceeding by proper service of notice, and that before a careful man can accept this, he must go back and make sure that every detail was covered; therefore, that a re-examination is still required for closing every chance, and so the system falls to the ground. At least, it is clear enough that a scheme of this nature, like the telephone, increases in value as the number who use it increases; it is therefore liable to proceed very slowly, under the disposition to wait and see what others will do.

## *THE AMALGAMATED COPPER CO. AND COPPER TRADE DEPRESSION.*

If any one still entertains the idea that the present prostration of the country's industries is the result of the financial panic of last October and November, instead of being due to antecedent causes, study of the brief annual statement submitted by the Amalgamated Copper Co. should serve to dispel the illusion In view of the known condition of the copper trade, a rather poor showing by the Amalgamated Company for the twelve months had been looked for, but the figures are much worse than expected. If the reverse in the copper trade had begun only after the panic in November, the outcome for the twelve months of the company's fiscal year must necessarily have been much more satisfactory than it is now shown to have been.

The truth is, the collapse in the copper trade antedated by many months the financial cataclysm in the autumn, and in fact this very collapse in the copper industry foreshadowed the panic and led directly up to it. The iron and steel trades had also already begun to show decline before the financial crisis came, though in that case the movement was yet in its incipiency, nevertheless the decline there would also have been progressive even if the financial upheaval had not intervened to bring about an immediate and overwhelming relapse in trade. Stated in brief, adverse legislation and political assaults had destroyed the credit of railroad and other corporations, had impaired their earning capacity and undermined the confidence of investors, so that enterprise everywhere was brought to a halt and construction and improvement work had to be cut down or discontinued. With orders for goods and supplies from large corporate undertakings thus lacking, it was only a question of time when mills, factories and furnaces would have to stop work. In the copper trade the effects became apparent as early as last July—the demand for copper all of a sudden falling away to almost nothing under the absence of new orders—which is the reason why that trade appears to have been harder hit than any other. The price of the metal within a very few months was cut in two, dropping from 25 cents a pound to 12@13 cents; this in turn took the value out of the copper shares and paved the way for the downfall of the Mercantile National Bank and of others interested in copper properties.

The statement submitted by the Amalgamated Company shows net income of only $6,680,556 for the year ending April 30 1908, as against $14,154,400 in the preceding fiscal year. Thus less than 4½% was earned on the stock, where in the previous year over 9% had been earned. Dividends are now one-half of 1% each quarter, or at the rate of 2% per annum, but the aggregate of the payments for the twelve months was just 4%, calling for $6,155,516, being only about half a million dollars less than the net income for the year. The previous year there had been a surplus of about 2¼ million dollars after the payment of the 7¾% dividends that came out of that year's income.

This comparison, however, poor though it is, by no means shows the full extent of the shrinkage in income. As has been pointed out by us on previous occasions, the Amalgamated Company is simply a holding concern, and its income is measured by the dividends it receives on its holdings of the shares of the constituent companies. In previous years it happened that these subsidiary companies had not paid out in dividends all their profits, and hence it could be truthfully stated that the Amalgamated Company's net income fell far short of indicating the actual profits which had been earned by the constituent companies. We gave as one illustration, in reviewing the figures

for the fiscal year 1906-07, that the Anaconda Copper Mining Co., in which the Amalgamated Company is understood to have a little more than a majority interest, had in the calendar year 1906 made net income of $8,842,669, while the 23% dividends then paid on Anaconda stock called for only $6,900,000, leaving therefore an undistributed surplus for that period of twelve months of $1,942,669.

On the present occasion this situation is precisely reversed. This time dividend payments have run in excess of the profits. Turning again to the annual report of the Anaconda Company, this being the only one of the constituent companies that furnishes annual statements, we see that, whereas in the calendar year 1906 a surplus of $1,942,669 was left over after the payment of 23% in dividends, for the calendar year 1907 income fell almost 3 million dollars short of the dividend payments, though the dividends were reduced to 21%, the exact deficit for the twelve months being $2,921,780. Accordingly, to say that the Amalgamated Company in its latest fiscal year earned only $6,680,557 net, against $14,154,400 net in the year immediately preceding, is telling only part of the story. Based on the actual profits of the constituent companies, the amount for 1908 would have to be still further reduced, while the large total for 1907 would have to be further increased.

What the result for the other constituent companies has been there is no means of knowing, since no information is furnished. In the case of these companies any loss or deficiency would fall almost entirely on the Amalgamated Company, instead of being distributed in part among outside shareholders. For, as is known, the Amalgamated Company owns the entire stock of the Washoe Copper Co., the Colorado Smelting (now the Trenton Mining & Development) Co. and the Big Blackfoot Milling Co., and all but a few shares of the Boston & Montana and the Butte & Boston companies. In the Parrot Company, as in the Anaconda, it owns only a majority interest. In the present circular of the Amalgamated Company it is stated that the companies owned wholly or in part by it produced, in the calendar year 1907, from their own and custom ores, about 212,000,000 pounds of refined copper, of which the Amalgamated Company, we are told, "received the benefit from about 178,000,000 pounds." The previous calendar year the total product of the various companies was stated at 275,000,000 pounds, of which the Amalgamated Company was reported to have "received the benefit" from about 224,000,000 pounds.

It is not likely, however, that the other constituent companies, and in which the ownership of the Amalgamated Company is almost absolute, fared as badly as the Anaconda Company. The reason is that the suspension of work in the case of the Anaconda Company was much greater than in the case of the other companies. The Anaconda Company in the calendar year 1907 produced only 63,055,661 pounds of refined copper, as against 94,963,835 pounds produced in the calendar year 1906. The report of that company states that, commencing with September, production was sharply curtailed until it reached as low a point as 35% of the normal. At the beginning of December, the condition of the copper trade having shown further decline, the mines and works of the Anaconda Company were shut down completely.

We also get an idea of the policy pursued in the operation of the various properties from the remarks given in the Amalgamated Company circular. It is pointed out that, after operating for a period of several months under curtailed conditions, during which time the producing cost was far in excess of the normal(owing to the fact that each company was producing only a small part of its normal output), it was deemed advisable to confine all operations *to one unit*. Accordingly, the mines and smelter of the Boston & Montana Co. at Great Falls were put in operation to their fullest extent. It is well enough to note that Mr. Heinze's United Copper Co., in its annual report, submitted the present week, makes an even worse showing than the Amalgamated Company, its income for 1907-08 being given at but $861,023, against $6,565,592 for 1906-07.

The situation now appears greatly to have improved —not as regards price but as regards working. The report of the Anaconda Company, after stating that the mines and works of that company continued idle during January and February 1908, points out that in the early part of March work was again started, and in the latter part of the month production had about reached the normal. To like effect are the remarks of Secretary Melin of the Amalgamated Company, he stating that on March 1 1908 the mines of all the different companies and the Washoe smelter were again put into commission and are now being operated to their full capacity.

In another particular the Amalgamated properties should also show improvement during the current fiscal year. Cost is likely to be materially reduced. Wages, for one thing, will be lower, and the managers are certain to turn their attention to better-paying grades of ore. When the price of the metal is very high, it is the practice to treat ores of a lower grade, since the high price makes it profitable to do this. Last year the reverse in the copper trade and the drop in price were so sudden that it was not possible to change quick enough and turn to a higher grade of ore. For instance, the Anaconda report notes that much of the product resulting from the treatment of low-grade ores was not marketed until the late months of the year, when the price of copper had receded to a point where the profit on its production was either very much smaller than had been expected or was entirely wiped out—the price ruling 10 to 12 cents per pound lower than at the time the ore was extracted. As indicating the situation in anther particular, it is stated that the copper on hand at the end of the year was produced during the period of curtailment of production, and actually cost $163,105 in excess of the amount realized from its sale. Examination of the expense accounts of the Anaconda Company also show how difficult it was to curtail expenditures under the conditions prevailing. Though the output of copper by the Anaconda Company was reduced nearly one-third, and receipts from the sales fell off nearly $9,000,000, mining expenses were reduced only from $5,870,439 to $5,241,704 and the reduction expenses at Anaconda only from $4,424,278 to $3,640,295.

In addition to all this there should be a lowering of cost also from a constant improvement of processes and from the economies of operation rendered possible by the extensive improvements made in recent years. We have in the past frequently alluded to the enor-

mous concentrating and smelting works constructed at Anaconda by the Washoe Copper Co., at an original cost of over $9,000,000. At these works are treated the ores of the Anaconda, the Washoe, the Parrot, the Colorado and the Butte & Boston mining companies. During the past year the Washoe smelter was equipped with electric power, thereby greatly lessening the cost of operation, and this smelter is able now to treat 10,000 tons of ore per day without difficulty. The ores of the Boston & Montana Company are treated at the latter company's own smelting plant at Great Falls, and here, too, extensive further improvements are under way. These involve the erection of a smokestack 506 feet in height. During the past year work on these improvements was diligently prosecuted, it is stated, all of the grading for the flues and dust chambers having been finished, and the new stack built to a height of about 50 feet.

## *COTTON ACREAGE AND CONDITION JUNE* 1908.

Although the season now drawing to a close has been, in all of its aspects, a much less favorable one in cotton-manufacturing lines than either of its two immediate predecessors, both as regards the output of goods and prices received, the producer of the raw material has had no great cause for complaint. In some sections of the country, to be sure, the yield the closing season has been materially curtailed, but the average price the planter has received for his product has been comparatively high, so that the crop of 1907-08 in the aggregate has made a profitable return. This matter of price received for a crop, especially if it is sufficiently compensatory to the farmer at the time he is preparing for the next planting, is an important factor in determining his attitude as to area.

But there are still other factors influencing his action. We have passed the time when the Southern farmer thought only of putting in all the cotton he could get in without regard to how it could be disposed of. Therefore, the state of the goods market, present and prospective, and the situation as regards surplus stocks of raw material, are considerations appealing to him with added force year by year. These points have been uppermost in his mind the current spring. Over against the decreased consumption of cotton in the world in 1907-08, and the uncertain, if not unpromising, outlook for the immediate future in the goods trade, he has placed at the time of planting this spring the fact that not only has the American crop shown a considerable decrease in 1907, but that other sources of supply have contributed less liberally than in 1906-07. Striking a balance, he has found that notwithstanding the decreased consumption, the world's surplus stock of the raw material in sight and in mills is noticeably less now than it was a year ago, and that the deficiency is likely to be further increased before new supplies are at hand. Under the circumstances it is not surprising that the tendency to add to the area under the staple, so apparent in the spring of 1907 and 1906, has not been wholly curbed this year, though the lack of ready money or credit has, no doubt, been a serious setback.

It will doubtless be remembered that the phenomenal activity in all the cotton goods markets of the world in 1906-07, and consequent unprecedented demand for the raw material at high prices, furnished the needed incentive to induce additions to acreage in the spring of 1907, even though the previous crop had been of practically record proportions and considerably in excess of consumptive requirements. It is in fact true that the surplusage from the combined cotton crops of the world in 1906-07 swelled the stocks (visible being 500,000 bales greater, invisible 1,000,000 greater) at the end of the season to approximately 6,000,000 bales of 500 lbs. each net weight, an increase over the same time in 1906 of over 1,500,000 bales. Last spring's planting (1907) was presumed to exceed that of 1906 by nearly 5%, and therefore, with fairly normal conditions, it was an expectation widely entertained that the crop would be large. But while in the eastern section of the cotton belt the weather seems to have been favorable on the average, judging from the yield secured, it was not conducive to good results along the Gulf and in central districts, being distinctly disastrous in portions of Texas. Instead of a commercial crop of 13½ millions of bales, as in 1906-07, the completed figures for 1907-08 bid fair not to materially exceed 11 1-3 millions. It is an open question, however, whether the aggregate of cotton that will have come into sight in the twelve months of 1907-08 will as nearly represent the actual growth as in most former seasons. A belief amounting practically to conviction is very prevalent that a comparatively large amount of cotton has been held back this season. This belief is strengthened by the surprising decrease in yield indicated by reports from Texas to the Census Bureau. It is hard to conceive of a crop of only 2¼ millions of bales in 1907-08, or practically the same as in 1888-89, with the area in the interval more than doubled. But brushing aside any doubts as to the approximate accuracy of the Census Bureau's report of 11,375,461 bales as the yield of 1907-08, and considering also the marked decrease in the India crop, and smaller contributions by the various small producers, it becomes quite apparent that only the decided decline in the world's aggregate consumption prevented the surplus stock from being very heavily drawn upon.

As in most recent years, the Southern planter has been bombarded this spring with advice to curtail acreage, and has apparently given it about as little attention as on previous similar occasions. He is not likely to take very kindly to advice of that sort at a time when cotton is making a profitable return. There have been years in which it would have been greatly to his advantage to have disregarded the money point and paid more attention to the situation as regarded surplus supplies of the raw material at time of planting. He did not, however, contract on such occasions, and suffered for his temerity. But that is ancient history. Now we are dealing with large times, even though for the moment our industries are comparatively inactive. Consumption of cotton has reached such a high level that a carry-over of a million bales or so from a crop is looked upon more as an assurance of adequate supplies of the raw material the succeeding season rather than as a threat of over-supply. With cotton, as with grain, a large or increasing acreage does not insure a good crop, as the following compilation fully demonstrates.

| Year's Planting. | "Chronicle" Acreage. | Crop Bales. | Pounds per Acre. |
|---|---|---|---|
| 1870 | 9,985,000 | 4,352,317 | 191 |
| 1883 | 17,449,000 | 5,714,052 | 149 |
| 1884 | 17,834,000 | 5,669,021 | 144 |
| 1889 | 20,173,480 | 7,313,726 | 169 |
| 1890 | 20,910,320 | 8,655,518 | 194 |
| 1891 | 20,838,205 | 9,038,707 | 203 |
| 1894 | 20,680,247 | 9,892,766 | 234 |
| 1896 | 21,718,545 | 8,714,011 | 194 |
| 1897 | 23,028,792 | 11,180,960 | 237 |
| 1898 | 23,175,000 | 11,235,383 | 240 |
| 1899 | 24,175,245 | 9,439,559 | 189 |
| 1900 | 26,533,944 | 10,425,141 | 193 |
| 1901 | 27,874,105 | 10,701,453 | 186 |
| 1902 | 27,300,371 | 10,758,326 | 192 |
| 1903 | 28,995,986 | 10,123,686 | 170 |
| 1904 | 32,363,690 | 13,556,841 | 207 |
| 1905 | 28,808,415 | 11,319,860 | 192 |
| 1906 | 31,557,242 | 13,550,760 | 211 |
| 1907 | 33,079,425 | *11,375,461 | 170 |

* Census Bureau total.

The foregoing is self-explanatory and at the same time highly instructive. It shows how inconclusive the mere fact of area is as indicative of product. With normal conditions, the larger the acreage the greater the aggregate yield. Acreage, however, can be controlled, while weather cannot. One example taken from the above will suffice. It will be noted that in 1898 (properly speaking, 1898-99), the crop, favored by quite satisfactory weather conditions throughout, reached the then record total of 11,235,383 bales, or an average of 240 lbs. lint per acre. In the year now drawing to a close the crop is approximately the same in number of bales as in 1898-99, but the yield per acre is only about 170 lbs. Acreage in the meantime having increased over 40%, normal conditions of weather should have given that much greater yield, or about 16 million bales. But the weather was not normal. In the light of this compilation the folly of early crop estimates, that of necessity are based entirely upon area, becomes apparent.

A consideration of no small importance this season as a factor in determining the extent of area has been the labor supply. For some years past each spring there has been complaint of lack of laborers. This season, if complaint were to be made, it would be of plethora. The reason for this situation is so patent that it needs no explanation. With labor plentiful and prices for cotton remunerative, even at the lower level of values recently current, arguments for decreasing of area are largely futile. The Southern planter knows, if others do not, that with a cotton product of as low as 1-3 bales per acre and 8 cents per lb. for lint, cotton is a more profitable crop than either wheat or corn at a comparatively high level of prices. And this, not counting the excellent returns received for surplus cotton seed. What good reason is there for the Southern farmer planting other than cotton, beyond his necessities, when cotton gives him best returns?

*Conclusions.*

From the details by States given on subsequent pages, we sum up our conclusions briefly as follows

FIRST, *Acreage.*—As already indicated, the tendency at the South this year has been in the direction of adding to the cotton area, but in the main along conservative lines. In fact no radical inclination towards increase has been evidenced except in newer sections. In this respect this season differs little from that which preceded it, even though the gain in acreage is not as large as then indicated. Comparatively high prices for the staple pretty much all through the season now closing, and a gradual and, on the whole, appreciable reduction of surplus stocks, notwithstanding the restriction of consumptive requirements, have been more effective in determining the course of the planter than the oft-extended advice to cut down acreage with the expectation of forcing much higher prices. At the prices ruling in 1907-08, however, cotton has been too profitable a crop to neglect in favor of other products, and there is apt to be a lurking fear that, under existing circumstances, advice to cut down area is not wholly disinterested. It is only in newer sections, as already remarked, that we find really important additions. As we analyze the situation, the net augmentation in the country's cotton area is 1.31%, against 4.82% last year. The changes, as we have made them for each State, are shown in detail in the following:

| States. | Acreage, 1907. | Estimated for 1908. | | |
|---|---|---|---|---|
| | | Increase. | Decrease. | Acres, 1908. |
| Virginia | 35,359 | ---------- | -------- | 35,359 |
| North Carolina | 1,156,116 | ---------- | -------- | 1,156,116 |
| South Carolina | 2,554,244 | ½ per cent | -------- | 2,567,015 |
| Georgia | 4,464,892 | ½ per cent | -------- | 4,487,217 |
| Florida | 322,945 | ---------- | -------- | 322,945 |
| Alabama | 4,724,845 | 1 per cent | -------- | 4,772,093 |
| Mississippi | 3,698,911 | 1½ per cent | -------- | 3,754,395 |
| Louisiana | 1,714,623 | ½ per cent | -------- | 1,723,196 |
| Texas | 9,494,327 | 2 per cent | -------- | 9,684,213 |
| Arkansas | 1,972,866 | 1 per cent | -------- | 1,992,595 |
| Tennessee | 792,717 | ---------- | 1 per cent | 784,790 |
| Oklahoma | 2,082,304 | 4 per cent | -------- | 2,165,596 |
| Missouri | 65,276 | 2 per cent | -------- | 66,582 |
| Total | 33,079,425 | 1.31 per cent | -------- | 33,512,112 |

This compilation shows that there is a net increase compared with 1907 of 1.31%, the total acreage reaching 33,512,112 acres in 1908, against 33,079,425 acres in 1907. We add the acreage for previous years for comparison, giving at the foot of the table not only the acreage but the total crop for each year, with the percentage of increase or decrease in area or production compared with the previous year and the product per acre.

COTTON ACREAGE FOR THE YEARS NAMED—(000s omitted).

* Decrease.

SECOND.—With regard to maturity, cultivation and condition, the conclusions we reach are as follows:

(1) *As to Maturity.*—This crop in its start may be designated as well up to the average of recent years, and more advanced than that of last year. One fact to be remembered is that after growth of early planted seed had really begun, the weather was quite satisfactory in most sections up to the close of April. Then a cold period of about two weeks' duration intervened, checking development of late planting, and there were some complaints also of excess of rain or lack of it. These adverse influences, however, disappeared quite generally about the middle of May, since which time conditions have been normal in the main, fostering satisfactory growth of the plant. Floods in portions of Texas and Oklahoma in late May, however, were unfavorable features. So far as we have been able to learn, no considerable damage resulted from the unfavorable conditions noted, and telegrams of date June 1 from the various sections of the belt denote that the crop is doing well on the whole, and with average seasons from now on should give a fairly full yield on the area planted.

(2) Cultivation has proceeded satisfactorily as a rule all though the season. Rains, which caused cotton to develop, also, of course, fostered growth of weeds and grass, but farmers have been able to keep up with their work, with no serious interruption, and the situation in this particular contrasts favorably with a year ago, when on the first of June fields in many sections were unusually foul. Fertilizers have been used a little less extensively this year, the takings of commercial sorts exhibiting a slight decrease, while in home-made manures the gain, if any, has been inconsiderable.

(3) *Condition* of the plant, as our summaries indicate, is fairly promising, taken as a whole, and as we said, better than a year ago at this date. The States least favorably situated—if any such distinction is to be made in a season when the outlook is fairly good almost everywhere—are those where floods have recently occurred. Suffice it to say that whatever the weather may prove to be later in the season, the plant is in most sections in fair trim to resist adverse conditions.

Our summaries by States are as follows:

VIRGINIA.—Planting was begun and completed in this State at about the same time as in 1907. Seed are stated to have come up rather poorly as a rule, mainly as a result of cold weather, and from the same cause more than a normal amount of replanting was required. Low temperature was an adverse factor during early May, and there were also some complaints that lack of moisture militated against prompt and satisfactory germination. It was not until after the middle of May that more favorable conditions led to any really satisfactory development, so that the plant at this writing, although more mature than in 1907, is behind an average year. *Stands* are now, however, fairly good, and fields are stated to be free of foreign vegetation and well cultivated. *Acreage* has been added to in some districts and decreased in others, and has seemingly undergone, for the State as a whole, no measurable change from that of a year ago. *Fertilizers* have been a little less freely used than in the previous season.

NORTH CAROLINA.—The planters in this State were as a whole able to get in their seed in advance of 1907. In other words, not only did the preparation of land proceed better than a year ago, but planting operations suffered less delay from climatic conditions than then and in consequence work was completed quite generally between May 15th and 20th, or from a week to ten days earlier than last year. Most of our correspondents report that seed came up well but the germination of those planted in late April and early May was delayed by cool and dry weather, giving a rather poor start to part of the crop. A further result of the adverse conditions was that a fair amount of replanting has been necessary. Frost was reported in some localities at the close of April, but as a rule, owing to the dry weather, no appreciable damage was done. Subsequent to the midddle of May climatic conditions turned more favorable, rain falling where needed and temperature ranging higher, working considerable improvement in the plant. *Stands* range from fairly good to good at this writing and fields are clear of weeds and grass. *Acreage*.—The tenor of our returns on this point is that there has been but little change in the area devoted to cotton. In some districts decreases are reported, but they have been a little more than offset by increases at other points; the resultant gain for the State as a whole, however, is in our judgment so small that we leave the area as it was last year. *Fertilizers* of the commercial sorts have been taken to about the same extent as last year, but in home-made composts a small decrease is indicated by our returns

SOUTH CAROLINA —Although the planting season was a few days later than in an average year, it was fully ten days earlier than in 1907. But in this connection a tendency is to be noted in some districts in recent years to purposely delay the time of planting in order to avoid adverse weather conditions, and that fact must be taken into consideration in making comparison of seeding time with earlier seasons. This year in a few districts seed was put in as early as the middle of March but there was no activity to operations until about April 10, after which date good progress was made until the cold spell set in at the close of the month. Some delay then ensued but seeding was practically completed by May 20. Early planted seed germinated well to very well, but late plantings were delayed in coming up by cool weather. That circumstance, in conjunction with defective seed, accounts, moreover, for an amount of replanting rather in excess of the average. As to weather since growth began, it would seem to have been quite favorable except during the last two or three days of April and the first two weeks of May. In fact, since the middle of May there has been little or nothing to complain of, either as regards rainfall or temperature. Development of the plant has consequently been satisfactory on the whole. *Stands*, therefore, now range from good to very good, and the fields are reported to be very free of foreign vegetation. *Acreage*.—The policy as regards area in South Carolina this season may be described as conservative. Changes h ve occurred in many districts, but they haye been moderate or slight quite generally—some increasing, others decreasing, and the majority evincing a disposition to adhere to a planting identical with last spring. For the State as a whole, in the light of our information, we estimate a gain of not more than one-half of one per cent. *Fertilizers*.—Financial considerations—difficulty in securing credits—have apparently operated to cause a decline this year in the takings of commercial fertilizers, and there seems to have been a moderate decrease in the use of home-made sorts.

GEORGIA.—On the average the planting season was about a week to ten days ahead of last year, work starting is some sections about the first of April and finishing generally in the third week of May. While the season in April this year was, on the whole, more favorable than in 1907, there are complaints that heavy rains between the 10th and 20th flooded some bottoms and rendered the soil crusty and hard to work in a few upland localities. This of course militated against the start in the territory affected. With regard to germination our returns are quite full but to some extent conflicting. They indicate, however, that seed came up fairly to very well in most instances, early plantings doing best. Following the cessation of the excessive rains there came an interval of cold weather that continued until about May 12, and at the same time there was lack of moisture at many points. These adverse factors naturally checked development of the plant and called for more than a normal amount of replanting in a number of districts. Since the middle of May more favorable conditions, both as regards temperature and rainfall, have prevailed, working much improvement in the plant and leaving it on June 1 more satisfactory than at this time a year ago. *Stands* range from fairly good to good now, and fields have been put in excellent state of cultivation, the absence of heavy or continuous rains facilitating work. *Acreage* has been slightly increased in Georgia. Early indications were for a larger addition than our returns seem to warrant; some members of the Farmers' Union have plowed up fields already planted, substituting corn and peas for cotton This substitution does not appear to have been sufficient to cut off all the intended augmentation of area, an analysis of our replies leading us to make the acreage one-half of one per cent more than last year *Fertilizers* of the commercial sorts have been taken a little less freely, but home-made manures have been used to about the same extent as a year ago.

FLORIDA.—The preparation of land for cotton and the actual putting in of seed in Florida this season was a few days in advance of 1907. In some sections planting was commenced shortly after the first of March and was completed in about a month's time. Elsewhere, however, a later start was made—not, in fact, until near the close of March—and work, being interfered with by droughty conditions, was not finished until about May 10. Our reports on germination indicate an irregular coming up of the seed, but on the average the plant started off fairly well. The drought to which we have referred above continued in some localities up to the 19th of April and was succeeded by a cold spell and rather more moisture than desired—conditions not calculated to promote satisfactory growth and development of the plant, but only a moderate amount of replanting was entailed. Since about the 12th of May, however, improved and generally favorable weather conditions have been experienced, and the plant has done very well. *Stands* average good over the State and fields have recently been brought up to a very good state of cultivation. *Acreage* appears to be unchanged from last year. *Fertilizers* are not freely used and this season a decrease in the takings of commercial sorts is to be noted.

ALABAMA.—Planting began shortly after the middle of March in Alabama, although comparatively little seed was put in in that month. But the continued favorable weather of the early part of April caused work to be actively prosecuted. At the same time some farmers, having in mind their experience of last year, delayed operations still further, and as conditions were unfavorable during late April, quite a deal of bottom land was not planted until after the first of May. To sum up the situation, over a considerable section planting was finished by the end of April, but it was not completed everywhere before the 15th of May, the season being ten days to two weeks in advance of 1907. Our reports as to germination are quite favorable. One or two correspondents state that seed came up poorly, referring more particularly to late plantings, but the consensus of opinion is that they germinated well to very well. During March and up to near the close of April the weather was very favorable as a rule, but for about two weeks ending with May 12, low temperature and excess of moisture were mentioned as adversely influencing the plant, hindering work. Owing to the heavy rains in some sections, rivers and creeks

overflowed and washed lands badly, rendering necessary more than the usual amount of replanting. For the past two or three weeks, however, temperature and rainfall conditions have been more satisfactory, and the plant has developed very well, presenting now a much stronger and healthier appearance than a year ago. *Stands.*—Information on this point varies as to locality, but at this writing most reports are fairly favorable. There are, as in all years, some complaints, but with few exceptions the stand this year is stated to be good and the work of cultivating the crop is reported to have been very well attended to lately. On the whole, the outlook in Alabama June 1 was rather promising. *Acreage.*—Notwithstanding a disposition in many sections to make no change in area, we found a tendency prevailing elsewhere to increase the amount of land under cotton, and in some cases to the extent of 10 and 20%. A few correspondents, in fact, state it as a settled policy to plant all they can. The adverse conditions of early May, especially the overflowing of bottoms, caused a modification of early intentions, so that a thorough canvass of the situation does not seem to warrant placing this year's average addition at more than 1%. *Fertilizers* of the commercial sort have received less attention, but home-made composts have been normally used.

MISSISSIPPI.—Over quite a considerable portion of Mississippi the planting season was prolonged by unfavorable weather conditions. In some instances the putting of in seed was begun shortly after the first of March and for the State as a whole planting was well under way in early April. But during the month the rainfall was rather in excess in a number of sections and the same was true to an extent of the early part of May. As a result some bottom lands along the Mississippi and tributary rivers and creeks were overflowed and had to be replanted. In upland sections conditions were more satisfactory, yet planting in the State as a whole was not completed until near the close of May. Subject to the qualification that some latest-planted seed is only just now coming up, our returns as to germination are in the main favorable. A few state that seed came up poorly, many say well, and still others exceedingly well, or better than usual. Aside from replanting due to the flooding of bottoms, cold weather and washing of land by heavy rains has been responsible for a moderate amount. There are, of course, some complaints of adverse conditions other than the excess of moisture referred to above. Low temperature was a feature not conducive to normal development during the first ten days of May and rather more rain than desirable is also referred to With the supervening of favorable conditions over much of the area, about mid-May, however, the plant quite generally began to take on better growth, and on June 1 was doing nicely, being much better situated than a year ago. This is evidenced by the fact that *stands* now are reported generally good and recently there has been ample opportunity for thorough cultivation. *Acreage.*—The tendency in the matter of area this year has been towards increase. Many returns report unchanged results and a few denote that decreases have been made. On the other hand, additions running as high as 25% are reported. In our judgment the conclusion seems to be warranted that there has been a net gain of 1½%. *Fertilizers.*—Increased takings of commercial sorts are noted at most points, and a slightly greater amount of home-made composts has been availed of.

LOUISIANA.—Favorable weather in the early spring facilitated the preparation of land for cotton, and as a result planting in some sections was under way shortly after the opening of March. Work did not become general, however, until about the first of April, and for a time was vigorously prosecuted. But toward the close of the month, and in fact in early May, the rainfall was excessive, washing uplands in some sections a d overflowing bottoms, and consequently interfering with or completely preventing the completion of seeding. Thus it happened that the finish was not before the middle of May or later than in an average year, but in advance of 1907. The adverse conditions referred to, in conjunction with low temperature in late April and the first ten days in May, caused some late plantings to start off rather poorly, but on the whole seed came up well, and some correspondents say germination was excellent. Naturally, some replanting was necessary, but much less than in the previous year. Development, of course, was slow during the period of low temperature, but since the tenth of May there has been little to complain of except too much rain at a few points. The plant, therefore, has taken on satisfactory growth in the main, and at this time is in a fairly promising condition. *Stands* are goods as a rule, and in some cases are reported exceptionally so, or practically perfect, and the crop is on the whole in a high state of cultivation, as is indicated by correspondents' remarks that the fields have not been as well worked in years. *Acreage* has been derceased in some sections and the correspondents so reporting state that the falling off is due to fears of the boll weevil. Elsewhere there have been additions in many cases, and for the whole State a fair average gain would be about ½%. *Fertilizers.*—Commercial fertilizers have been a little less freely used and home-made manures have been availed of to about the same extent as in 1907. Artificial aids are, however, not much of a feature in the agriculture of Louisiana.

TEXAS.—With a bountiful season in the ground in most sections of Texas as a result of the rains of last fall and winter, and favorable weather conditions in the early spring, preparations for the crop this year started off quite auspiciously. Planting operations began in the more southerly part of the State before the close of February, and, meeting with no special hindrance, were completed in that locality before the end of March. Elsewhere work did not begin until much later as a rule—from March 15 to a little after April first—and finished anywhere from April 20 to May 20, cold weather and excess of moisture being retarding influences. Early-planted seed almost without exception came up well to very well, and, favored by satisfactory conditions of weather down to the last few days of April, developed finely. Later seeding did not do so well, having had to contend with cold weather in very late April and the first ten days of May and rather too much rain in some sections during the same period. Furthermore, on April 28 to 30 frosts occurred, being killing in a few localities. It followed, therefore, that more than the usual amount of replanting had to be done. After the tenth of May the weather was more favorable on the whole, giving the plant very fair growth, but about the 20th in some districts too much moisture was complained of, and on the 23d and 24th heavy rains caused the Trinity River to overflow considerable sections already under cotton. The past week conditions have been more favorable, and an improvement in the crop is indicated by our advices of June 1, except in the flooded sections. *Stands* vary much, according to locality, some saying good to very good, others exceptionally good, and quite a number only fair or below normal. On the average, we should judge they are fairly good, and therefore better than last year at this time, with the qualification that little can be said of the districts recently flooded. Fields are in a good state of cultivation now. *Acreage* has been increased in newer sections of Western Texas, reports from that locality giving percentages of addition running as high as 30%. Elsewhere conservatism has been quite the rule, and there have been some decreases. For the State as a whole, making allowance for loss of area through flooding, we estimate the gain at 2%. *Fertilizers* are used only in a limited way.

ARKANSAS.—The returns at hand indicate that weather conditions operated somewhat to delay planting operations this spring but not to the extent that work was interfered with in 1907. Seeding began between the first and tenth of April and was completed on the average about the close of the third week of May, or about ten days in advance of a year ago. Early-planted seed came up well to very well, but the general cold weather and, at some points, excessive moisture of late April and early May, checked germination, giving to late plantings a less satisfactory start. From the adverse conditions referred to above, and from the overflowing of land outside the levees, replanting has been required, but much less than last year. Recent conditions of weather or more properly speaking since the middle of May, have been favorable in the main, and the crop has done relatively quite well. The plant is smaller than in an average season as a result of the period of low temperature, early plantings being best situated, and some land in the river valleys have been flooded. But the crop as a whole is in better condition than at this date a year ago and on June 1 was, according to telegraphic reports, making fairly satisfactory growth. *Stands*, while somewhat irregular, are on the whole good, and recently there has been no special hindrance to work of proper cultivation. *Acreage.*—Early intentions as to area have suffered some modification, but not so far as we can learn through any inclination to pay attention to advice to cut down acreage. In newer sections increases have been the rule, reported percentages being high in some cases. On the other hand, there have been some reductions. The majority of farmers have apparently adhered to about last year's area of planting and this fact leads us to infer that a fair measure of average increase for the whole State would be about 1 per cent. *Fertilizers* come in for no great amount of attention in Arkansas, but this year commercial sorts have likely been used a little more freely.

TENNESSEE.—The prevailing weather conditions during the early spring hidered farming operations. Continued rains and cold weather retarded the preparation of the soil and the same adverse influences made progress with planting slow. Seeding began in a few districts shortly after the first of April but planting was not finished until during the last week of May, or later than in an average season, although a few days in advance of 1907. First-planted seed came up quite well, but later plantings germinated rather poorly. Replanting to a greater extent than normal was required. Since about the 12th of May more seasonable weather has prevailed, under which the plant has done reasonably well, but is of course at this time not so forward in development as in an average season. Most recently replanted cotton is not yet up or is just about starting off, so has not reached that point in development which permits referring to the stand. But where the plant has been chopped out, *stands*, while small, are good as a rule and fields are clean. *Acreage.*—In this State we come upon a somewhat different situation as regards area, the returns indicating a small average decrease. This is due to the substitution of tobacco for cotton on account of the extremely high prices ruling Making due allowance for all the changes that have taken place, we are impelled to reduce

the acreage for the State as a unit by 1 per cent. *Fertilizers* are little used.

OKLAHOMA.—Taking Oklahoma, which now includes the former Indian Territory, as a whole, the planting season was later than in an average year and not much in advance of 1907. Low temperature and wet weather interfered with the preparation of the soil and consequently with the putting in of the seed. Ge minat n was delayed quite materially and most of our returns indicate that seed came up poorly or not very well Lat April an l early May were rather cold, with frost in some localities, and excess of moisture was also complained of. From these various causes, and the subsequent overflow, quite a replanting was necessary, the last of which has not yet been completed. Conditions from about the 10th of May to the 23d were quite favorable, but on the latter date and on the 24th there were very heavy rains in Southern districts, causing rivers to rise, flooding an important area of cotton land. Favorable weather has been experienced the past week, and outside the flooded territory there is a marked improvement in the situation as June opens. *Stands*, subject to the qualifications noted above, are now fair to good and cultivation has not been neglected. *Acreage* has been materially increased in some localities, but the unfavorable factor of flood, referred to above, has served to cut down area in sections affected, so that for the whole State the average increase is approximately only 4 per cent. *Fertilizers* receive little or no attention.

MISSOURI.—Planting was delayed here also by adverse weather conditions and was on the average later by ten days or two weeks than in a normal season. Seed came up well at first, but excessive rains injured the plant to some extent and low temperature checked growth. Only a moderate amount of replanting, however, had to be done. Too much moisture was claimed to be an almost continuous unfavorable factor during April and early May, but latterly the conditions generally have been favorable, much to the benefit of the plant. *Stands* are now reported to be good in hill lands but below the average in low bottoms; yet on the whole much better than a year ago at this time. *Acreage* has been added to in some districts and cut down in others. For the cotton area of the State as a whole we deem an increase of 2 per cent warranted by our returns. *Fertilizers* are not largely used, but all kinds have been more freely availed of this season

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The public sales of bank stocks this week aggregate 120 shares, of which 76 shares were sold at auction and 44 shares at the Stock Exchange. The transactions in trust company stocks reach a total of 265 shares. The table given below in our usual form shows the actual sales of New York City bank stocks made during the week at auction and at the Stock Exchange. Extensive tables showing the bid and asked quotations, deposits, surplus, &c., of banks and trust companies in all important cities of the United States are published monthly in the "Bank and Quotation" section, the June issue of which accompanies to-day's "Chronicle." Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another department of the paper, and will be found to-day on pages 1394 and 1395.

* Sold at the Stock Exchange.

—The emergency currency bill which passed the House on the 27th ult. became a law on Saturday last, the 30th ult., with its adoption on that day (late in the afternoon) by the Senate, by a vote of 43 to 22, and its immediate approval by President Roosevelt. The day also marked the adjournment of the Sixtieth Congress. An effort to defeat the passage of the bill had been in progress from Friday morning, the fight being led by Senator La Follette, who had the assistance of Senators Stone and Gore. Senator La Follette spoke almost continuously from 12:30 Friday afternoon until 7 o'clock Saturday morning. By its terms the new law expires June 30 1914. It is reviewed editorially on a preceding page and the full text of it will be found on page 1388.

The National Monetary Commission, which the bill provides for (to be composed of nine members of the Senate and nine members of the House), was named on the 30th ult., and is made up as follows: Mesrss. Aldrich, Allison, Hale, Burrows, Knox, Daniel, Teller, Money and Bailey, representing the Senate, and Messrs. Vreeland, Overstreet, Burton, Weeks, Bonynge, Smith of California, Padgett, Burgess and Pujo. Senator Nelson W. Aldrich has been elected Chairman of the Commission; Edward B. Vreeland is Vice-Chairman, and Arthur B. Shelton, Clerk of the Senate Finance Committee, is the temporary Secretary. A sub-committee is to meet at the Plaza Hotel, New York, on the 11th inst. to discuss and prepare recommendations which will be submitted to the full commission at a meeting on July 20.

—A New York Stock Exchange membership was reported transferred recently for $71,000.

—Press dispatches from Mexico City under date of May 28 stated that the Chamber of Deputies had that day passed the new banking bill. This bill regulates the establishment of new banks and provides for the examination of existing institutions. It is also said to define collateral securities and to remedy certain abuses found to exist relative to long-time loans.

—With a view to broadening the market for securities listed on the Stock Exchange at Chicago, or otherwise dealt in at that point, the Chicago banks and commission houses have joined in a movement to induce the opening of transfer offices in Chicago by corporations whose securities are largely held in that territory. To this end a committee of five, appointed by the Governing Committee of the Chicago Stock Exchange, and consisting of F. D. Countiss, J. J. Townsend, H. D. Sturtevant, H. C. Hackney and S. Liebenstein, has addressed a letter to such corporations, urging the establishment by them of transfer offices in Chicago, and the listing of their securities on the Stock Exchange of that city. In its argument for the adoption of this course, the committee points out that the resultant saving of the transfer tax imposed by the State of New York is an item of considerable importance to the stockholders; it also declares that the long delay in transferring stocks traded in on the Chicago market which have their transfer offices in New York works a great disadvantage to that market, inasmuch as brokers hesitate to recommend the purchase of stocks for investment which which cannot be easily and readily transferred.

—Clark Williams, New York State Superintendent of Banks, has increased his force of State bank examiners from four to ten in order to meet the requirements of the new banking laws, entailing more adequate supervision of State institutions.

—Secretary Fred. E. Farnsworth of the American Bankers Association makes the following announcement concerning the annual gathering of that organization, as a result of his visit to Denver, where the meeting will be held during the week of Sept. 28: Monday and Tuesday, the 28th and 29th, will be given to committee meetings, the executive council and the various sections; Sept. 30 and Oct. 1 will be set apart for the business sessions of the association, and Oct. 2 for entertainment. During his visit to the Western city Mr. Farnsworth, with a local committee of bankers, went over the various details appertaining to convention week. Mr. Farnsworth also attended the annual convention of the Missouri Bankers' Association, and that of the Tennessee Bankers' Association. At both of these he made brief addresses on the State association work and the work of the national organization.

—The board of directors of the Carnegie Trust Co. of this city was reorganized at the annual meeting of the stockholders on Monday in order to provide for the representation of new interests. The new members are Frederick Weyerhauser, millionaire lumberman of St. Paul; James W. Lusk, President of the National German-American Bank of St. Paul; Alexander McDonald of Cincinnati; George E. Roberts, President of the Commercial National Bank of Chicago; John Sherwin, President of the First National Bank of Cleveland; George C. Smith of the Westinghouse interests, Pittsburgh; J. J. Spaulding of Atlanta; Sol Wexler, Vice-President of the Whitney Central National Bank, New Orleans; Alden Anderson, former Lieutenant-Governor of California; David H. Bates; Adolphus Busch of St. Louis; William J. Cummings of Nashville; Newman Erb; David R. Francis,

former Governor of Missouri, and Vice President of the Merchants-Laclede National Bank of St. Louis; William P. G. Harding, President of the First National Bank of Birmingham, Ala., and Liston L. Lewis. The following directors were re-elected: Anson W. Burchard, A. B. Chandler, James R. Curran, Charles C. Dickinson, Frank L. Grant, W. A. Keener, Frederick Lewisohn, Alton B. Parker, J. G. Robin, Jacob Ruppert Jr., Charles M. Schwab, James Talcott and Edgar Van Etten. Paul Warburg of Kuhn, Loeb & Co. and Leslie M. Shaw, formerly President of the Trust Company, are among the retiring directors.

The Carnegie Safe Deposit Co. has issued invitations for an inspection of its new armor-plate vaults in the Trinity Building on Wednesday, June 10, from 2 until 6 o'clock.

—The Knickerbocker Trust Co. of this city has arranged for the erection of an eight-story office building on the former site of the Consolidated Stock Exchange, corner of Broadway and Exchange Place. The property was purchased by the company in May 1906 and it was the intention to erect thereon a twenty-story building. The accepted plans, it is said, provide for a foundation which will permit of the building of additional stories, should the company decide later to carry out its original purpose. The property has a frontage of 67 feet on Broadway, 133 feet on Exchange Place and 67 feet on New Street.

The Appellate Division of the Supreme Court in Brooklyn rendered a decision yesterday reducing the original allowance of $75,000 for each of the three receivers of the Knickerbocker Trust Co. to $20,000 each. The opinion was written by Justice Gaynor, who declared that the sum originally allowed was "so grossly excessive as to amount to a spoliation of the assets of the trust company."

—H. P. McIntosh, Vice-President of the Guardian Savings & Trust Co. of Cleveland, and Chairman of the Executive Committee of the Trust Company Section of the American Bankers' Association, has been in New York conferring with J. F. Thompson, Vice-President of the Bankers' Trust Co.; L. L. Gillespie, Vice-President of the Equitable Trust Co. of New York, and Philip S. Babcock, members of the Executive Committee, with reference to topics to be discussed at the coming meeting of the Section to be held at Denver on Sept. 29. Other matters with reference to the convention are being carefully considered, and it is expected that the meeting will attract unusual interest.

—J. P. Dunning, Manager of the Fifth Avenue branch of the Corn Exchange Bank of this city, was appointed a Vice-President of the institution on Wednesday. He has been with the bank over twenty-five years.

—The proposition to increase the capital of the Chelsea Exchange Bank of this city from $100,000 to $200,000 is to be submitted for the ratification of the stockholders at a special meeting on June 18.

—James W. Walsh, of the New York Stock Exchange firm of Walsh & Floyd, died at his home at Lawrence, L. I., on the 3rd inst. Mr. Walsh was fifty-six years of age. He had been a member of the Stock Exchange since 1879. Nicoll Floyd is the surviving partner in the firm.

—The Chatham National Bank of this city recently concluded the purchase of the nine-story building on the north east corner of Broadway and John Street, in which it is housed. The property measures 20 feet on Broadway, and 162 feet on John Street, with a rear line of 42 feet. It is expected that the bank will utilize the second floor of the building, when the present leases expire.

—Quarterly dividend No. 28 of the Nineteenth Ward Bank of this city, declared this week, was made 3%, as against 2½% paid in previous quarters. The dividend is payable June 30 to holders of record June 20.

—The payment of an initial dividend of 25 per cent to the depositors of the failed New Amsterdam National Bank of this city was begun on Tuesday by receiver J. H. Edwards. The bank closed its doors on January 29 last, when its deposits aggregated a little more than $2,000,000. Its indebtedness to the Clearing House, amounting to $300,000 at the time of its suspension, was cleared early in February. It is understood that efforts to reorganize the institution are under way.

—The Home Bank of Brooklyn Borough, located at 5th Avenue and 48th Street, which closed its doors on February 1st 1908, following a two days' run, resumed business on the 4th inst. under a deferred-payment plan. This arrangement provides for the payment of 10% with the reopening; 15% four months from that date; 20% at the end of eight months; 25% after twelve months, and the remaining 30% after sixteen months. The bank was the first taken charge of by the State Superintendent under the provisions of the law, enacted at the late session, giving the Superintendent direct authority over suspended institutions. In contrast with the large receivership fees paid in the case of other closed institutions, the total cost of administering the affairs of the Home Bank under the Department is said to have been but $1,191, of which but $666 goes to Deputy Superintendent G. S. Leonard, who on May 1 was appointed to liquidate its affairs. The bank reopens under the management of William E. Kay, President, Charles Cranford, Vice-President and J. W. Waller, Cashier. It has a capital of $100,000 and a surplus of $50,000.

—An order discharging the receivers of the Williamsburg Trust Co. of Brooklyn Borough, with the understanding that the institution is to resume business on the 8th inst., was granted by Supreme Court Justice Kelly, in Brooklyn, on the 1st inst. He also fixed the receivership fees, directing that Augustus Van Wyck, receiver, be paid $20,000, Frank L. Bapst, co-receiver, $10,000, and John G. Lyons, receivers' counsel, $10,000. The company's resumption, which had been previously approved by the State Banking Department, was sanctioned on condition that its depositors be paid in full with the reopening; this is to be accomplished through the aid of the Metropolitan Trust Co., which furnishes the necessary cash to enable it to meet such payment. The reorganization plan, it is understood, involves the deposit by the stockholders of the Williamsburgh Trust Co. of their holdings in a voting trust to continue for two years.

—Through the payment of $80,000 made on the 2d inst. by Eugene A. Georger, former President of the failed German Bank of Buffalo, to receiver A. J. Wheeler, Mr. Georger, it is understood, has been freed from all civil and other proceedings against him in connection with the suspension of the institution. The bank closed its doors in December 1904. The depositors have thus far received 66 2-3% of their claims.

—The directors of the Union Trust Co. of Providence, which resumed business on May 4, have decided to anticipate the 10% installment to depositors, which would not become due until November, and will pay the same on July 6. The company paid in full with its reopening all deposits of $100 or less, and 50% of the trust accounts, the remaining 50% of these accounts being represented by negotiable certificates of deposit. The claims of other creditors and depositors were provided for as follows: 10% with resumption, 70% in negotiable certificates of deposit, payable in 7 installments of 10% each, in from 6 months to 3½ years, and 20% in contingent certificates dependent upon future profits. It is the first of these seven installments that is now to be anticipated.

—The Newton National Bank of Newton, Mass., was placed in voluntary liquidation on May 15. The institution consolidated with the Newton Centre Trust Co. in April, under the name of the Newton Trust Company.

—The Franklin National Bank of Philadelphia is showing noteworthy growth in business. One only has to look at this bank's last statement to the Banking Department at Washington and that under the previous bank call for evidence of favorable indications. On May 14 last deposits reached $28,282,067, the bank's highest mark, a striking comparison with $24,205,181 on Feb. 14, only three months previously. Its capital is now $1,000,000, surplus and net profits $2,286,719, with total resources of $32,561,386. The bank was incorporated in 1900, runs a completely equipped foreign exchange department and is ably officered by J. R. McAllister, President; J. A. Harris, Vice-President, and E. P. Passmore, Cashier. The Assistant Cashiers are C. V. Thackara and L. H. Shrigley.

—The Merchants' National Bank of Philadelphia, known as "the bank of personal service," moved last Saturday to its new banking rooms on the street floor of the Mariner & Merchant Building, corner 3d and Chestnut streets. At the opening Monday morning the officers and director

entertained the stockholders and depositors, officers of other Philadelphia banks and outside correspondents. As soon as existing leases expire, the institution will occupy all the ground floor of the Mariner & Merchant Building, giving its banking rooms the entire frontage on Chestnut and Third streets. Its new quarters are on the same square as the old location, 326 Chestnut St., after fifteen years' tenancy there, the bank having started business on 4th St. below Chestnut St. in 1880. The Merchants' National Bank was one of the first Philadelphia institutions to build up an out-of-town collection business, anticipating in this respect the exchange-charge rule of the New York Clearing House in 1900, and before its adoption the institution established connections with over a thousand banks throughout the United States. The bank was one of the earliest of Philadelphia institutions to install an organized credit department.

—The American Bank is the name of a small bank opened in Philadelphia on Monday. The institution is located at Broad Street and Passayunk Avenue, and starts with a capital of $50,000 and surplus of $10,000. The officials are George W. Shisler, President; John Burt and John H. Baizley, Vice-Presidents, and Frank H. Tuft, Cashier.

—Alfred N. Chandler and Arthur S. Chandler, composing the firm of A. N. Chandler & Co., of Philadelphia, which assigned in February, were adjudged involuntary bankrupts on the 3d inst. Richard S. Hunter has been appointed referee.

—It is reported that the Union Trust Co. of Washington, Pa., has reduced its capital from $492,800 to $250,000.

—Malcolm A. Karshner has been elected Vice-President of the American Savings Bank Co. of Columbus, Ohio, to succeed John A. Vance Jr., resigned. It is said that plans to nationalize the institution are being perfected.

—The new Fifth-Third National Bank of Cincinnati, representing a consolidation of the Fifth and Third national banks, began business on Monday the 1st inst., in the Third National Bank Building. The proposed amalgamation of these two institutions was referred to in detail in this department May 23. The merger was formally ratified by the shareholders of the Fifth National on Monday; although the stockholders of the Third National will not meet until the 18th inst. to take similar action, the proxy committee of that bank holds over 10,000 of the 12,000 shares—more than is required to authorize the merger. The enlarged bank starts with a capital of $2,500,000 and surplus and profits of $1,032,364. The shareholders of the Third National receive $1,200,000 of the capital of the consolidated institution and those of the Fifth National $1,300,000 of the stock, the arrangement calling for an increase in the capital of the latter from $1,000,000 to $1,300,000, through the declaration of a stock dividend of 30%. The deposits of the Fifth-Third National Bank under date of the 1st inst. were reported as $12,061,257 and its total assets as $18,035,345. The management of the new bank is as follows: Charles A. Hinsch, President; William A. Lemmon and Edward Seiter, Vice-Presidents; Monte J. Goble, Cashier; Charles T. Perin, Charles H. Shields, Lewis E. Van Ausdol and Fred J. Mayer, Assistant Cashiers. It is stated that Charles H. Kellogg, who was President of the Third National, has been voted a cash sum of $25,000 by the directors in appreciation of his services to the institution. Mr. Kellogg is a member of the board of directors of the new bank.

—Edward Wiebenson has been appointed assignee of the American Savings Bank Co. of Cleveland in place of E. M. Buel. The institution suspended on the 14th ult.

—The H. R. Ashbrook Co. of Toledo, Ohio, investment bankers, was placed in the hands of Moses M. Bloch as receiver on Wednesday upon the petition of Philip W. Jones, a creditor. The concern has a capital of $75,000.

—Robert J. McIntosh was appointed co-trustee of the Broadway Savings Bank Co. of Toledo on the 23d ult. to work with William Beatty, the assignee. A general assignment was made by the institution on April 2.

—F. C. Fisbeck has replaced Warren Hussey as Cashier of the Terre Haute National Bank of Terre Haute, Ind.

—L. A. Goddard has assumed his duties as Vice-President of the State Bank of Chicago, and finds them most congenial. William A. Tilden succeeds him as President of the Fort Dearborn National Bank, having been elected to that position by the Board of Directors on Monday. Vice-President Forbes has been promoted to the presidency of the Drovers' Deposit National as Mr. Tilden's successor, while Mr. Tilden remains a director and becomes Vice-President of that institution.

—President J. B. Forgan of the First National Bank of Chicago will deliver an address at Peoria, Ill., June 11, before Group 2 of the Illinois Bankers' Association on the subject of "The Guaranty of National Bank Deposits."

—J. A. Spoor was elected Vice-President of the Live Stock Exchange National Bank of Chicago at a meeting of the directors on the 2d inst.

—A dividend in liquidation amounting to 15% was paid to the stockholders of the Federal National Bank of Chicago on Monday May 25th. This brings the total distribution thus far up to 50%. Previous payments to the stockholders have been as follows: 10% Jan. 25, 15% Feb. 25, and 10% on March 25. The bank had a capital of $500,000. Its assets were purchased by Cobe & McKinnon of the Assets Realization Co., at the time of its assignment in September.

—The consolidation of the First National Bank and the Commercial National Bank of Detroit, Mich., under the name of the First National, has been consummated, the enlarged bank having begun business on the 1st inst. in its new offices in the Ford Building. Steps to unite these institutions were taken over a year ago, but were delayed of consummation pending the completion of the new quarters. The consolidated bank has a capital of $2,000,000 and surplus of $1,000,000. Morris L. Williams, who was President of the Commercial National, is at the head of the institution. He is assisted in the management by John T. Shaw, Vice-President and Cashier; Emory W. Clark, Vice-President; F. A. Smith, Assistant to the President, and the following Assistant Cashiers: Frank G. Smith, W. A. McWhinney, F. F. Christie, Joseph Grindley and J. H. Hart.

—An application to organize the Commercial National Bank of Cedar Rapids, Iowa, presented by interests in the Commercial Savings Bank, was approved by the Comptroller of the Currency on the 21st ult.

—An incident of the convention of the Tennessee Bankers' Association at Memphis on May 26 and 27 was the discussion of the subject of the guaranty of deposits. Judge John A. Pitts of Nashville delivered an address in support of such legislation and presented for adoption a resolution providing for the appointment of a committee to be charged with the duty of preparing a bill embodying guarantee features, for enactment at the next session of the Legislature. F. O. Watts, President of the First National Bank of Nashville, expressed it as his conviction that the Association should not go on record at the present time as declaring itself in favor of a State guaranty law, and offered the following resolution, which was unanimoulsy adopted:

"Be it resolved by the Tennessee Bankers' Association That a committee of six be appointed, three by the retiring President and three by the President to be elected, to act as a commission to discuss and inquire into the recommendations as set forth by Judge Pitts, and to report at some future day."

R. E. Folk, State Treasurer of Tennessee, presented an interesting account concerning the bonded debt of the State, and Thomas B. Paton, editor of the Banking Law Journal of New York, and General Counsel of the American Bankers' Association, addressed the bankers on the subject of "The Legal Side of the Banking Business." The new President of the Association is I. B. Tigrett, Cashier of the Union Bank & Trust Co. of Jackson, Tenn.

—The Georgia Bankers' Association will hold its seventeenth annual convention next week on the 11th and 12th inst., at Brunswick. The papers announced for the occasion include "Twentieth Century Banking," by A. P. Coles, Cashier of the Central Bank & Trust Corp. of Atlanta; "Hoarding and Its Effects on Business," by Roswell H. Drake, President of the City National Bank of Griffin, and "The Financial Outlook," by Charles H. Treat, Treasurer of the United States. Col. J. P. Shattuck, President of the Bank of Lafayette, Ga., and E. K. Farmer, President of the First National Bank of Fitzgerald, Ga., will also be among the speakers at the meeting. L. P. Hillyer, Vice-President of the

American National Bank of Macon, is Secretary of the association.

—J. W. Stoll, formerly Cashier, has been chosen to succeed the late J. S. Stoll as President of the Lexington City National Bank of Lexington, Ky. Jno. G. Stoll has become Vice-President of the bank and J. E. McFarland Cashier.

—W. H. Hurley has resigned as Cashier of the Merchants' National Bank of Houston, Tex., having become Assistant Cashier of the National Bank of the Republic, Chicago. Mr. Hurley assumed the duties of his new position on the 1st inst. He still retains his stock and interest in the Merchants' National, and will remain for the present on its board of directors.

—A certificate authorizing the Seaboard Bank of San Francisco to operate as the Seaboard National Bank was issued by the Treasury Department on May 22. The bank's capital remains, as before the conversion, at $250,000.

—Theo. Reichert, heretofore Vice-President, has been advanced to the presidency of the United States National Bank of San Francisco, succeeding C. A. Hawkins.

—The Bankers & Lumbermen's Bank of Portland, Ore., has decided to enter the Federal system under the name of the Lumbermen's National Bank. The Comptroller of the Currency has approved the application for the conversion. The bank began business on May 28 1906 with an authorized capital of $250,000; there is to be no change in the capitalization.

—Charles T. Muir, paying teller of the Forty-Second Street Branch of the Corn Exchange Bank of this city, shot himself in the basement of the bank building on Wednesday, dying shortly after his arrival at Bellevue Hospital. He left a letter showing that be had been committing petty thefts for several years, and had taken altogether about $9,000, covering the shortage by substituting new deposits for old. He had been in the service of the institution for over twenty years, and had just been promoted from the position of receiving teller to that of paying teller, making it certain the shortage would be detected. He appeared to have had no bad habits, but evidently allowed his family expenses to run beyond the salary which the position he held commands with a bank.

—J. Thorburn Ross, President of the defunct Title Guarantee & Trust Co. of Portland, Ore., was sentenced on the 28th ult. to five years' imprisonment and to pay a fine of $576,853, on charges of having converted to his own use $288,000 of State school funds deposited with the institution. Pending an appeal to the Supreme Court Mr. Ross has been admitted to bail in the sum of $6,000. The institution suspended on Nov. 6 1907. The payment of all of its deposits was guaranteed by William M. Ladd of the Ladd & Tilton Bank, Portland.

## *THE EMERGENCY CURRENCY BILL.*

The following is the full text of the Aldrich-Vreeland Emergency Currency Bill, which passed the Senate last Saturday afternoon and became a law the same evening with the President's approval. We have inserted headings to indicate the provisions of the different sections. Some remarks bearing upon the new law will be found in an editorial article on a preceding page.

AN ACT TO AMEND THE NATIONAL BANKING LAWS.

*Be it enacted by the Senate and House of Representatives of the United States of America, in Congress Assembled,*

*Formation of National Currency Associations.*

That national banking associations, each having an unimpaired capital and a surplus of not less than twenty per centum, not less than ten in number, having an aggregate capital and surplus of at least five millions of dollars, may form voluntary associations to be designated as national currency associations. The banks uniting to form such association shall, by their presidents or vice-presidents, acting under authority from the board of directors, make and file with the Secretary of the Treasury a certificate setting forth the names of the banks composing the association, the principal place of business of the association, and the name of the association, which name shall be subject to the approval of the Secretary of the Treasury. Upon the filing of such certificate the associated banks therein named shall become a body corporate, and by the name so designated and approved may sue and be sued and exercise the powers of a body corporate for the purposes hereinafter mentioned: *Provided*, That not more than one such national currency association shall be formed in any city: *Provided further*, That the several members of such national currency association shall be taken, as nearly as conveniently may be, from a territory composed of a State or part of a State, or contiguous parts of one or more States: *And provided further*, That any national bank in such city or territory, having the qualifications herein prescribed for membership in such national currency association, shall, upon its application to and upon the approval of the Secretary of the Treasury, be admitted to membership in a national currency association for that city or territory, and upon such admission shall be deemed and held a part of the body corporate, and as such entitled to all the rights and privileges and subject to all the liabilities of an original member: *And provided further*, That each national currency association shall be composed exclusively of banks not members of any other national currency association.

The dissolution, voluntary or otherwise, of any bank in such association shall not affect the corporate existence of the association unless there shall then remain less than the minimum number of ten banks: *Provided, however*, That the reduction of the number of said banks below the minimum of ten shall not affect the existence of the corporation with respect to the assertion of all rights in favor of or against such association. The affairs of the association shall be managed by a board consisting of one representative from each bank. By-laws for the government of the association shall be made by the board, subject to the approval of the Secretary of the Treasury. A president, vice-president, secretary, treasurer, and an executive committee of not less than five members, shall be elected by the board. The powers of such board, except in the election of officers and making of by-laws, may be exercised through its executive committee.

*Conditions for Taking Out New Circulating Notes.*

The national currency association herein provided for shall have and exercise any and all powers necessary to carry out the purposes of this section, namely, to render available, under the direction and control of the Secretary of the Treasury, as a basis for additional circulation, any securities, including commercial paper, held by a national banking association. For the purpose of obtaining such additional circulation, any bank belonging to any national currency association, having circulating notes outstanding secured by the deposit of bonds of the United States to an amount not less than forty per centum of its capital stock, and which has its capital unimpaired and a surplus of not less than twenty per centum, may deposit with and transfer to the association, in trust for the United States, for the purpose hereinafter provided, such of the securities above mentioned as may be satisfactory to the board of the association. The officers of the association may thereupon, in behalf of such bank, make application to the Comptroller of the Currency for an issue of additional circulating notes to an amount not exceeding seventy-five per centum of the cash value of the securities or commercial paper so deposited. The Comptroller of the Currency shall immediately transmit such application to the Secretary of the Treasury with such recommendation as he thinks proper, and if, in the judgment of the Secretary of the Treasury, business conditions in the locality demand additional circulation, and if he be satisfied with the character and value of the securities proposed, and that a lien in favor of the United States on the securities so deposited and on the assets of the banks composing the association will be amply sufficient for the protection of the United States, he may direct an issue of additional circulating notes to the association, on behalf of such bank, to an amount in his discretion, not, however, exceeding seventy-five per centum of the cash value of the securities so deposited: *Provided*, That upon the deposit of any of the State, city, town, county or other municipal bonds, of a character described in Section three of this Act, circulating notes may be issued to the extent of not exceeding ninety per centum of the market value of such bonds so deposited: *And provided further*, That no national banking association shall be authorized in any event to issue circulating notes based on commercial paper in excess of thirty per centum of its unimpaired capital and surplus. The term "commercial paper" shall be held to include only notes representing actual commercial transactions, which when accepted by the association shall bear the names of at least two responsible parties and have not exceeding four months to run.

*Banks Liable for Such Notes Jointly and Severally.*

The banks and the assets of all banks belonging to the association shall be jointly and severally liable to the United States for the redemption of such additional circulation; and to secure such liability the lien created by Section fifty-two hundred and thirty of the Revised Statutes shall extend to and cover the assets of all banks belonging to the association, and to the securities deposited by the banks with the association pursuant to the provisions of this Act; but as between the several banks composing such association each bank shall be liable only in the proportion that its capital and surplus bears to the aggregate capital and surplus of all such banks. The association may, at any time, require of any of its constituent banks a deposit of additional securities or commercial paper, or an exchange of the securities already on deposit, to secure such additional circulation; and in case of the failure of such bank to make such deposit or exchange the association may, after ten days' notice to the bank, sell the securities and paper already in its hands at public sale, and deposit the proceeds with the Treasurer of the United States as a fund for the redemption of such additional circulation. If such fund be insufficient for that purpose, the association may recover from the bank the amount of the deficiency by suit in the Circuit Court of the United States, and shall have the benefit of the lien hereinbefore provided for in favor of the United States upon the assets of such bank. The association or the Secretary of the Treasury may permit or require the withdrawal of any such securities or commercial paper and the substitution of other securities or commercial paper of equal value therefor.

*Redemption Fund Must Be Maintained.*

Sec. 2. That whenever any bank belonging to a national currency association shall fail to preserve or make good its redemption fund in the Treasury of the United States, required by Section three of the Act of June twentieth, eighteen hundred and seventy-four, Chapter three hundred and forty-three, and the provisions of this Act, the Treasurer of the United States shall notify such national currency association to make good such redemption fund, and upon the failure of such national currency association to make good such fund, the Treasurer of the United States may, in his discretion, apply so much of the redemption fund belonging to the other banks composing such national currency association as may be necessary for that purpose; and such national currency association may, after five days' notice to such bank, proceed to sell at public sale the securities deposited by such bank with the association pursuant to the provisions of Section one of this Act, and deposit the proceeds with the Treasurer of the United States as a fund for the redemption of the additional circulation taken out by such bank under this Act.

*Issue of Notes Against State and Municipal Bonds.*

Sec. 3. That any national banking association which has circulating notes outstanding, secured by the deposit of United States bonds to an amount of not less than forty per centum of its capital stock, and which has a surplus of not less than twenty per centum, may make application to the Comptroller of the Currency for authority to issue additional circulating notes to be secured by the deposit of bonds other than bonds of the United States. The Comptroller of the Currency shall transmit immediately the application, with his recommendation, to the Secretary of the Treasury, who shall, if in his judgment business conditions in the locality demand additional circulation, approve the same, and shall determine the time of issue and fix the amount, within the limitations herein imposed, of the additional circulating notes to be issued. Whenever after receiving notice of such approval any such association shall deposit with the Treasurer or any Assistant Treasurer of the United States such of the bonds described in this section as shall be approved in character and amount by the Treasurer of the United States and the Secretary of the Treasury, it shall be entitled to receive, upon the order of the Comptroller of the Currency, circulating notes in blank, registered and countersigned as provided by law, not exceeding in amount ninety per centum of the market value, but not in excess of the par value of any bonds so deposited, such market value to be ascertained and determined under the direction of the Secretary of the Treasury.

The Treasurer of the United States, with the approval of the Secretary of the Treasury, shall accept as security for the additional circulating notes provided for in this Section, bonds or other interest-bearing obligations of any State of the United States, or any legally authorized bonds issued by any city, town, county, or other legally constituted municipality or district in the United States which has been in existence for a period of ten years, and which for a period of ten years previous to such deposit has not defaulted in the payment of any part of either principal or interest of any funded debt authorized to be contracted by it, and whose net funded indebtedness does not exceed ten per centum of the valuation of its taxable property, to be ascertained by the last preceding valuation of property for the assessment of taxes. The Treasurer of the United States, with the approval of the Secretary of the Treasury, shall accept, for the purposes of this Section, securities herein enumerated in such proportions as he may from time to time determine, and he may with such approval at any time require the deposit of addtional securities, or require any association to change the character of the securities already on deposit.

*Legal Title of Bonds to Be in United States.*

Sec. 4. That the legal title of all bonds, whether coupon or registered, deposited to secure circulating notes issued in accordance with the terms of Section three of this Act shall be transferred to the Treasurer of the

United States in trust for the association depositing them, under regulations to be prescribed by the Secretary of the Treasury. A receipt shall be given to the association by the Treasurer or any Assistant Treasurer of the United States, stating that such bond is held in trust for the association on whose behalf the transfer is made, and as security for the redemption and payment of any circulating notes that have been or may be delivered to such association. No assignment or transfer of any such bond by the Treasurer shall be deemed valid unless countersigned by the Comptroller of the Currency. The provisions of Sections fifty-one hundred and sixty-three, fifty-one hundred and sixty-four, fifty-one hundred and sixty-five, fifty-one hundred and sixty-six and fifty-one hundred and sixty-seven and Sections fifty-two hundred and twenty-four to fifty-two hundred and thirty-four, inclusive, of the Revised Statutes respecting United States bonds deposited to secure circulating notes shall, except as herein modified, be applicable to all bonds deposited under the terms of Section three of this Act.

*Limit of Notes to Be Issued.*

Sec. 5. That the additional circulating notes issued under this Act shall be used, held and treated in the same way as circulating notes of national banking associations heretofore issued and secured by a deposit of United States bonds, and shall be subject to all the provisions of law affecting such notes except as herein expressly modified, *provided* that the total amount of circulating notes outstanding of any national banking association, including notes secured by United States bonds as now provided by law, and notes secured otherwise than by deposit of such bonds, shall not at any time exceed the amount of its unimpaired capital and surplus: *And provided further*, That there shall not be outstanding at any time circulating notes issued under the provisions of this Act to an amount of more than five hundred millions of dollars.

*Additional Redemption Fund of Five Per Cent Required.*

Sec. 6. That whenever and so long as any national banking association has outstanding any of the additional circulating notes authorized to be issued by the provisions of this Act, it shall keep on deposit in the Treasury of the United States, in addition to the redemption fund required by Section three of the Act of June twentieth, eighteen hundred and seventy-four, an additional sum equal to five per centum of such additional circulation at any time outstanding, such additional five per centum to be treated, held, and used in all respects in the same manner as the original redemption fund provided for by said Section three of the Act of June twentieth, eighteen hundred and seventy-four.

*Emergency Notes to Be Apportioned.*

Sec. 7. In order that the distribution of notes to be issued under the provisions of this Act shall be made as equitable as practicable between the various sections of the country, the Secretary of the Treasury shall not approve applications from associations in any State in excess of the amount to which such State would be entitled of the additional notes herein authorized on the basis of the proportion which the unimpaired capital and surplus of the national banking associations in such State bears to the total amount of unimpaired capital and surplus of the nationa banking associations of the United States: *Provided, however*, That in case the applications from associations in any State shall not be equal to the amount which the associations of such State would be entitled to under this method of distribution, the Secretary of the Treasury may, in his discretion, to meet an emergency, assign the amount not thus applied for to any applying association or associations in States in the same section of the country.

*Secretary to Keep Himself Informed as to the Character and Value of Securities.*

Sec. 8. That it shall be the duty of the Secretary of the Treasury to obtain information with reference to the value and character of the securities authorized to be accepted under the provisions of this Act, and he shall from time to time furnish information to national banking associations as to such securities as would be acceptable under the provisions of this Act.

*Tax on Notes.*

Sec. 9. That Section fifty-two hundred and fourteen of the Revised Statutes, as amended, be further amended to read as follows:

"Sec. 5214. National banking associations having on deposit bonds of the United States, bearing interest at the rate of two per centum per annum, including the bonds issued for the construction of the Panama Canal, under the provisions of Section eight of 'An Act to provide for the construction of a canal connecting the waters of the Atlantic and Pacific oceans,' approved June twenty-eighth, nineteen hundred and two, to secure its circulating notes, shall pay to the Treasurer of the United States, in the months of January and July, a tax of one-fourth of one per centum each half year upon the average amount of such of its notes in circulation as are based upon the deposit of such bonds; and such associations having on deposit bonds of the United States bearing interest at a rate higher than two per centum per annum shall pay a tax of one-half of one per centum each half year upon the average amount of such of its notes in circulation as are based upon the deposit of such bonds. National banking associations having circulating notes secured otherwise than by bonds of the United States shall pay for the first month a tax at the rate of five per centum per annum upon the average amount of such of their notes in circulation as are based upon the deposit of such securities, and afterwards an additional tax of one per centum per annum for each month until a tax of ten per centum per annum is reached, and thereafter such tax of ten per centum per annum, upon the average amount of such notes. Every national banking association having outstanding circulating notes secured by a deposit of other securities than United States bonds shall make monthly returns, under oath of its president or cashier, to the Treasurer of the United States, in such form as the Treasurer may prescribe, of the average monthly amount of its notes so secured in circulation; and it shall be the duty of the Comptroller of the Currency to cause such reports of notes in circulation to be verified by examination of the bank's records. The taxes received on circulating notes secured otherwise than by bonds of the United States shall be paid into the Division of Redemption of the Treasury and credited and added to the reserve fund held for the redemption of United States and other notes."

*Deposits, to Withdraw Notes, Not to Be Covered into the Treasury.*

Sec. 10. That Section nine of the Act approved July twelfth, eighteen hundred and eighty-two, as amended by the Act approved March fourth, nineteen hundred and seven, be further amended to read as follows:

"Sec. 9. That any national banking association desiring to withdraw its circulating notes, secured by deposit of United States bonds in the manner provided in Section four of the Act approved June twentieth, eighteen hundred and seventy-four, is hereby authorized for that purpose to deposit lawful money with the Treasurer of the United States and, with the consent of the Comptroller of the Currency and the approval of the Secretary of the Treasury, to withdraw a proportionate amount of bonds held as security for its circulating notes in the order of such deposits: *Provided*, That not more than nine millions of dollars of lawful money shall be so deposited during any calendar month for this purpose.

"Any national banking association desiring to withdraw any of its circulating notes, secured by the deposit of securities other than bonds of the United States, may make such withdrawal at any time in like manner and effect by the deposit of lawful money or national bank notes with the Treasurer of the United States, and upon such deposit a proportionate share of the securities so deposited may be withdrawn: *Provided*, That the deposits under this section to retire notes secured by the deposits of securities other than bonds of the United States shall not be covered into the Treasury, as required by Section six of an Act entitled 'An Act directing the purchase of silver bullion and the issue of Treasury notes thereon, and for other purposes,' approved July fourteen, eighteen hundred and ninety, but shall be retained in the Treasury for the purpose of redeeming the notes of the bank making such deposit."

*Supplies of Notes of Different Denominations.*

Sec. 11. That Section fifty-one hundred and seventy-two of the Revised Statutes be, and the same is hereby, amended to read as follows:

"Sec. 5172. In order to furnish suitable notes for circulation, the Comptroller of the Currency shall, under the direction of the Secretary of the Treasury, cause plates and dies to be engraved, in the best manner to guard against counterfeiting and fraudulent alterations, and shall have printed therefrom, and numbered, such quantity of circulating notes, in blank, of the denominations of five dollars, ten dollars, twenty dollars, fifty dollars, one hundred dollars, five hundred dollars, one thousand dollars, and ten thousand dollars, as may be required to supply the associations entitledto receive the same. Such notes shall state upon their face that they are secured by United States bonds or other securities, certified by the written or engraved signatures of the Treasurer and Register and by the imprint of the seal of the Treasury. They shall also express upon their face the promise of the association receiving the same to pay on demand, attested by the signature of the president or vice-president and cashier. The Comptroller of the Currency, acting under the direction of the Secretary of the Treasury, shall as soon as practicable cause to be prepared circulating notes in blank, registered and countersigned, as provided by law, to an amount equal to fifty per centum of the capital stock of each national banking association; such notes to be deposited in the Treasury or in the Sub-Treasury of the United States nearest the place of business of each association, and to be held for such association, subject to the order of the Comptroller of the Currency, for their delivery as provided by law: *Provided*, That the Comptroller of the Currency may issue national bank notes of the present form until plates can be prepared and circulating notes issued as above provided: *Provided, however*, That in no event shall bank notes of the present form be issued to any bank as additional circulation provided for by this Act."

*Notes to Be Redeemed in Lawful Money.*

Sec. 12. That circulating notes of national banking associations, when presented to the Treasury for redemption, as provided in Section three of the Act approved June twentieth, eighteen hundred and seventy-four, shall be redeemed in lawful money of the United States.

*Acts of Comptroller and Treasurer to Be Approved by Secretary.*

Sec. 13. That all acts and orders of the Comptroller of the Currency and the Treasurer of the United States authorized by this Act shall have the approval of the Secretary of the Treasury, who shall have power, also, to make any such rules and regulations and exercise such control over the organization and management of national currency associations as may be necessary to carry out the purposes of this Act.

*No Reserves against Public Deposits.*

Sec. 14. That the provisions of Section fifty-one hundred and ninety-one of the Revised Statutes, with reference to the reserves of national banking associations, shall not apply to deposits of public moneys by the United States in designated depositories.

*Interest to Be Paid on Government Deposits.*

Sec. 15. That all national banking associations designated as regular depositaries of public money shall pay upon all special and additional deposits made by the Secretary of the Treasury in such depositaries, and all such associations designated as temporary depositaries of public money shall pay upon all sums of public money deposited in such associations interest at such rate as the Secretary of the Treasury may prescribe, not less, however, than one per centum per annum upon the average monthly amount of such deposits: *Provided, however*, That nothing contained in this Act shall be construed to change or modify the obligation of any association or any of its officers for the safe-keeping of public money: *Provided, further*, That the rate of interest charged upon such deposits shall be equal and uniform throughout the United States.

Sec. 16. That a sum sufficient to carry out the purposes of the preceding sections of this Act is hereby appropriated out of any money in the Treasury not otherwise appropriated.

*Monetary Commissison to Be Appointed.*

Sec. 17. That a Commission is hereby created, to be called the "National Monetary Commission," to be composed of nine members of the Senate, to be appointed by the Presiding Officer thereof, and nine mempers of the House of Representatives, to be appointed by the Speaker thereof; and any vacancy on the Commission shall be filled in the same manner as the original appointment.

Sec. 18. That it shall be the duty of this Commission to inquire into and report to Congress at the earliest date practicable, what changes are necessary or desirable in the monetary system of the United States or in the laws relating to banking and currency, and for this purpose they are authorized to sit during the sessions or recess of Congress, at such times and places as they may deem desirable, to send for persons and papers, to administer oaths, to summons and compel the attendance of witnesses; and to employ a disbursing officer and such secretaries, experts, stenographers, messengers, and other assistants as shall be necessary to carry out the purposes for which said Commission was created. The Commission shall have the power, through sub-committee or otherwise, to examine witnesses and to make such investigations and examinations, in this or other countries, of the subjects committed to their charge as they shall deem necessary.

Sec. 19. That a sum sufficient to carry out the purposes of sections seventeen and eighteen of this Act, and to pay the necessary expenses of the Commission and its members, is hereby appropriated, out of any money in the Treasury not otherwise appropriated. Said appropriation shall be immediately available and shall be paid out on the audit and order of the Chairman or Acting Chairman of said Commission, which audit and order shall be conclusive and binding upon all Departments as to the correctness of the accounts of such Commission.

*Law to Expire June 30 1914.*

Sec. 20. That this Act shall expire by limitation on the thirtieth day of June, nineteen hundred and fourteen.

Approved, May 30 1908.

**Canadian Bank Clearings.**—The clearings of the Canadian banks for the month of May 1908 show a decrease from the same month of 1907 of 15.2%, and for the five months the loss reaches 11.1%.

# Monetary and Commercial English News

(From our own correspondent.)

*London, Saturday, May 23 1908.*

There has been this week some check to the rise which had been going on in the Stock Exchange during the past fortnight. It is due partly to the flurry in New York partly to the rapidity of the rise which has taken place, here and partly to the immense number of new issues coming out. Borrowers are applying to London from every direction.

Even the South Manchurian Railway Company, which borrowed four million sterlings in London last summer, is again applying for two millions sterling, this time in the form of three-year notes bearing 5 per cent interest. As the notes are guaranteed by the Japanese Government they are undoubtedly good security and presumably will be readily taken. The fact is noticed only to show how varied and how vast are the various applications. The South Manchurian Company required, altogether, eight millions sterling to put its line in complete order. It raised only half the sum last year and apparently its finaancial advisers recommend it to issue at present three-year notes rather than to raise the remaining half of the permanent bonds, for although money is abundant and cheap in London at present,,the market,on account of the multitude of new issues, is not quite favorable.

It is expected that at any moment the Transvaal loan for five millions sterling which is to be guaranteed by the British Government may be brought out. All sorts of other issues are in preparation. To this, doubtless, is due the hesitation of the stock markets. So many of these new issues are guaranteed by great governments that they are attractive to investors. Therefore, they are competing actively with gilt-edged securities and it was hoped that gilt-edged securities, and particularly consols, would rise rapidly, and would thus give heart to the market, which was expected would broaden under the influence.

The Prime Minister in his Budget speech showed that during the current financial year about fifteen millions sterling of debt would be redeemed. That undoubtedly, would have led to a sharp rise in consols were it not for the immense multitude of new issues coming out. The market is, therefore, unfavorable to new issues. Even such unquestionably good security as the Southern Nigerian Government 4% loan, which was practically guaranteed by the British Government, was not taken by the public; over 90 per cent of it remained in the hands of the underwriters. Indeed, the remarkable thing is what very large proportions of the new issues have to be retained by the underwriters and yet no difficulty seems to be found in getting underwriters to underwrite for any new issue that is proposed.

Notwithstanding this dislike of new issues, markets are unquestionalby hopeful. There has already been a considerable advance in prices and nobody doubts that the advance will not merely be maintained, but will be carried very considerably farther. Money is exceedingly abundant and cheap. The gold shipments from New York added to those from London have made money abundant and cheap in Paris. The Bank of France now holds over 119 millions sterling of the metal. In consequence, much of the gold going both from London and New York is passed on from Paris to other countries, particularly to Germany, Italy and Switzerland. If the gold shipments from New York last for some time, the Imperial Bank of Germany will be able materially to strengthen itself, and therefore it is quite possible that there may be a reduction in its bank rate before very long.

There are doubts whether such a multitude of new issues may not suddenly make money dearer. That is, of course, possible, but it does not seem probable, considering the magnitude of the unemployed money, both at home and abroad, the falling off in trade, the decline in prices and the absence of speculation. In fact, it seems more likely that money will become cheaper, for if the Imperial Bank of Germany is able, as expected, to strengthen itself, the Bank of England will lower its rate of discount to 2½ per cent. Furthermore, it is almost incredible that French investors will continue to hoard money when prices of all kinds are so attractive as at present. Already, indeed, there is an increase in French investment in London and the probability appears to be that French buying here will increase very materially further in the early future.

The India Council offered for tender on Wednesday 10 lacs and the applications amounted to Rs.55,265 at 1s. 3 29-32d. per rupee, at which price applicants for bills were allotted in full.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of May 21:

GOLD.—The gold available for export this week, after satisfying India and the trade, amounted to about £400,000, and this was taken for Paris, where the demand for the time being seems insatiable. Paris has again taken nearly £1,000,000 from New York. The amount expected next week from the Cape is £789,000. At the Bank £40,000 has been received in sovereigns while £157,000 has been withdrawn, of which £152,000 was in French gold coin. Arrivals—Cape, £548,000; Bombay, £69,000; Australia, £38,000; Brazil, £13,000; West Indies, £15,000; New Zealand, £32,000; total, £715,000. Shipments—Bombay, £93,000; Colombo, £7,500; Calcutta, £5,000; total, £105,500.

SILVER.—After falling 1-16d. on the 15th inst., to 24 3-16d., the market began to rise steadily, and to-day the spot quotation is 24 11-16d., with forward 24¾d. Covering by "shorts", together with some inquiry from China, has caused this advance, whilst offering have been on a moderate scale. The market at the close is quiet. The Indian Government have this week sold £145,000 in bills on London; and the rupees received in payment have again been added to the gold reserve in silver in India, which now stands at nearly 9 Crores. Arrivals—New York, £115,000; West Indies, £3,000; total, £118,000. Shipments—Bombay, £151,500; Colombo, £2,500; Calcutta, £40,000; total, £194,000.

| All other countries | | 9,735 | 142,322 | 1,590,255 |
| Total 1908 | $6,397,000 | $38,053,291 | $227,237 | $10,327,175 |
| Total 1907 | 2,813,838 | 4,681,534 | 40,125 | 5,509,945 |
| Total 1906 | 43,900 | 5,337,022 | 423,803 | 44,242,581 |
| Silver. | | | | |
| Great Britain | $482,445 | $15,359,905 | | 38,401 |
| France | | 980,000 | | 52,665 |
| Germany | | | | 63,043 |
| West Indies | 260 | 197,609 | $464 | 112,184 |
| Mexico | | | 12,065 | 424,169 |
| South America | | 3,000 | 15,354 | 355,975 |
| All other countries | | 350 | 20,205 | 246,530 |
| Total 1908 | $482,705 | $16,540,864 | $48,088 | $1,292,967 |
| Total 1907 | 1,089,432 | 17,291,787 | 23,435 | 743,990 |
| Total 1906 | 1,119,492 | 24,123,312 | 57,459 | 1,043,782 |

Of the above imports for the week in 1908, $26,502 were American gold coin and $464 American silver coin. Of the exports during the same time, $2,750,000 were American gold coin and $_____ were American silver coin.

**Statement of New York City Clearing-House Banks.**—The detailed statement below shows the condition of the New York City Clearing-House banks for the week ending May 29. The figures for the separate banks are the averages of the daily results. In the case of the totals, however, a departure was made with the statement for Feb. 8, so that in addition to the averages for the week the actual figures at the end of the week are now given.

*We omit two ciphers (00) in all cases.*

+ Increase over last week. — Decrease from last week.
*a* Includes bank notes. *b* After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to $7[illegible]442,700, an increase of $8,299,100 over last week's figures.

*Note.*—In the case of the Clearing-House banks, the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shown. The Clearing-House actual figures included United States deposits amounting to $19,870,300; a decrease of $8,679,300 from last week; averages included United States deposits of $19,857,500 a decrease of $10,815,800 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS & TRUST CO'S OUTSIDE OF GREATER NEW YORK.

*Wall Street, Friday Night, June 5 1908.*

**The Money Market and Financial Situation.**—The security markets have fluctuated widely throughout the week, a fact which seems to have attracted little attention outside the circle of those who participated in, or were responsible for, the movements. A good deal was published in the daily press during the early part of the week relating to increasing activity in various departments of industry, and this doubtless is one of the most important developments of the week. Crop reports from nearly all sections are also favorable, and in some localities conditions are well above the average.

An interesting event of the week has been a reduction in the price of iron and steel bars. This caused some surprise because it came so soon after a decision not to consent to any decline in values. To what extent this cut may affect the general demand, and whether the reduction will be extended to other departments, are questions which, at the moment, are attracting considerable attention.

There is further improvement in the financial situation abroad, as shown by a reduction of the German Bank rate from 5 to 4½%. Gold exports for the week amount to $1,750,000, making a total of $37,260,000 since the movement began. The local money market is unchanged in general features.

The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 1¼% to 1¾%. To-day's rates on call were 1¼@1¾%. Commercial paper quoted at 3¾@4% for choice 60 to 90-day endorsements and for 4 months' best single names; 4@4½% for a slightly lower grade of 4 to 6 months' single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £523,704, and the percentage of reserve to liabilities was 50.82, against 51.80 last week.

The rate of discount remains unchanged at 2½% as fixed May 28. The Bank of France shows an increase of 34,900,000 francs gold and a decrease of 1,575,000 francs silver.

*Note.*—The Clearing House now issues a statement weekly showing the total of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the preceding page.

**Foreign Exchange.**—The market was irregular and lower early in the week, because of speculative selling, though later there was a recovery, followed by a decline. Gold exports, $1,250,000 on Tuesday and $500,000 on Saturday (to-day) to Berlin.

To-day's (Friday's) nominal rates for sterling exchange were 4 86½ for sixty day and 4 88 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8540@4 8550 for long, 4 8690@4 8695 for short and 4 8710@4 8720 for cables. Commercial on banks 4 8515@4 8525 and documents for payment 4 84¼@4 85⅛. Cotton for payment 4 84¼@4 84⅜, cotton for acceptance 4 8515@4 8525 and grain for payment 4 85@4 85⅛.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 17½*a*@5 17½ for long and 5 15⅝*a*@5 15⅝*d* for short. Germany bankers' marks were 95@95 1-16 for long and 95½*d*@95½ for short. Amsterdam bankers' guilders were 40 24@40 26 for short.

Exchange at Paris on London to-day 25f. 12c. Week's range 25f. 12½c. high and 25f. 11½c. low.

The week's range for exchange rates follows:

| | Long | | Short | | Cables | |
|---|---|---|---|---|---|---|
| *Sterling Actual—* | | | | | | |
| High | 4 8560 | @ 4 8565 | 4 8715 | @ 4 8720 | 4 8740 | @ 4 8745 |

| *Amsterdam Bankers' Guilders—* | | | | | | |
| High | ---------- | | 40¼ | @ 40 5-16 | ---------- | |
| Low | ---------- | | 40 24 | @ 40 26 | ---------- | |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston selling, $1 per $1,000 premium. New Orleans bank, 50c. per $1,000 discount; commercial 75c. per $1,000 discount. Chicago, 50c. per $1,000 premium. St. Louis, 75c. per $1,000 premium. San Francisco, $1 per $1,000 premium.

**State and Railroad Bonds.**—Sales of State bonds at the Board include $2,000 Virginia fund. debt 2-3s 1991 at 92 and $30,000 Virginia 6s deferred trust receipts at 38 to 39½.

The market for railway and industrial bonds has again been less active, the total transactions aggregating only about $2,000,000 par value, on at least three days of the week. Prices have been fairly well maintained and in a few cases an advance of a point or more has been made.

Among the exceptional features is Wabash & Pittsburgh Term. 1sts, which are 4 points higher and St. Louis & San Francisco ref. 4s, which are up 2 points. Other net changes are narrow and about equally divided between higher and lower.

**United States Bonds.**—Sales of Government bonds at the Board include $10,500 4s coup. 1925 at 122⅛, $4,000 3s reg. 1908-18 at 101⅛ and $10,000 2s reg. 1930 at 103⅜. The following are the daily closing quotations *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—A sharp rally in the stock market early in the week carried the prices of practically all active issues up from 3 to 7 points. The movement culminated on Tuesday, when Union Pacific, which had led, showed an advance of 9 points, St. Paul 7⅜, Missouri Pacific and Louisville & Nashville over 6, Delaware & Hudson 6 and Reading 5½ points. From these high figures the decline has been uninterrupted until to-day, but closing quotations of active stocks are generally from 1 to 2 points higher than last week. To-day's market has been sluggish, the transactions amounting to less than the average for the week, and price changes were irregular and unimportant. Union Pacific and Reading have been conspicuously active throughout the week, the transactions in them on two or more days amounting to more than half the total, and the former shows a net advance of nearly 6 points.

United States Steel issues are higher, notwithstanding a cut in the price of a part of its product, and other industrial stocks have generally followed the market.

*For daily volume of business see page* 1401.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

| STOCKS. Week ending June 5. | Sales for Week. | Range for Week. Lowest. | | Highest. | | Range since Jan. 1. Lowest. | | Highest. | |

**Outside Market.**—"Curb" trading this week followed the course of the Stock Exchange market, the firm tone in the beginning being succeeded by a weakening tendency later in the week. The prevailing dulness, however, has limited changes, with few exceptions, to merely nominal figures. The introduction to trading on Thursday of the Union Pacific 4% bonds "when issued" resulted in transactions of some $900,000 firsts at 96¾, then up to 97¼ and back to 96¾, the close to-day being at the low figure. The securities of the new National Rys. of Mexico were also prominent, the prior lien 4½% "w. i." selling down from 94 to 93½. The bonds were offered for public subscription at 94, the subscription list closing on Wednesday, June 3. The general mtge. 4s "w. i." sold at 87 last week, but opened this week at 82½, sold up to 85 and close to-day at 84⅝. Copper shares were quiet. Douglas Copper declined rather sharply from 4¾ to 3⅜. Boston Consolidated Copper from 11⅝ moved up to 13, but fell back to 11¾. Butte Coalition advanced from 23⅜ to 24½, sinking finally to 23½. Dominion Copper from 1 15-16 reached 2, but reacted to 1 9-16. Greene Cananea was fairly active and rose from 9⅜ to 10⅛, but declined, closing to-day at 9⅝. Nevada Consolidated Copper sold up from 11⅞ to 12⅛ and back to 11⅞. United Copper common advanced from 6⅞ to 7¾, easing off finally to 7. Nipissing moved from 7½ to 8, but fell subsequently to 7¼. American Tobacco was prominent by reason of a loss of 10 points to 330. It recovered to 333. Standard Oil from 599 advanced to 604, but sank back to 600. Chicago Subway moved up from 20¾ to 21 and back to 19½. Tidewater 6% notes fluctuated between 98½ and 97⅞, closing to-day at 98.

Outside quotations will be found on page 1401.
